

**Data Brief 454. Variation in Residential Care Community Resident Characteristics, by Size of Community: United States, 2020**

**Data table for Figure 1. Age distribution of residential care residents, by community size: United States, 2020**

Community size	Under 65	65–74	75–84	85 and over
	Percent			
All sizes . . . . .	6	13	31	50
4–25 beds . . . . .	13	15	28	45
26–50 beds . . . . .	6	14	28	52
More than 50 beds . . . .	4	13	32	51

NOTES: Percentages are based on unrounded numbers; estimates may not add up to totals because of rounding.

**Data Brief 454. Variation in Residential Care Community Resident Characteristics, by Size of Community: United States, 2020**

**Data table for Figure 2. Selected characteristics of residential care residents, by community size: United States, 2020**

Community size	Female	Non-Hispanic White	Medicaid beneficiary
	Percent		
All sizes . . . . .	69	88	18
4–25 beds . . . . .	68	81	24
26–50 beds . . . . .	70	91	23
More than 50 beds . . . . .	70	89	15

NOTES: For the Medicaid variable, cases with missing data are excluded; see "Data source and methods" for details.

**Data Brief 454. Variation in Residential Care Community Resident Characteristics, by Size of Community: United States, 2020**

**Data table for Figure 3. Selected diagnosed medical conditions among residential care residents, by community size: United States, 2020**

Community size	Alzheimer disease or other dementias	Heart disease	Depression	Diabetes
	Percent			
All sizes . . . . .	42	31	29	17
4–25 beds . . . . .	51	30	33	18
26–50 beds . . . . .	47	36	32	18
More than 50 beds . . . .	39	30	27	16

NOTES: Cases with missing data are excluded. The four diagnosed medical conditions each had 11.3% missing; see "Data source and methods" for details. Changes in question wording may have contributed to a difference in the estimates from earlier National Post-acute and Long-term Care Study surveys.
