

CHICKENPOX SPREADS EASILY

**If You Have Chickenpox Symptoms
Immediately Report Your
Symptoms to Medical Staff**

Chickenpox Symptoms

The most common symptom of chickenpox is a **rash** that turns into itchy, fluid-filled blisters.

Other symptoms include:

- Fever
- Loss of appetite
- Headache
- Tiredness

Adults, pregnant women, and those with a weak immune system are at risk of severe disease.

Chickenpox Vaccination

Vaccination Is the Best Protection against Chickenpox.

Vaccines are available. Get the chickenpox vaccine when it is offered by medical staff.
