

MEASLES SPREADS EASILY

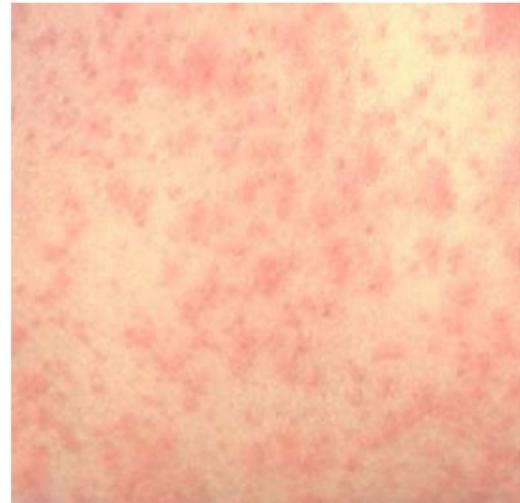

**If You Have Measles Symptoms
Immediately Report Your
Symptoms to Medical Staff**

Measles Symptoms

The most common symptoms of measles are a **fever** and a **rash**.

Other symptoms include:

- High fever (may spike to more than 104° F)
- Cough
- Runny nose
- Red, watery eyes
- Rash that breaks out 3-5 days after symptoms begin

Measles can be dangerous, especially for babies and young children.

Vaccination Is the Best Protection against Measles.

Vaccines are available. Get the measles vaccine when it is offered by medical staff.
