

ALL Children Can Be Exposed To Lead

Lead exposure is not limited to children who are from specific racial and ethnic minority groups, come from households with lower incomes, were born outside of the United States, or live with an adult who works with lead.

“ The company that did our windows took ZERO precautions for lead. I’m thankful that my pediatrician tested my children for lead and knew what to do. ”

Scan this code for more real-world examples of situations where children have been exposed to lead and steps you can take.
