

# Everyone should have the opportunity to live a healthy life.

Here's an example of how we get there.

Not everyone has what they need to be healthy.

**Equity** ensures everyone has what they need based on their unique situations.

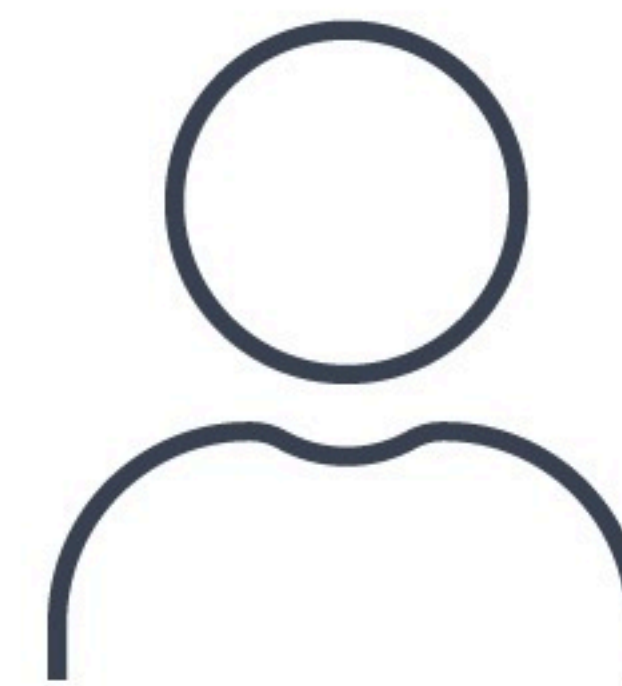

Equity ensures everyone has an **equal** opportunity to pursue their highest health.

lacks fresh produce

lacks safe walking trails

lacks nearby doctors

access to produce truck

access to parks and recreation

telehealth options

———— equal opportunity for health ————

We can create a world where everyone has the opportunity to be as healthy as possible.
