

Clinical Laboratory COVID-19 Response Call

Monday, November 30th, 2020 at 3:00 PM ET

- **Welcome**

- Jasmine Chaitram, CDC Division of Laboratory Systems (DLS)

- **CMS Reimbursement Update**

- Sarah Harding and Sarah Shirey-Losso, Centers for Medicare and Medicaid Services (CMS)

- **Individualized Quality Control Plan (IQCP) Q&A**

- Amy Zale, Centers for Medicare and Medicaid Services (CMS)

- **Antigen Tests - Lessons Learned**

- Reynolds (Ren) Salerno, CDC Division of Laboratory Systems (DLS)

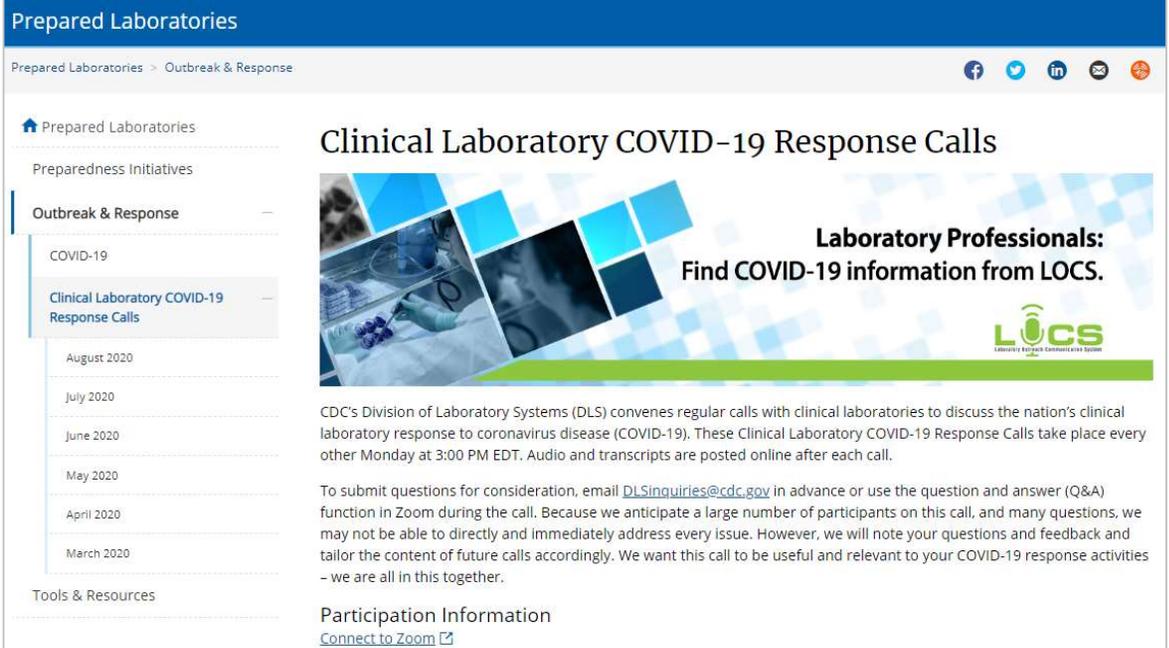

- **FDA Update**

- Tim Stenzel, U.S. Food and Drug Administration (FDA)

CDC Preparedness Portal

<https://www.cdc.gov/csels/dls/preparedlabs/covid-19-clinical-calls.html>

- Find CLCR call information, transcripts, and audio recordings on the Preparedness Portal

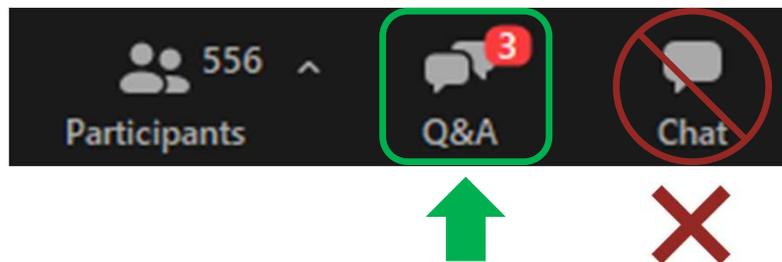

The screenshot shows the 'Prepared Laboratories' section of the CDC Preparedness Portal. The page title is 'Prepared Laboratories' and the breadcrumb is 'Prepared Laboratories > Outbreak & Response'. The left sidebar contains a navigation menu with 'Preparedness Initiatives' and 'Outbreak & Response'. Under 'Outbreak & Response', there is a list of categories: 'COVID-19', 'Clinical Laboratory COVID-19 Response Calls' (highlighted), 'August 2020', 'July 2020', 'June 2020', 'May 2020', 'April 2020', and 'March 2020'. Below the sidebar is a 'Tools & Resources' section. The main content area features a banner for 'Clinical Laboratory COVID-19 Response Calls' with the text 'Laboratory Professionals: Find COVID-19 information from LOCS.' and the LOCS logo. Below the banner, there is a paragraph explaining that CDC's Division of Laboratory Systems (DLS) convenes regular calls with clinical laboratories to discuss the nation's clinical laboratory response to COVID-19. It states that these calls take place every other Monday at 3:00 PM EDT and that audio and transcripts are posted online after each call. A second paragraph provides instructions on how to submit questions for consideration, including the email address DLSinquiries@cdc.gov and the use of the Zoom Q&A function. The page concludes with a 'Participation Information' section and a link to 'Connect to Zoom'.

How to Ask a Question

- **Using the Zoom Webinar System**

- Click the **Q&A** button in the Zoom webinar system
- Type your question in the **Q&A** box and submit it
- **Please do not submit a question using the chat button**

- For media questions, please contact CDC Media Relations at media@cdc.gov
- If you are a patient, please direct any questions to your healthcare provider

Schedule for Clinical Laboratory COVID-19 Response Calls

The next call will be on **Monday, December 14th**
from **3:00 PM to 4:00 PM ET**

2021 Proficiency Testing (PT) for SARS-CoV-2

Waste Management Guidance for SARS-CoV-2 Point-of-Care Testing

https://www.cdc.gov/csels/dls/locs/2020/waste_management_guidance_for_sars-cov-2_point-of-care_testing.html

CDC Centers for Disease Control and Prevention
CDC 24/7: Saving Lives, Protecting People™

LOCS
Laboratory Outreach Communication System

Audience: Clinical Laboratory Professionals

Level: Laboratory Advisory

When disposing of waste generated from [SARS-CoV-2 point-of-care testing](#), laboratories and testing sites should treat all waste from suspected or confirmed COVID-19 patient specimens and kit components as biohazardous waste. Since waste regulations vary from state to state, disposal must comply with all applicable local, regional, national, and international regulations. Personnel should follow guidance according to federal, state, local, tribal, and territorial regulatory requirements.

Facilities should also perform a site-specific and activity-specific [risk assessment](#)   to identify and mitigate risks. Risk assessments and mitigation measures depend on several factors:

- The procedures performed
- Identification of the hazards involved in the process and/or procedures
- The competency level of the personnel who perform the procedures
- The laboratory equipment and facility
- The resources available

Follow [Standard Precautions](#) when handling clinical specimens, all of which may contain potentially infectious materials. Follow routine laboratory practices and procedures for decontamination of work surfaces and management of laboratory waste.

COVID-19 Antigen Tests – Lessons Learned

Reynolds (Ren) Salerno, PhD

Director, Division of Laboratory Systems

Clinical Laboratory COVID-19 Response Call

November 30, 2020

cdc.gov/coronavirus

Antigen Tests - Lessons Learned

Quidel Sofia 2 SARS Antigen FIA & Flu + SARS Antigen FIA

BD Veritor System for Rapid Detection of SARS-CoV-2

How to avoid process errors

- Change gloves between tests to avoid cross-contamination
- Don't use viral transport media
- Don't use expired reagents or damaged test cassettes/devices
- Keep track of and follow proper timing for reading the results when testing multiple specimens at the same time
- Use the test cassette/device within specified time after opening
- Keep the test device in a horizontal position when in use
- Results must be interpreted within specified timeframes

Antigen Tests - Lessons Learned

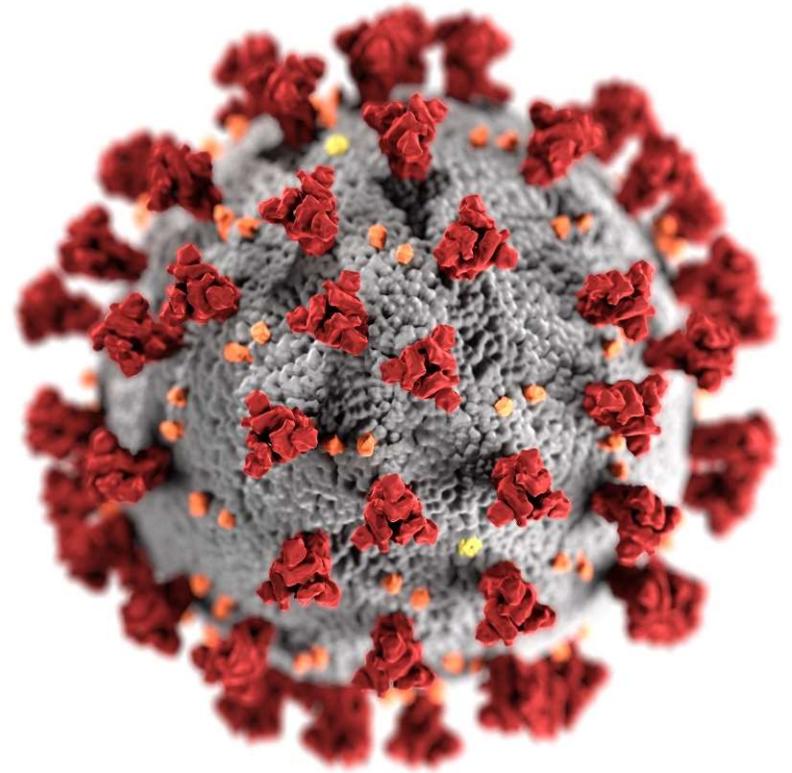

BinaxNOW COVID-19 Ag Card

How to avoid process errors

- Change gloves between tests to avoid cross-contamination
- Test specimens within 1 hour of collection
- Use only the correct volume of extraction reagent, no more, no less
- Use the test kit reagents/cards only when they are at room temperature
- Keep the card in a horizontal position when in use
- Read test results promptly at 15 minutes after the swab is inserted. Do not read results before 15 minutes or after 30 minutes

Next Steps

- Quidel Sofia, BD Veritor, and Abbott BinaxNOW lessons learned will be shared with
 - CDC task forces engaged in antigen test studies
 - External partners such as FDA and manufacturers
- Lessons learned are being converted to infographics
 - To be added on the [Guidance for SARS-CoV-2 Point-of-Care Testing web page](#)
- Additional communication about the infographics will be provided on partner calls and Laboratory Outreach Communication System (LOCS) messages

For more information, contact CDC
