

## Errata

---

### Vol. 65, No. SS-8

In the Surveillance Summary, “Prevalence of Amyotrophic Lateral Sclerosis — United States, 2012–2013,” an error occurred on the cover. No continuing education examination is available for this report.

### Vol. 65, No. 28

In the *MMWR* report, “Projected Zika Virus Importation and Subsequent Ongoing Transmission after Travel to the 2016 Olympic and Paralympic Games — Country-Specific Assessment, July 2016,” an error occurred throughout in reporting the number of countries participating in the 2016 Olympic and Paralympic Games without evidence of past Zika transmission: 18 countries (not 19 as stated) met this criterion. Thus, the fourth sentence of the fourth paragraph should have read, “For **14** of these countries, estimated aviation travel from Rio de Janeiro in August 2016 compared with total aviation travel from all countries with local Zika virus transmission in 2015 was 0.01%–**3.04%** (Table 2).” In addition, in Table 2, Angola should not have been listed, and the title should have read, “Participating countries currently not reporting Zika outbreaks (**n = 18**) that met risk criteria for Zika virus importation and subsequent ongoing transmission attributed to travel to the Olympic and Paralympic Games, ranked by aviation travel volume\* from Rio de Janeiro, Brazil — August 2016.”
