

**Data Brief 453. Variation in Adult Day Services Center Participant Characteristics by Center Ownership: United States, 2020**

**Data table for Figure 1. Percent distribution of race and ethnicity among adult day services center participants, by center ownership: United States, 2020**

Center ownership type	Non-Hispanic White	Non-Hispanic Black	Hispanic	Other race and ethnicity
All participants . . . . .	40	15	22	23
Participants in for-profit centers . . . . .	28	14	27	32
Participants in nonprofit centers . . . . .	54	16	17	13

NOTES: Other race and ethnicity includes participants who are non-Hispanic American Indian or Alaska Native, non-Hispanic Asian, non-Hispanic Native Hawaiian or Other Pacific Islander, non-Hispanic of two or more races, other category not reported in the center's system, or unknown race and ethnicity. See "Data source and methods" in this report for details on the study and methodology. Percentages are based on unrounded numbers; estimates may not sum to totals because of rounding.

**Data Brief 453. Variation in Adult Day Services Center Participant Characteristics by Center Ownership: United States, 2020**

**Data table for Figure 2. Selected sociodemographic characteristics among adult day services center participants, by center ownership: United States, 2020**

Center ownership type	Participants with some or all services paid by Medicaid in last 30 days	Aged 65 and over	Female
		Percent	
All participants . . . . .	62	63	57
Participants in for-profit centers . . . . .	72	69	57
Participants in nonprofit centers . . . . .	50	56	56

NOTES: Changes in wording in the 2020 Medicaid use item may have contributed to a difference in estimates from earlier surveys. See "Data source and methods" in this report for details on the study and methodology.

**Data Brief 453. Variation in Adult Day Services Center Participant Characteristics by Center Ownership: United States, 2020**

**Data table for Figure 3. Selected diagnosed medical conditions in adult day services center participants, by center ownership: United States, 2020**

Center ownership type	Diabetes	Alzheimer disease or other dementias	Depression	Intellectual or developmental disability	Heart disease	High blood pressure or hypertension
	Percent					
All participants . . . . .	30	25	25	33	22	43
Participants in for-profit centers . . . . .	38	21	31	23	25	53
Participants in nonprofit centers . . . . .	20	29	19	44	18	32

NOTES: Changes in wording in the 2020 heart disease item may have contributed to a difference in estimates from earlier surveys. Cases with missing data are excluded; missing data for all conditions ranged from 11.2% for Alzheimer disease or other dementias to 14.1% for heart disease. See "Data source and methods" in this report for details on the study and methodology.
