

CHICKENPOX VACCINE SAVES LIVES AND PREVENTS SERIOUS ILLNESS

During the first 25 years,*
the U.S. chickenpox
vaccination program
has **PREVENTED**
an estimated:

-  **91 million**
CASES
-  **238,000**
HOSPITALIZATIONS
-  **2,000**
DEATHS

*The U.S. chickenpox vaccination program started in 1995.

THEN

EACH YEAR

NOW

MORE THAN **4 million**
chickenpox cases

FEWER THAN **150,000**
chickenpox cases

MORE THAN **10,000**
hospitalizations

FEWER THAN **1,400**
hospitalizations

UP TO **150**
deaths

LESS THAN **30**
deaths

Hospitalizations and deaths
have become rare.

**VACCINATE YOUR CHILD
AGAINST CHICKENPOX.**

Talk to your doctor to make
sure your child is up to
date on both doses.
