

# Join CDC's Laboratory Leadership Service

Training the next generation  
of laboratory leaders

[www.cdc.gov/LLS](http://www.cdc.gov/LLS)

## LLS fellows

- Collaborate with multidisciplinary teams and serve as disease detectives alongside CDC's Epidemic Intelligence Service
- Conduct cutting-edge applied laboratory research and laboratory safety and risk assessments
- Develop advanced skills in laboratory quality management and safety
- Participate in public health field investigations and communicate findings and recommendations from research and field studies
- Serve in public health laboratories while building leadership skills

**Applications open each year in  
March.**

## Who can apply?

1. Laboratory scientists with a PhD in a laboratory-related discipline
2. United States citizens or permanent residents

***"LLS gave me the freedom to explore public health through the lens of a laboratory scientist. I found myself serving in many exciting places, on different task forces and multidisciplinary teams across CDC. LLS helped launch me forward with confidence I never had before."***

Evonne Woodson, LLS Class of 2019
