

Maternity Practices in Infant Nutrition and Care

2020

Public reporting burden of this collection of information is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Form Approved
OMB #0920-0743
EXP.DATE: 10/31/2021

Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing burden to CDC, Reports Clearance Officer, 1600 Clifton Road, MS D-74, Atlanta, GA 30333, ATTN: PRA (0920-0743). Do not send the completed form to this address.

System use notification:

This warning banner provides privacy and security notices consistent with applicable federal laws, directives, and other federal guidance for accessing this Government system, which includes all devices/storage media attached to this system. This system is provided for Government-authorized use only. Unauthorized or improper use of this system is prohibited and may result in disciplinary action and/or civil and criminal penalties. At any time, and for any lawful Government purpose, the government may monitor, record, and audit your system usage and/or intercept, search and seize any communication or data transiting or stored on this system. Therefore, you have no reasonable expectation of privacy. Any communication or data transiting or stored on this system may be disclosed or used for any lawful Government purpose.

About this survey:

The Centers for Disease Control and Prevention (CDC) invites you to participate in a national survey of newborn feeding practices at hospitals in the United States and Territories that provided maternity care in the past year. The survey is being conducted for CDC by Battelle, a national survey and research organization with extensive experience in the collection of health data. Participation of every hospital providing maternity care makes this survey representative of all maternity care hospitals in the United States and Territories. If your hospital provided maternity care at multiple locations, only report data for the specific physical location listed in your email invitation.

Your participation in the survey is completely voluntary.

Prior to submitting the survey, you will have the opportunity to provide your contact information so that you, the survey recipient, will receive one (1) electronic copy of your hospital's results. Providing your contact information is voluntary. Your contact information will in no way be connected to survey responses or scores.

How long will this survey take to complete?

The survey will take about 30 minutes to complete.

How will this information be used?

The purpose of this survey is to learn about newborn feeding practices at hospitals in the United States and Territories. After data collection is complete, your hospital will receive an individualized report containing a summary of survey results. Data will also be used to generate state-specific reports, national aggregate data tables, and may be used to answer other questions. Data may be released for additional approved purposes and may be shared with state health departments for the development of public health programs. Information from this survey will also assist CDC with program planning.

Are our survey responses kept confidential?

Your responses will be treated in a secure manner and will not be disclosed unless required by law. Your name, hospital name, and any other personal identifiers will not be included in either oral or written presentation of survey results. Responses will only be reported in summary form so individual responses cannot be identified.

Survey Instructions:

Thank you for participating in this survey. You have been identified as the survey recipient for your hospital, which means that only you have access to the unique link to complete and submit the 2020 mPINC survey for your hospital.

We are asking you to fill out the survey with data from the most recent calendar year (January 1, 2019 – December 31, 2019) or your hospital's fiscal year. Unless otherwise specified, questions on the survey are asking about healthy newborns who are discharged to home (i.e., not transferred or admitted to the Special Care Nursery (SCN) or Neonatal Intensive Care Unit (NICU)).

This survey contains 6 core sections and an additional section for hospitals with an SCN or NICU. Each section should be completed by the most knowledgeable and appropriate staff. For example, the Mother-Baby Unit supervisor may be better able to answer one section, while the Lactation Services coordinator or NICU nurse manager may be better able to complete another section. See the table below for a list of people who may be helpful with completing different sections of the survey.

Titles of staff who may be appropriate to fill out sections of the survey include:

Mother-Baby Unit Manager / Supervisor
Labor and Delivery Unit Manager / Supervisor
Lactation Services Coordinator / Lactation Specialist
NICU Nurse Manager
Staff nurse
Database Manager / Coordinator
Maternal and Child Health Physician Leaders

Some questions ask you to enter exact percentages; however, if your hospital does not formally track this information, please provide your best estimate.

Click [here](#) to download a blank copy of the survey. This version should only be used as a worksheet to record responses prior to entering and submitting them online. No paper copies of the survey will be accepted.

You may wish to work on this survey over a period of time, particularly if it will be completed by multiple staff. You can view all sections and pages in the survey and you may go back and forth and edit responses as needed. Your responses will only be saved after you have clicked **Next** at the bottom of the page. If you cannot complete the survey all at one time, click **Save**, and return at a later time. When you

return, you may continue where you left off. Before submitting you will be able to review the questions and your answers. You will be notified before your final submission if you have missed any items.

Survey Tips:

- Click [here](#) to download/print the survey.
- Move between sections of the survey on the **Table of Contents** page by clicking to the right of the section and then clicking **Next**.
- To move back and forth between questions within a section use the **Next** and **Previous** buttons.
- Do not click on your browser's back or forward button while taking the survey.
- Throughout the survey there will be pop-ups providing you with definitions and explanations; access these by hovering your mouse over the underlined text.

What to do if you have questions:

If you have any questions about the survey, please call the Battelle Survey Line toll free at 1 (866) 826-4176. If you have any questions about your rights as a research participant, please contact the Human Protections Administrator of the Battelle Institutional Review Board toll free at 1 (877) 810-9530 ext. 500.

What to do when you have completed the survey:

Once you are finished with the survey, you will have the option to review and print your answers by selecting **Review Survey**. Once you are done reviewing or printing your survey, click **Next**. When you are ready to submit your survey, please select **Submit Survey** on the Table of Contents page and click **Next**. You will be redirected to a screen thanking you for your submission. This action will send the survey to a secure database. Once you have submitted the survey, you will not be able to return to the survey. Surveys that are not submitted will not be eligible to receive a hospital report.

Thank you for your contribution!

SURVEY ITEMS	Hovers, skip patterns, & notes				
<p>SECTION A: Hospital Data This section is about deliveries and general hospital information. Mouse over underlined text for a definition or more information.</p>					
<p>A1 What type of facility is your hospital? (select 1 option only)</p> <ul style="list-style-type: none"> • government (public, non-military) hospital • non-profit, private hospital • for profit, private hospital • military hospital 					
<p>A2 Is your hospital a teaching hospital (e.g., medical residents, nursing students)?</p> <div style="text-align: center;"> <table border="1" data-bbox="682 776 827 862"> <tr> <td>YES</td> <td><input type="checkbox"/></td> </tr> <tr> <td>NO</td> <td><input type="checkbox"/></td> </tr> </table> </div>	YES	<input type="checkbox"/>	NO	<input type="checkbox"/>	
YES	<input type="checkbox"/>				
NO	<input type="checkbox"/>				
<p>A3 Is your hospital currently designated as “Baby-Friendly” by the Baby-Friendly Hospital Initiative (BFHI)?</p> <div style="text-align: center;"> <table border="1" data-bbox="682 1052 827 1138"> <tr> <td>YES</td> <td><input type="checkbox"/></td> </tr> <tr> <td>NO</td> <td><input type="checkbox"/></td> </tr> </table> </div>	YES	<input type="checkbox"/>	NO	<input type="checkbox"/>	
YES	<input type="checkbox"/>				
NO	<input type="checkbox"/>				

A4
 Are any of the following employment benefits offered to hospital staff (as hospital policy)?

	Yes	No
A private place, other than a bathroom, to express or feed breast milk		
On-site access to an electric breast pump		
[Reasonable break time] to express or feed breast milk		
Flexible work hours / scheduling of shifts to express or feed breast milk		
On-site child care		
Paid maternity leave (other than accrued sick or personal leave)		
Paid paternity leave (other than accrued sick or personal leave)		
In-person support from a lactation care provider (e.g., IBCLC, CLC, CBC)		

Reasonable break time: adequate time to travel to the designated lactation area, express milk or breastfeed, clean up, and return to their work area

A5
 Do women who deliver at your hospital have the opportunity to receive prenatal breastfeeding education (in either group or individual settings) provided by your hospital and/or a hospital-affiliated clinic or service?

YES	
NO	
Not Sure	

Complete the following items using data from the past calendar or fiscal year:					
<p>A6 [Total live births]: _____</p>	<p>Total number of live births includes vaginal and Cesarean (C-Section) deliveries. For multiple births, count each newborn as a separate live birth.</p>				
<p>A7 Does your hospital perform deliveries by Cesarean section?</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <tr> <td style="padding: 2px;">YES</td> <td style="width: 40px;"></td> </tr> <tr> <td style="padding: 2px;">NO</td> <td></td> </tr> </table>	YES		NO		<p><i>Those who enter NO will not see any future cesarean-related items (C2)</i></p>
YES					
NO					
<p><i>This question is only asked of those who report "Yes" for item A7. If they select "no" for A7, skip to A8.</i></p>					
<p>A7a [Total live births delivered by Cesarean section]: _____</p>	<p>Total number of live birth Cesarean (C-Section) deliveries that were performed at your hospital, including in the perinatal services area, an operating room, or any other location within the hospital.</p>				
<p>A8 How many healthy newborns at your hospital have their umbilical cord clamped more than one minute after birth?</p> <div style="display: flex; justify-content: space-around; text-align: center;"> <div> <p>FEW (0-19%)</p>  </div> <div> <p>SOME (20-49%)</p>  </div> <div> <p>MANY (50-79%)</p>  </div> <div> <p>MOST (80% +)</p>  </div> </div>					

A9

Throughout their hospital stay, what percent of healthy newborns are fed the following?

	Enter %	Select one
[ONLY breast milk]	_____ %	<input type="checkbox"/> Actual <input type="checkbox"/> Estimate
Breast milk AND any formula, water, or glucose water	_____ %	<input type="checkbox"/> Actual <input type="checkbox"/> Estimate
No breast milk	_____ %	<input type="checkbox"/> Actual <input type="checkbox"/> Estimate
<i>Total sums to 100%</i>	100%	

[ONLY breast milk]:

- no water or formula at any time during hospitalization
- no glucose water or sucrose solution except for during painful procedures

If the respondent enters values that do not total to 100%, the screen will say, "Total should equal 100%. Please fix or click next to continue."

A10

Among breastfed newborns who are supplemented, and not in a special care nursery or neonatal intensive care unit, how many receive donor human milk?

Not offered at our hospital	Few (0-19%)	Some (20-49%)	Many (50-79%)	Most (80% +)

Although most of the survey is about early postpartum care practices for healthy mother-baby dyads, the following 2 items address a special population of newborns.

A11
 How many newborns diagnosed with Neonatal Abstinence Syndrome (NAS) (whose mothers have NOT yet been discharged from the hospital) . . .

Neonatal Abstinence Syndrome (NAS): “A newborn with confirmed or suspected *in utero* exposure to opioids, benzodiazepines, or barbiturates. Please see the [“CSTE Neonatal Abstinence Syndrome Standardized Case Definition.”](#)”

	FEW (0-19%) 	SOME (20-49%) 	MANY (50-79%) 	MOST (80% +) 	Not Applicable
. . .are breastfed or provided with expressed human milk?					
. . .[are rooming-in?]					
. . .practice [skin-to-skin] or [Kangaroo Care]?					
. . . are cared for in your hospital’s, Neonatal Intensive Care Unit (NICU)?					

(No skip pattern)

Rooming-in is a practice where mother and newborn are in close proximity.

Skin-to-skin: The naked newborn is placed prone directly on the mother’s bare chest or abdomen, with or without a cap/blanket.

Kangaroo Care refers to skin-to-skin care where a newborn, often premature, is placed prone directly on the mother’s, father’s, or other’s bare chest or abdomen. The caregiver is then wrapped in a blanket or other cloth to secure the newborn against his or her chest.

A12
 Are the following included in a written policy about management of Neonatal Abstinence Syndrome (NAS) at your hospital?

	Yes	No
Verbal screening for maternal substance use (e.g., asking in the medical history)		
Toxicology screening for maternal substance use (e.g., urine, meconium, hair, cord blood)		
Use of a standardized tool to evaluate NAS symptoms (e.g., Modified Neonatal Abstinence Scoring System, Finnegan Score)		
Promotion of breastfeeding or provision of expressed human milk as a nonpharmacological treatment of NAS		
Promotion of [rooming-in] as a nonpharmacological treatment of NAS		
Promotion of [skin-to-skin contact] or [Kangaroo Care] as a nonpharmacological treatment of NAS		
Pharmacologic treatment of NAS		

(no skip pattern)
 Rooming-in is a practice where mother and newborn are in close proximity.

Kangaroo Care refers to skin-to-skin care where a newborn, often premature, is placed prone directly on the mother's, father's, or other's bare chest or abdomen. The caregiver is then wrapped in a blanket or other cloth to secure the newborn against his or her chest.

Skin-to-skin contact: The naked newborn is placed prone directly on the mother's bare chest or abdomen, with or without a cap/blanket.

SECTION B: SPECIAL CARE NURSERY (SCN) AND / OR NEONATAL INTENSIVE CARE UNIT (NICU)
 This section is about practices in your hospital’s SCN and / or NICU. Mouse over underlined text for a definition or more information. The primary

B1
 What is the highest level of neonatal care provided at your hospital?

The remaining questions in Section B only apply if your hospital has Level II-Level IV neonatal care.

Level I: Well newborn nursery	<input type="checkbox"/>
Level II: Special care nursery	<input type="checkbox"/>
Level III: Neonatal Intensive Care Unit	<input type="checkbox"/>
Level IV: Regional Neonatal Intensive Care Unit	<input type="checkbox"/>

If level 1 is selected, pop up should appear stating, “You’ve selected Level 1. The rest of the questions in this section do not apply. Click OK to return to the Table of Contents. If you selected Level 1 by mistake, please close the window, return to the question and correct your answer.”

This section is only available to those who have a Level 2-4 SCN or NICU from Item B1. If they select Level 1 for B1, skip the remaining items in Section B and go right to Section C.

You’ve selected Level 1. The rest of the questions in this section do not apply. Click **Next** to return to the Table of Contents. If you selected Level 1 by mistake, please click **Previous**, return to the question and correct your answer

B2

How many mothers with newborns in your hospital's SCN or NICU . . .

	FEW (0-19%) 	SOME (20-49%) 	MANY (50-79%) 	MOST (80% +) 
. . .are advised to provide human milk as a component of their newborn's medical care?				
. . .are advised to breastfeed or express their milk 8 or more times every 24 hours to establish and maintain their milk supply?				
. . .begin expressing and collecting their milk within 1 hour of their newborn's birth (among healthy, stable mothers)?				
. . .are shown techniques for cleaning breast pump equipment?				
. . .receive written instructions for cleaning breast pump equipment?				
. . .receive written instructions for safe storage and transport of expressed milk?				

B3

Among SCN/NICU newborns eligible for [\[Kangaroo Care\]](#), how many practice Kangaroo Care?

Not offered at our hospital	Few (0-19%)	Some (20-49%)	Many (50-79%)	Most (80% +)

Kangaroo Care refers to skin-to-skin care where a newborn, often premature, is placed prone directly on the mother's, father's, or other's bare chest or abdomen. The caregiver is then wrapped in a blanket or other cloth to secure the newborn against his or her chest.

B4
 At discharge from **your** SCN/NICU, what percent of infants are receiving the following [enteral feedings]?
 Answer this question based on the enteral feedings received during the 24 hour period prior to discharge, transfer, or death. **Do not consider [parenteral] feedings when answering this item.** For example, for infants discharged on [IV TPN] as well as human milk, the correct response would be “Human Milk Only” since human milk was the only enteral feeding.

	Enter %	Select one
Human milk only	_____ %	<input type="checkbox"/> Actual <input type="checkbox"/> Estimate
Formula only	_____ %	<input type="checkbox"/> Actual <input type="checkbox"/> Estimate
Human milk in combination with either fortifier or formula	_____ %	<input type="checkbox"/> Actual <input type="checkbox"/> Estimate
No enteral feedings (e.g., infants discharged receiving [IV TPN] <u>alone</u> without any enteral feedings)	_____ %	<input type="checkbox"/> Actual <input type="checkbox"/> Estimate
<i>Total sums to 100%</i>	100%	

Enteral: given by any method including breast, bottle, gavage tube, gastrostomy tube, feeding cup, etc.

Parenteral: given intravenously

IV TPN: Intravenous Total Parenteral Nutrition

B5
 How many infants receive donor human milk at any time while cared for in your hospital’s SCN/NICU?

	Not available	Few (0-19%)	Some (20-49%)	Many (50-79%)	Most (80% +)
Infants < 1500 grams					
Infants ≥ 1500 grams					

SECTION C: CARE PRACTICES

This section is about early postpartum care practices for all healthy mother-baby dyads, **REGARDLESS OF FEEDING METHOD**. Mouse over underlined text for a definition or more information.

C1
After vaginal delivery, how many newborns remain in uninterrupted [skin-to-skin contact] with their mothers beginning immediately after birth . . .

	FEW (0-19%)	SOME (20-49%)	MANY (50-79%)	MOST (80% +)
. . .if breastfeeding, until the first breastfeeding is completed?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
. . .if not breastfeeding, for at least one hour?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

skin-to-skin contact: The naked newborn is placed prone directly on the mother's bare chest or abdomen, with or without a cap/blanket.

C2
After Cesarean-delivery, how many newborns remain in uninterrupted [skin-to-skin contact] with their mothers as soon as the mother is responsive and alert after birth?

	FEW (0-19%)	SOME (20-49%)	MANY (50-79%)	MOST (80% +)
. . .if breastfeeding, until the first breastfeeding is completed?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
. . .if not breastfeeding, for at least one hour?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

skin-to-skin contact: The naked newborn is placed prone directly on the mother's bare chest or abdomen, with or without a cap/blanket.

This item is skipped if no cesareans (A7 = No)

<p>C3 How many <u>vaginally-delivered</u> newborns are separated from their mothers [before] starting [rooming-in]?</p> <table border="1" style="margin-left: auto; margin-right: auto; border-collapse: collapse; text-align: center;"> <tr> <td style="padding: 5px;">Few (0-19%)</td> <td style="padding: 5px;">Some (20-49%)</td> <td style="padding: 5px;">Many (50-79%)</td> <td style="padding: 5px;">Most (80% +)</td> <td style="padding: 5px;">Rooming-in is not an option at our hospital</td> </tr> <tr> <td style="height: 20px;"> </td> <td> </td> <td> </td> <td> </td> <td> </td> </tr> </table>	Few (0-19%)	Some (20-49%)	Many (50-79%)	Most (80% +)	Rooming-in is not an option at our hospital						<p>Before: Prior to or during transfer from Labor / Delivery care to Postpartum / Nursery care</p> <p>Rooming-in is a practice where mother and newborn are in close proximity.</p>
Few (0-19%)	Some (20-49%)	Many (50-79%)	Most (80% +)	Rooming-in is not an option at our hospital							
<p>C4 What percent of newborns stay in the room with their mothers for 24 hours per day (not including those separated for medical reasons)?</p> <table border="1" style="margin-left: auto; margin-right: auto; border-collapse: collapse; text-align: center;"> <tr> <td style="padding: 5px;">Enter %</td> <td style="padding: 5px;">Select one</td> </tr> <tr> <td style="padding: 5px;">_____ %</td> <td style="padding: 5px;"> <input type="checkbox"/> Actual <input type="checkbox"/> Estimate </td> </tr> </table>	Enter %	Select one	_____ %	<input type="checkbox"/> Actual <input type="checkbox"/> Estimate							
Enter %	Select one										
_____ %	<input type="checkbox"/> Actual <input type="checkbox"/> Estimate										
<p>C5 How many newborns receive continuous [observed monitoring] throughout the first two hours immediately following birth?</p> <div style="text-align: center; margin-top: 20px;"> <table style="display: inline-table; border: none;"> <tr> <td style="text-align: center; padding: 5px;">FEW (0-19%)</td> <td style="text-align: center; padding: 5px;">SOME (20-49%)</td> <td style="text-align: center; padding: 5px;">MANY (50-79%)</td> <td style="text-align: center; padding: 5px;">MOST (80% +)</td> </tr> <tr> <td style="text-align: center;"></td> <td style="text-align: center;"></td> <td style="text-align: center;"></td> <td style="text-align: center;"></td> </tr> </table> </div>	FEW (0-19%)	SOME (20-49%)	MANY (50-79%)	MOST (80% +)					<p>Observed monitoring includes for positioning, color, and breathing</p>		
FEW (0-19%)	SOME (20-49%)	MANY (50-79%)	MOST (80% +)								
											

C6
 Where are newborns usually located during each of the following situations? *Click one location per situation. For situations addressed in multiple locations in your hospital, choose the most frequently-used location.*

	Mother's Room	Nursery, procedure room, or newborn observation unit
Pediatric exams/rounds		
Hearing screening		
Phototherapy		
Pulse oximetry screening (congenital heart defect screening)		
Routine labs/blood draws/injections		
Newborn bath		

C7
 Does your hospital have a protocol that requires frequent observations of [high-risk] mother-infant dyads by nurses to ensure safety of the infant while they are together?

YES	<input type="checkbox"/>
NO	<input type="checkbox"/>

Examples of high-risk include: low Apgar scores, late preterm, infants who required resuscitation, difficult delivery, or medications given to the mother that may make her drowsy or sedated or affect the newborn.

SECTION D: FEEDING PRACTICES

This section is about infant feeding practices for healthy BREASTFED newborns. Mouse over underlined text for a definition or more information.

D1
 How many healthy breastfed newborns are given pacifiers by staff?
 Do not include the use of pacifiers for painful procedures – e.g., circumcision – in your response.

FEW (0-19%) SOME (20-49%) MANY (50-79%) MOST (80% +)

D2
 How many healthy breastfed newborns are ever fed any breast milk, infant formula, glucose water, or water from a traditional bottle and nipple?

FEW (0-19%) SOME (20-49%) MANY (50-79%) MOST (80% +)

D3
 What percent of healthy, term breastfed newborns are fed any of the following?

	Enter %	Select one
Infant formula	_____ %	<input type="checkbox"/> Actual <input type="checkbox"/> Estimate
Water or glucose water <i>Do <u>not</u> include the use of glucose water for painful procedures – e.g. circumcision – in your response.</i>	_____ %	<input type="checkbox"/> Actual <input type="checkbox"/> Estimate
Any supplemental feedings (infant formula, water, or glucose water) as part of standing orders	_____ %	<input type="checkbox"/> Actual <input type="checkbox"/> Estimate
<i>Not expected to sum to 100%</i>		

D4

What are the 3 most common situations that lead to recommendations or requests for formula for healthy breastfed newborns during the hospital stay? (Free text)

1
2
3

D5

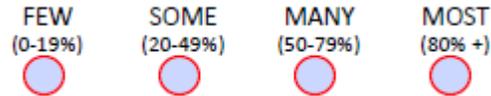

Does your hospital perform routine blood glucose monitoring of full-term healthy newborns who are NOT at risk for hypoglycemia?

YES	<input type="checkbox"/>
NO	<input type="checkbox"/>

SECTION E: EDUCATION AND SUPPORT OF MOTHERS

This section is about information taught to mothers and caregivers about feeding and caring for their newborn and support provided to mothers by staff. Mouse over underlined text for a definition or more information.

E1
To prevent newborn adverse events (e.g., infant falls, accidental suffocation) associated with maternal sleep in the hospital, how many mothers are shown by staff how to place their newborn on a separate, [safe sleep] surface or with another caregiver when the mother becomes sleepy/drowsy?

Safe sleep : infants are placed on their backs on a firm, flat surface (e.g., bassinet) that is free of any items and will prevent infant falls.

E2

How many breastfeeding mothers are taught or shown how to . . .

	FEW (0-19%) 	SOME (20-49%) 	MANY (50-79%) 	MOST (80% +) 
. . .recognize and respond to their newborn's [feeding cues]?				
. . .position and latch their newborn for breastfeeding?				
. . .assess effective breastfeeding by observing their newborn's latch and the presence of audible swallowing?				
. . .assess effective breastfeeding by observing their newborn's elimination patterns (i.e., urine and stool output and stool character)?				
. . .breastfeed [as often and as long] as their newborn wants, [without restrictions]?				
. . .hand express their breast milk?				
. . .understanding the [use and risks of artificial nipples and pacifiers]?				

Feeding cues: Signs the baby is ready to feed, including increased alertness, flexion of the extremities, mouth and tongue movements, cooing sounds, rooting, bringing fist toward the mouth, or sucking on fingers / hand.

As often and as long: Also known as 'cue-based' or 'on-demand' feeding.

Without restrictions: Without setting a schedule for how long baby should be at the breast and/or the amount of time that should pass between feeds.

Use and risks of artificial nipples and pacifiers: hygiene, oral formation, and recognition of feeding cues.

E3
When breastfeeding mothers request infant formula, how often do staff counsel them about the possible consequences to the health of their infant and the success of breastfeeding?

RARELY (0-19%)	SOMETIMES (20-49%)	OFTEN (50-79%)	ALMOST ALWAYS (80% +)

E4
Among mothers whose newborns are fed *any* formula, how many are taught . . .

	FEW (0-19%)	SOME (20-49%)	MANY (50-79%)	MOST (80% +)
. . .appropriate [formula feeding techniques]?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
. . .how to [safely prepare and feed] formula?				

Formula feeding techniques: Feeding in response to hunger cues and holding the baby closely during the feed, allowing for eye-to-eye contact.

Safely prepare and feed: Instructions for mixing, handling, and storing infant formula

E5
Do your discharge criteria for breastfeeding newborns **require** . . .

	YES	NO
. . . direct observation of effective positioning, latch, and milk transfer?		
. . . direct observation of at least one effective feeding at the breast within the 8 hours prior to discharge?		
. . . scheduling of the first follow-up visit with a health care provider?		

E6

What discharge support does your hospital routinely provide to breastfeeding mothers?

	Yes	No
[In-person follow-up visits/appointments for lactation support]		
Personalized phone calls to mothers to ask about breastfeeding (not automated calls)		
[Formalized, coordinated referrals to lactation providers in the community when additional support or follow-up is needed]		
[Breastfeeding information and resources]		

In-person follow-up visits:
 Breastfeeding assessments, support, and weight checks at a post-discharge home, hospital, clinic, or office visit;
 breastfeeding-specific support group in a hospital wellness center

Formalized, coordinated referrals:
 Scheduling an appointment on the mother’s behalf with a lactation provider, WIC peer counselor, or home visiting program; providing a referral for insurance coverage; providing access to lactation support via interactive smartphone app or other online/remote support; writing a prescription for lactation support

Breastfeeding information and resources:
 Educational booklets/pamphlets, informational smartphone app or other online information, list of community resources, breastfeeding assessment sheet/feeding log, warm-lines

E7

Does your hospital collaborate with [WIC] in any of the following ways?

	Yes	No
Our hospital has enabled WIC staff/peer counselors to provide bedside breastfeeding support		
Our hospital staff help schedule WIC appointments		
Our hospital routinely communicates WIC client birth information to WIC		
WIC and our hospital have a [written agreement] to promote breastfeeding through outreach or collaboration		
Other _____		

WIC: The Special Supplemental Nutrition Program for Women, Infants, and Children

Written agreement: Such as a memorandum of understanding (MOU)

SECTION F: STAFFING

This section is about maternity-care staff and providers who work in your maternity-care unit, as well as staff and provider responsibilities and training. Mouse over underlined text for a definition or more information.

F1
How many nurses have met the following requirements?

	FEW (0-19%)	SOME (20-49%)	MANY (50-79%)	MOST (80%+)
Minimum 15 hours of [didactic breastfeeding education]				
Minimum 5 hours [competency-based clinical training]				

didactic breastfeeding education: Lectures, conferences, classroom, and online courses.

competency-based clinical training: Training and mentorship necessary to attain competence in managing and supporting breastfeeding.

F2
How often does your hospital require that nurses complete [continuing education] on breastfeeding support and lactation management?

At least once per year	
Less than once per year	
Not required	

Participation in educational and training activities that improve the care that is provided by maternity staff to mothers and infants.

<p>F3 How often are nurses [formally assessed] for clinical competency in breastfeeding support and lactation management?</p> <table border="1" data-bbox="426 326 949 488"> <tr> <td>At least every 2 years</td> <td></td> </tr> <tr> <td>Less frequently than every 2 years</td> <td></td> </tr> <tr> <td>Not required</td> <td></td> </tr> </table>	At least every 2 years		Less frequently than every 2 years		Not required		<p>Systematic evaluation of staff’s hands-on ability to support breastfeeding mothers, and may include demonstration of competency at an annual skills lab or observation by a lactation specialist.</p>																					
At least every 2 years																												
Less frequently than every 2 years																												
Not required																												
<p>F4 Are nurses required to demonstrate competency in the following skills?</p> <table border="1" data-bbox="94 662 1413 1117"> <thead> <tr> <th></th> <th>Yes</th> <th>No</th> </tr> </thead> <tbody> <tr> <td>Placement and monitoring of the newborn [skin-to-skin] with the mother immediately following birth</td> <td></td> <td></td> </tr> <tr> <td>Assisting with effective newborn positioning and latch for breastfeeding</td> <td></td> <td></td> </tr> <tr> <td>Assessment of milk transfer during breastfeeding</td> <td></td> <td></td> </tr> <tr> <td>Assessment of maternal pain related to breastfeeding</td> <td></td> <td></td> </tr> <tr> <td>Teaching hand expression of breast milk</td> <td></td> <td></td> </tr> <tr> <td>Teaching safe formula preparation and feeding</td> <td></td> <td></td> </tr> <tr> <td>Counseling the parents/caregivers on [safe sleep] practices for their newborn during the hospital stay</td> <td></td> <td></td> </tr> <tr> <td>Counseling the mother on the importance of exclusive breastfeeding for 6 months</td> <td></td> <td></td> </tr> </tbody> </table>		Yes	No	Placement and monitoring of the newborn [skin-to-skin] with the mother immediately following birth			Assisting with effective newborn positioning and latch for breastfeeding			Assessment of milk transfer during breastfeeding			Assessment of maternal pain related to breastfeeding			Teaching hand expression of breast milk			Teaching safe formula preparation and feeding			Counseling the parents/caregivers on [safe sleep] practices for their newborn during the hospital stay			Counseling the mother on the importance of exclusive breastfeeding for 6 months			<p>skin-to-skin: the naked newborn is placed prone directly on the mother’s bare chest or abdomen, with or without a cap/blanket.</p> <p>Safe sleep: infants are placed on their backs on a firm, flat surface (e.g., bassinet) that is free of any items and will prevent infant falls.</p>
	Yes	No																										
Placement and monitoring of the newborn [skin-to-skin] with the mother immediately following birth																												
Assisting with effective newborn positioning and latch for breastfeeding																												
Assessment of milk transfer during breastfeeding																												
Assessment of maternal pain related to breastfeeding																												
Teaching hand expression of breast milk																												
Teaching safe formula preparation and feeding																												
Counseling the parents/caregivers on [safe sleep] practices for their newborn during the hospital stay																												
Counseling the mother on the importance of exclusive breastfeeding for 6 months																												

F5
 How many of the following health care providers who care for breastfeeding mothers and newborns complete a minimum of 3 hours of [breastfeeding management education]?

	Not Applicable (none on staff)	FEW (0-19%)	SOME (20-49%)	MANY (50-79%)	MOST (80%+)
Obstetricians					
Pediatricians					
Family Practice Physicians					
Certified Nurse Midwives					
Nurse Practitioners / Advance Practice Registered Nurses <i>Not including RNs</i>					
Medical Residents					

Educational activities that give health care providers an understanding and knowledge of the benefits of exclusive breastfeeding, physiology of lactation, how their field of practice impacts lactation, and how to find out about safe medications for use during lactation.

F6
 How many full time equivalents (FTEs) are International Board Certified Lactation Consultants (IBCLCs) dedicated exclusively to in-patient lactation care?

__ . __ FTEs (if less than 1 FTE, please record as a decimal.
 For example, 40 hours per week = 1 FTE,
 20 hours per week = .5 FTEs,
 and 10 hours per week = .25 FTEs.)

SECTION G: POLICIES AND PROCEDURES

This section is about hospital policies and procedures. Mouse over underlined text for a definition or more information.

G1

Does your hospital record (keep track of) [exclusive breastfeeding] throughout the entire hospitalization?

YES	<input type="checkbox"/>
NO	<input type="checkbox"/>

Human milk is the only food provided and includes expressed human milk from the mother or from a donor milk bank. Medicines, minerals, and vitamins may also be given, but no formula, water, or other preparations.

G2

Which of the following are included in a written policy (or policies) at your hospital?

		Yes	No
Policy requiring...	documentation of medical justification or informed parental consent for giving [non breast milk feedings] to breastfed newborns		
	formal assessment of staff's clinical competency in breastfeeding support		
	formal, in-service, breastfeeding-related staff training		
	documentation of prenatal breastfeeding education		
	staff to teach mothers breastfeeding techniques, including how to manage common difficulties		
	staff to show mothers how to express breast milk		
	placement of newborns skin-to-skin with their mother at birth or soon thereafter		
	purchase of infant formula and related breast milk substitutes by the hospital at fair market value		
	staff to provide mothers with resources for breastfeeding support after discharge		
	Staff to teach mothers about strategies for [safe sleep] while [rooming-in] at the hospital		
the option for mothers to room-in with their newborns			
Policy prohibiting...	distribution of marketing/education materials, samples, or gift packs by the facility that include or promote breast milk substitutes (infant formula), infant feeding supplies, or infant formula coupons		

Non breast milk feedings: formula, water, glucose water

Safe sleep: infants are placed on their backs on a firm, flat surface that is free of any items and will prevent infant falls.

Rooming-in is a practice where mother and newborn are in close proximity.

G3
 How many health care providers who have any contact with pregnant women, mothers, and/or newborns have been oriented on the hospital’s infant feeding policies?

Our hospital does not have written policies related to infant feeding practices..	Few (0-19%)	Some (20-49%)	Many (50-79%)	Most (80% +)

G4
 How does your hospital acquire each of the following:

Consistent with hospital-wide vendor policy

	HOSPITAL PURCHASES at [fair market price]	HOSPITAL RECEIVES free of charge	UNKNOWN or unsure
Infant formula			
Bottles, nipples, pacifiers			

G5
 Does your hospital give mothers any of the following items free of charge, as gifts or free samples (not including items prescribed as part of medical care)?

	Yes	No
Infant formula (including formula discharge packs)		
Feeding bottles, bottle nipples, nipple shields, or pacifiers		
Coupons, discounts, or educational materials from companies that make or sell infant formulas or feeding products.
