

Compare data

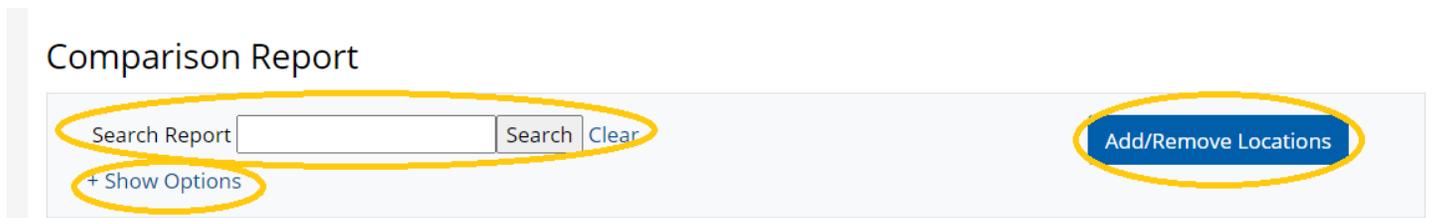

Comparison Report allows you to compare all the available indicators for up to five locations. Start by clicking add/remove locations. You can return to this button to add or remove locations while creating your report.

Select up to five locations. National is selected by default. Deselect national if you do not want national data in your comparison. Click submit.

The search report window allows you to you search for the report for key words such as fruit or child care. Click on show options to show or hide confidence intervals, sample sizes, and missing data rows.

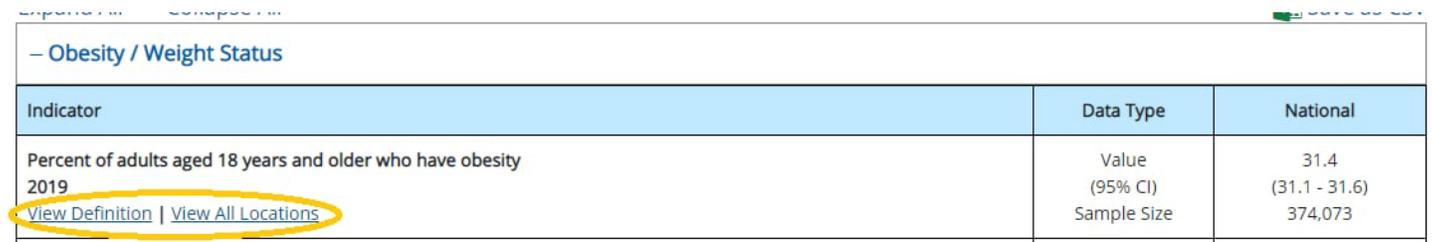

Click the plus sign next to each indicator to see data, or click expand all to see available data for all indicators. Click save as CSV to download the data.

The screenshot shows a dashboard interface. At the top left, there are two buttons: "Expand All" and "Collapse All", both highlighted with a yellow oval. At the top right, there is a "Save as CSV" button with a green icon, also highlighted with a yellow oval. Below these buttons, there are three expandable indicator categories, each with a plus sign and a blue link: "+ Obesity / Weight Status", "+ Breastfeeding - Behavior", and "+ Breastfeeding - Environmental or Policy Supports".

Click view definition to get additional information about how indicators were calculated.

The screenshot shows a table with the following structure:

- Obesity / Weight Status		
Indicator	Data Type	National
Percent of adults aged 18 years and older who have obesity 2019	Value (95% CI) Sample Size	31.4 (31.1 - 31.6) 374,073

Below the table, there are two links: "View Definition" and "View All Locations", both highlighted with a yellow oval.

Data Source and Global Footnotes

The bottom of the page provides more information for the content displayed in the panel. This section displays important notes about the data and also lists the data source.

Create your own filtered dataset

Need to work with data directly? Go to the [Nutrition, Physical Activity, and Obesity: Data, Trends, and Maps Data Portal](#) to create your own filtered dataset, customize visualizations, and download data.

Begin by selecting a dataset to view. In the example below, Nutrition, Physical Activity, and Obesity – Behavioral Risk Factor Surveillance System is selected.

Welcome to the Nutrition, Physical Activity, and Obesity Data Portal
