

Susan Court (00:00):

In my work, I use the YRBS data daily, either providing, uh, re- special reports requested by my fellow workers here at the Office of Public Instruction. For example, those in Indian education are requesting a s- a specific report right now. Uh, we work closely with our migrant and delinquent youth program. And we work closely with, um, those programs who are addressing the mental health crisis in, almost our Montana youth. If it's not one of my coworkers at the agency asking for a report, I get daily requests from, uh, county health departments, tribal health councils, uh, task force such as county sheriffs departments who want specific pieces of the YRBS data.
