SECTION I – INTRODUCTION

A. Introduction

This manual provides instructions to mortality medical coders and nosologists for coding multiple causes of death from death certificates filed in the states. These mortality coding instructions are used by both the State vital statistics programs and the National Center for Health Statistics (NCHS), which is the Federal agency responsible for the compilation of U.S. statistics on causes of death. NCHS is part of the Centers for Disease Control and Prevention.

In coding causes of death, NCHS adheres to the World Health Organization Nomenclature Regulations specified in the most recent revision of the International Statistical Classification of Diseases and Related Health Problems (ICD). NCHS also uses the ICD international rules for selecting the underlying cause of death for primary mortality tabulation in accordance with the international rules.

Beginning with deaths occurring in 1999, the Tenth Revision of the ICD (ICD-10) is being used for coding and classifying causes of death. This revision of the Classification is published by the World Health Organization (WHO) and consists of three volumes.

Volume 1 contains a list of three-character categories, the tabular list of inclusions, and the four-character subcategories. The supplementary Z code appears in Volume 1 but is not used for classifying mortality data. Optional fifth characters are provided for certain categories and an optional independent four-character coding system is provided to classify histological varieties of neoplasm, prefixed by the letter M (for morphology) and followed by a fifth character indicating behavior. These optional codes, except those for place of occurrence of external cause and activity code related to external cause codes, are not used in NCHS. The place code and activity code are used as supplementary codes rather than as additional characters. Volume 2 includes the international rules and notes for use in classifying and tabulating underlying cause-of-death data. Volume 3 is an alphabetical index containing a comprehensive list of terms for use in coding. Copies of these volumes may be purchased in hard-copy or on diskette from the following address:

WHO Publications Center 49 Sheridan Avenue Albany, New York 12210 Tel. 518-436-9686

NCHS has prepared an updated version of Volume 1 and Volume 3 to be used for both underlying and multiple cause-of-death coding. The major purpose of the updated version is to provide a single published source of code assignments including terms not indexed in Volume 3 of ICD-10. NCHS has included all nonindexed terms encountered in the coding of deaths during 1979-1994, under the Ninth Revision of the International Classification of Diseases (ICD-9). With the availability of the updated Volumes 1 and 3, NCHS will discontinue publishing the Part 2e manual, Nonindexed Terms, Standard Abbreviations, and State Geographic Codes Used in Mortality Data Classification, which was first published in 1983. Due to copyright considerations, the updated Volumes 1 and 3 may not be reproduced for distribution outside of NCHS and State vital statistics agencies.

The basic purpose of this manual is to document concepts and instructions for coding multiple causes of death, which were developed by NCHS for use with the Eighth Revision of the ICD adapted for use in the United States (ICDA-8), and which were updated to ICD-9, and subsequently to ICD-10. The coding concepts are generally consistent with provisions of ICD-10. Thus, this manual should be used with ICD-10, Volumes 1 and 3 as updated by NCHS. The list of abbreviations used in medical terminology (Appendix A), the list of synonymous sites (Appendix B), and the list of geographic codes (Appendix C) are included in this publication.

NCHS does not use the "dagger and asterisk" system which WHO introduced in ICD-9 and continued in ICD-10. For some medical conditions, this system provides two codes, which distinguish between the etiology or underlying disease process and the manifestation or complication for selected conditions. The etiology or underlying disease codes is denoted with a dagger (†) and the manifestation or complication code by an asterisk (*) following the code. For example, Coxsackie myocarditis has a code

(B33.2†) marked with a dagger in the chapter for infectious and parasitic diseases and a different code (I41.1*) marked with an asterisk in the chapter for diseases of the circulatory system. Similarly, diabetic nephropathy has a dagger code (E14.2 †) in the chapter relating to endocrine disease and an asterisk code (N08.3*) in the genitourinary system chapter. Under ICD-9, limited use was made of the asterisk codes in classifying mortality data for data years 1979-1982. Effective July 1982 the use of asterisk codes in mortality coding was discontinued and will not be used in the 10th revision for mortality coding. NCHS assigns only the dagger code to such conditions.

The multiple cause-of-death codes are used as inputs to the ACME program (Automated Classification of Medical Entities) developed by NCHS to automatically select the underlying cause of death, and the TRANSAX program (Translation of Axes) used to produce multiple cause-of-death statistics, beginning with deaths occurring in 1968. As inputs, the computer programs require codes for each condition reported on the death certificate, usually in the order in which the information is recorded.

The outputs of the ACME program are the traditional underlying cause-of-death codes selected according to the selection and modification rules of the Classification, the same cause that would be selected using manual underlying cause-of-death coding instructions specified in Instruction Manual Part 2a. Thus, a single cause is associated with each decedent.

Using the same input codes, the TRANSAX program generates two sets of outputs: "entity-axis" codes that reflect the placement of each condition on the certificate for each decedent; and "record-axis" codes that, where appropriate, link two or more diagnostic conditions to form composite codes that are classifiable to a single code, according to the provisions of the Classification. Record axis codes are preferred for multiple cause tabulation to better convey the intent of the certifier, and to eliminate redundant cause-of-death information (see Instruction Manual Part 2f).

Major revisions from previous manuals

- 1. Corrections have been made to clarify instructions, spelling, and format throughout the manual. These changes are not specifically noted.
- 2. Appendix A, added abbreviation AVNRT atrioventricular nodal re-entrant tachycardia.
- 3. Appendix A, added abbreviation AVRT atrioventricular nodal re-entrant tachycardia.
- 4. Appendix A, added abbreviation FTD fronto-temporal dementia.
- 5. Appendix A, added abbreviation IIAC idiopathic infantile arterial calcification.
- 6. Appendix A, added abbreviation IRIS immune reconstitution inflammatory syndrome.

Other manuals relating to coding causes of death are:

Part 2a, NCHS Instructions for Classifying the Underlying Cause of Death, 2014

Part 2c, ICD-10 ACME Decision Tables for Classifying the Underlying Causes of Death, 2014

Part 2k, Instructions for the Automated Classification of the Initiating and Multiple Causes of Fetal Death, 2014

Part 2s, SuperMICAR Data Entry Instruction, 2012

B. Medical Certification

The U. S. Standard Certificate of Death provides spaces for the certifying physician, coroner, or medical examiner to record pertinent information concerning the diseases, morbid conditions, and injuries which either resulted in or contributed to death as well as the circumstances of the accident or violence which produced any such injuries. The medical certification portion of the death certificate includes items 32-44. It is designed to obtain the opinion of the certifier as to the relationship and relative

significance of the causes, which he reports.

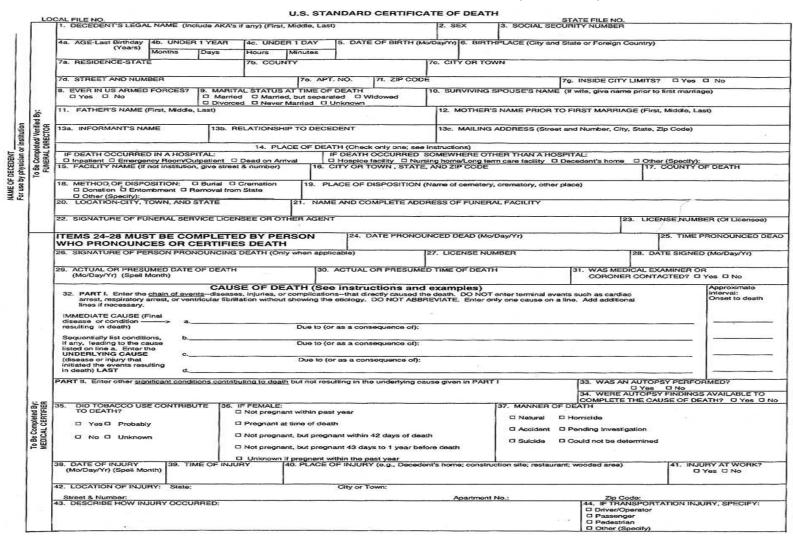

A cause of death is the morbid condition or disease process, abnormality, injury, or poisoning leading directly or indirectly to death. The underlying cause of death is the disease or injury, which initiated the train of morbid events leading directly or indirectly to death or the circumstances of the accident or violence, which produced the fatal injury. A death often results from the combined effect of two or more conditions. These conditions may be completely unrelated, arising independently of each other or they may be causally related to each other; that is, one cause may lead to another which in turn leads to a third cause, etc.

The order in which the certifier is requested to arrange the causes of death upon the certification form facilitates the selection of the **underlying cause** when two or more causes are reported. He is requested to report in Part I on line (a) the immediate cause of death and the antecedent conditions on lines (b), (c), and (d) which gave rise to the cause reported on

I (a), **the underlying cause** being <u>stated</u> lowest in the sequence of events. However, no entry is necessary on I(b), I(c), or I(d) if the immediate cause of death, stated on I(a) describes completely the sequence of events. If the decedent had more than four causally related conditions relating to death, the certifier is requested to add lines (e), (f), etc., so all conditions related to the immediate cause of death are entered in Part I with only one condition to a line.

Any other significant condition which unfavorably influenced the course of the morbid process and thus contributed to the fatal outcome but not resulting in the underlying cause given in Part I is entered in Part II.

US STANDARD CERTIFICATE OF DEATH (Rev. 11/2003)

In the following example, there are three causes reported. On line I(c) the underlying cause is entered-congenital heart disease. Congenital heart disease gave rise to congestive heart failure (line I(b)) which in turn led to a myocardial infarction (line I(a)) -- the immediate cause of death.

- I (a) Myocardial infarction
 - (b) Congestive heart failure
 - (c) Congenital heart disease
 - (d)

II

As demonstrated by the following example, the certifier may not always list one cause per line:

I (a) Myocardial infarction and pulmonary embolism with congestive heart failure

II

(b) (c)

(d)

Likewise, the causes r diabetes.	may not be reported in an acceptable sequence. In the following example, cancer is reported as due to
I	(a) Cancer (b) Diabetes (c) (d)
preclude the assumpt certification for statist coding purposes, the	f the majority of cancers are still unknown so the causal relationship tables stored in the NCHS computers ion that diabetes caused the cancer. Cancer is selected as the underlying cause of death from this cical purposes. However, the selection of the underlying cause of death is not relevant for this manual. For order and position of each cause of death reported on the death certificate must be interpreted accurately ware can then determine the correct underlying cause of death.
have three or more causes. For other reco	of three causes listed per certificate. Approximately 20 percent have only one cause of death and 45 percent causes. Frequently, a cause will be reported on I(a) in Part I and a cause in Part II with no other reported ords, several causes may all be reported on a single line of the certificate or they may be entered on several the only cause(s) reported may be in Part II. Representative examples follow.
I	(a) Pneumonia(b)(c)(d)
II	Diabetes
I	(a) Cancer (b) (c) (d)
II	(3)
I	(a) (b) (c) (d)
II	Diabetes
I	(a) (b) Acute myocardial infarction (c)
II I	Renal disease

I (a) AMI, renal disease, pulmonary embolism

SECTION II – GENERAL INSTRUCTIONS

A. Introduction

Code all information reported in the medical certification section of the death certificate and any other information pertaining to the medical certification, when reported elsewhere on the certificate. In Volumes 1 and 3 of ICD-10, the fourth-character subcategories of three-character categories are preceded by a decimal point. For coding purposes, omit the decimal point.

Enter codes in the same order and location as the entries they represent appear on the death certificate, proceeding from the entry reported uppermost in Part II downward and from the left to right. If the uppermost line in Part II is an obvious continuation of a line below, enter the codes accordingly.

For instructions on placement of codes when the certifier states or implies a "due to" relationship between conditions not reported in sequential order, refer to Section II, Part C, <u>Format</u>. For instructions on placement of nature of injury (N-code) and external cause codes (E-codes), refer to Section V, Part B, <u>Placement of Nature of Injury and External Cause Codes</u>.

When an identical code applies to more than one condition reported on the same line, enter the code for the first-mentioned of these conditions only. When conditions classifiable to the same code are reported on different lines of the certificate, enter the code for each of the reported conditions. (This does not apply to external cause of morbidity and mortality (E-codes)).

1. Excessive Codes

- a. When a single line in Part I or Part II requires more than eight codes, delete the excessive codes (any over eight) for the line using the following criteria in the order listed:
 - (1) Delete ill-defined conditions (I469, I959, I99, J960, J969, P285, R00-R94, R96, R98) except when this code is the first code on a line, proceeding right to left.
 - (2) Delete nature of injury codes (S000-T983) except for the first one entered on a line, proceeding right to left.
 - (3) If, after applying the preceding criteria, any single line still has more than eight codes, delete beginning with the last code on the line until only 8 remain.
 - I (a) I460
 - (b) I219 I739
 - (c)
 - (d)
 - II &E109 I739 T811 &Y835 R18 R33 N19 C475 N359 I490 I493 J181

After deleting excessive codes:

- I (a) I460
 - (b) I219 I739
 - (c)
 - (d)

II &E109 I739 T811 &Y835 N19 C475 N359 I490

Delete (1) R33, (2) R18, (3) J181 and (4) I493

- b. When a single record requires more than 14 codes, delete the excessive codes using the following criteria in the order listed:
 - (1) Delete ill-defined conditions (I461, I469, I959, I99, J960, J969, P285, R00 R94, R96, R98) except when this code is the first code on a line, beginning with the last code in Part II, proceeding right to left then upward right to left on each line (Part II, line e, line d, line c, line b, line a).
 - (2) Delete nature of injury codes (S000-T983) except for the first one entered on a line beginning with the last code in Part II, proceeding right to left then upward right to left on each line (Part II, line e, line d, line c, line b, line a).
 - (3) Delete repetitive codes except when it is the first code on a line beginning with the last code in Part II, proceeding right to left then upward right to left on each line (Part II, line e, line d, line c, line b, line a).
 - (4) If after applying the preceding criteria, any record still has more than 14 codes, delete beginning with the last code in Part II, proceeding upward right to left on each line (Part II, line e, line d, line c, line b, line a).

2. Created Codes

To facilitate automated data processing, the following ICD-10 codes have been amended for use in coding and processing the multiple cause data. Special five character subcategories are for use in coding and processing the multiple cause data; however, they will not appear in official tabulations.

A169 Respiratory tuberculosis, unspecified

Excludes: Any term indexed to A169 not qualified as respiratory or pulmonary (A1690)

*A1690 Tuberculosis NOS

Includes: Any term indexed to A169 not qualified as respiratory or pulmonary

E039 Hypothyroidism, unspecified

Excludes: Any term indexed to E039 qualified as advanced, grave, severe, or with a similar

qualifier (E0390)

*E0390 Advanced hypothyroidism

Grave hypothyroidism Severe hypothyroidism

Includes: Any term indexed to E039 qualified as advanced, grave, severe, or with a

similar qualifier

G122 Motor neuron disease

Excludes: Any term indexed to G122 qualified as advanced, grave, severe, or with a similar

qualifier (G1220)

*G1220 Advanced motor neuron disease

Grave motor neuron disease Severe motor neuron disease

Includes: Any term indexed to G122 qualified as advanced, grave, severe, or with a

similar qualifier

G20 Parkinson's disease

Excludes: Any term indexed to G20 qualified as advanced, grave, severe, or with a similar

qualifier (G2000)

*G2000 Advanced Parkinson's disease

Grave Parkinson's disease Severe Parkinson's disease

Includes: Any term indexed to G20 qualified as advanced, grave, severe, or with a

similar qualifier

I219 Acute myocardial infarction, unspecified

Excludes: Embolism of any site classified to I219

*I2190 Embolism cardiac, heart, myocardium or a synonymous site

Includes: Embolism of any site classified to I219

I420 Dilated cardiomyopathy

Excludes: Any term indexed to I420 qualified as familial, idiopathic, or primary (I4200)

*I4200 Familial dilated cardiomyopathy

Idiopathic dilated cardiomyopathy Primary dilated cardiomyopathy

Includes: Any term indexed to I420 qualified as familial, idiopathic, or primary

I421 Obstructive hypertrophic cardiomyopathy

Excludes: Any term indexed to I421 qualified as familial, idiopathic, or primary (I4210)

*I4210 Familial obstructive hypertrophic cardiomyopathy

Idiopathic obstructive hypertrophic cardiomyopathy Primary obstructive hypertrophic cardiomyopathy

Includes: Any term indexed to I421 qualified as familial, idiopathic, or primary

I422 Other hypertrophic cardiomyopathy

Excludes: Any term indexed to I422 qualified as familial, idiopathic, or primary (I4220)

*I4220 Familial other hypertrophic cardiomyopathy

Idiopathic other hypertrophic cardiomyopathy Primary other hypertrophic cardiomyopathy

Includes: Any term indexed to I422 qualified as familial, idiopathic, or primary

I425 Other restrictive cardiomyopathy

Excludes: Any term indexed to I425 qualified as familial, idiopathic, or primary (I4250)

*I4250 Familial other restrictive cardiomyopathy

Idiopathic other restrictive cardiomyopathy Primary other restrictive cardiomyopathy

Includes: Any term indexed to I425 qualified as familial, idiopathic, or primary

I428 Other cardiomyopathies

Excludes: Any term indexed to I428 qualified as familial, idiopathic, or primary (I4280)

*I4280 Familial other cardiomyopathies

Idiopathic other cardiomyopathies Primary other cardiomyopathies

Includes: Any term indexed to I428 qualified as familial, idiopathic, or primary

I429 Cardiomyopathy, unspecified

Excludes: Any term indexed to I429 qualified as familial, idiopathic, or primary (I4290)

*I4290 Familial cardiomyopathy

Idiopathic cardiomyopathy Primary cardiomyopathy

Includes: Any term indexed to I429 qualified as familial, idiopathic, or primary

I500 Congestive heart failure

Excludes: Any term indexed to I500 qualified as advanced, grave, severe, or with a similar

qualifier (I5000)

*I5000 Advanced congestive heart failure

Grave congestive heart failure Severe congestive heart failure

Includes: Any term indexed to I500 qualified as advanced, grave, severe, or with a

similar qualifier

I514 Myocarditis, unspecified

Excludes: Any term indexed to I514

qualified as arteriosclerotic (I5140)

*I5140 Arteriosclerotic myocarditis

Includes: Any term indexed to I514 qualified as arteriosclerotic

Myocardial degeneration

I515

Excludes: Any term indexed to I515 qualified as arteriosclerotic (I5150) Arteriosclerotic myocardial degeneration *I5150 **Includes:** Any term indexed to I515 qualified as arteriosclerotic **I600** Subarachnoid hemorrhage from carotid siphon and bifurcation **Excludes:** Ruptured carotid aneurysm (into brain) (I6000) Ruptured carotid aneurysm (into brain) *16000 **I606** Subarachnoid hemorrhage from other intracranial arteries **Excludes:** Ruptured aneurysm (congenital) circle of Willis (I6060) *I6060 Ruptured aneurysm (congenital) circle of Willis **I607** Subarachnoid hemorrhage from intracranial artery, unspecified **Excludes:** Ruptured berry aneurysm (congenital) brain (I6070) Ruptured miliary aneurysm (I6070) *I6070 Ruptured berry aneurysm (congenital) brain Ruptured miliary aneurysm 1608 Other subarachnoid hemorrhage **Excludes:** Ruptured aneurysm brain meninges (I6080) Ruptured arteriovenous aneurysm (congenital) brain (I6080) Ruptured (congenital) arteriovenous aneurysm cavernous sinus (I6080) Ruptured aneurysm brain meninges *16080 Ruptured arteriovenous aneurysm (congenital) brain Ruptured (congenital) arteriovenous aneurysm cavernous sinus **I609** Subarachnoid hemorrhage, unspecified **Excludes:** Ruptured arteriosclerotic cerebral aneurysm (I6090) Ruptured (congenital) cerebral aneurysm NOS (I6090) Ruptured mycotic aneurysm brain (I6090) Ruptured arteriosclerotic cerebral aneurysm *I6090 Ruptured (congenital) cerebral aneurysm NOS Ruptured mycotic aneurysm brain I610 Intracerebral hemorrhage in hemisphere, subcortical **Excludes:** Any term indexed to I610 qualified as bilateral, multiple, or similar term (I6100) Bilateral, multiple [or similar term] intracerebral hemorrhages in hemisphere, *I6100 subcortical **Includes:** Any term indexed to I610 qualified as bilateral, multiple, or similar term I611 Intracerebral hemorrhage in hemisphere, cortical **Excludes:** Any term indexed to I611 qualified as bilateral, multiple, or similar term (I6110) *I6110 Bilateral, multiple [or similar term] intracerebral hemorrhages in hemisphere, cortical **Includes:** Any term indexed to I611 qualified as bilateral, multiple, or similar term

*I6120

Intracerebral hemorrhage in hemisphere, unspecified

I612

	Includes: Any term indexed to I612 qualified as bilateral, multiple, or similar term
I613	al hemorrhage in brain stem Any term indexed to I613 qualified as bilateral, multiple, or similar term (I6130) Bilateral, multiple [or similar term] intracerebral hemorrhages in brain stem Includes: Any term indexed to I613 qualified as bilateral, multiple, or similar term
I614	al hemorrhage in cerebellum Any term indexed to I614 qualified as bilateral, multiple, or similar term (I6140) Bilateral, multiple [or similar term] intracerebral hemorrhages in cerebellum Includes: Any term indexed to I614 qualified as bilateral, multiple, or similar term
I615	al hemorrhage, intraventricular Any term indexed to I615 qualified as bilateral, multiple, or similar term (I6150) Bilateral, multiple [or similar term] intracerebral hemorrhages, intraventricular Includes: Any term indexed to I615 qualified as bilateral, multiple, or similar term
I618	Cerebral hemorrhage Any term indexed to I618 qualified as bilateral, multiple, or similar term (I6180) Bilateral, multiple [or similar term] other intracerebral hemorrhages Includes: Any term indexed to I618 qualified as bilateral, multiple, or similar term
I619	al hemorrhage, unspecified Any term indexed to I619 qualified as bilateral, multiple, or similar term (I6190) Bilateral, multiple [or similar term] intracerebral hemorrhages, unspecified Includes: Any term indexed to I619 qualified bilateral, multiple, or similar term
I630	Farction due to thrombosis of precerebral arteries Any term indexed to I630 qualified as bilateral, multiple, or similar term (I6300) Cerebral infarction due to bilateral, multiple [or similar term] thrombi of precerebral arteries Includes: Any term indexed to I630 qualified as bilateral, multiple, or similar term
I631	Farction due to embolism of precerebral arteries Any term indexed to I631 qualified as bilateral, multiple, or similar term (I6310) Cerebral infarction due to bilateral, multiple [or similar term] emboli of precerebral arteries Includes: Any term indexed to I631 qualified as bilateral, multiple, or similar term
I632	Farction due to unspecified occlusion or stenosis of precerebral arteries Any term indexed to I632 qualified as bilateral, multiple, or similar term (I6320) Cerebral infarction due to bilateral, multiple [or similar term]unspecified occlusions or stenosis of precerebral arteries

Excludes: Any term indexed to I612 qualified as bilateral, multiple, or similar term (I6120)

Bilateral, multiple [or similar term] intracerebral hemorrhages, unspecified

I633 Cerebral infarction due to thrombosis of cerebral arteries **Excludes:** Any term indexed to I633 qualified as bilateral, multiple, or similar term (I6330) *I6330 Cerebral infarction due to bilateral, multiple [or similar term] thrombi of cerebral arteries **Includes:** Any term indexed to I633 qualified as bilateral, multiple, or similar term **I634** Cerebral infarction due to embolism of cerebral arteries **Excludes:** Any term indexed to I634 qualified as bilateral, multiple, or similar term (I6340) *16340 Cerebral infarction due to bilateral, multiple [or similar term] emboli of cerebral arteries **Includes:** Any term indexed to I634 qualified as bilateral, multiple, or similar term **I635** Cerebral infarction due to unspecified occlusion or stenosis of cerebral arteries **Excludes:** Any term indexed to I635 qualified as bilateral, multiple, or similar term(I6350) *I6350 Cerebral infarction due to bilateral, multiple [or similar term]unspecified occlusions or stenosis of cerebral arteries **Includes:** Any term indexed to I635 qualified as bilateral, multiple, or similar term **I636** Cerebral infarction due to cerebral venous thrombosis, nonpyogenic **Excludes:** Any term indexed to I636 qualified as bilateral, multiple, or similar term (I6360) *I6360 Cerebral infarction due to bilateral, multiple [or similar term] cerebral venous thrombi, nonpyogenic **Includes:** Any term indexed to I636 qualified as bilateral, multiple, or similar term **I638** Other cerebral infarction **Excludes:** Any term indexed to I638 qualified as bilateral, multiple, or similar term (I6380) Bilateral, multiple [or similar term] other cerebral infarctions *I6380 **Includes:** Any term indexed to I638 qualified bilateral, multiple, or similar term **I639** Cerebral infarction, unspecified **Excludes:** Any term indexed to I639 qualified as bilateral, multiple, or similar term (I6390) Bilateral, multiple [or similar term] cerebral infarctions, unspecified *I6390 **Includes:** Any term indexed to I639 qualified as bilateral, multiple, or similar term I64 Stroke, not specified as hemorrhage or infarction **Excludes:** Any term indexed to I64 qualified as bilateral, multiple, or similar term(I6400) Bilateral, multiple [or similar term] strokes, not specified as hemorrhage or infarction *I6400 **Includes:** Any term indexed to I64 qualified as bilateral, multiple, or similar term I691 Sequelae of intracerebral hemorrhage **Excludes:** Any term indexed to I691 qualified as bilateral, multiple, or similar term (16910)*I6910 Seguela of bilateral, multiple [or similar term] intracerebral hemorrhages **Includes:** Any term indexed to I691 qualified as bilateral, multiple, or similar term

Includes: Any term indexed to I632 qualified as bilateral, multiple, or similar term

I693 Sequelae of cerebral infarction **Excludes:** Any term indexed to I693 qualified as bilateral, multiple, or similar term (I6930) *I6930 Seguela of bilateral, multiple [or similar term] cerebral infarctions **Includes:** Any term indexed to I693 qualified as bilateral, multiple, or similar term **I694** Sequelae of stroke, not specified as hemorrhage or infarction **Excludes:** Any term indexed to I694 qualified as bilateral, multiple, or similar term (I6940) Seguela of bilateral, multiple [or similar term] strokes, not specified as hemorrhage or *I6940 infarction **Includes:** Any term indexed to I694 qualified as bilateral, multiple, or similar term J101 Influenza with other respiratory manifestations, influenza virus identified **Excludes:** Influenza, flu, grippe (viral), influenza virus identified (without specified manifestations) (J1010) Influenza, flu, grippe (viral), influenza virus identified (without specified *J1010 manifestations) J111 Influenza with other respiratory manifestations, virus not identified **Excludes:** Influenza, flu, grippe (viral), influenza virus not identified (without specified manifestations) (J1110) Influenza, flu, grippe (viral), influenza virus not identified (without specified *J1110 manifestations) J849 Interstitial pulmonary disease, unspecified **Excludes:** Interstitial pneumonia, not elsewhere classified (J8490) *J8490 Interstitial pneumonia, not elsewhere classified J984 Other disorders of lung **Excludes:** Lung disease (acute) (chronic) NOS (J9840) *J9840 Lung disease (acute) (chronic) NOS K319 Disease of stomach and duodenum, unspecified **Excludes:** Disease, stomach NOS (K3190) Lesion, stomach NOS (K3190) *K3190 Disease, stomach NOS Lesion, stomach NOS K550 Acute vascular disorders of intestine **Excludes:** Any term indexed to K550 qualified as embolic (K5500) Acute embolic vascular disorders of intestine *K5500 **Includes:** Any term indexed to K550 qualified as embolic K631 Perforation of intestine (nontraumatic) **Excludes:** Intestinal penetration, unspecified part (K6310) Intestinal perforation, unspecified part (K6310) Intestinal rupture, unspecified part (K6310)

*K6310 Intestinal penetration, unspecified part Intestinal perforation, unspecified part Intestinal rupture, unspecified part K720 Acute and subacute hepatic failure **Excludes:** Acute hepatic failure (K7200) Acute hepatic failure *K7200 Chronic hepatic failure K721 **Excludes:** Chronic hepatic failure (K7210) Chronic hepatic failure *K7210 K729 Hepatic failure, unspecified **Excludes:** Hepatic failure (K7290) *K7290 Hepatic failure M199 Arthrosis, unspecified Excludes: Any term indexed to M199 qualified as advanced, grave, severe, or with a similar qualifier (M1990) *M1990 Advanced arthrosis Grave arthrosis Severe arthrosis Includes: Any term indexed to M199 qualified as advanced, grave, severe, or with a similar qualifier Q278 Other specified congenital malformations of peripheral vascular system **Excludes:** Congenital aneurysm (peripheral) (Q2780) Congenital aneurysm (peripheral) *O2780 Arteriovenous malformation of cerebral vessels

Q282

Excludes: Congenital arteriovenous cerebral aneurysm (nonruptured) (Q2820)

*Q2820 Congenital arteriovenous cerebral aneurysm (nonruptured)

Other malformations of cerebral vessels Q283

Excludes: Congenital cerebral aneurysm (nonruptured) (Q2830)

*O2830 Congenital cerebral aneurysm (nonruptured)

R58 Hemorrhage, not elsewhere classified

Excludes: Hemorrhage of unspecified site (R5800)

*R5800 Hemorrhage of unspecified site

R99 Other ill-defined and unspecified causes of mortality

Excludes: Cause unknown (R97)

*R97 Cause unknown

3."Dagger and asterisk" codes

ICD-10 provides for the classification of certain diagnostic statements according to two different axes-etiology or underlying

disease process and manifestation or complication. Thus, there are two codes for diagnostic statements subject to dual classification. The etiology or underlying disease codes are marked with a dagger (†) and the manifestations or complication codes are marked with an asterisk (*) following the code. The terms classified to codes with an asterisk are to be coded to the dagger code for the term only. These codes will not appear in official tabulations on multiple cause data.

I (a) Salmonella meningitis

A022

Use only the dagger code for multiple cause-of-death coding.

Do not use the following ICD-10 codes for multiple cause coding:

D63*	H03*	I68*	M36*
D77*	H06*	I79*	M49*
E35*	H13*	I98*	M63*
E90*	H19*	J17*	M68*
F00*	H22*	J91*	M73*
F02*	H28*	J99*	M82*
G01*	H32*	K23*	M90*
G02*	H36*	K67*	N08*
G05*	H42*	K77*	N16*
G07*	H45*	K87*	N22*
G13*	H48*	K93*	N29*
G22*	H58*	L14*	N33*
G26*	H62*	L45*	N37*
G32*	H67*	L54*	N51*
G46*	H75*	L62*	N74*
G53*	H82*	L86*	P75*
G55*	H94*	L99*	
G59*	I32*	M01*	
G63*	I39*	M03*	
G73*	I41*	M07*	
G94*	I43*	M09*	
G99*	I52*	M14*	

B. General coding concept

The coding of cause-of-death information for the ACME system consists of the assignment of the most appropriate ICD-10 code(s) for each diagnostic entity that is reported on the death certificate. In order to arrive at the appropriate code for a diagnostic entity, code each entity separately. Do not apply provisions in ICD-10 for linking two or more diagnostic terms to form a composite diagnosis classifiable to a single ICD-10 code.

I (a) Cholecystitis with cholelithiasis

K819 K802

<u>Code</u> each entity separately even though the Index has provided for a combination code for cholecystitis with cholelithiasis.

I (a) Malignant neoplasm of colon with rectum

C189 C20

Code malignant neoplasm of colon and malignant neoplasm of rectum separately even

though the Index has provided for a combination code for malignant neoplasm of colon with rectum.

<u>Place</u> I (a) Injury of intra-abdominal and intrathoracic organs

S369 S279

9 II &X599

<u>Code</u> injury of each site separately even though the Index has provided for a combination code for intra-abdominal and intrathoracic injury.

1. Definitions and types of diagnostic entities

A diagnostic entity is a single term or a composite term, comprised of one word or of two or more adjoining words, that is used to describe a disease, nature of injury, or other morbid condition. In this manual diagnostic entity and diagnostic term are used interchangeably.

A diagnostic entity may indicate the existence of a condition classifiable to a single ICD-10 category or it may contain elements of information that are classifiable to different ICD-10 categories. For coding purposes, it is necessary to distinguish between two different kinds of diagnostic entities – a "one-term entity," and a "multiple one-term entity."

a. One-term entity

(1) A one-term entity is a diagnostic entity that is classifiable to a single ICD-10.

1	(a) Pneumonia	J189
	(b) Arteriosclerosis	I709
	(c) Emphysema	J439

These terms are codable one-term entities.

I (a) Allergic vasculitis D690

This condition is indexed as one-term entity under "vasculitis."

I (a) Cerebral arteriosclerosis I672

This condition is indexed as one-term entity.

(2) A diagnostic term that contains one of the following adjectival modifiers indicates the condition modified has undergone certain changes and is considered to be a one-term entity.

adenomatous hypoxemic
anoxic hypoxic
congestive inflammatory
cystic ischemic
embolic necrotic

erosive obstructed, obstructive

gangrenous ruptured

hemorrhagic

(These instructions apply to these adjectival modifiers **only**).

For code assignment, apply the following criteria in the order stated.

- (a) If the modifier and lead term are indexed together, code as indexed.
 - I (a) Embolic nephritis

N058

Code Nephritis, embolic. The adjectival modifier "embolic" is indexed under nephritis.

- (b) If the modifier is not indexed under the lead term, but "specified" is, use the code for specified (usually .8).
 - I (a) Obstructive cystitis

N308

<u>Code</u> Cystitis, specified NEC. The adjectival modifier "obstructive" is not indexed under cystitis.

- (c) If neither the modifier nor "specified" is indexed under the lead term, refer to Volume 1 under the NOS code for the lead term and look for a specified 4th character subcategory.
 - I (a) Hemorrhagic cardiomyopathy

I428

<u>Code</u> hemorrhagic cardiomyopathy to I428, Other cardiomyopathies. "Hemorrhagic" is not indexed under cardiomyopathy, neither is Cardiomyopathy, specified NEC indexed. The Classification does provide a code, I428, for "Other cardiomyopathies" in Volume 1.

- (d) If neither (a), (b), or (c) apply, code the lead term without the modifier.
 - I (a) Adenomatous bronchiectasis

J47

"Adenomatous" is not an index term qualifying bronchiectasis. Code bronchiectasis only, since there is no provision in the Classification for coding "other bronchiectasis."

b. Multiple one-term entity

A multiple one-term entity is a diagnostic entity consisting of two or more contiguous words on a line for which the Classification does not provide a single code for the entity but does provide a single code for each of the components of the diagnostic entity. Consider as a multiple one-term entity if each of the components can be considered as separate one-term entities, i.e., they can stand alone as separate diagnosis. Code each component of the multiple one-term entity as indexed and on the same line where reported.

I (a) Myocardial infarction

I219

(b) Uremic acidosis

N19 E872

(c) Chronic nephritis

N039

[&]quot;Uremic acidosis" is not indexed as a one-term entity. Code "uremia" and "acidosis" as separate one-term entities, each

of which can stand alone as a diagnosis.

I (a) Uremia N19
(b) Diabetic heart disease E149 I519

(c)

"Diabetic heart disease" is not indexed as a one-term entity. Code "diabetic" and "heart disease" as separate one-term entities, each of which can stand alone as a diagnosis.

I (a) Senile cardiovascular disease, MI

R54 I516 I219

(b)

(c)

"Senile cardiovascular disease." is not indexed as a one-term entity. Code "senile" and "cardiovascular disease" as separate one-term entities each of which can stand alone as a diagnosis.

Exception:

When any condition classifiable to I20-I25, except I250, or I60-I69 is qualified as "hypertensive," code to I20-I25 or I60-I69 only.

I (a) Hypertensive arteriosclerotic cerebrovascular disease

I672

I (a) Hypertensive myocardial ischemia

I259

- (1) Code an adjective reported at the end of a diagnostic entity as if it preceded the entity. This applies whether reported in Part I or II.
 - I (a) Arteriosclerosis, hypertensive

I10 I709

- (b)
- (c)

The complete term is not indexed as a one-term entity. "Hypertensive" is an adjectival modifier; code as if it preceded the arteriosclerosis.

I (a) MI I219

(b)

(c)

II Coronary occlusion, arteriosclerotic

I709 I219

"Coronary occlusion, arteriosclerotic" is not indexed as a one-term entity. Arteriosclerotic is an adjectival modifier; code as if it preceded the coronary occlusion.

- (2) (a) When a multiple one-term entity indicates a condition involving different sites or systems for which the Classification provides different codes, code the condition of each site or system separately.
 - I (a) Cardiac, respiratory, hepatic, renal failure

I509 J969 K7290 N19

<u>Code</u> each site separately since the Classification provides a different code for each site.

(b) W	here there is provision	for coding the co	ndition of one	or more but	not all of the si	tes or
Sy	stems, code the condit	ons of the site(s)	or system(s)	that are inde	xed. Disregard	the site(s)
or	system(s) for which th	e Classification do	oes not provid	le a code.		

I (a) Cerebro-hepatic failure

K7290

"Hepatic failure" is the only term indexed. Do not enter a code for "cerebral failure."

(c) When a site is not indexed and the Classification provides an NOS code for the condition, assign this code.

I (a) Ischemia colon, liver and spleen

K559 I99

(b)

"Ischemia colon" is the only term indexed. Since liver and spleen are not indexed and the condition has an NOS code, assign the NOS code for these terms.

c. Adjectival modifier reported with multiple conditions

(1) If an adjectival modifier is reported with more than one condition, modify only the first condition.

I (a) Arteriosclerotic cardiomyopathy

and nephritis I251 N059 I (a) Diabetic coma and gangrene E140 R02

(2) If an adjectival modifier is reported with one condition and more than one site is reported, modify all sites.

I (a) Diabetic gangrene of hands and feet

E145

I (a) Arteriosclerotic cardiovascular and

I250 I672

cerebrovascular disease

(3) When an adjectival modifier precedes two different diseases that are reported with a connecting term, modify only the first disease.

I (a) Arteriosclerotic cardiovascular disease and cerebrovascular disease

I250 I679

2. Parenthetical entries

a. When one medical entity is reported, followed by another complete medical entity enclosed in parenthesis, disregard the parenthesis and enter as separate terms.

I (a) Heart dropsy

1500

(b) Renal failure (CVRD)

N19 I139

Code each medical entity as indexed.

<u>Place</u>

I (a) Pneumonia (aspiration)

J189 T179 &W80

Code each medical entity as indexed.

b. When the adjectival form of words or qualifiers are reported in parenthesis, use these adjectives to modify the term preceding it.

Ι	(a) Collapse of heart	I509
	(b) Heart disease (rheumatic)	I099
	(c)	

Use the adjective to modify the term and code rheumatic heart disease.

c. If the term in parenthesis is not a complete term and is not a modifier, consider as part of the preceding term.

I (a) Metastatic carcinoma (ovarian) C56

Consider the site as part of the preceding term and code metastatic ovarian carcinoma.

I (a) Drug dependence (heroin) (cocaine) F112 F142

Consider the specified drugs as part of the preceding term and code heroin and cocaine dependence.

3. Special diagnostic entities

Alzheimer's, dementia

a. When a condition is qualified as "HIV-related," "HIV," disregard the indexing of these conditions and code as separate one-term entities.

Ι	(a) HIV-related encephalopathy	B24	G934
Ι	(a) AIDS-related tuberculosis	B24	A1690
Ι	(a) AIDS encephalopathy	B24	G934
Ι	(a) HIV encephalopathy	B24	G934

b. Alzheimer's dementia: Consider the following terms as one term entities and code as indicated:

b. Alzheimer's dementia: Consider the following terms as one term entities and				
When reported as:	<u>Code</u>			
Endstage Alzheimer's, senile dementia				
Senile dementia, Alzheimer's	C201			
Senile dementia, Alzheimer's type	G301			
Senile dementia of the Alzheimer's				
	'			
When reported as:				

Alzheimer's; dementia

Alzheimer's disease (dementia)

Dementia Alzheimer's

Dementia, Alzheimer's

Dementia-Alzheimer's

Dementia, Alzheimer's type

Dementia of Alzheimer's

Dementia-Alzheimer's type

Dementia; Alzheimer's type

Dementia, probable Alzheimer's (disease)

Dementia syndrome, Alzheimer's type

Endstage dementia (Alzheimer's)

G309

4. Plural form of disease

Do not use the plural form of a disease or the plural form of a site to indicate multiple.

I (a) Cardiac arrest

I469

(b) Congenital defects

Code I(b) Q899 (congenital defect); do not code as multiple (Q897).

5. Implied "disease"

When an adjective or noun form of a site is entered as a separate diagnosis, i.e., it is not part of an entry immediately preceding or following it, assume the word "disease" after the site and code accordingly.

I (a) Congestive heart failure

I500

(b) Myocardial

I515

<u>Code</u> I(b) to I515, myocardial disease. The site "myocardial" is not indexed with congestive heart failure.

I (a) Coronary

I251

(b) Hypertension

I10

Code I(a) to I251, coronary disease. Coronary hypertension is not indexed.

I (a) Renal

I129

(b) Hypertension

<u>Code</u> I(a) to I129, renal hypertension. Consider the site, renal, to be a part of the condition that immediately follows it on line b, since Hypertension, renal is indexed.

6. Non-traumatic conditions

Consider conditions that are usually but not always traumatic in origin to be qualified as non-traumatic when reported due to or on the same line with disease.

I (a) Fat embolism I749 (b) Pathological fracture M844

Code line (a) as non-traumatic since reported due to disease.

7. Drug dependent, drug dependency

When drug dependent or drug dependency modifies a condition, consider as a non-codable modifier unless indexed.

I (a) Perforated gastric ulcer K255 (b) Steroid-dependent COPD J449

<u>Code</u> I(a) as indexed. Code I(b) to J449, chronic obstructive pulmonary disease NOS. Consider the "steroid dependent" to be a non-codable modifier.

C. Format

1. "Due to" relationships involving more than four causally related conditions

Four lines, (a), (b), (c), **and (d)** have been provided in Part I of the death certificate for reporting conditions involved in the sequence of events leading directly to death and for indicating the causal relationship of the reported conditions. In cases where the decedent had more than four causally related conditions leading to death, certifiers have been instructed to report all of these conditions and to add line, (e), to indicate the relationship of the conditions. In the ACME system, provision has been made for identifying conditions reported on the additional "due to" line in Part I. Code conditions reported on line (e) or in equivalent "due to" positions as having been reported on separate lines. (Refer to Section II, Part I, 2, Reject code 9 - More than four "due to" statements, for instructions for coding certificates with conditions reported on more than **five** "due to" lines.)

Ι	(a) Shock due to pneumonia	R579
	(b) Rupture of esophageal varices	J189
	(c) Cirrhosis of liver due to alcoholism	I859
	(d)	K746
	(e)	F102

2. Connecting terms

a. "Due to" written in or implied

When the certifier has stated that one condition was due to another or has between conditions in Part I, enter the codes as though the conditions had been reported, one due to the other, on separate lines. Code the conditions on each of the remaining lines in Part I, if there are any, as though they had been reported on the succeeding line. (Refer to Section II, Part I, 2, Reject code 9 - More than four "due to" statements, for instructions for coding certificates with more than four "due to" statements).

Ι	(a) Myocardial infarction as a result of	I219
	(b) ASHD	I251

Interpret "as a result of" as "due to" and code the ASHD on I(b).

I (a) Stomach hemorrhage from gastric ulcer K922 (b) Cholecystitis K259

(c) K819

Because of the implied "due to," code the gastric ulcer on I(b) and the cholecystitis on I(c).

(1) The following connecting terms should be interpreted as meaning "due to" or "as a consequence of" when the entity immediately preceding and following these terms is a disease condition, nature of injury, or an external cause.

after	incident to	received in
arising in or during	incurred after	resulting from
as (a) complication of	incurred during	resulting when
as a result of	incurred in	secondary to (2°)
because of	incurred when	subsequent to
caused by	induced by	sustained as
complication(s) of	occurred after	sustained by
during	occurred during	sustained during
etiology	occurred in	sustained in
following	occurred when	sustained when
for	occurred while	sustained while
from	origin	
in	received from	

Ι	(a) Myocardial infarction	I219
	(b) Nephritis due to arteriosclerosis	N059
	(c) Hypertension from toxic goiter	I709
	(d)	I10
	(e)	E050

Both "due to" and "from" indicate the conditions following these terms are moved to the next due to position.

I (a) Neurological devastation due to stroke

(b) I64

Neurological devastation is a disease condition. Move stroke down to the next due to position.

I (a) Death from heart attack

I219

(b)

Death is not a disease condition, nature of injury, or external cause. Do not reformat heart attack.

I (a) Complication from diabetes

E149

Complication is not a disease condition, nature of injury, or external cause. Do not reformat diabetes.

(2) When one of the previous terms is the first entry in Part II, indicating that the following entry is a continuation of Part I, code in Part I in next due to position.

Ι	(a) Respiratory failure	J969
	(b) Cardiac arrest	I469
	(c) Coronary occlusion	I219
	(d)	I251

II due to ASHD

led to

Since Part II is indicated to be a continuation of Part I, code the ASHD on I(d).

(3) Certain connecting terms imply that the condition following the connecting term was "due to" the condition preceding it. In such cases, enter the code for the condition following the connecting term on the line above that for the condition that preceded it.

Interpret the following connecting terms as meaning that the condition following the term was due to the condition that preceded it:

as a cause of manifested by cause of producing caused resulted in causing resulting in followed by underlying induced with resultant leading to with resulting

I (a) Myocardial infarction followed by (b) Cardiac arrest I219

(c)

<u>Code</u> the cardiac arrest on I(a) since "followed by" indicates it was due to the myocardial infarction.

Ι	(a) Respiratory arrest	R092	
	(b) Pulmonary edema	J81	
	(c) Bronchitis with resulting pneumonia	J189	I469
	(d) and cardiac arrest	J40	

<u>Code</u> the pneumonia and cardiac arrest on I(c) since "with resulting" indicates they were due to the bronchitis.

b. Not indicating a "due to" relationship

When conditions are separated by "and" or by another connecting term that does not imply a "due to" relationship, enter the codes for these conditions on the same line in the order that the conditions are reported on the certificate.

The following terms imply that conditions are meant to remain on the same line

and consistent with accompanied by with ($\frac{1}{c}$)

also precipitated by associated with predisposing (to) complicated by superimposed on complicating

I (a) Acute bronchitis superimposed on J209 J439 (b) Emphysema (c) Tobacco abuse (smokes 3 packs a day) F171 F179

Interpret "superimposed on" as "and." Enter the code for the condition on I(b) as the second code on I(a). Do not enter a code on I(b).

 I (a) MI
 I219

 (b) ASHD
 I251

 (c) Hypertension
 I10

 (d) Diabetes
 E149
 E142

II also diabetic nephropathy

Consider "also" as a connecting word that does not imply "due to" and code Part II as a continuation of I(d).

3. Condition entered above line I(a)

When a condition is reported on the certificate above line I(a), enter the code for this condition on I(a). Code the condition(s) entered on line I(a) on line I(b); then code the conditions entered on each of the remaining line(s) in Part I as though they had been reported on the succeeding lines.

Myocardial infarction

Ι	(a) Pulmonary embolism	I219
	(b) Congestive heart failure	I269
	(c) Congenital heart disease	I500
	(d)	Q249

<u>Code</u> the condition entered above I(a) on I(a), then code the condition entered on I(a) on I(b); then code the conditions entered on each of the remaining line(s) in Part I as though they had been reported on the succeeding lines.

4. Condition reported between lines in Part I

I (a) Cerebral hemorrhage

When a condition is reported between I(a) and I(b) or I(b) and I(c) or I(c) and I(d), without a connecting term, enter the code for this condition on the following "due to" line. Code the conditions entered on each of the remaining line(s) in Part I as though they had been reported on the succeeding line.

Ι	(a) Pneumonia	J189
	Bronchitis	
	(b) Emphysema	J40
	(c) Cancer of lung	J439
	(d)	C349

<u>Code</u> the condition reported between lines I(a) and I(b) in the next "due to" position, and move the codes for conditions reported on lines I(b) and I(c) downward.

1619 164

When a condition is reported between I(a) and I(b) or I(b) and I(c) or I(c) and I(d) with a connecting word, consider as a continuation of the line above and code accordingly unless there is a definite indication that it is a continuation of the line below.

c CVA	1013 101
(b) Cerebral arteriosclerosis	I672
Code the condition entered between I(a) and I(b) a	s a continuation of I(a).
I (a) Cerebral hemorrhage	I619

(b) Cerebral arteriosclerosis I672 I64

Since the certifier indicated by an arrow that the condition entered between I(a) and I(b) was a continuation of I(b), code the CVA on I(b).

Ι	(a) Cerebrovascular accident	I64
	due to cerebral hemorrhage	
	(b) Cerebral arteriosclerosis	I619
	(c)	I672

Consider the condition entered between I(a) and I(b) as a continuation of I(a) and code accordingly.

5. Condition reported as due to I(a), I(b), or I(c)

When a condition(s) in Part I is reported with a specific statement interpreted or stated as "due to" another on lines I(a), I(b), I(c), or I(d), rearrange the codes according to the certifier's statement. **Do not apply** this instruction to such statements reported in Part II.

Ι	(a) Myocardial failure		I249
	(b) Pneumonia		I509
	(c) Myocardial ischemia		J189
	due to (a)	3wks	

Accept the certifier's statement that the condition reported on I(c) is "due to" the condition on I(a). Move the codes for conditions reported on I(a) and I(b) downward. (Apply the duration on I(c) to the myocardial ischemia).

Ι	(a) Heart failure	I509	N19
	(b) Pneumonia	J189	
	(c) Uremia due to (b)		

Take into account the certifier's statement on I(c) and code the condition reported on I(c) as the second entry on I(a).

Ι	(a) Carcinomatosis	I469
	(b) Cancer of lung	C80
	(c) Cardiorespiratory arrest due	C349
	to above	

Take into account the certifier's statement and code the cardiorespiratory arrest on I(a), then move the codes for the remaining conditions downward.

Ι	(a) Coronary thrombosis	I219
	(b) Chronic nephritis	N039
	(c) Arteriosclerosis	I709
II	Uremia caused by above	N19

Disregard the certifier's statement, "caused by above," reported in Part II.

6. Conditions reported in Part II

Enter the codes for entries in Part II in the order the entries are reported, proceeding from the entry reported uppermost in Part II downward and from left to right, if there is more than one entry on the same line. If the conditions are numbered, code in numerical order.

Ι	(a) MI	I219		
	(b) ASHD	I251		
	(c)			
II	Pneumonia			
	Heart murmur, arteriosclerosis	J189	R011	I709

7. Deletion of "due to" on the death certificate

T (-) Diabatas

When the certifier has indicated that conditions in Part I were not causally related by marking through items I(a), I(b), I(c), and /or I(d), or through the printed "due to, or as a consequence of" which appears below items I(a) - I(c) on the death certificate, proceed as follows:

a. If the deletion(s) indicates that none of the conditions in Part I were causally related, consider as though all of the conditions had been reported on the uppermost used line. In determining the order of the codes, proceed from I(a) downward and from left to right if more than one condition is reported on a line.

I (a) Heart disease (b) Malignant hypertension (c) Chronic nephritis	I!	519	I10	N039	
II Cancer of kidney	C	64			
I (a) Cardiac failure (b) Arteriosclerotic heart dise (c) Emphysema and bronchit (d)	ase	509	I251	J439	J40

b. If only item I(b), I(c), or I(d) or the printed "due to, or as a consequence of" which appears below lines I(a), I(b), or I(c) is marked through, consider the condition(s) reported on the crossed out line as though reported as the last entry (or entries) on the preceding line.

E140 N40

1	(a) Diabetes (b) (c) BPH	E149	N 4 0
Ι	(a) Cardiac arrest	I469	K746

	(b) Cirrhosis of liver (c) Alcoholism	F102	
I	(a) Congestive failure (b) ASHD (c)	I500	I251
II	Pneumonia	J189	
I	(a) Heart block (b) Degenerative myocarditis (c) Cerebral hemorrhage	I459 I514	I619
II	Bronchopneumonia	J180	

c. If only one part of the printed "due to, or as a consequence of" which appears below I(a), I(b), and I(c) is marked through, consider the condition(s) reported on that line as though reported as the last entry (or entries) on the preceding line.

Ι	(a) Cardiorespiratory failure	R092	
	Due to, or as a consequence of		
	(b) Infarction of brain	I639	I259
	Due to, or as a consequence of		
	(c) Ischemic heart disease		
	Due to, or as a consequence of		

Code ischemic heart disease as though reported as second entry on I(b).

8. Deletion of "Part II" on death certificate

When the certifier has marked through the printed Part II, code the condition(s) reported in Part II as the last entry on the lowest used line in Part I.

Ι	(a) Apoplectic coma	I64
	(b) Ruptured aneurysm, brain	I6090
	(c) Arteriosclerosis	1709
	(d) ESRD	N185 I10

H and hypertension

Since Part II is indicated to be a continuation of I(d), code hypertension as last entry on I(d).

I (a) Myocarditis I514 I219 I500 I250 E14 (b) M.I.

(c) CHF

(d) Cardiovascular arteriosclerosis

H Diabetes

 I (a) M.I.
 I219

 (b) Uremia
 N19

 (c) Arteriosclerosis
 I709

 (d) Hypertension
 I10
 N059

H Nephritis

9. Numbering of causes reported in Part I

- a. When the certifier has numbered all causes or lines in Part I, that is 1, 2, 3, etc., code these entries as if reported on the same line. This instruction applies whether or not the numbering extends into Part II, and it also applies whether or not the "due to" below lines I(a) and/or I(b) and/or I(c) are marked through.
 - I (a) 1. Coronary thrombosis

I219 I250 I10

1709 N28

- (b) 2. ASCVD
- (c) 3 . Hypertension and arteriosclerosis
- (d) 4. Renal disease
- II 5. Influenza

Code all the entries on I(a).

b. When part of the causes in Part I are numbered, make the interpretation for coding such entries on an individual basis.

I (a) 1. Bronchopneumonia

J180 C169

(b) 2. Cancer of stomach

(c) Chronic nephritis

N039

Enter the codes for the conditions numbered "1" and "2" on I(a) in the order indicated by the certifier. Do not enter a code on I(b); however, enter the code for the condition on I(c) on that line.

I (a) Bronchopneumonia

J180

(b) 1. Cancer of stomach

C169 N039

(c) 2. Chronic nephritis

Enter the codes for conditions numbered "1" and "2" on I(b) in the order indicated by the certifier. Do not enter a code on I(c).

I (a) Congestive heart failure

I500

(b) Influenza

J1110

(c) 1. Pulmonary emphysema

J439 J449 C349

(d) 2. COPD

II 3. Cancer of lung

Enter the codes for the conditions numbered 1, 2, and 3 on I(c) in the order indicated by the certifier. Do not enter a code on I(d) or in Part II.

c. When the causes in Part I are numbered, and an entry is stated or implied as "due to" another, enter the code(s) connected by the stated or implied "due to" in the next "due to" position, followed by the codes for the **remaining numbered** causes.

I (a) 1. Bronchopneumonia due to

J180

(b) influenza

J1110 J841 J40

(c) 2. Pulmonary fibrosis 3. Bronchitis

Enter the code for the condition followed by the stated "due to" on I(b), followed by codes for the conditions numbered "2" and "3." Do not enter a code on I(c).

I (a) 1. Pneumonia

J189

(b) MI

I219 I251

(c) 2. ASHD

Code the condition numbered "2" as a continuation of I(b). Leave I(c) blank.

10. Punctuation marks

a. Disregard punctuation marks such as a period, comma, question mark, or exclamation mark when placed at the end of a line in Part I. Do not apply this instruction to a hyphen (-), which indicates a word is incomplete.

I (a) Myocardial infarct?

I219

(b) Meningitis, mastoiditis

G039 H709

(c) Otitis media

H669

Disregard the punctuation marks and code the conditions reported on

I (a), I(b), and I(c) as indicated by the certifier.

I (a) Chronic rheumatic heart disease,

1099 1958

(b) chronic hypotension

(c) Cancer

C80

Regard the conditions reported on I(b) as a continuation of I(a). Do not enter a code on I(b).

b. When conditions are separated by a slash (/), code each condition as indexed.

(a) Cardiac arrest/respiratory arrest/pneumonia

I469 R092 J189

(b) ASHD

I251

Disregard the slash and code conditions as indexed.

c. When a dash (-) or slash (/) is used to separate sites reported with one condition and the combination of the sites is indexed to a single ICD-10 code, disregard the punctuation and code as indexed. This does not apply to commas.

I (a) Cardiac-respiratory arrest

I469

Code as one code assignment since the 2 sites are indexed as Arrest, cardiorespiratory.

I (a) Cardiac, respiratory arrest

I469 R092

Code each site separately since this instruction does not apply to commas.

I (a) Cardiac respiratory arrest

I469

<u>Code</u> as one code assignment since the 2 sites are indexed as Arrest, cardiorespiratory.

d. When conditions are indexed together yet separted by a comma, code conditions separately. If the term following the comma is an adjective, refer to Section II, Part B, 1, b (1).

I (a) Cancer, cachexia

C80 R64

(b) Anxiety, depression

F419 F329

Code each term separately even though indexed together.

11. Conditions in the duration box

When a condition is entered in the duration block, code the condition on the same line where it is reported.

Ι	(a) Arteriosclerotic heart disease(b)(c)	Duration CVA	I251	[64
II	Arteriosclerosis		I709	

<u>Code</u> the condition reported in the duration block as the last entry on I(a).

D. Doubtful diagnosis

1. Doubtful qualifying expression

a. When expressions such as "apparently," "presumably," "?," "perhaps," and "possibly," qualify any condition, disregard these expressions and code condition as indexed.

I (a)? hemorrhage of stomach K922 (b) Possible ulcer of stomach K259 Disregard "?" and code hemorrhage of stomach on I(a) as reported. Disregard "possible" and code ulcer of stomach on I(b) as reported. I (a) Heart disease, probable ASHD I519 I251 Disregard "probable" and code heart disease and ASHD on I(a). I (a) Pneumonia, probably aspiration J189 T179 &W80 <u>Place</u> Disregard the "probably" and code both pneumonia and aspiration as indexed. b. When these expressions are reported at the end of a line in Part I, do not consider to be a continuation of the next lower line. I (a) Heart disease probably I519 (b) Acute myocardial infarction I219 Disregard "probably" and code heart disease on I(a) and acute myocardial infarction on I(b). I (a) Cardiovascular disease presumably **I516** (b) Cerebral thrombosis I633 Disregard "presumably" and code each condition on the line where it is reported. c. When these expressions are reported at the beginning of a line in Part I, **do not** consider to be a continuation of the line above it. I (a) Heart disease **I519** (b) Possibly acute myocardial infarction I219 Disregard "possibly" and code each condition on the line where it is reported. d. When these expressions are reported at the beginning of Part II, do not consider to be a continuation of Part I. I (a) Heart disease probably **I519** (b) (c) II Probably MI **I219**

Disregard "probably" and code heart disease on I(a) and MI in Part II.

2. Interpretation of "either...or..."

Consider the following as a statement of "either or:"

- Two conditions reported on one line and both conditions qualified by expressions such as "apparently," "presumably," "?," "perhaps," and "possibly"
- Two or more conditions connected by "or" or "versus"

Code using the following instructions:

a. When a condition of more than one site is qualified by a statement of "either...or..." and both sites are classified to the **same system**, code the condition to the residual category for the **system**.

I (a) Pneumonia J189 (b) Cancer of kidney or bladder C689

Code I(b) C689, malignant neoplasm of other and unspecified urinary organs.

I (a) Heart failure I509 (b) Coronary or pulmonary blood clot I749

Code I(b) I749, blood clot.

b. When a condition of more than one site is qualified by a statement of "either...or..." and these sites are in different systems, code to the residual category for the disease or condition specified.

I (a) Cardiac arrest I469 (b) Carcinoma of gallbladder C80 or kidney

Code I(b) C80, malignant neoplasm without specification of site.

I (a) Respiratory failure J969 (b) Congenital anomaly of heart Q899 or lungs

Code I(b) Q899, anomaly, congenital, unspecified.

c. When conditions are qualified by a statement of "either...or..." and **only one site/system** is involved, code to the residual category for the site/system.

I (a) Apparently stroke, perhaps heart attack I99

<u>Since</u> both conditions are preceded by a doubtful qualifying expression, consider as a statement of "either...or...." Stroke and heart attack are classified to the circulatory system. Code to Disease, circulatory system, NEC.

I (a) Pulmonary edema

Clot (1749)

(b) Tuberculosis or cancer of lung

Code I(b) J9840, lung disease NOS.

I (a) Cardiac thrombosis vs pulmonary embolism

is a more specific category than Disease, circulartory system.

d. When conditions are classified to the same three character category with different fourth characters, code to the three character category with fourth character "9." **I259** I (a) ASCVD vs ASHD Code to I259 the residual category. ASCVD and ASHD are both classified to 125.-, chronic ischemic heart disease. e. When conditions are classified to different three character categories and Volume 1 provides a residual category for the diseases in general, code to that residual category. **I259** I (a) MI vs coronary aneurysm Code to I259 the residual category for ischemic heart disease. MI and coronary aneurysm are both classified as "ischemic heart diseases." f. When conditions involving different systems are qualified by "either... or...," and cannot be classified to the residual category for the disease, code R688, other specified general symptoms and signs. I (a) Coma R402 (b)? gallbladder colic? coronary R688 thrombosis <u>Code</u> I(b) R688, other ill-defined conditions. (Consider the two question marks on a single line as "either...or..."). g. When diseases and injuries are qualified by "either... or...," code R99, other unknown and unspecified cause, provided this is the only entry on the certificate. When other classifiable entries are reported, omit R99. I (a) Head injury or CVA **R99**

Note: When embolism and thrombosis are qualified by a statement of "either...or...," code to

Code I(a) I749, Clot (blood). Embolism and thrombosis are both blood clots, and Clot NOS

J81

J9840

I749

Code I(a) R99, other unknown and unspecified cause.

h. For doubtful diagnosis in reference to "either... or..." **accidents**, **suicides**, and **homicides**, refer to Section V, Part A, External Cause Code Concept.

E. Conditions specified as "healed" or "history of"

The Classification provides sequela categories for certain conditions qualified as "healed" or "history of." Refer to Section IV, Part F, <u>Sequela</u>. When the Classification does not provide a code or a sequela category for a condition qualified as "healed" or "history of," code the condition as though not qualified by this term.

I (a) Myocardial infarction

I219

(b)

(c) II Gastritis, healed

K297

Code K297, gastritis NOS in Part II.

F. Coding entries such as "same," " ditto (")," "as above"

When the certifier enters "same," "ditto mark (")," "as above," etc., in a "due to" position to a specified condition, do not enter a code for that line.

Ι	(a) Coronary occlusion	I219
	(b) Same	
	(c) Hypertension	I10

Do not enter a code on I(b) for the entry "same."

I (a) Pneumonia J189 (b) "

(c) Emphysema J439

Do not enter a code on I(b) for the "ditto mark (")."

G. Conditions qualified by "postmortem," "rule out," "ruled out," "r/o"

When a condition is qualified by "postmortem,"," or "r/o," etc., **do not** enter a code for the condition.

H. Nonindexed and illegible entries

1. Terms that are not indexed

When a term is reported that does not appear in the ICD-10 Index, refer the term to the supervisor.

2. Illegible entries

When an illegible entry is the **only** entry on the certificate, code R99. When an illegible entry is reported with other classifiable entries, disregard the illegible entry and code the remaining entries as indexed.

I. Coding one-character reject codes

When a death record qualifies for more than one reject code, code only one in this order: 1, 2, 3, 4, 5, 9.

1. Reject code 1-5-Inconsistent duration

When a duration of an entity in a "due to" position is shorter than that of an entity reported on a line above it and only **one** codable entity is reported on each of these lines, enter a reject code (1-5) in the appropriate data position. When more than one codable entity is reported on the same line, disregard the duration entered on that line. Use the appropriate reject code even though there are lines without a duration or with more than one codable entity between the entities with the inconsistent duration; in such cases, consider the inconsistency to be between the line immediately above and the line with the shorter duration.

If the inconsistent duration is between:

Lines	Enter Reject Code
I (a)	and I (b)1
	and I (c)2
` ,	and I (d)
` ,	and I (e)
Incons	sistent durations between more than two lines in Part I,
or any	situation where reject codes 1-4 would not be applicable

Do not enter a reject code if the only inconsistency is between the durations of malignant neoplasms classifiable to C00-C96.

Ι	(a) ASHD(b) Chronic nephritis and hypertension(c) Diabetes	10 yrs. 5 yrs. 5 yrs.	I251 N039 I10 E149
			Reject 2

Disregard the duration on I(b), since more than one codable entity is reported on this line. Only **one** codable entity is reported on lines I(a) and I(c) and the duration of the diabetes was shorter than that of ASHD. For the purposes of assigning the reject code, consider the duration on I(b) to be at least as long as the duration on I(a). Therefore, enter reject code 2 denoting an inconsistency between I(b) and I(c).

Ι	(a) ASHD	5 yrs	I251
	(b) Chronic nephritis and hypertension	10 yrs	N039 I10

(c) Diabetes 5 yrs E149

Do not enter reject code 2. The duration on I(b) is disregarded. The duration of diabetes on I(c) was not shorter than that of ASHD on I(a).

Ι	(a) Cardiac arrest		
	(b) Congestive heart failure	1 week	I500
	(c) Cancer of stomach	1 year	C169
	(d) Metastatic cancer of lung	6 months	C780

Do not use reject code 3 since the inconsistent duration is between malignant neoplasms.

Ι	(a) Basilar artery thrombosis	7 weeks	I630
	(b) Renal failure	4 weeks	N19
	(c) Pneumonia	1 week	J189

Reject 5

Enter reject code 5 since the inconsistent durations are between more than 2 lines.

Age 1 yr.

I (a) Congenital nephrosis life N049

(b)

(c) Intestinal hemorrhage 1 day K922

Reject 5

Enter reject code 5 since reject codes 1-4 are not applicable.

2. Reject code 9 – More than four "due to" statements

When certifier's entries or reformatting result in more than **four** statements of "due to," continue the remaining codes horizontally on the **fifth** line and enter reject code 9 in the appropriate position.

Ι	(a) Terminal pneumonia	J189
	(b) Congestive heart failure	I500
	(c) Myocardial infarction	I219
	(d) ASHD	I251
	(e) Generalized arteriosclerosis	I709 E039
	(f) Myxedema	
		Reject 9

Enter the code for the myxedema reported on the fifth "due to" line, I(f), following the code for the condition reported on this line (generalized arteriosclerosis). Enter reject code 9 in the appropriate data position.

If there are more than four "due to" statements in Part I and there is no codable condition reported on one or more lines, consider the condition(s) on each subsequent "due to" line as though reported on the preceding line. Enter reject code 9 only if, after reformatting, there are codable conditions on more than five lines.

Ι	(a) Pneumonia	J189
	(b) Extended illness	G839
	(c) Paralysis following CVA	I64
	(d) Hypertension due to	I10
	(e) adrenal adenoma	D350

Do not enter reject code 9. Since extended illness is not a codable condition, enter the code for paralysis on I(b), the code for CVA on I(c), etc. As a result of the rearrangement of the conditions, there are codable conditions on only five lines.

When a death record qualifies for more than one reject, prefer a reject code for inconsistent durations over reject code 9.

J. Inclusion of additional information \(AI\) to mortality source documents

Code supplemental information when it modifies or supplements data on the original mortality source document.

1. When additional information (AI) **states** the underlying cause of a **specified disease in Part** I, code the additional information (AI) in a "due to" position to the specified disease.

Ι	(a) Pulmonary edema	J81
	(b) Congestive heart failure	I500
	(c) Arteriosclerosis	I251
	(d) I709	

Π

AI The underlying cause of the congestive heart failure was ASHD.

Since the certifier **states** the underlying cause of the congestive heart failure is ASHD, code I251 on I(c) and move the condition on I(c) to the next "due to" position.

2. When additional information (AI) **modifies** a disease condition, use the AI and code the disease modified by the AI in the position **first** indicated by the certifier.

I (a) Pneumonia J181

(b)

(c)

AI Lobar pneumonia

Code lobar pneumonia as the **specified** type of pneumonia on I(a) only.

3. When there is a stated or implied complication of surgery and the additional information indicates the condition for which surgery was performed, code this condition in a "due to" position to the surgery when reported in Part I and following the surgery when reported in Part II. Precede this code with an ampersand (&).

I (a) Coronary occlusion T818 (b) Gastrectomy &Y836 &K259 (c) AI Gastrectomy done for gastric ulcer. Code the condition necessitating the surgery on I(c) and precede this code with an ampersand. I (a) Respiratory arrest R092 (b) Septicemia T814 (c) II Uremia, cholecystectomy N19 &Y836 &K802 AI Surgery for gallstones Code the condition necessitating the surgery following the E-code for surgery in Part II. 4. When additional information (AI) states a certain condition is the underlying cause of death, **code** this condition in Part I in a "due to" position (on a separate line) to the conditions reported on the original death record. I (a) Cardiac arrest I469 (b) MI I219 (c) ASHD I251 (d) E149 II AI U.C. was diabetes Accept the certifier's statement that the underlying cause of death was "diabetes," and code this condition on I(d) in a "due to" position to the conditions originally reported in Part I. 5. When any morphological type of neoplasm is reported in Part I with no mention of a "site" and additional information specifies a site, **code** the specified site **only** on the line where the morphological type is reported. I (a) Cancer C349 (b) (c) II AI Cancer of lung Code only the specified cancer (lung) on I(a).

I (a) Metastatic neoplasm

6. When additional information states the primary site of a malignant neoplasm, code this condition in a "due to" position to the other malignant neoplasms reported in Part I.

C80

(b) Metastasis to liver C787

(c) C189

II

AI Colon was primary site.

<u>Code</u> the stated primary site on I(c) in a "due to" position to the other neoplasms reported in Part I.

I (a) Carcinomatosis C80

(b) C61

(c)

ΙΙ

AI Prostate was probably the primary site.

<u>Code</u> the presumptive primary site (prostate) on I(b) in a "due to" position to the stated neoplasm reported on the original death certificate.

7. When the additional information **does not modify** a condition on the certificate, or **does not state** that this condition is the underlying cause, code the AI as the last condition(s) in Part II. Code AI reported on the certificate beginning with the uppermost downward and from left to right.

I (a) Coronary thrombosis I219
(b) HASCVD I119
(c)

II Hypertension I10 I709 I64 I258

AI Arteriosclerosis, CVA, old MI

The additional information does not modify conditions on the certificate. Code as the last entries in Part II.

Male, 30 minutes-Twin B

I (a) Immature P073

600 gm (b)

(c)

II Atelectasis P281 P015 P070

<u>Code</u> the additional information in the order reported, uppermost downward and from left to right.

K. Amended certificates

When an "amended certificate" is submitted certificate only.

L. Effect of age of decedent on classification

Always note the **age of the decedent** at the time the causes of death are being coded. Certain groups of categories are provided for certain age groups. There are several conditions within certain categories which cannot be properly classified unless the **age** is taken into consideration. Use the following terms to identify certain age groups:

1. NEWBORN OR NEONATAL means less than 28 days of age at the time of death.

Code any index term with the indention of "newborn," "neonatal," "neonatorum," "perinatal," "perinatal period," "fetus or newborn," or "fetal" (in this priority order) to the newborn category if the decedent is less than 28 days of age or there is evidence the condition originated in the first 27 days of life, even though death may have occurred later.

Female, 4 hours

I (a) Anoxia P219 (b) Cerebral hemorrhage P524

Since the age of decedent is less than 28 days, code anoxia of newborn, and cerebral hemorrhage of newborn.

Male, 31 days
I (a) Pulmonary hemorrhage 26 days P269
(b)

Since the condition originated in the first 27 days of life, code as a newborn.

2. INFANT or INFANTILE means less than 1 year of age at the time of death

Male, 9 months

I (a) Pneumonia J189
(b) Osteomalacia E550

Since the decedent is less than 1 year of age at the time of death, code Osteomalacia, infantile.

3. CHILD or CHILDHOOD means less than 18 years of age at the time of death.

Male, 11 years
I (a) Asthma J450

Code as Asthma, childhood.

4. Congenital anomalies (Q00-Q99)

Regard the conditions listed below as congenital and code to the appropriate congenital category if death occurred within the age limitations stated, provided there is no indication that they were acquired after birth.

a. Less than 28 days:

heart disease NOS hydrocephalus NOS

Male, 27 days

I (a) Renal failure N19 (b) Hydrocephalus Q039

<u>Code</u> the hydrocephalus as congenital since the decedent was less than 28 days of age at the time of death.

b. Less than 1 year:

aneurysm (aorta) (aortic) cyst of brain (brain) (cerebral) (circle of deformity

Willis) (coronary) displacement of organ

(peripheral) (racemose)ectopia of organ(retina) (venous)hypoplasia of organaortic stenosispulmonary stenosis

atresia valvular heart disease (any valve)

atrophy of brain

Female, 3 months

I (a) Pneumonia J189 (b) Cyst of brain Q046

<u>Code</u> cyst of brain as congenital since the age of the decedent is less than 1 year.

5. Congenital syphilis

Regard syphilis and conditions that are qualified as syphilitic as congenital and code to the appropriate congenital syphilis category if the decedent was less than two years of age.

Male, 16 mos

I (a) Syphilitic pneumonia A500

(b

(c)

Code congenital syphilitic pneumonia since age is less than 2 years.

6. Age limitation

Some categories in ICD-10 are limited by provisions of the Classification to certain ages. Code the categories listed below only if the age at the time of death was as follows:

a. Age 28 days or over

A32	E14	J13	R00
A35	E162	J14	R01
A40	E561	J15	R048
A41	E63	J16	R090
A56	E834	J18	R092
A74	E835	J43	R11
B30	F10	J80	R17
B370	F11	J849	R230
B371	F12	J96	R233
B372	F13	J981	R290
B373	F14	J982	R40
B374	F15	J984	R50
B375	F16	J988	R53
B376	F17	K27	R56
B377	F18	K631	R58
B378	F19	K65	R60

E10	I50	L530	
E11	I61	M34	
E12	I62	N390	
E13	J12	N61	

Male, age 25 days

I (a) Urinary tract infection

P393

(b)

Code urinary tract infection, newborn since age is less than 28 days.

Female, age 27 days

I (a) Respiratory failure

P285

- (b)
- (c)

Code respiratory failure, newborn since age is less than 28 days.

Female, age 28 days

I (a) Atelectasis

J981

- (b)
- (c)

Code atelectasis, J981 since age is reported as 28 days.

b. Age under 1 year:

R95

c. Age 1 year or over:

R960

Age 1 year

I (a) Sudden infant death syndrome

R960

d. Age 5 years or over:

X60-X84

Age 4 years

Place I (a) GSW to head Suicide

S019 &W34

M. Sex limitations

Certain categories in ICD-10 are limited to one sex:

For Males Only	For Females Only	
B260	A34	M830
C60-C63	B373	N70-N98
D074-D076	C51-C58	N992-N993
D176	C796	000-099
D29	D06	P546
D40	D070-D073	Q50-Q52
E29	D25-D28	Q96
E895	D39	Q97
F524	E28	R87

I861	E894	S314
L291	F525	S374-S376
N40-N50	F53	T192-T193
Q53-Q55	I863	T833
Q98	L292	Y424
R86	L705	Y425
S312-S313	M800-M801	Y76
	M810-M811	

If the cause of death is inconsistent with the sex, code the cause of death to R99, other ill-defined and unspecified causes of mortality (R99).

Female, age 32

I (a) Cancer of prostate

R99

(b)

(c)

Code other ill-defined and unspecified causes of mortality (R99).

N. Effect of duration on assignment of codes

Before assigning codes, take into account any statements entered on the certificate in the spaces for duration since these statements may affect the code assignments for certain conditions.

1. Qualifying conditions as acute or chronic

a. Usually the duration should ${f not}$ be used to qualify the condition as "acute" or "chronic."

<u>Duration</u>

I (a) Nephritis

2 years N059

<u>Code</u> nephritis as indexed. Do not use the duration to qualify the nephritis as chronic.

- b. However, when assigning codes to certain conditions classified as "ischemic heart diseases" the Classification provides the following specific guidelines for classifying a condition with a **stated** duration as acute or chronic:
 - acute or with a stated duration of 4 weeks or less
 - chronic or with a stated duration of over 4 weeks

Duration

I (a) Acute myocardial infarction

3 mos.I258

(b)

(c)

Code Infarction, myocardium, chronic or with a stated duration of over 4 weeks, I258.

(1) For the purpose of interpreting these instructions:

Consider these terms:	To mean:
brief days hours immediate instant minutes recent short sudden weeks (few) (several)	4 weeks or less or acute
longstanding 1 month	over 4 weeks or chronic

<u>Duration</u> weeks I219

- I (a) Aneurysm heart
 - (b)
 - (c)

<u>Code</u> Aneurysm, heart, acute or with a stated duration of 4 weeks or less, I219. "Weeks" is interpreted to mean 4 weeks or less.

c. When the duration is stated to be "acute" or "chronic," consider the condition to be specified as acute or chronic.

I (a) Heart failure

(b) Bronchitis

Duration 1 hour I509 acute J209

Code "acute" bronchitis on I(b).

2. Subacute

In general, code a disease that is specified as subacute as though qualified as acute if there is provision in the Classification for coding the acute form of the disease but **not** for the subacute form.

I (a) Subacute pyelonephritis

N10

Code subacute pyelonephritis to N10, acute pyelonephritis since there is no code for

subacute pyelonephritis.

3. Exacerbation

Interpret "exacerbation" as an acute phase of a disease. Code "exacerbation" of a chronic specified disease to the acute and chronic stage of the disease if the Classification provides separate codes for "acute" and "chronic."

Ι	(a) Exacerbation of leukemia(b) Chronic lymphocytic leukemia	C950 C911	
Ι	(a) Exacerbation of chronic(b) lymphocytic leukemia	C910	C911
Ι	(a) Chronic leukemia with conversion to (b) acute phase	C951	C950
Ι	(a) Exacerbation of chronic(b) pyelonephritis	N10	N119
Ι	(a) Exacerbation of bronchitis(b)	J209	
Ι	(a) Acute exacerbation of chronic(b) bronchitis	J209	J42
Ι	(a) Chronic obstructive lung disease exacerbation(b)	J441	J449

<u>Code</u> the preceding examples to the acute and chronic stages of each specified disease since the Classification provides separate codes for the "acute" and "chronic."

4. Acute and chronic

Sometimes the terms acute and chronic are reported preceding two or more diseases. In these cases, use the term ("acute" or "chronic") with the condition it **immediately** precedes.

I (a) Chronic renal and liver failure

N189 K7290

Code renal failure, chronic and liver failure NOS.

5. Qualifying conditions as congenital or acquired

Code conditions classified as congenital in the Classification as congenital, even when not specified as congenital if the interval

between onset and death and the age of the decedent indicate that the condition existed from birth.

Female, age 2 years	<u>Duration</u>
I (a) Pneumonia	1 week J189
(b) Heart disease	2 years Q249

<u>Code</u> the condition on I(b) as congenital since the age of the decedent and the duration of the condition indicate that the heart disease existed at birth.

Do not use the interval between onset and death to qualify conditions that are classified to categories Q00-Q99, congenital anomalies, as acquired.

Male, 62 years	<u>Duration</u>	
I (a) Renal failure	3 months	N19
(b) Pulmonary stenosis	5 years	Q256

Do not use the duration to qualify the pulmonary stenosis as acquired.

6. Two conditions with one duration

When two or more conditions are entered on the same line with one duration, disregard the duration and code the conditions as indexed.

					<u>Duration</u>		
Ι	(a) My	ocardial ischemia and			3 weeks	I259	I500
	con	gestive heart failure					
	(b)	Hypertension	5 years	I10			
	` ,	<i>,</i> .	•				

Disregard the duration on I(a) and code the myocardial ischemia as indexed.

		<u>Duration</u>	
Ι	(a) MI due to nephritis(b) Arteriosclerosis(c) I709	3 months N059	I219

Disregard the duration on I(a) and code myocardial infarction as indexed.

7. Conflict in durations

When conflicting durations are entered for a condition, give preference to the duration entered in the space for interval between onset and death.

			Duration	
Ι	(a) Ischemic heart disease	2 weeks	years	I259

Use the duration in the block to qualify the ischemic heart disease.

8. Span of dates

Interpret dates that are entered in the spaces for interval between onset and death separated by a slash (/), dash (-), etc., as meaning from the first date to the second date. Disregard such dates if they extend from one line to another and there is a condition reported on both of these lines since the span of dates could apply to either condition.

Date of death 10-6-98 <u>Duration</u>

I (a) MI 10/1/98 - I219 (b) Ischemic heart disease 10/6/98 I259

Disregard duration and code each condition as indexed since the dates extend from I(a) to I(b).

Date of death 10-6-98 Duration

I (a) Aneurysm of heart 10/1/98 - 10/6/98 I219

(b)

Since there is only one condition reported, apply the duration to this condition.

Date of death 10-6-98 <u>Duration</u>

I (a) Ischemic heart disease 10/1/98 - 10/6/98 I249 (b) Arteriosclerosis I709

Apply the duration to I(a).

O. Relating and modifying conditions

1. Implied site of disease

Certain conditions are classified in the ICD-10 according to the site affected, e.g.:

atrophy enlargement obstruction calcification failure perforation calculus fibrosis rupture congestion stenosis gangrene degeneration hypertrophy stones dilatation insufficiency stricture embolism necrosis

(This list is not all inclusive)

Occasionally, these conditions are reported without specification of site. Relate conditions such as these for which the Classification does not provide a NOS code. Also relate conditions which are usually reported of a site. Generally, it may be assumed that such a condition was of the same site as another condition if the Classification provides for coding the condition of unspecified site to the site of the other condition. These coding principles apply whether or not there are other conditions reported on other lines in Part I. Apply the following instructions when relating a condition of unspecified site to the site of a specified condition:

a. General instructions for implied site of a disease

- (1) Conditions of unspecified site reported on the <u>same</u> line:
 - (a) When conditions are reported on the same line, with or without a connecting term that implies a due to relationship, assume the condition of unspecified site was of the same site as the condition of specified site.

I (a) Congestive heart failure I500

(b) Infarction with myocardial I219 I515

(c) degeneration

(d) Coronary sclerosis I251

<u>Code</u> the infarction as myocardial, the site of the condition reported on the same line.

I (a) Aspiration pneumonia J690 (b) Cerebrovascular accident due to I64 (c) thrombosis I633

Code the thrombosis as cerebral, the site of the condition reported on the same line.

I (a) Duodenal ulcer with internal hemorrhage K269 K922

<u>Code</u> Hemorrhage, duodenal (K922). Relate the internal hemorrhage to the site of the condition reported on the same line.

I (a) CVA with hemorrhage I64 I619 (b) MI I219

<u>Code</u> Hemorrhage, cerebral (I619). Relate the hemorrhage to the site of the condition reported on the same line.

(b) When conditions of different sites are reported on the same line, assume the condition of unspecified site was of the same site as the condition immediately preceding it.

I (a) ASHD, infarction, CVA

I251 I219 I64

(b)

(c)

<u>Code</u> Infarction, heart (I219). Relate the infarction to the site of the condition immediately preceding it.

- (2) Conditions of unspecified site reported on a <u>separate</u> line:
 - (a) If there is only one condition of a specified site reported either on the line above or below it, code to this site.

I (a) Massive hemorrhage K922 (b) Gastric ulceration K259

<u>Code</u> the hemorrhage as gastric. Relate hemorrhage to the site of the condition reported on I(b).

I (a) Uremia N19
(b) Chronic prostatitis N411
(c) Benign hypertrophy N40

<u>Code</u> the hypertrophy as prostatic. Relate hypertrophy to prostate, the site of the condition reported on I (b).

I (a) Internal hemorrhage K868 (b) Pancreatitis K859

<u>Code</u> Hemorrhage, pancreas (K868). Relate the internal hemorrhage to the site of the condition reported on I(b).

(b) If there are conditions of different specified sites on the lines above and below it **and** the Classification provides for coding the condition of unspecified site to only one of these sites, code to that site.

Ι	(a) Intestinal fistula	K632
	(b) Obstruction	K566
	(c) Carcinoma of peritoneum	C482

<u>Code</u> the obstruction as intestinal since the Classification does not provide for coding obstruction of the peritoneum.

(c) If there are conditions of different specified sites on the lines above and below it **and** the Classification provides for coding the condition of unspecified site to both of these sites, code the condition unspecified as to site.

Ι	(a) CVA	I64
	(b) Thrombosis	I829
	(c) ASHD	I251

<u>Code</u> Thrombosis NOS on I(b). Do not relate the thrombosis since the Classification provides codes for both sites reported.

(3) Do not relate conditions which are not reported in the first position on a line to the line above. It is acceptable to relate conditions not reported as the first condition on a line to the line below.

I (a) Kidney failure N19
(b) Vascular insufficiencyc thrombosis I99 I219

(c) ASHD I251 Code Thrombosis, cardiac (I219). Relate thrombosis to line below. (4) When relating conditions to sites start at the top of the certificate and work down. I (a) Hemorrhage R5800 K729 (b) Necrosis C220 (c) Hepatoma <u>The</u> hemorrhage cannot be related. Relate necrosis to liver (K729), the site of the hepatoma. **b.** Relating specific categories (1) When ulcer, site unspecified or peptic ulcer NOS is reported causing, due to, or on the same line with gastrointestinal hemorrhage, code peptic ulcer NOS (K279). I (a) Gastrointestinal hemorrhage K922 K279 (b) Peptic ulcer (c) Code peptic ulcer (K279). Do not relate to gastrointestinal. K922 I (a) Ulcer causing gastrointestinal hemorrhage (b) K279 Code ulcer to peptic ulcer (K279). (2) When ulcer NOS (L984) is reported causing, due to, or on the same line with diseases classifiable to K20-K22, K30-K31, and K65, code peptic ulcer NOS (K279). I (a) Peritonitis K659 (b) Ulcer K279 Code Ulcer, peptic (K279). (3) When hernia (K40-K46) is reported with disease(s) of unspecified site(s), relate the disease of unspecified site to the intestine. I (a) Hernia with hemorrhage K469 K922 Code Hemorrhage, intestine. (4) When calculus NOS or stones NOS is reported with pyelonephritis, code to N209 (urinary calculus). I (a) Pyelonephritis with calculus N12 N209

Code calculus (N209) since it is reported with pyelonephritis.

((5)	When	arthritis	(anv	tvpe)) is	reported	with
١			• • • • • • • • • • • • • • • • • • • •	· · · /	-,,	,		

- contracture code contracture of the site
- deformity code deformity acquired of the site

If no site is reported or if site is not indexed, code contracture or deformity, joint.

Ι	(a) Phlebitis	I809
	(b) Contractures	M245
	(c) Osteoarthritis lower limbs	M199

Code Contracture, joint (M245) since contracture lower limb is not indexed.

Ι	(a) Pulmonary embolism	I269
	(b) Multiple deformities	M219
	(c) Arthritis in both hips	M139

Code deformity (acquired) of hip.

(6) When embolism, infarction, occlusion, thrombosis NOS is reported

- from a specified site code the condition of the site reported
- of a site, from a specified site code the condition to both sites reported

Ι	(a) Congestive heart failure	I500
	(b) Embolism from heart	I2190
	(c) Arteriosclerosis	I709

Code I(b) embolism of heart (I2190).

I (a) Pulmonary embolism from leg veins I269

(b) I803

(c)

Code I(a) pulmonary embolism (I269) and I(b) leg veins embolism (I803).

- (7) Relate a condition of unspecified site to the complete term of a multiple site entity. If it is not indexed together, relate the condition to the site of the complete indexed term.
 - I (a) Cardiorespiratory arrestc failure

I469 R092

<u>Code</u> Failure, cardiorespiratory (R092). Relate failure to the complete term.

I (a) Cardiorespiratory arrest

I469 I509

(b) c insufficiency

<u>Code</u> Insufficiency, heart (I509) since cardiorespiratory arrest is indexed to a heart condition. Relate insufficiency to the site of the complete term.

(8) When vasculitis NOS is reported, apply the general instructions for relating and modifying.

I (a) Renal failure

N19

(b) Vasculitis

I778

<u>Code</u> Vasculitis, kidney (I778). Relate vasculitis to the site reported on line I(a).

c. Exceptions to relating and modifying instructions

(1) Do not relate the following conditions:

Arteriosclerosis

Congenital anomaly NOS Para Hypertension Vaso

Infection NOS (refer to Section III, #6)

Neoplasms Paralysis

Vascular disease NOS

I (a) Arteriosclerosis with CVA

I709 I64

(b)

(c)

Code Arteriosclerosis NOS (I709).

I (a) Cardiac arrest

I469

(b) Congenital anomaly

Q899

(c)

Code congenital anomaly NOS (Q899).

I (a) Pneumonia

J189

(b) Infection

(c)

Code Pneumonia (J189) on I(a). Do not enter a code on I(b).

I (a) Perforation esophagus

K223

(b) Cancer

C80

(c)

Code cancer NOS (C80).

(2) Do not relate hemorrhage when causing a condition of a specified site. Relate hemorrhage to site

of disease reported on **same** line or on line **below** only.

I (a) Respiratory failure J969 (b) Hemorrhage R5800

<u>Code</u> Hemorrhage NOS. Do not relate to respiratory.

I (a) Respiratory failure J969

(b) Hemorrhage K922

(c) Gastric ulcer K259

Relate hemorrhage on I(b) to gastric on I(c) and code gastric hemorrhage.

(3) Do not relate conditions classified to R00-R99 except:

Gangrene and necrosis R02
Hemorrhage R5800
Regurgitation R11
Stricture and stenosis R688

I (a) Myocardial infarction with anoxia I219 R090

Code anoxia as indexed. Do not relate to heart since anoxia is classified to R090.

I (a) Pneumonia with gangrene

J189 J850

<u>Code</u> the gangrene as pulmonary, the site of the disease reported on the same line since gangrene is one of the exceptions.

- (4) Do not relate a disease condition that, by the name of the disease, implies a disease of a specified site unless it is obviously an erroneous code. If not certain, refer to supervisor.
 - I (a) Cirrhosis, encephalopathy

K746 G934

I269

I809

<u>Do</u> not relate encephalopathy to liver since the name of the disease implies a disease of a specific site, brain.

I (a) Pulmonary embolism
(b) Thrombophlebitis

<u>Code</u> thrombophlebitis (I809) as indexed. Do not relate thrombophlebitis since it is not usually reported of any site other than extremities.

I (a) Cerebral hemorrhagec herniation I619 G935

<u>Relate</u> herniation to brain since hernia NOS is classified to a disease of the digestive system (K469) and it seems illogical to have a brain disease paired with a digestive system disease.

Refer to Section V, Part D, <u>Implied site of injury for instructions on relating the site of injuries to another site.</u>

2. Coding conditions classified to injuries as disease conditions

- a. Some conditions (such as injury, hematoma or laceration) of a specified organ are indexed directly to a traumatic category but may not always be traumatic in origin. Consider these types of conditions to be qualified as nontraumatic when reported:
 - due to or on the same line with a disease
 - due to: drug poisoning drug therapy

If there is provision in the Classification for coding the condition that is considered to be qualified as nontraumatic as such, code accordingly. Otherwise, code to the category that has been provided for "Other" diseases of the organ (usually .8).

Ι	(a) Laceration heart	I518
	(b) Myocardial infarction	I219

(c)

<u>Code to</u> myocardial infarction (I219) selected by General Principle. Since laceration heart is reported due to myocardial infarction, consider the laceration to be nontraumatic.

Ι	(a) Subdural hematoma	I620
	(b) CVA	I64
	(c)	

Code Hematoma, subdural, nontraumatic (I620) as indexed.

Ι	(a) Acute kidney injury	N288
	(b) Kidney disease	N289
	(-)	

(c)

<u>Code</u> acute kidney injury as nontraumatic since reported due to a disease. Apply instruction to assign other diseases of kidney (N288), even though indexed as acute.

Ι	(a) Cardiorespiratory failure	R092
	(b) Intracerebral hemorrhage	I619
	(c) Meningioma, subdural hematoma	D329 I620

<u>Code</u> subdural hematoma as nontraumatic since it is reported on the same line with a disease.

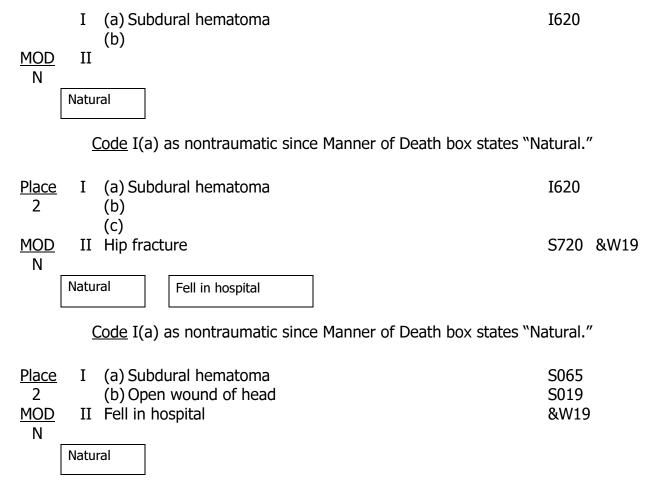

I (a) Liver failure

(b) Cirrhosis with injury to liver K746 K768 (c) Code injury to liver as nontraumatic since it is reported on the same line with a disease. I (a) Cerebral arteriosclerosis with I672 I620 (b) subdural hematoma Code subdural hematoma as nontraumatic since it is reported on the same line with a disease. b. Some conditions are indexed directly to a traumatic category but the Classification also provides a nontraumatic code. When these conditions are reported due to or with a disease and an external cause is reported on the record or the Manner of Death box is checked as Accident, Homicide, Suicide, Pending Investigation or could not be determined, code the condition as traumatic. S065 Place I (a) Subdural hematoma 9 (b) CVA **I64** (c) II &W18 MOD Α Fell while walking Accident Code the subdural hematoma as traumatic since the manner of death is accidental. Place I (a) Cardiorespiratory arrest I469 (b) Subdural hematoma S065 0 (c) Arteriosclerosis I709 R54 MOD II Advanced age &W18 Α Accident Home Fell in her room striking head Code the subdural hematoma as traumatic since the manner of death is accidental. Place I (a) Cerebral hematoma with S068 I672 9 (b) cerebral arteriosclerosis (c) II &X599 MOD Α Accident

K7290

Code the cerebral hematoma as traumatic since the manner of death is accidental.

c. Some conditions are indexed directly to a traumatic category, but the Classification also provides a nontraumatic code. When these conditions are reported and the Manner of Death is Natural, code condition as nontraumatic unless the condition is reported due to or on the same line with an injury or external cause. This instruction applies only to conditions with the term "nontraumatic" in the Index. It does not apply to conditions in Section III, Intent of Certifier.

<u>Code</u> subdural hematoma as traumatic since it is reported due to an injury, disregarding Natural in the Manner of Death box.

SECTION III – INTENT OF CERTIFIER

In order to assign the most appropriate code for a given diagnostic entity, it may be necessary to take other recorded information and the order in which the information is reported into account. It is important to interpret this information properly so the meaning intended by the certifier is correctly conveyed. The objective is to code each diagnostic entity in accordance with the intent of the certifier without combining separate codable entities. The following instructions help to determine the intent of the certifier. Apply Intent of Certifier instructions to "See also" terms in the Index and to any synonymous sites or terms as well.

1. Other and unspecified gastroenteritis and colitis of unspecified origin (A099)

a. <u>Code A090</u> (Gastroenteritis and colitis of infectious origin)

When reported due to:

A000-B99

R75

Y431-Y434

Y632

Y842

I (a) Enteritis A090 (b) Listeriosis A329

<u>Code</u> I(a) gastroenteritis and colitis of infectious origin, A090, since enteritis is reported due to a condition classified to A329.

EXCEPTION: When the enteritis is reported due to another infectious condition or an organism classified to A49 or B34, refer to Section III, 6. Organisms and Infections.

b. <u>Code</u> K529 (Noninfective gastroenteritis and colitis, unspecified)

When reported due to:

C000-K929

L272

M000-N999

P000-R749

R760-Y430

Y435-Y631

Y633-Y841

Y843-Y899

I (a) Enteritis K529 (b) Abscess of intestine K630

<u>Code</u> I(a) noninfective gastroenteritis and colitis, unspecified, K529, since enteritis is reported due to a condition classified to K630.

I (a) Colitis A099

<u>Code</u> I(a) gastroenteritis and colitis of unspecified origin, A099, as indexed.

2. Spinal Abscess (A180) Vertebral Abscess (A180)

Code M462 (Nontuberculous spinal abscess)

When reported due to:

A400-A419	H650-H669	M910-M939
A500	H950-H959	M960-M969
A509	J00-J399	N10-N12
A527	J950-J959	N136
A539	K650-K659	N151
B200-B24	K910-K919	N159
B89	L00-L089	N288
B99	M000-M1990	N340-N343
C412	M320-M351	N390
C760	M359	N700-N768
C795	M420-M429	N990-N999
C810-C969	M45-M519	R75
D160-D169	M600	S000-T983
D480	M860-M889	
D550-D589	M894	

I (a) Spinal Abscess M462 (b) Staphylococcal septicemia A412

<u>Code</u> I(a) nontuberculous spinal abscess, M462, since spinal abscess is reported due to a condition classified to A412.

3. Charcot's Arthropathy (A521)

Code G98 (Arthropathy, neurogenic, neuropathic (Charcot's), nonsyphilitic)

When reported due to:

A30 Leprosy G608 Hereditary sensory E10-E14 Diabetes mellitus neuropathy

E538	Subacute combined degeneration	G901	Familial dysautonomia
	(of spinal cord)	G950	Syringomyelia
F101	Alcohol abuse	Q059	Spina bifida,
F102	Alcoholism		meningo-myelocele
G600	Hypertrophic interstitial	Y453	Indomethacin
	neuropathy	Y453	Phenylbutazone
G600	Peroneal muscular atrophy	Y427	Corticosteroids

I (a) Charcot's arthropathy G98
(b) Diabetes E149

4. General Paresis (A521)

a. Code G839 (Paralysis)

When reported due to or on the same line with:

A022	A988	B690	D180-D181	I159
A040	B003-B004	B719	D210	I600-I709
A051	B010-B011	B75	D233-D234	I748
A066	B020-B022	B832	D320-D339	J108

I (a) CVA with general paresis

I64 G839

(b)

(c)

b. Code T144 (Paralysis, traumatic)

Refer to Section V, Part S, <u>Sequela of injuries</u>, <u>poisonings</u>, <u>and other consequences of external causes</u>, if a sequela is indicated.

When reported due to or on the same line with:

S000-T149	W81-X39
T20-T35	X50-X599
T66-T79	X70-X84
T90-T95	X91-Y09
T981-T982	Y20-Y369
V010-W43	Y850-Y872
W45-W77	Y890-Y899

I (a) General paresis T144
(b) Brain injury S069
(c)

II Auto accident &V499

5. Viral Hepatitis (B161, B169, B171-B179)

Code

For Viral Hepatitis in Categories	Code Chronic Viral Hepatitis
B161	B180
B169	B181
B171	B182
B172	B188
B178	B188
B179	B189

When reported as causing liver conditions in:

K721, K7210 K740-K742 K744-K746

I (a) Cirrhosis of liver K746 (b) Viral hepatitis B B181

 $\underline{\text{Code}}$ I(b) B181, chronic viral hepatitis B, since reported as causing a condition classified to K746.

6. Organisms and Infections NOS (B99)

Organisms

Bacterial organisms classified to A49	Viral organisms classified to B34	Organisms classified to <u>other</u> than A49 or B34
Escherichia coli	Adenovirus	Aspergillus
Haemophilus influenzae	Coronavirus	Candida
Pneumococcal	Coxsackie	Cytomegalovirus
Staphylococcal	Enterovirus	Fungus
Streptococcal	Parvovirus	Meningococcal

Infectious conditions

Abscess Infection Sepsis, Septicemia Bacteremia Pneumonia Septic Shock Empyema Pyemia Words ending in "itis"
--

These lists are **NOT** all inclusive. Use them as a guide.

In order to determine which instruction to use, refer to the Index under the named organism or under Infection, named organism.

- a. Bacterial organisms and infections classified to A49 and Viral organisms and infections classified to B34
 - (1) When an infectious or inflammatory condition is reported and
 - (a) Is preceded or followed by condition classified to A49 or B34 or
 - (b) A condition classifiable to A49 or B34 is reported as the only entry or first entry on the next lower line **or**
 - (c) Is followed by a condition classified to A49 or B34 separated by a connecting term not indicating a due to relationship
 - (i) If a single code is provided for the infectious or inflammatory condition modified by the condition classified to A49 or B34, use this code. Do not assign a separate code for the condition classifiable to A49 or B34. It may be necessary to use "due to" or "in" in the Index to assign the appropriate code.
 - I (a) E. coli diarrhea

A044

Code as indexed under Diarrhea, due to, Escherichia coli.

I (a) Pneumonia J129
(b) Viral infection

Code as indexed under Pneumonia, viral.

I (a) Meningitis and sepsis

G000 A413

(b) H. influenzae

<u>Code</u> as indexed under Meningitis, Haemophilus (influenzae) and Septicemia, Haemophilus influenzae.

I (a) Sepsis with staph

A412

<u>Code</u> as staphylococcal sepsis as indexed under Septicemia, staphylococcal.

I (a) Pneumonia c_ MRSA

J152

<u>Code</u> as methicillin resistant staphylococcal aureus pneumonia as indexed under Pneumonia, MRSA.

- (ii) If (i) does not apply, and the Index provides a code for the infectious or inflammatory condition qualified as "bacterial," "infectious," "infective," or "viral," assign the appropriate code based on the reported type of organism. Do not assign a separate code for the condition classified to A49 or B34.
 - I (a) Coxsackie virus pneumonia

J128

Coxsackie virus is a specified virus. Code as indexed under Pneumonia, viral, specified NEC.

I (a) Peritonitis

K650

(b) Campylobacter

Campylobacter is a specified bacteria. Code as indexed under Peritonitis, bacterial.

I (a) Pneumonia with coxsackie virus

J128

<u>Code</u> as coxsackie virus pneumonia. Since coxsackie virus is a specified virus, code as indexed under Pneumonia, viral, specified NEC.

- (iii) If (i) and (ii) do not apply, assign the NOS code for the infectious or inflammatory condition. Do not assign a separate code for the condition classified to A49 or B34.
 - I (a) Klebsiella urinary tract infection

N390

The Index does not provide a code for Infection, urinary tract specified as bacterial, infectious, infective, or Klebsiella. Therefore, code Infection, urinary tract.

I (a) Pyelonephritis

N12

(b) Staphylococcus

The Index does not provide a code for pyelonephritis specified as bacterial, infectious, infective, or staphylococcal. Therefore, code Pyelonephritis as indexed.

I (a) Pyelonephritis and pseudomonas

N12

The Index does not provide a code for pyelonephritis specified as bacterial, infectious, infective or pseudomonas. Therefore, code pyelonephritis as indexed.

- b. Organisms and infections classified to categories other than A49 and B34
 - (1) When an infectious or inflammatory condition is reported and
 - (a) Is preceded by a condition classifiable to Chapter I other than A49 or B34
 - (i) Refer to the Index under the infectious or inflammatory condition. If a single code is provided for this condition, modified by the condition from Chapter I, use this code. It may be necessary to use "due to" or "in" in the Index to assign the appropriate code.
 - I (a) Cytomegaloviral pneumonia

B250

<u>Code</u> as indexed under Pneumonia, cytomegaloviral.

- (ii) If (i) does not apply, refer to Volume 1, Chapter I to determine if the Classification provides an appropriate fourth character for the organism. Indications of appropriate fourth characters for sites would be "of other sites," "other specified organs," or "other organ involvement."
 - I (a) Candidiasis peritonitis

B378

<u>Since</u> this term is not indexed together, refer to Volume I, Chapter I and select the fourth character, .8, candidiasis of other sites.

- (iii) If (i) and (ii) do not apply, code as two separate conditions.
 - I (a) Mononucleosis pharyngitis

B279 J029

<u>Since</u> this term is not indexed together and Volume I, Chapter I does not provide an appropriate fourth character under B27.-, code as two separate conditions.

- (b) A condition from Chapter I other than A49 or B34 is reported as the only entry or the first entry on the next lower line
 - (i) Code each condition as indexed where reported.

I (a) Peritonitis

K659

(b) Candidiasis

B379

<u>Since</u> candidiasis is classified to a condition other than A49 or B34, code each condition as indexed.

(c) A condition from Chapter I other than A49 or B34 is reported separated by a connecting term not indicating a due to relationship

(i) Code each condition as indexed where reported.

I (a) Pneumonia with candidiasis

J189 B379

<u>Since</u> candidiasis is classified to a condition other than A49 or B34, code each condition as indexed.

c. Do not use HIV or AIDS to modify an infectious or inflammatory condition. Code as two separate conditions.

I (a) HIV pneumonia

B24 J189

- d. When an infectious or inflammatory condition is reported and a specified organism or specified nonsystemic infection is not the only entry or the first entry on the next lower line.
 - Code the infectious or inflammatory condition and the organism or infection separately.

I (a) Pneumonia J189

(b) Emphysema & viral infection J439 B349

I (a) Peritonitis K659

(b) Gastric ulcer and staphylococcal infection K259 A490

- e. When an infectious or inflammatory condition is reported and
 - (1) Infection NOS is reported as the only entry or the first entry on the next lower line
 - ◆ Code the infectious or inflammatory condition where it is entered on the certificate and do not enter a code for infection NOS, but take into account if it modifies the infectious condition.

I (a) Cholecystitis & hepatitis K819 B159

(b) Infection

I (a) Meningitis G039 (b) Infection & brain tumor D432

- (2) Infection NOS is not the only entry or the first entry on the next lower line
 - Code the infectious or inflammatory condition where it is entered on the certificate and code infection NOS separately.

I (a) Septicemia A419

(b) Diabetes & infection E149 B99

- f. When a noninfectious or noninflammatory condition is reported and infection NOS is reported on a lower line
 - ♦ Code the noninfectious or noninflammatory condition as indexed and code infection NOS (B99) where entered on the certificate.

I (a) ASHD I251 (b) Infection B99

- g. When an organism is reported preceding two or more infectious conditions reported consecutively on the same line
 - Code each of the infectious conditions modified by the organism.

I (a) Staphylococcal pneumonia and J152 G003

(b) meningitis

h. When one infectious condition is modified by more than one organism, modify the condition by all organisms.

I (a) Strep, Klebsiella and MRSA pneumonia J154 J150 J152

I (a) Strep pneumonia, MRSA J154 J152

I (a) Sepsis enterococcus, MRSA A402 A410

- i. When any condition is reported and a generalized infection such as bacteremia, fungemia, sepsis, septicemia, systemic infection, or viremia is reported on a lower line
 - Code both the condition and the generalized infection where entered on certificate. Do not modify the condition by the infection.

Ι	(a) Bronchopneumonia(b) Septicemia	J180 A419
Ι	(a) Pneumonia (b) Viremia	J189 B349

7. Eaton-Lambert syndrome (C80)

Code G708 (Eaton-Lambert syndrome unassociated with neoplasm)

When reported on a record without a condition from the following categories also reported:

C000-D489

Male, 57 years old

I (a) Aspiration pneumonia J690 II (b) Eaton-Lambert syndrome G708

<u>Code</u> I(b) Eaton-Lambert syndrome unassociated with neoplasm (G708) since there is no condition from categories C000 - D489 reported anywhere on the record.

Female, 69 years old

I (a) Eaton-Lambert syndrome C80
I (b) Small cell lung cancer C349

Code I(a) Eaton-Lambert syndrome (C80) since there is a condition from categories C000 - D489 reported on the record.

8. Erythremia (C940)

Code D751 (Secondary erythremia):

When reported due to

A000-D489 D510-D619 D751 D760-E149 E240-E279 E65-E678 E890 E896-E899	F55 G000-G419 G450-G459 G600-G979 I00-J989 K20-L00 L100-L139 L230-L309	L710-L719 L930-L932 L950-L959 M000-M1990 M300-M359 M420-M549 M800-M949 M960-M969	N700-N768 N980 N990-Q999 R030 R040-R049 R090-R098 R160-R162 R31	R730-R739 R75 R780 R826 R893 S000-Y899

D840-D849	E895-E899	T360-T659	
E000-E249	I10-I150	T783	
E250-E269	I159	T880-T889	

Ι	(a) MI	I219
	(b) Hyperaldosteronism	E261
	(c) Renal artery stenosis	I701

16. Lactase Deficiency (E730)

Code E731 (Secondary lactase deficiency)

When reported due to:

E730-E749	K590-K599
K500	K630
K508-K510	K633
K519-K529	K639
K570	K900-K902
K574	K912
K580-K589	N200-N209

1	(a) Severe diarrhea	K529
	(b) Lactase deficiency	E731
	(c) Celiac disease	K900

Code I(b) secondary lactase deficiency, E731, since reported due to celiac disease.

17. Korsakov's Disease, Psychosis, or Syndrome (F106)

<u>Code</u> F04 (Nonalcoholic Korsakov's disease, psychosis, or syndrome)

When reported due to:

A000-D591 L920 S710-S729 T904

ICD-10-Mortality Manual 2b - 2014

18. Drug Use NOS - Named Drug Use (F11-F16, F18-F19)

<u>Code</u> drug use NOS, F199, when reported anywhere on the certificate. Code use of named drug, F11-F16, F18-F19 with fourth character "9," when reported anywhere on the certificate and the named drug is listed in Volume 3, under Addiction/Dependence. If the named drug is not listed in Volume 3 under Addiction/Dependence, do not enter a code.

Exceptions:

(c)

(1) Complication(s) reported due to (named) drug use. Code the (named) drug use to the appropriate

external cause code for adverse effects of drugs in therapeutic use unless the drug is one not used for medical care purposes. Refer to Section V, Part R, 1, <u>Drugs, medicaments, biological substances causing adverse effects in therapeutic use (Y40-Y59)</u> for coding instructions.

(2) There is mention of drug poisoning anywhere on the certificate, code the (named) drug use to F11-F16, F18-F19, with fourth character "9," if listed in Volume 3 under Addiction/Dependence. If (named) drug is not indexed in Volume 3 under Addiction/Dependence, code F19, specified drug NEC with fourth character "9." Refer to Section V, Part Q, 2, Poisoning by drugs.

I (a) Chronic alcoholism F102 (b) (c)

Code drug use to F199. There is no complication reported due to the drug use.

F199

I (a) Cancer of pancreas C259

(b)

II Drug use

(C)

II Methadone use F119

<u>Code</u> methadone use to F119 as listed under Dependence in Volume 3. There is no complication reported due to the methadone use.

I (a) Systemic lupus erythematosus M329

(b)

(c)

II Steroid use

<u>Do not</u> scode steroid use. Steroid is not listed in Volume 3 under Addiction/Dependence and no complication is reported due to the steroid use.

I (a) Diabetes E139 (b) Steroid use Y427 (c)

II Rheumatoid arthritis &M069

<u>Code</u> the diabetes as a complication of the steroids given in therapeutic use for rheumatoid arthritis. Refer to Section V, Part R, 1, <u>Drugs, medicaments, biological substances causing adverse effects in therapeutic use (Y40-Y59)</u> for coding complications of drugs during therapeutic use.

I (a) Bacterial endocarditis &I330 (b) Use of morphine Y450

(c)

<u>Code</u> the bacterial endocarditis as a complication of the morphine given in therapeutic use. Precede the complication with an ampersand since the condition requiring the drug is not reported. Refer to Section V, Part R, 1, <u>Drugs, medicaments, biological substances causing adverse effects in therapeutic use (Y40-Y59)</u> for coding complications of drugs during therapeutic use.

Place I (a) Acute cocaine poisoning

9 (b)
(c)

MOD II Cocaine use
A
Accident Ingested cocaine

<u>Code</u> cocaine use to F149 as listed under Dependence in Volume 3 since reported on the certificate with drug poisoning. Refer to Section V, Part Q, 2, <u>Poisoning by drugs</u> for instructions in coding drug poisoning.

Place I (a) Respiratory failure J969
9 (b) Acute drug use F199
(c)
MOD II &X42 T402
A
Accident Overdose of morphine

Code acute drug use to F199 since reported on the certificate with drug poisoning.

Place I (a) Poisoning by drugs T509 &X44
9 (b)
(c)
II Use of sedatives F139

<u>Code</u> use of sedative to F139 as listed under Dependence in Volume 3 since reported on the certificate with drug poisoning.

19. Tobacco Use (F179)

Code F179 (Tobacco use)

When the certifier selects "Yes" or "Probably" in the tobacco box on the US Standard Certificate of Death.

Did tobacco use contribute to death?

	Yes		Probably			
	No		Unknown			
The F179	should fo	ollow the las	st code in Part II			
		` '	eumonia		J189	
		II COPD	ng cancer		C349 J449	F179
	Did toba	cco use co	ontribute to de	eath?		
	Yes	\bowtie	Probably			
	No		Unknown			

20. Psychotic Episode NOS (F239)

<u>Code</u> F068 (Psychotic episode, organic NEC)

When reported due to or on the same line with conditions classifiable to the following categories:

A000-E899	L88	R042-R048
F068	L920	R060-R065
G000-G98	L92-L932	R068
H600-H709	L951	R090-R091
H720-H739	L980-L981	R291
I00-J989	M000-N459	R54
K20-L109	N490-N809	R600-R609
L120-L449	N990-N992	R75
L510-L599	N994-Q999	
L710-L719	R02	

1	(a) TIA's with psychotic episodes	G459 F068
	(b) Cerebral arteriosclerosis	I672
	(c) Arteriosclerosis	I709

<u>Code</u> psychotic episode on I(a) F068, since reported on the same line with TIA (G459). It could also be coded to F068 since reported due to cerebral arteriosclerosis (I672).

21. Psychosis (any F29)

Code F09 (Psychosis, organic NEC)

When reported due to or on the same line with conditions classifiable to the following categories:

A000-E899 R75 S840-S899 T909

F09	S010-S029	S910-S929	T910
G000-G98	S040-S050	S940-S999	T911-T915

R54	S810-S829	T908	

Ι	(a) Pneumonia	J189	
	(b) Psychosis – cerebrovascular arteriosclerosis	F09	I672
	(c) Arteriosclerosis	I709	

22. Dissociative Disorder (F449)

Code F065 (Organic dissociative disorder)

When reported due to conditions classifiable to the following categories:

L88	R042-R048
L920	R060-R065
L928-L932	R068
L951	R090-R091
L980-L981	R291
M000-N459	R54
N490-N809	R600-R609
N990-N992	R75
N994-Q999	S000-Y899
R02	
	L920 L928-L932 L951 L980-L981 M000-N459 N490-N809 N990-N992 N994-Q999

Ι	(a) Dissociative disorder	F065
	(b) Remote subdural hematoma	T905
	(c) Car accident	&Y850

Code I(a) organic dissociative disorder, F065, since reported due to an injury.

I (a) Dissociative disorder

F065

(b) Senility

R54

<u>Code</u> I(a) <u>organic</u> dissociative disorder, F065, since reported due to senility.

23. Personality Disorder (F609), Personality Change (Enduring) (F629)

Code F070 (Organic personality disorder)

When reported due to conditions classifiable to the following categories:

A000-E899	N490-N809	S440-S499	T093-T10
F070	N990-Q999	S510-S529	T111
G000-G98	R54	S540-S599	T113-T12
I00-J989	R75	S610-S628	T131
K20-L109	S010-S029	S640-S699	T133-T139
L120-L449	S040-S050	S710-S729	T141-T142
L510-L599	S052-S099	S740-S799	T144-T329
L710-L719	S110-S129	S810-S829	T340-T349
L88	S140-S199	S840-S899	T351-T889

L951	S310-S328	T012-T029	T934-Y899
L980-L981	S340-S399	T041-T08	
M000-N459	S410-S429	T091	

PlaceI(a) Personality disorderF0709(b) Head injuryS099(c) Assault&Y09

Code I(a) organic personality disorder, F070, since reported due to a head injury.

I (a) Personality disorder F070 (b) Meningioma brain D320

<u>Code</u> I(a) <u>organic</u> personality disorder, F070, since reported due to a meningioma brain.

I (a) Personality change F070 (b) Jakob-Creutzfeldt Syndrome A810

<u>Code</u> I(a) <u>organic</u> personality disorder, F070, since reported due to Jakob-Creutzfeldt Syndrome.

24. Mental Disorder (any F99)

Code F069 (Organic mental disorder)

When reported due to or on the same line with conditions classifiable to the following categories:

A000-G98	M000-N459	S000-S199	T510-T519
H600-H709	N490-N809	T019	T66-T68
H720-H739	N990-N992	T028	T698-T758
I00-J989	N994-Q999	T029	T790-T799
K20-L109	R02	T049	T900-T911
L120-L449	R042-R048	T062	T913
L510-L599	R060-R065	T064	T918-T919
L710-L719	R068	T07-T08	T940-T950
L88	R090-R091	T093-T094	T958-T959

Ι	(a) Cardiorespiratory arrest	I469	
	(b) Heart failure	I509	
	(c) Multiple sclerosis and mental disorder	G35	F069

25. Parkinson's Disease (G20)

Advanced Parkinson's Disease (G2000)
Grave Parkinson's Disease (G2000)
Severe Parkinson's Disease (G2000)

a. Code G214 (Vascular parkinsonism)

When reported due to:

G214 I672-I673 I678-I679 I698 I709

I (a) Parkinsonism G214 (b) Arteriosclerosis I709

(c)

b. Code G219 (Secondary parkinsonism)

When reported due to:

A170-A179	B900	R75
A504-A539	B902	S000-T357
A810-A819	B91	T66-T876

B261	G300-G309	Y850-Y872
B375	I950-I959	Y881-Y899

Ι	(a) Parkinson's disease(b) Tuberculous meningitis(c)	G219 A170
Ι	(a) Secondary Parkinson's disease(b)(c)	G219

26. Cerebral Sclerosis (G379)

Code I672 (Cerebrovascular atherosclerosis)

a. When reported due to or on the same line with:

A500-A539	M100-M109
E000-E349	M300-M359
E660-E669	N000-N289
E700-E839	N390
E890-E899	Q600-Q619
I10-I150	Q630-Q639
I159	Q890-Q892
I672	R54
I700-I709	T383
I770	Y423
199	

b. When reported as causing:

1600-1679

1690-1698

Ι	(a) Cerebral edema (b) Cerebral sclerosis	G936 G379	
Ι	(a) Cerebral thrombosis (b) Cerebral sclerosis	I633 I672	
	(b) ecrebral scierosis	1072	
Ι	(a) ASHD	I251	
	(b) (c)		
II	Cerebral sclerosis, hypertension	1672	I10

27. Myopathy (G729)

Code I429 (Cardiomyopathy)

When reported due to:

A150-A1690	E648-E649	R54
A178	E660-E669	R75
A181	E740	T360-T66
A188	E760-E769	T97
B332	E831	X45
B560-B575	E880-E889	X65
B948	I00-I259	Y15
D500-D649	I300-I4290	Y400-Y599
D758	I514-I5150	Y842
E100-E149	I700-I709	Y86-Y872
E40-E519	P200-P220	Y883
E639	P916	
E641	R31	

Ι	(a) Myopathy	I429
	(b) ASHD	I251
	(c)	

Code I(a) cardiomyopathy, I429, since reported due to a specific heart condition.

28. Brain Damage, child (G809)

Code G939 (Brain damage)

When reported due to:

A000-F199	M000-N399	R400-R402
F200-F99	N700-N889	R54
G000-G98	O000-Q999	R560-R5800
H600-H749	R02	R600-R609
H950-J80	R040-R049	R630
J82-J989	R060-R068	R75
K700-K769	R090-R092	S000-Y899
L00-L989	R291	

Male, 11 years

I (a) Cardiac arrest I469 (b) Brain damage G809

<u>Since</u> the age of the decedent is less than 18 years of age and there is no indication of the cause of the brain damage, code G809, brain damage, child.

Male, 11 years

I (a) Brain damage G939 (b) Down's syndrome Q909

Since there is an indication of the cause of the brain damage, code brain damage, G939.

29. Paralysis (any G81, G82, or G83 excluding senile paralysis)

<u>Code</u> the paralysis for decedent age 28 days and over to G80 (Infantile cerebral palsy) with appropriate fourth character When reported due to:

P000-P969

Female, 3 months

I (a) Pneumonia 1wk J189 (b) Paraplegia 3 mos G808

(c) Injury spinal cord since birth P115

<u>Code</u> the paraplegia on I(b) to infantile paraplegia, G808, since reported due to an injury of the spinal cord since birth.

30. Cataract (H269)

Code H264 (Secondary cataract)

When reported due to:

A1C00	11260
A1690	H269
B200-B24	H579
E100-E149	R54
E160-E162	R75
E711	T66
E742	Y493
E830	Y540
E835	Y576
H264	

Ι	(a) CVA	I64
	(b) Cataract	H264
	(c) Diabetes	E149

Code I(b), secondary cataract, H264, since reported due to diabetes (E149).

31. Varices NOS and Bleeding Varices NOS (1839)

Code (a) I859 (Esophageal varices) or

(b) I850 (Bleeding esophageal varices)

When reported due to or on same line with:

Alcoholic diseases classified to: F100-F109

Liver diseases classified to: B150-B199, B251, B942, K700-K769

Toxic effect of alcohol classified to: T510-T519, T97

Ι	(a) Varices	I859
	(b) Cirrhosis of liver	K746

I (a) Bleeding varices I850 (b) Cirrhosis of liver K746

32. Pneumoconiosis (J64)

Code J60 (Coal worker's pneumoconiosis)

When Occupation is reported as:

Coal miner

Coal worker

Miner

Occupation: Coal Miner

I (a) Bronchitis J40 (b) Pneumoconiosis J60

33. Alveolar Hemorrhage (Diffused) (K088)

Code R048 (Lung hemorrhage)

When reported anywhere on record with:

A000-J989	S017-S023
K20-Q379	S026-S028
Q390-R825	S033
R826	S035-S098
R827-R892	S100-Y899
R893	
R894-R961	

R894-R961 R98-S014

> I (a) Respiratory Failure J969 (b) Alveolar Hemorrhage R048

<u>Code</u> I(b) lung hemorrhage, R048, since alveolar hemorrhage is reported on the record with a condition classified to J969

34. Diaphragmatic Hernia in K44

Code Q790 (Congenital diaphragmatic hernia)

When reported as causing hypoplasia or dysplasia of lung NOS (Q336).

I (a) Lung dysplasia Q336 (b) Diaphragmatic hernia Q790 (c)

35. Laennec's Cirrhosis NOS (K703)

Code K746 (Nonalcoholic Laennec's cirrhosis)

When reported due to:

A000-B99	K710-K718	Y574-Y599
C000-D539	K730-K760	Y640
D730-D739	K761	Y86
E02-E0390	K763	Y870-Y872
E100-E149	K768-K851	Y880

K700-K718	Y640
K730-K760	Y86-Y880
K761	Y881

I (a) Biliary cirrhosis

K745

(b)

(c)

Ι	(a) Primary biliary cirrhosis(b)(c)	K743
Ι	(a) Secondary biliary cirrhosis(b)(c)	K744
Ι	(a) Biliary cirrhosis (b) Carcinoma pancreas (c)	K744 C259

37. Lupus Erythematosus (L930), Lupus (L930)

Code M321 (Systemic lupus erythematosus with organ or system involvement)

When reported as causing a disease of the following systems:

Anemia

Circulatory (including cardiovascular, lymph nodes, spleen)

Gastrointestinal

Musculoskeletal

Respiratory

Thrombocytopenia

Urinary

Ι	(a) Nephritis	N059
	(b) Lupus erythematosus	M321
	(c)	

38. Gout (M109)

Code M104 (Secondary gout)

When reported due to:

B200-B24	L578-L589
C880-C959	L930-L932
D45	L945
D550-D599	L951
D751	L981
D758	M100-M109
E168	R75

L120-L449 Y86-Y872 L510-L569

Ι	(a) Perforated gastric ulcer	K255
	(b) Gout	M104
	(c) Waldenstrom's macroglobulinemia	C880

39. Polyarthrosis (M159)

Code M153 (Secondary multiple arthrosis)

When reported due to:

A399 B200-B24 E660-E669 G810-G839 M150-M1990 N924 N950-N959 R54

R54 R75 S000-T983

> I (a) Hypostatic pneumonia J182 (b) Polyarthrosis M153 (c) Obesity E669

Code I(b) secondary multiple arthrosis, M153, since reported due to obesity.

40. Coxarthrosis (M169)

<u>Code</u> (a) M166 (Coxarthrosis, secondary, bilateral):

(b) M167 (Coxarthrosis, secondary, NEC, (unilateral))

When reported due to:

I (a) PneumoniaJ189(b) DebilityR53(c) CoxarthrosisM167(d) PolyarthrosisM159

Code I(c) secondary coxarthrosis, M167, since reported due to polyarthrosis (M159).

41. Gonarthrosis (M179)

Code (a) M174 (Secondary gonarthrosis, bilateral):(b) M175 (Secondary gonarthrosis, (unilateral))

When reported due to:

A399 B200-B24 E660-E669 G810-G839 M150-M171 M174-M1990 N924 N950-N959 R54 R75

I (a) Pneumonia, gonarthrosis J189 M175 (b) Hemiplegia G819 (c) Old CVA I694

Code I(a) secondary gonarthrosis, M175, since reported due to hemiplegia.

42. Arthrosis (M199)

Code M192 (Secondary arthrosis)

When reported due to:

A399 B200-B24 E660-E669 G810-G839 M150-M190 M192-M1990 N924 N950-N959 R54 R75

> I (a) Pathological fractures M844 (b) Arthrosis M192 (c) Senility R54

<u>Code</u> I(b) secondary arthrosis, M192, since reported due to senility.

43. Kyphosis (M402)

Code M401 (Secondary kyphosis)

When reported due to:

A1690	E890-E899	M359-M489
A180	G110-G119	M800-M949
B902	G20-G2000	M960-M969
B91	G35-G379	Q050-Q059

(b) Menorrhagia with dysmenorrhea
(c) Cancer of endocervix

D649 K259
N920 N945
C530

<u>Code</u> I(b) secondary dysmenorrhea, N945, since reported due to cancer of endocervix (C530).

47. Cesarean Delivery for Inertia Uterus (0622)

Hypotonic Labor (O622)

Hypotonic Uterus Dysfunction (O622)

Inadequate Uterus Contraction (O622)

<u>Uterine Inertia During Labor (O622)</u>

Code O621 (Secondary uterine inertia)

When reported due to:

O100-O209	0440-0469
0230-0249	0621
0260-0264	0670-0679
O266-O269	O95
O310	0980-0998
0330-0349	

Ι	(a) Cardiac arrest	O754
	(b) Uterine inertia	O621
	(c) Diabetes mellitus of pregnancy	0249

<u>Code</u> I(b) secondary uterine inertia, O621, since reported due to diabetes mellitus of pregnancy (O249).

48. Brain Damage, newborn (P112)

Code P219 (Anoxic brain damage, newborn)

When reported due to:

A000-P029 P040-P082 P132-P158 P200-R825 R826 R827-R892 R893 R894-R961 R98

Male, 9 hours

I (a) Brain damage P219 (b) Congenital heart disease Q249

Code I(a) anoxic brain damage, P219, since reported due to congenital heart disease.

49. Intracranial Nontraumatic Hemorrhage of Fetus and Newborn (P52)

<u>Code</u> P10 (Intracranial laceration and hemorrhage due to birth injury) with the appropriate fourth character When reported due to:

P030-P039 P100-P112 P119 P130-P131 P159

Male, 9 hours

I (a) Cerebral hemorrhage P101
(b) Fractured skull during birth P130

<u>Code</u> I(a) cerebral hemorrhage due to birth injury, P101, since reported due to a fracture skull occurring during birth.

Female, 2 weeks

I (a) Cerebral hemorrhage P101 (b) Birth injury P159 (c)

Code I(a) cerebral hemorrhage due to birth injury, P101.

50. Septal Defect, (atrial), (auricular), (heart), (ventricular), (Q210, Q211, Q212, Q219)

Code I510 (Acquired septal defect) providing there is no indication the defect is congenital

a. When reported due to:

A000-A099	I400-I519	N990-N999	R502-R509
A181	I700-J80	P000-P049	R53-R54
A200-B89	J82-J989	P100-Q079	R560-R609

100-1029	N000-N399	R222	
I10-I339	N600-N96	R300-R398	

b. When reported on the same line with:

I110-I119 I130-I139 I200-I339 I400-I519

1469
I510
I219

51. Hypoplasia or Dysplasia of Lung NOS (Q336)

Code P280 (Primary atelectasis of newborn)

When reported anywhere on the record with the following codes and not reported due to diaphragmatic hernia in K44.

A500-A509 B200-B24 P000-P009 P011-P013 P050-P073 P220-P229 P280 P350-P399 P612 Q600-Q611 Q613-Q649

R75

I (a) Hypoplasia lung P280

(b)

II Prematurity P073

Female, 5 hrs.

I (a) Dysplasia of lung 5 hrs Q336

(b)

II Hyaline membrane disease P220

<u>Code</u> Q336, since the duration and age are the same indicating the condition was congenital.

52. Injury (S000-T149)

Code P10-P15 (Birth trauma)

a. When the age of decedent is less than 28 days

AND

b. There is no mention of external cause

AND

c. Reported due to a condition in P000-P969

Male, 5 days

I (a) Femur fracture P132 (b) Breech delivery P030

<u>Code</u> femur fracture as indexed under Birth, injury, fracture, femur.

53. Fracture (any site) (T142)

Code M844 (Pathological fracture)

a. When reported due to:

A180	D160-D169	M320-M351	M854-M879	Q799
A500-A509	D480	M359	M893-M895	T810-T819
A521	D489	M420-M429	M898-M939	T840-T849
A527-A539	E210-E215	M45-M519	M941-M949	T870-T889
A666	E550-E559	M600	M960	

C000-C399	E896-E899	M843-M851	M966-M969
C430-C794	G120-G129		Q770-Q789
C796-C97	M000-M1990		

b. When reported due to or on the same line with:

C40-C41	M80-M81	M88
C795	M83	

NOTE 1: If accident box is checked, do not enter an external cause code.

NOTE 2: If a fracture qualifies as pathological, all fractures reported of the same site will be coded pathological as well.

Ι	(a) Fracture hip (b) Osteoarthritis	M844 M199		
Ι	(a) Myocardial infarction (b) ASHD (c)	I219 I251		
II	Fracture of spine due to arthritis causing fall	M844	M139	W19
Ι	(a) Pneumonia (b) Osteoporosis fracture spine	J189 M819	M844	
Ι	(a) Pneumonitis (b) Arteriosclerosis (c) Fracture femur	J189 I709 M844		
Π	(-)			

MOD ^

Accident

Spontaneous in bed

<u>Code</u> fracture of femur as pathological, M844, since the certifier indicated it was spontaneous. Do not enter code for "accident" in checkbox.

Ι	(a) Aspiration pneumonia	J690
	(b) Left hip fracture	M844
	(c)	

II Hip fracture, anemia, osteoporosis M844 D649 M819

<u>Code</u> the hip fracture on (b) and in Part II as pathological, applying instruction b and note 2.

54. Starvation NOS (T730)

Code E46 (Malnutrition NOS)

When reported due to:

A000-E649	L100-L129	R13	T058
E670-F509	L400-L409	R54	T065-T08

I	(a) Compartment syndrome	M622
	(b) Hemorrhagic pancreatitis	K859

 $\underline{\text{Code}}\ \text{I(a)}\ \text{M622}$ since reported due to pancreatitis.

SECTION IV - CLASSIFICATION OF CERTAIN ICD CATEGORIES

General information

Separate categories are provided in ICD-10 for coding malignant primary and secondary neoplasms (C00-C96), carcinoma in situ (D00-D09), benign neoplasms (D10-D36), and neoplasms of uncertain or unknown behavior (D37-D48). Categories and subcategories within these groups identify sites and/or morphological types.

Morphology describes the difference in type and structure of cells or tissues (histology) as seen under the microscope and behavior. The ICD classification of neoplasms consists of several major morphological groups (types) of neoplasms including the following:

Carcinomas including squamous cell carcinoma and adenocarcinoma Sarcomas and other soft tissue tumors including mesotheliomas Lymphomas including Hodgkin's lymphoma and non-Hodgkin's lymphoma Site specific types (types that indicate the site of the primary neoplasm) Leukemias

Other specified morphological groups

The morphological types of neoplasms are listed in ICD-10 following Chapter XX in Volume 1 and also appear in Volume 3. Morphology, behavior, and site must all be considered when coding neoplasms. This may take the form of a reference to the appropriate column in the "Neoplasm" listing in the Index when the morphological type could occur in several organs. For example:

Adenoma, villous (M8261/1) - see Neoplasm, uncertain behavior

Or to a particular part of that listing when the morphological type originates in a particular type of tissue. For example:

Fibromyxoma (M8811/0) - see Neoplasm, connective tissue, benign

The Index may give the code for the site assumed to be most likely when no site is reported for a morphological type. For example:

Adenocarcinoma

- pseudomucinous (M8470/3)
- - specified site see Neoplasm, malignant
- - unspecified site C56

Or the Index may give a code to be used regardless of the reported site when the vast majority of neoplasms of that particular morphological type occur in a particular site. For example:

Nephroma (M8960/3) C64

Always look up the morphological description in the Index before referring to the listing under "Neoplasm" for the site.

The morphological code numbers consist of five characters: the first four identify the histological type of the neoplasm and the fifth, following a slash, indicates its behavior. These morphological codes (M codes) are not used by NCHS for coding purposes.

The behavior of a neoplasm is an indication of how it will act. The following terms describe the behavior of neoplasms:

Malignant, primary site (capable of rapid growth C00-C76,

and of spreading to nearby and distant sites)	C80-C96
Malignant secondary (spread from another site; metastases)	C77-C79
In-situ (confined to one site)	D00-D09
Benign (non-malignant)	D10-D36
Uncertain or unknown behavior (undetermined whether benign or malignant)	D37-D48

Unless it is specifically indexed, code a morphological term ending in "osis" in the same way as the tumor name to which "osis" has been added is coded. For example, code neuroblastomatosis in the same way as neuroblastoma. However, do not code hemangiomatosis that is specifically indexed to a different category in the same way as hemangioma.

All combinations of the order of prefixes in compound morphological terms are not indexed. For example, the term "chondrofibrosarcoma" does not appear in the Index, but "fibrochondrosarcoma" does. Since the two terms have the same prefixes (in a different order), code the chondrofibrosarcoma the same as fibrochondrosarcoma.

A. Malignant neoplasms (C00-C96)

The categories that have been provided for the classification of malignant neoplasms distinguish between those that are stated or presumed to be primary (originate in) of the particular site or types of tissue involved, those that are stated or presumed to be secondary (deposits, metastases, or spread from a primary elsewhere) of specified sites, and malignant neoplasms without specification of site. These categories are the following:

C00-C75	Malignant neoplasms, stated or presumed to be primary, of specified sites and different types of tissue, except lymphoid, hematopoietic, and related tissue
C76	Malignant neoplasms of other and ill-defined sites
C77-C79	Malignant secondary neoplasm, stated or presumed to be spread from another site, metastases of sites, regardless of morphological type of neoplasm
C80	Malignant neoplasm of unspecified site (primary) (secondary)
C81-C96	Malignant neoplasms, stated or presumed to be primary, of lymphoid, hematopoietic, and related tissue

In order to determine the appropriate code for each reported neoplasm, a number of factors must be taken into account including the morphological type of neoplasm and qualifying terms. Assign all malignant neoplasms to the appropriate category for the morphological type of neoplasm, i.e., to the code shown in the Index for the reported term. **Morphological types** of neoplasm include categories C40-C41, C43, C44, C45, C46, C47, C49, C70-C72, and C80. Specific morphological types include:

C40-C41 Malignant neoplasm of bone and articular cartilage of other and unspecified sites

Osteosarcoma Osteochondrosarcoma Osteofibrosarcoma

Any neoplasm cross-referenced as "See also Neoplasm bone, malignant"

I (a) Osteosarcoma of leg C402

<u>Code</u> the morphological type "Osteosarcoma" to Neoplasm, malignant, bone of the specified site as cross-referenced.

C43 Malignant melanoma of skin

Melanosarcoma

Melanoblastoma

Any neoplasm cross-referenced as "See also Melanoma"

I (a) Melanoma of arm

C436

Based on the note in the Index, code melanoma of arm as indexed under **Melanoma**, **site classification**.

I (a) Melanoma of stomach

C169

Melanoma of stomach is not found under Melanoma in the Index. The term should be coded by site under Neoplasm, malignant.

C44 Other malignant neoplasm of skin

Basal cell carcinoma

Sebaceous cell carcinoma

Any neoplasm cross-referenced as "See also Neoplasm skin, malignant"

I (a) Sebaceous cell carcinoma nose

C443

<u>Code</u> the morphological type "Sebaceous cell carcinoma" to Neoplasm, malignant, skin of the specified site as cross-referenced.

C49 Malignant neoplasm of other connective and soft tissue

Liposarcoma

Rhabdomyosarcoma

Any neoplasm cross-referenced as "See also Neoplasm, connective tissue, malignant"

I (a) Rhabdomyosarcoma abdomen

C494

<u>Code</u> the morphological type "Rhabdomyosarcoma" to Neoplasm, malignant, connective tissue of the specified site as cross-referenced.

I (a) Sarcoma pancreas

C259

<u>Code</u> the morphological type "Sarcoma" to Neoplasm, malignant, connective tissue of the specified site as cross-referenced. Refer to the "Note" under Neoplasm, malignant, connective tissue concerning sites that do not appear in this list.

C80 Malignant neoplasm without specification of site

Cancer

Carcinoma

Malignancy

Malignant tumor or neoplasm

Any neoplasm cross-referenced as "See also Neoplasm, malignant"

I (a) Carcinoma of stomach

C169

<u>Code</u> the morphological type "Carcinoma" to Neoplasm, malignant, stomach as indexed.

I (a) Cancer prostate

C61

<u>Code</u> the morphological type "Cancer" to Neoplasm, malignant, prostate as indexed.

I (a) Adenosarcoma breast

C509

<u>Code</u> the morphological type "Adenosarcoma" to Neoplasm, malignant, of the specified site as cross-referenced.

C81-C96 Malignant neoplasms of lymphoid, hematopoietic, and related tissue

Leukemia

Lymphoma

I (a) Lymphoma of brain

C859

<u>Code</u> Lymphoma NOS, C859, as indexed. Neoplasms in C81-C96 are coded by morphological type and not by site.

1. Neoplasms stated to be secondary

Categories C77-C79 include secondary neoplasms of specified sites regardless of the morphological type of the neoplasm. The Index contains a listing of secondary neoplasms of specified sites under "Neoplasm." Secondary neoplasms of specified sites without indication of the primary site require an additional code to identify the morphological type of neoplasm if the morphological type is classifiable to one of the following categories: C40, C41, C43, C44, C45, C46, C49, C70, C71, and C72.

I (a) Secondary melanoma of lung

C439 C780

Melanoma is classified to C43; therefore, when stated secondary of a site, code Melanoma, unspecified site and secondary neoplasm of the reported site.

I (a) Secondary carcinoma of intestine

C785

The morphological type of the term "carcinoma" is C80; therefore, code a secondary neoplasm code only.

2. <u>Malignant neoplasms with primary site indicated</u>

NOTE: If two or more malignant neoplasms are indicated as primary, refer to instructions under 5. Independent (primary) sites.

- a. If a particular site is indicated as primary, it should be coded as primary and other neoplasms coded as secondary whether in Part I or Part II. The primary site may be indicated in one of the following ways:
 - (1) If two or more sites with the same morphology are reported, and one site is specified as primary in either Part I or II

I (a) Carcinoma of bladder C791
II Primary in kidney C64

Code carcinoma of bladder as secondary and code primary malignant neoplasm of kidney.

I (a) Primary cancer of lung C349 (b) Cancer of breast C798

<u>Code</u> primary malignant neoplasm of lung and code cancer of breast as secondary.

NOTE: This also applies when the same site is reported more than once and qualified as primary

I (a) Met lung cancer C780
II (b) Primary lung cancer C349

<u>Code</u> metastatic lung cancer on I(a) as secondary and code primary malignant cancer of lung on I(b).

(2) The specification of other sites as "secondary," "metastases," "metastasis," "spread," or a statement of "metastasis NOS" or "metastases NOS"

I (a) Carcinoma of breast C509 (b) Secondaries in brain C793

<u>Code</u> I(a) primary malignant neoplasm of breast, and I(b) to secondary malignant neoplasm of brain.

I (a) Stomach metastases C788 (b) Lung cancer C349

Code I(a) secondary neoplasm of stomach and I(b) primary malignant neoplasm of lung.

I (a) Brain metastases C793
(b) Liver cancer C229

Code I(a) secondary neoplasm of brain and I(b) primary malignant neoplasm of liver.

I (a) Lung cancer with metastases C349 C80

Code I(a) primary cancer of lung followed by the NOS code for metastases.

(3) Morphology indicates a primary malignant neoplasm

If a morphological type implies a primary site, such as hepatoma, consider this as if the word "primary" had been included.

I (a) Hepatoma C220

Code hepatoma as a primary neoplasm.

I (a) Carcinoma C80 (b) Pseudomucinous C56 adenocarcinoma

<u>Code</u> I(a) Carcinoma as neoplasm malignant, unspecified site. Code I(b) to primary malignant neoplasm of ovary, since pseudomucinous adenocarcinoma of unspecified site is assigned to the ovary in the Index.

b. If a morphological type of malignant neoplasm indicating primary is reported in Part I or Part II with a different morphological type of malignant neoplasm that is stated primary, consider both neoplasms to be primary.

I (a) Sarcoma of thigh C492
II Primary liver carcinoma C229

<u>Code</u> each neoplasm as indexed. Both I(a) Sarcoma of thigh and Part II Primary liver carcinoma are primary malignant neoplasms.

3. Site specific neoplasms

- a. Certain neoplasms are classified or indexed directly to a specific site. Classify morphological types of neoplasms that appear in the Index with specific codes (site specific neoplasms) e.g. "Hepatocarcinoma (M8170/3) C220," as indexed.
 - I (a) Renal cell carcinoma C64

Code renal cell carcinoma as indexed.

b.	If there is a conflict between the code for a site specific neoplasm and the stated site, code the
	site specific neoplasm as indexed and code the stated site as secondary. Enter the code for the
	secondary neoplasm on the same line with and immediately following the code for the site specific
	neoplasm.

I (a) Hepatocarcinoma of brain

C220 C793

<u>Code</u> hepatocarcinoma as indexed and code secondary malignant neoplasm of brain as the second entry on I(a).

c. When a site specific neoplasm is reported due to the same site specific neoplasm, code each as indexed.

I (a) Bronchogenic carcinoma

C349

(b) Bronchogenic carcinoma

C349

<u>Code</u> I(a) and I(b) to bronchogenic carcinoma, as indexed.

d. If the only thing reported is a site specific neoplasm and a malignant neoplasm of the same site, with or without metastases, code both as primary.

I (a) Hepatocellular cancer

C220

(b) Liver cancer

C349

Code both the hepatocellular cancer and liver cancer as primary.

I (a) Oat cell cancer

C349

(b) Lung cancer

C349

Code both the oat cell cancer and lung cancer as primary.

I (a) Liver cancer and hepatocellular carcinoma with mets

C229 C220 C80

<u>Code</u> both the liver cancer and hepatocellular carcinoma as primary. Code metastases to NOS as indexed.

4. Other morphological types of neoplasms

If adenocarcinoma, cancer, carcinoma, neoplasm (malignant) or tumor (malignant) of a site, except neoplasms classifiable to C81-C96, are reported due to a morphological type of neoplasm of unspecified site, code the neoplasm on the upper line qualified by the morphological type, and do not enter a code for the morphological type of unspecified site on the lower line if:

a. The morphological type of neoplasm reported on the lower line is C80.

I (a) Tumor of upper lung

C341

(b) Carcinoma

<u>Code</u> the tumor on I(a) modified by the morphological type (C80) on I(b). Leave line I(b) blank.

I (a) Cancer of bladder

C679

(b) Papillary carcinoma

<u>Code</u> the cancer on I(a) modified by the morphological type (C80) on I(b). Leave line I(b) blank.

- b. The morphological type of neoplasm of unspecified site on the lower line is classified to the same site as the neoplasm on the upper line.
 - I (a) Cancer of brain

C719

(b) Astrocytoma

 $\underline{\text{Code}}$ the specified site on I(a) modified by the morphological type of unspecified site on I(b) since they are classified to the same site. Leave I(b) blank.

I (a) Adenocarcinoma of stomach

C169

(b) Linitis plastica

<u>Code</u> the specified site on I(a) modified by the morphological type of unspecified site on I(b) since they are classified to the same site. Leave I(b) blank.

- c. The morphological type of neoplasm of unspecified site on the lower line is classified according to the site affected, e.g., the malignant neoplasms classifiable to the following categories: C40, C41, C43, C44, C47, C49, C70, C71, and C72. Code the neoplasm on the upper line qualified by the morphological type on the lower line, and do not enter a code for the morphological type of unspecified site on the lower line.
 - I (a) Adenocarcinoma of face

C433

(b) Melanoma

Code melanoma of face on I(a) and leave I(b) blank.

I (a) Carcinoma of leg

C492

(b) Fibroliposarcoma

Code fibroliposarcoma of leg on I(a) and leave I(b) blank.

5. Independent (primary) sites

The presence of more than one primary neoplasm could be indicated in one of the following ways:

- mention of two different anatomical sites
- or two distinct morphological types (e.g., hypernephroma and intraductal carcinoma)
- or by a mix of a morphological type that implies a specific site, plus a second site.

It is highly unlikely that one primary would be due to another primary malignant neoplasm except for a group of malignant neoplasms of lymphoid, hematopoietic, and related tissue (C81-C96), within which, one form of malignancy may terminate in another (e.g., leukemia may follow non-Hodgkin's lymphoma).

a. If two or more sites are mentioned in Part I and there is no indication that either site is primary or secondary, code each site as indexed.

I (a) Cancer of stomach

3 months C169

(b) Cancer of breast

1 year C509

<u>Code</u> to primary malignant neoplasm of each site mentioned, since it is unlikely that one primary malignant neoplasm would be due to another.

I (a) Carcinoma of colon and rectum

C189 C20

<u>Code</u> both sites as primary and enter both on I(a).

b. If two or more morphological types of malignant neoplasm occur, one reported due to the other or reported anywhere on the record, code each as indexed.

I (a) Lymphosarcoma of mesentery

C850

II Adenocarcinoma of cecum

C180

<u>Code</u> each as though the other had not been reported since there are two different morphological types of malignant neoplasms.

I (a) Cancer of esophagus

C159

(b) Hodgkin's sarcoma

C817

<u>Code</u> the cancer of the esophagus as primary and code the Hodgkin's sarcoma as indexed. They are different morphological types.

I (a) Leukemia

C959

II Carcinoma of breast

C509

<u>Code</u> each neoplasm as indexed. Two different morphological types are mentioned.

c. If two or more morphological types of malignant neoplasm occur in lymphoid, hematopoietic, or related tissue (C81-C96), code each as indexed. When acute exacerbation of, or blastic crisis (acute) in, chronic leukemia is reported, code both the acute form and chronic form. If stated acute and chronic, code both as indexed.

I (a) Acute lymphocytic leukemia

C910

(b) Non-Hodgkin's lymphoma

C859

<u>Code</u> each as indexed since both are morphological types classified within the categories C81-C96.

I (a) Chronic lymphocytic leukemia with blastic crisis

C911 C910

<u>Code</u> both chronic lymphocytic leukemia and acute lymphocytic leukemia.

I (a) Acute exacerbation of chronic

C910 C911

(b) lymphocytic leukemia

<u>Code</u> to the acute and chronic form when reported as acute exacerbation of a chronic form of leukemia and code both on the same line.

d. Do not use a neoplasm in a due to position to determine secondary and primary.

I (a) Carcinoma of head of pancreas

C250

(b) Carcinoma of tail of pancreas

C252

<u>Code</u> primary malignant neoplasm of head of pancreas for I(a) and code primary malignant neoplasm of tail of pancreas for I(b).

I (a) Cancer of stomach

C169

(b) Cancer of gallbladder

C23

<u>Code</u> each site primary.

I (a) Cancer of breast

C509

(b) Cancer of endometrium

C541

Code each site primary.

6. Metastases

Metastases is the spread of a primary malignant neoplasm to another site; therefore, metastases of a site is always secondary.

- a. When malignancy NOS or any morphological type classifiable to C80 is reported with metastases of a site on a line, code C80 and the secondary neoplasm.
 - I (a) Malignancy with metastases of bladder

C80 C791

Code malignancy as first entry on I(a) and code secondary bladder neoplasm as the second

neoplasm on I(a).

b. Although malignant cells can metastasize anywhere in the body, certain sites are more common than others and must be treated differently. If one of the common sites of metastases (excluding lung) is qualified by the word "metastatic," it should be coded as secondary (see other neoplasm instructions). However, if one of these sites appears alone on a death certificate and is not qualified by the word "metastatic," it should be considered primary.

Common sites of metastases:

Bone Lymph nodes
Brain Mediastinum
Central nervous system Meninges
Diaphragm Peritoneum
Heart Pleura

Liver Retroperitoneum
Luna Spinal cord

Ill-defined sites (sites classifiable to C76)

I (a) Cancer of brain

C719

<u>Code</u> primary cancer of brain since it is reported alone on the certificate.

(1) Special Instruction: Lung

The lung poses special problems in that it is a common site for both metastases and primary malignant neoplasms.

- Lung should be considered as a common site of metastases whenever it appears in Part I with sites not on this list.
- If lung is mentioned anywhere on the certificate and the only other sites are on the list of common sites of metastases, consider lung primary.
- However, when the bronchus or bronchogenic cancer is mentioned, this neoplasm should be considered primary.

I (a) Carcinoma of lung

C349

<u>Code</u> primary malignant neoplasm of lung since it is reported alone on the certificate.

I (a) Cancer of bone

C795

(b) Carcinoma of lung

C349

<u>Code</u> primary malignant neoplasm of lung on I(b) since bone is on the list of common sites of metastases and lung can, therefore, be assumed to be primary.

I (a) Carcinoma of bronchus

C349

(b) Carcinoma of breast

C509

<u>Code</u> primary malignant neoplasm of bronchus on I(a) and primary malignant neoplasm of breast on I(b). Do not code I(a) as secondary malignant neoplasm, because bronchus is excluded from the list of common sites.

• (2) <u>Special Instruction: Lymph Node</u>

Malignant neoplasm of lymph nodes not specified as primary should be assumed to be secondary.

I (a) Cancer of cervical lymph nodes

C770

<u>Code</u> secondary malignant neoplasm of cervical lymph nodes.

7. Multiple sites

a. If all sites reported (anywhere on certificate) are on the list of common sites of metastases, code to secondary neoplasm of each site of the morphological type involved, unless lung is mentioned, in which case code to (C349) primary malignant neoplasm of lung.

I (a) Cancer of liver

C787

(b) Cancer of abdomen

C798

<u>Code</u> to secondary neoplasm of both sites since both are on the list of common sites of metastases. Abdomen is one of the ill-defined sites included in the C76.- category.

I (a) Malignant carcinoma of pleura and mediastinum

C782 C781

<u>Code</u> secondary malignant neoplasm of pleura and secondary malignant neoplasm of mediastinum on I(a).

I (a) Peritoneal carcinoma

C786

II Liver carcinoma

C787

<u>Code</u> secondary malignant neoplasm of peritoneum on I(a) and secondary malignant neoplasm of liver in Part II.

I (a) Cancer of brain

C793

(b) Cancer of lung

C349

<u>Code</u> I(a) secondary cancer of brain since brain is on the list of common sites. Code I(b) primary cancer of lung because the only other site mentioned is on the list of common sites.

b. If one or more of the common sites of metastases, excluding lung, is reported and one or more site(s) or one or more morphological type(s) is mentioned on the certificate, none specified as

primary, code the common site(s) secondary and the other site(s) or morphological type(s) primary.

I (a) Cancer of stomach C169 (b) Cancer of liver C787

<u>Code</u> I(a) primary cancer of stomach and code I(b) secondary cancer of liver since liver is on the list of common sites and stomach is not.

I (a) Liver cancer C787
(b) Bladder cancer C679
(c) Colon cancer C189

<u>Code</u> I(a) secondary neoplasm of liver since liver is on the list of common sites of metastases. <u>Code</u> I(b) and I(c) as primary.

I(a) Peritoneal cancerC786IIMammary carcinomaC509

<u>Code</u> I(a) secondary peritoneal cancer since peritoneum is on the list of common sites. Code Part II primary carcinoma of breast.

I (a) Brain carcinoma C793
II Melanoma of scalp C434

<u>Code</u> I(a) secondary brain carcinoma since brain is on the list of common sites. Code Part II melanoma of scalp.

NOTE: If a malignant neoplasm of lymphatic, hematopoietic, or related tissue (C81-C96) is reported in one part and one of the common sites is mentioned in the other part, code the common site primary.

I (a) Brain cancer C793 (b) Lymphoma C859

<u>Code</u> I(a) secondary brain cancer since brain is on the list of common sites and is reported in the same part with a neoplasm indexed to C859.

I (a) Brain cancer C719
II Lymphoma C859

<u>Code</u> I(a) primary brain cancer. Brain is on the list of common sites of metastases, but it is reported in one part and a neoplasm indexed to C859 is reported in the other part.

c. If lung is mentioned in the same part with another site(s), not on the list of common sites, or one or more morphological type(s), code the lung as secondary and the other site(s) primary.

I (a) Lung cancer C780 (b) Stomach cancer C169

<u>Code</u> secondary lung cancer on I(a) and code primary stomach cancer on I(b) since both are in the same part.

I (a) Lung cancer C780 (b) Leukemia C959

<u>Code</u> secondary lung cancer on I(a) and code leukemia on I(b) since both are in the same part.

I (a) Bladder carcinoma C679
II Lung cancer, breast cancer C780 C509

<u>Code</u> I(a) primary bladder carcinoma and code primary breast cancer in Part II. Code secondary lung cancer in Part II. Lung is in the same part with another site.

d. If lung is mentioned in one part, and one or more site(s), not on the list of common sites, or one or more morphological type(s) is mentioned in the other part, code the lung as primary and the other site(s) or other morphological type primary.

I (a) Stomach cancer C169
II Lung cancer C349

<u>Code</u> primary stomach cancer on I(a) and code primary lung cancer in Part II. Lung is mentioned in one part and the other site is mentioned in the other part.

I (a) Leukemia C959
II Lung cancer C349

<u>Code</u> leukemia on I(a) and code primary lung cancer in Part II. Lung is mentioned in one part and the other morphological type is mentioned in the other part.

8. Metastatic neoplasms

The adjective "metastatic" is used in two ways—sometimes meaning a secondary neoplasm from a primary elsewhere and sometimes denoting a primary that has given rise to metastases. Neoplasms qualified as metastatic are **always** malignant, either primary or secondary. In order to avoid confusion, use the following to determine whether to code a metastatic neoplasm as primary or secondary.

- a. Malignant neoplasm described as "from" or "metastatic from" a specified site should be interpreted as primary of that site and all other sites should be coded as secondary unless stated as primary whether in Part I or Part II.
 - I (a) Metastatic teratoma from ovary C80

b.

c.

ΙΙ

(b) C260

I (a) Metastatic cancer from bowel to liver

ctatament of	nriman,	and	codo	T/h)	nriman,	cancor	of howal
statement of	primary	ana	coae	$\mathbf{I}(\mathbf{D})$	brimarv	cancer c	or bowei.

I (a) Metastatic cancer from liver to abdomen

C798

(b) C229

<u>Code</u> secondary malignant neoplasm of abdomen on I(a) and primary malignant neoplasm of liver on I(b).

I (a) Malignant neoplasm of bone from leg

C795

(b)

C765

<u>Code</u> I(a) secondary bone neoplasm. Interpret metastatic neoplasm of bone from leg to be a statement of primary and code I(b) primary malignant neoplasm of leg.

d. Malignant neoplasm described as (of) a site to a site should be interpreted as primary of the site preceding "to a site" and all other sites should be coded as secondary unless stated as primary, whether in Part I or Part II.

I (a) Cancer of breast

C509

(b) Metastatic to mediastinum

C781

<u>Code</u> I(a) to primary malignant neoplasm of breast and I(b) to secondary malignant neoplasm of mediastinum since it is reported as "metastatic to." Enter the codes on the lines where reported.

I (a) Metastatic liver cancer to the brain

C229 C793

II Esophageal cancer

C788

<u>Code</u> liver cancer as primary since it is the site preceding "to a site" and code other sites as secondary.

- e. If the morphological type of neoplasm classifiable to one of the following categories: C40, C41, C43, C44, C45, C46, C49, C70, C71, and C72 is described as "to a site" or "metastatic to a site," code the morphological type of unspecified site and code the site that follows as secondary.
 - I (a) Metastatic osteosarcoma to brain

C419 C793

<u>Code</u> to malignant neoplasm of bone since this is the unspecified site of osteosarcoma. Code secondary brain neoplasm.

f. Consider any form of the following terms as synonymous with "metastases or metastatic to" when these terms follow or are reported as due to a malignant neoplasm classifiable to C00-C76, C80, C81-C96.

Extension Infiltration

Invasion in,
Involvement into, of,
Metastatic or to another site
Secondaries
Spread

I (a) Ca of stomach with invasion of lung

C169 C780

Code cancer of stomach primary and invasion of lung as secondary.

I (a) Carcinoma of bladder with

C679 C791

(b) infiltration into the ureter

<u>Code</u> carcinoma of bladder as primary and code secondary carcinoma of ureter since it is the site following "infiltration into."

- g. The terms "metastatic" and "metastatic of" should be interpreted as follows:
 - (1) If one site is mentioned and this is qualified as metastatic, code to malignant primary of that particular site if the morphological type is C80 and the site is not a common site of metastases, excluding lung.
 - I (a) Metastatic carcinoma of pancreas

C259

<u>Code</u> primary malignant neoplasm of pancreas since one site is reported and it is not a common site.

I (a) Metastatic cancer of lung

C349

Code to primary malignant neoplasm of lung since no other site is mentioned.

- (2) If no site is reported but the morphological type is qualified as metastatic, code to primary site unspecified of the particular morphological type involved. Do not use "metastatic" to qualify a malignant neoplasm, stated or presumed to be primary, of lymphoid, hematopoietic, and related tissue, classifiable to C81-C96 as secondary.
 - I (a) Metastatic melanoma

C439

Code as indexed. Melanoma is a morphological type of neoplasm and is indexed to C439.

I (a) Metastatic Hodgkin's Disease

C819

<u>Code</u> a morphological type of neoplasm that is classified to C81-C96 as indexed regardless

of whether qualified as metastatic.

- (3) Site-specific neoplasms reported as metastatic
 - (a) When a site specific neoplasm is qualified as metastatic, code as indexed.
 - I (a) Metastatic hypernephroma

C64

Code as indexed. Hypernephroma is a site specific neoplasm and is indexed to C64.

I (a) Metastatic meningioma

C709

Metastatic meningioma is a malignant site specific morphological type of neoplasm. Code as indexed under Meningioma, malignant.

- (b) If there is a conflict between the code for a site specific neoplasm and the stated site, code the site specific neoplasm as indexed and consider the stated site to be qualified as secondary and code accordingly. Enter the code for the secondary site on the same line with and immediately following the code for the site specific neoplasm.
 - I (a) Metastatic renal cell carcinoma

C64 C780

(b) of lung

<u>Code</u> the site specific neoplasm, renal cell carcinoma followed by the code for secondary neoplasm of lung.

I (a) Metastatic hepatoma of brain

C220 C793

<u>Code</u> the site specific neoplasm, hepatoma as indexed followed by the code for secondary brain neoplasm.

- (4) If a single morphological type and a site, other than a common site, code to the specific category for the morphological type and site involved.
 - I (a) Metastatic melanoma of arm

C436

<u>Code</u> to malignant melanoma of skin of arm (C436), since in this case the ill-defined site of arm is a specific site for melanoma, not a common site of metastases classifiable to C76.

I (a) Metastatic sarcoma of stomach

C169

Code as indexed.

(5) If a single C80 morphological type is qualified as metastatic and the site mentioned is one of the common sites of metastases **except lung**, code to secondary malignant neoplasm of the site mentioned. If the single site is lung, qualified as metastatic, code to primary of lung.

I (a) Metastatic cancer of peritoneum C786

Code to secondary cancer of peritoneum since peritoneum is on the list of common sites of metastases and the morphological type of neoplasm is classified to C80.

I (a) Metastatic cancer of lung

C349

<u>Code</u> to primary malignant neoplasm of lung, C349, since no other site is mentioned.

- (6) If a single morphological type, other than C80 type, is qualified as metastatic and the site mentioned is one of the common sites of metastases **except lung**, code the unspecified site for the morphological type. Code the common site as secondary and as a second entry on the same line.
 - I (a) Metastatic rhabdomyosarcoma of

C499 C771

(b) hilar lymph nodes

<u>Code</u> to unspecified site for rhabdomyosarcoma and code the lymph nodes as secondary.

I (a) Metastatic sarcoma of lung

C349

<u>Code</u> to malignant neoplasm of lung since lung is not considered a common site for this instruction.

Exception: Metastatic mesothelioma or Kaposi's sarcoma

- 1. If site IS indexed under "Mesothelioma or Kaposi's sarcoma," assign that code.
 - I (a) Metastatic mesothelioma of liver

C457

Code site as indexed under mesothelioma.

I (a) Metastatic mesothelioma of mesentery

C451

Code as indexed under mesothelioma.

- 2. If site is NOT indexed under "Mesothelioma or Kaposi's sarcoma" and site reported is NOT a common site of metastases assign code for specified site NEC.
 - I (a) Metastatic mesothelioma of kidney

C457

<u>Code</u> mesothelioma specified site NEC. Kidney is not a common site of metastases.

 If site is NOT indexed under "Mesothelioma or Kaposi's sarcoma" and site reported IS a common site of metastases - assign code for unspecified site and secondary code for common site.

I (a) Metastatic mesothelioma of

C459 C779

(b) lymph nodes

<u>Code</u> the morphological type as the first entry followed by the code for the site not indexed under mesothelioma.

I (a) Metastatic Kaposi's of brain

C469 C793

<u>Code</u> the morphological type and code brain as secondary. Brain is on the list of common sites of metastases.

I (a) Kaposi's sarcoma of brain

C467

This instruction does not apply since Kaposi's sarcoma is not qualified as metastatic. Code Kaposi's sarcoma, specified site, since not qualified as metastatic.

(7) When morphological types of neoplasms classifiable to C40, C41, C43, C44, C45, C46, C47, C49, C70, C71, and C72 without mention of a site are jointly reported with the same morphological type of neoplasm with mention of a site, code the morphological type of unspecified site as indexed.

I (a) Metastatic rhabdomyosarcoma

C499

(b) Rhabdomyosarcoma kidney

C64

<u>Code</u> to unspecified site of rhabdomyosarcoma on I(a) and code rhabdomyosarcoma kidney as indexed.

- h. More than one malignant neoplasm qualified as metastatic.
 - (1) If two or more sites with a morphology of C80, not on the list of common sites of metastases, are reported and all are qualified as "metastatic" code as follows:
 - (a) If the sites are in the same anatomical system code each site as primary.

C150-C269 Digestive system

C300-C399 Respiratory system

C400-C419 Bone and articular cartilage of limbs, other, and unspecified sites

C490-C499 Connective and soft tissue

C510-C579 Female genital organ

C600-C639 Male genital organ

C64-C689 Urinary organ

C690-C699 Eye and adnexa

C700-C729 Central nervous system

C73 -C759 Thyroid and other endocrine glands

I (a) Metastatic stomach carcinoma

C169

(b) Metastatic pancreas carcinoma

C259

<u>Code</u> both sites primary since they are a C80 morphological type, are in the same organ system, and neither is on the list of common sites of metastases.

(b) If the sites are in different anatomical systems, code each as secondary.

I (a) Metastatic carcinoma of stomach

C788

(b) Metastatic carcinoma of bladder

C791

<u>Code</u> secondary neoplasm of each site listed. Stomach and bladder are in two different anatomical systems.

(2) If two or more morphological types are qualified as metastatic, code to malignant neoplasms, each independent of the other.

I (a) Metastatic adenocarcinoma of bowel

C260

(b) Metastatic sarcoma of uterus

C55

<u>Code</u> to primary neoplasm of each site since adenocarcinoma and sarcoma are of different morphological types.

I (a) Metastatic cancer of pleura

C782

(b) Metastatic melanoma of back

C435

<u>Code</u> I(a) to secondary neoplasm of pleura since pleura is on the list of common sites of metastases. Code I(b) to melanoma of back (C435) from the site list under melanoma.

- (3) If a morphology implying site and an independent anatomical site are both qualified as metastatic, code to secondary malignant neoplasm of each site.
 - I (a) Metastatic colonic and renal cell carcinoma

C785 C790

<u>Code</u> both sites as secondary.

- (4) If more than one site with a morphology of C80 is mentioned code as follows:
 - (a) If all but one site is qualified as metastatic and/or appear on the list of common sites of metastases, including lung, code to primary neoplasm of the site that is not qualified as metastatic or not on the list of common sites of metastases, irrespective of the order of entry or whether it is in Part I or Part II. Code all other sites as secondary.

(a) Metastatic carcinoma of stomach (b) Carcinoma of gallbladder (c) Metastatic carcinoma of colon	C788 C23 C785
<u>Code</u> primary carcinoma of gallbladder since it is the only site n Assign a primary code on I(b) and secondary codes on I(a) and	•
(a) Metastatic carcinoma of stomach (b) Metastatic carcinoma of lung II Carcinoma of colon	C788 C780 C189
<u>Code</u> I(a) and I(b) secondary and code primary carcinoma of cothe only malignant neoplasm not qualified as metastatic, even to	
I (a) Cancer of kidney (b) Metastatic cancer of prostate	C64 C798
<u>Code</u> I(a) primary cancer of kidney since the only other site on metastatic. Code I(b) secondary cancer of prostate since it is quantum of the contract of th	•
I (a) Metastatic cancer of ovary II Cancer of colon	C796 C189

qualified as metastatic while the second site is not reported metastatic.

Code I(a) secondary and code part II primary. There are two sites reported and one is

(b) If all sites are qualified as metastatic and/or are on the list of common sites of metastases, including lung, code to secondary malignant neoplasm of all reported sites.

Ι	(a) Metastatic cancer of stomach	C788
	(b) Metastatic cancer of breast	C798
	(c) Metastatic cancer of lung	C780

<u>Code</u> secondary neoplasm of each site listed. All sites are reported as metastatic.

Ι	(a) Metastatic carcinoma of ovary	C796
	(b) Carcinoma of lung	C780
	(c) Metastatic pancreatic carcinoma	C788

<u>Code</u> to secondary malignant neoplasm of each site. Lung is on the list of common sites of metastases and ovary and pancreas are both reported as metastatic.

Ι	(a) Metastatic stomach cancer	C788
	(b) Lung cancer	C780

<u>Code</u> to secondary malignant neoplasm of each site. Lung is on the list of common sites of

metastases and stomach cancer is reported as metastatic.

I (a) Carcinoma of spine

C795

(b) Metastatic lung cancer

C780

<u>Code</u> to secondary malignant neoplasm of each site. Spine is on the list of common sites of metastases and lung is reported as metastatic.

I (a) Metastatic carcinoma of abdomen

C798

(b) Metastatic carcinoma of colon

C785

Code both sites as secondary since both are qualified as metastatic.

I (a) Metastatic brain carcinoma

C793

(b) Metastatic lung carcinoma

C780

<u>Code</u> both sites as secondary malignant neoplasm since both are qualified as metastatic.

(c) If one site is qualified as metastatic and there are other sites specified as "secondary", "metastases", "metastasis", "spread", or a statement of "metastasis NOS" or "metastases NOS", code the site qualified metastatic as primary and all other sites secondary, whether in Part I or Part II. If, however, lung is mentioned in one part and the metastatic neoplasm in the other part, code lung primary.

I (a) Metastatic breast cancer with brain metastases

C509 C793

II Lung cancer

C349

<u>Code</u> I(a) as primary cancer of breast sicne there is a statement of metastases on the record. Code brain metastases as secondary since metastases are always secondary. Code Part II as primary lung cancer since it is reported in a different part from the metastatic neoplasm.

(5) When a metastatic malignant neoplasm is reported on a record with a malignant neoplasm of the same site whether stated as metastatic or not, code both primary.

I (a) Metastatic gastric carcinoma

C169

(b) Gastric carcinoma

C169

<u>Code</u> primary gastric carcinoma on I(a) and code primary gastric carcinoma on I(b).

(6) If two or more sites with a morphology of C40, C41, C43, C44, C45, C46, C47, C49, C70, C71, and C72 are reported and all sites are qualified as metastatic, add an additional code to identify the morphological type of neoplasm. Code the morphological type of neoplasm to the unspecified site category, i.e., to "9." Enter this code on the same line with and preceding the

code for the first mentioned secondary site.

I (a) Metastatic leiomyosarcoma arm, stomach and brain

C499 C798 C788 C793

<u>Code</u> leiomyosarcoma, the morphological type of neoplasm, to C499 and code the reported sites as secondary neoplasms since all three sites are qualified as metastatic.

I (a) Metastatic sarcoma of stomach and small intestine

C499 C788 C784

<u>Code</u> the sarcoma, the morphological type of neoplasm, to C499 and code the reported sites as secondary neoplasms.

I (a) Metastatic squamous cell carcinoma of head and neck C449 C798

<u>Since</u> the reported sites are marked with a # sign in the Index, code the morphological type to malignant neoplasm of skin, C449, and code the reported sites as secondary neoplasms.

I (a) Metastatic squamous cell carcinoma of head

C449 C798

(b) Metastatic squamous cell carcinoma of neck

C798

<u>Since</u> the reported sites are marked with a # sign in the Index, code the morphological type to malignant neoplasm of skin, C449, and code the reported sites as secondary neoplasms. Enter C449 for the morphological type as first code on I (a) preceding the first secondary site. Enter only the secondary code on line b.

9. Primary site unknown

Consider the following terms as equivalent to "primary site unknown

- ? Origin (Questionable origin)
- ? Primary (Questionable primary)
- ? Site (Questionable site)
- ? Source (Questionable source)

Undetermined origin

Undetermined primary

Undetermined site

Undetermined source

Unknown origin

Unknown primary

Unknown site

Unknown source

a.	When the statement, "primary site unknown," or its equivalent certificate with a site specific neoplasm or a neoplasm classificate though the statement did not appear on the certificate.		
	I (a) Renal cell carcinoma(b) Primary site unknown	C64	
	<u>Code</u> renal cell carcinoma (C64) as though the statement on the certificate.	ent "primary site	unknown" was not
	I (a) Reticulum cell sarcoma II Undetermined source	C833	
	<u>Code</u> reticulum cell sarcoma (C833) as though the stat not on the certificate.	tement "undeter	mined source" was
b.	When primary site unknown or its equivalent appears on the of neoplasm classifiable to C40, C41, C43, C44, C45, C46, C4 additional code to identify the morphological type of neoplasm neoplasm to the unspecified site category. This additional cod line with and preceding the code for the first mentioned second	7, C49, C70, C73 m. Code the mor de should be ent	1, and C72, add an phological type of
	I (a) Generalized metastases(b) Melanoma of back(c) Primary site unknown	C80 C439	C798
	<u>Code</u> I(b) melanoma, unspecified site, followed by the reported.	code for the sec	condary site
c.	When "primary site unknown," or its equivalent, appears on to classified to morphological type C80, (classifiable to C00-C76) secondary and precede the first neoplasm code with C80.		•
	I (a) Secondary carcinoma of liver(b) Primary site unknown	C80	C787
	Code secondary liver carcinoma preceded with C80.		
	I (a) Carcinoma of stomach (b) Primary site unknown	C80	C788
	Code secondary stomach carcinoma preceded with C80	0.	

C80

C80

C788

I (a) Carcinoma of stomach

(b) Primary site of carcinoma unknown

<u>Code</u> I(a) secondary carcinoma of stomach preceded with C80. Code I(b) C80 for carcinoma since the term carcinoma is repeated.

I (a) Cancer of intestines, stomach,

C80 C785 C788 C798

- (b) and abdomen
- (c) Unknown primary

<u>Code</u> all sites as secondary; precede the first code with C80.

- d. When "primary site unknown" or its equivalent appears on the certificate and a doubtful expression such as presumed or probably is reported qualifying a specific site(s), interpret the primary to be the site(s) following the doubtful qualifying expression and code as primary.
 - I (a) Cancer, unk primary, presumed lung

C349

(b) Primary site unknown

Code primary lung cancer.

10. Primary examples

- a. When a morphological type of C80, not qualified as metastatic, is reported with a site stated to be primary, code primary of the site.
 - I (a) Carcinoma, breast primary

C509

Code primary malignant neoplasm of breast.

- b. When a morphological type of C80 is qualified as metastatic and reported with a site stated to be primary, code C80 and primary of the site.
 - I (a) Metastatic cancer (primary bladder)

C80 C679

Code C80 and primary cancer of the bladder.

I (a) Mestastatic cancer probably breast primary

C80 C509

<u>Code</u> C80 and primary cancer of the breast.

11. Implication of malignancy

Mention on the certificate that a neoplasm has produced metastases (secondaries) means it must be coded as malignant, even though this neoplasm without mention of metastases would be classified to some other section of Chapter II.

Code neoplasms indexed to D00-D09 (in situ neoplasms), D10-D36 (benign neoplasms), or D37-D48 (neoplasms of uncertain or unknown behavior) to a primary malignant neoplasm category in C00-C76 (whether or not on the list of common sites of

metastases) if reported on the record with the following conditions:

- a. Metastases NOS and metastases of a site
 - I (a) Breast tumor with metastases

C509 C80

<u>Code</u> I(a) to primary malignant neoplasm of breast and code metastases NOS. Code breast tumor as malignant neoplasm of breast since it is reported with metastases NOS.

I (a) Brain metastasis

C793

(b) Lung tumor

C349

<u>Code</u> I(a) secondary neoplasm of brain and I(b) primary malignant neoplasm of lung since the lung tumor is reported with metastases of a site.

- b. Any neoplasm indexed to C77-C79 in Volume III
 - I (a) Lymph node cancer

C779

(b) Carcinoma in situ of breast

C509

<u>Code</u> the carcinoma in situ of breast as primary malignant neoplasm of breast since it is reported with a neoplasm that is indexed to C779. Malignant neoplasm of lymph node is indexed to secondary neoplasm.

- c. A common site of metastases (excluding lung) qualified by the word "metastatic."
 - I (a) Metastatic liver cancer

C787

(b) Small intestine tumor

C179

<u>Code</u> I(a) as secondary neoplasm of liver and code primary malignant neoplasm of small intestine on I(b), since the small intestine tumor is reported with a common site of metastases qualified by the word "metastatic."

d. If a, b, or c do not apply, code the neoplasm in D00-D09, D10-D36, D37-D48 as indexed.

12. Sites with prefixes or imprecise definitions

Neoplasms of sites prefixed by "peri," "para," "supra," "infra," etc. or described as in the "area" or "region" of a site, unless these terms are specifically indexed, should be coded as follows: for morphological types classifiable to one of the categories C40, C41, C43, C44, C45, C46, C47, C49, C70, C71, and C72, code to the appropriate subdivision of that category; otherwise, code to the appropriate subdivision of C76 (other and ill-defined sites).

I (a) Fibrosarcoma in the region of the leg

C492

<u>Code</u> I(a) fibrosarcoma in the region of the leg to the appropriate subdivision of the category, malignant neoplasm of connective and soft tissue of lower limb.

I (a) Carcinoma in lung area

C761

<u>Since</u> the morphological type of the term "carcinoma" is C80, code I(a), carcinoma in lung area, to the appropriate subdivision of C76 (other and ill-defined sites).

13. Malignant neoplasms described with "either/or"

Malignant neoplasms of more than one site described as "or" and both sites are classified to the same anatomical system, code the residual category for the system. If the sites are in different systems, and are in the same morphological category, code to the residual category for the morphological type.

I (a) Cancer of kidney or bladder

C689

Code C689, malignant neoplasm of other and unspecified urinary organs.

I (a) Cancer of gallbladder or kidney

C80

<u>Code</u> to C80, malignant neoplasm without specification of site since there is more than one site qualified by the statement "or" and the sites are in different systems.

I (a) Osteosarcoma of lumbar vertebrae

C419

(b) or sacrum

<u>Code</u> to malignant neoplasm of bone unspecified (C419). Both sites separated by the "or" are indexed to bone.

14. Mass or lesion with malignant neoplasms

When mass or lesion is reported with malignant neoplasms, code mass or lesion as indexed.

I (a) Lung mass

R91

(b) Carcinomatosis

C80

<u>Code</u> mass as indexed. Do not consider as malignant mass.

I (a) Metastatic lung carcinoma

C349

II Lung lesion

J984

Code lung lesion as indexed.

B. Rheumatic heart diseases

1. Heart diseases considered to be described as rheumatic

a. When rheumatic fever (I00) or any heart disease that is specified as rheumatic is reported anywhere on the death certificate, consider conditions listed in categories I300-I319, I339, I340-I38, I400-I409, I429, and I514-I519 to be described as rheumatic unless there is indication they were due to a nonrheumatic cause.

I (a) Myocarditis I090 (b) Rheumatic heart disease I099

<u>Consider</u> "myocarditis" to be described as "rheumatic" since reported with a heart disease specified as rheumatic.

I (a) Cardiac tamponade I092 (b) Rheumatic endocarditis I091

(c)

<u>Consider</u> "cardiac tamponade" to be described as "rheumatic" since reported with a heart disease specified as rheumatic.

b. When rheumatic fever and a heart disease are jointly reported, enter a separate code for the rheumatic fever <u>only</u> when it is not used to qualify a heart disease as rheumatic. This applies whether or not the heart disease is stated or classified as rheumatic.

I (a) Heart disease

1099

(b) Rheumatic fever

<u>Consider</u> "heart disease" to be described as "rheumatic." Do not enter a separate code for rheumatic fever since it is used to qualify the heart disease as rheumatic.

I (a) Rheumatic heart disease

I099

(b) Rheumatic fever

<u>Code</u> "rheumatic heart disease" as indexed. Do not enter a separate code for rheumatic fever since the heart disease is qualified as rheumatic.

I (a) Cardiac arrest

I469

(b) Rheumatic fever

100

<u>Cardiac arrest</u> is not one of the conditions considered to be described as rheumatic when reported with rheumatic fever. Code each condition as indexed.

c. When a condition listed in category I50.- is indicated to be due to rheumatic fever and there is no mention of another heart disease that is classifiable as rheumatic, consider the condition in I50.- to be described as rheumatic.

I (a) Heart failure

I099

(b) Rheumatic fever

<u>Since</u> there is no other heart disease classified as rheumatic, use the rheumatic fever to qualify the heart disease on I(a) as rheumatic.

I (a) Heart failure

I509

(b) Rheumatic heart disease

I099

<u>Since</u> there is a heart disease qualified as rheumatic reported on the record, code heart failure, I509.

2. <u>Distinguishing between active and chronic rheumatic heart disease</u>

Rheumatic heart diseases are classifiable to I010-I019, Rheumatic fever with heart involvement, or to I050-I099, <u>Chronic rheumatic heart diseases</u>, depending upon whether the rheumatic process was active or inactive at the time of death.

- a. When rheumatic fever or any rheumatic heart disease is stated to be active, recurrent, or recrudescent, code all rheumatic heart diseases as active. Conversely, code all rheumatic heart diseases as inactive if rheumatic fever or any rheumatic heart disease is stated to be inactive.
 - I (a) Endocarditis

I011

(b) Active rheumatic fever

<u>Code</u> I(a), active rheumatic endocarditis since the rheumatic fever is stated as active. Leave I(b) blank.

I (a) Heart failure

I509

(b) Inactive rheumatic heart disease

I099

(c)

<u>Code</u> I(a) as indexed since another heart disease classified as rheumatic is reported. Code I(b) as indexed since stated as inactive.

- b. When there is no statement of active, recurrent, recrudescent, or inactive, code all heart diseases that are stated to be rheumatic or that are considered to be described as rheumatic as active <u>if</u> any of the following instructions apply:
 - (1) The interval between onset of rheumatic fever and death was less than one year.
 - I (a) Endocarditis 6 months

I011

- (b) Rheumatic fever 9 months
- (2) One or more of these heart diseases (listed in Section IV, Part B, 1, a) is stated to be acute or subacute.

NOTE: This does not mean rheumatic fever stated to be acute or subacute.

I (a) Acute myocarditis

T012

	(b) Rheumatic heart disease	I019
I	(a) Rheumatic heart disease(b) Acute rheumatic fever	1099
(3) Or	ne of these heart diseases is pericarditis.	
I	(a) Pericarditis (b) Rheumatic heart disease	I010 I019

(4) At least one of these heart diseases is "carditis," "endocarditis" (any valve), "heart disease," "myocarditis," or "pancarditis" with a stated duration of less than one year.

Ι	(a) Endocarditis - 9 months	I011
	(b) Rheumatic heart disease	I019

(5) At least one of these heart diseases is "carditis," "endocarditis" (any valve), "heart disease," "myocarditis," or "pancarditis" without a duration and the age of the decedent was less than 15 years.

Age: 10 years

I (a) Rheumatic heart disease

I019

(b) Rheumatic fever

c. In the absence of the previous mentioned indications of an active rheumatic process, consider all heart diseases that are stated to be rheumatic or that are considered to be described as rheumatic as inactive and code to categories I050-I099.

Age: 75 years

I (a) Rheumatic heart disease

I099

(b) Rheumatic fever

 $\underline{\text{Code}}$ I(a) as indexed, there is no indication the rheumatic process was active. Leave line I(b) blank.

3. Valvular diseases jointly reported

a. When diseases of the mitral, aortic, and tricuspid valves, not qualified as rheumatic, are jointly reported, whether on the same line or on separate lines, code the disease of all valves as rheumatic unless there is indication to the contrary.

I (a) Mitral insufficiency and aortic stenosis

I051 I060

(D)

<u>Code</u> both valvular diseases as rheumatic since there is no indication to the contrary.

I (a) Aortic insufficiency

I061

(b) Mitral endocarditis with

I059 I051

(c) mitral insufficiency

<u>Code</u> the diseases of both valves as rheumatic since there is no indication to the contrary.

I (a) Mitral endocarditis c_

I059 I051 I050

(b) insufficiency and stenosis

(c) Aortic endocarditis

I069

<u>Code</u> the diseases of both valves as rheumatic since there is no indication to the contrary.

I (a) Mitral valve disease

I059 I051 I48

(b) with insufficiency and

(c) atrial fibrillation

II Aortic stenosis

I060

Code the diseases of both valves as rheumatic since there is no indication to the contrary.

- b. When mitral insufficiency, incompetence, or regurgitation is jointly reported with mitral stenosis NOS (or synonym), code all these conditions as rheumatic unless there are indications to the contrary.
 - I (a) Mitral insufficiency with mitral stenosis

I051 I050

<u>Code</u> the mitral insufficiency as rheumatic since it is reported with mitral stenosis and there is no indication to the contrary.

4. Valvular diseases not indicated to be rheumatic

In the Classification, certain valvular diseases, i.e., disease of mitral valve (except insufficiency, incompetence, and regurgitation without stenosis) and disease of tricuspid valve are included in the rheumatic categories even though not indicated to be rheumatic. This classification is based on the assumption that the vast majority of such diseases are rheumatic in origin. Do not use these diseases to qualify other heart diseases as rheumatic. Code these diseases as nonrheumatic if reported due to one of the nonrheumatic causes on the following list.

I (a) Pericarditis

I319

(b) Mitral stenosis

I050

<u>Although</u> mitral stenosis is classified to a rheumatic category, do not use it to qualify the pericarditis as rheumatic.

a. When valvular heart disease (I050-I079, I089 and I090) <u>not</u> stated to be rheumatic is reported due to:

A1690

C73-C759

E804-E806

J030

A188	C790-C791	E840-E859	J040-J042
A329	C797-C798	E880-E889	J069
A38	C889	F110-F169	M100-M109
A399	D300-D301	F180-F199	M300-M359
A500-A549	D309	I10-I139	N000-N289
B200-B24	D34-D359	I250-I259	N340-N399
B376	D440-D45	I330-I38	Q200-Q289
B379	E02-E0390	I420-I4290	Q870-Q999
B560-B575	E050-E349	I511	R75
B908	E65-E678	I514-I5150	T983
B909	E760-E769	I700-I710	Y400-Y599
B948	E790-E799	J00	Y883
C64-C65	E802	J020	

Code nonrheumatic valvular disease (I340-I38) with appropriate fourth character.

I (a) Mitral stenosis and aortic stenosis

I342 I350

(b) Hypertension

I10

<u>Code</u> I(a) as separate one-term entities to nonrheumatic mitral and aortic stenosis since they are reported "due to" a nonrheumatic condition.

I (a) Mitral insufficiency

I340

(b) Goodpasture's syndrome & RHD

M310 I099

<u>Code</u> I(a) to nonrheumatic mitral insufficiency since it is reported "due to" a nonrheumatic condition. Apply this instruction even though rheumatic heart disease is entered as the second entry on I(b).

b. Consider diseases of the aortic, mitral, and tricuspid valves to be nonrheumatic if they are reported on the same line due to a nonrheumatic cause in the previous list. Similarly, consider diseases of these three valves to be nonrheumatic if any of them are reported due to the other and that one, in turn, is reported due to a nonrheumatic cause in the previous list.

Ι	(a) Mitral disease	I349
	(b) Aortic stenosis	I350
	(c) Arteriosclerosis	I709

<u>Classify</u> both valvular diseases as nonrheumatic. The mitral disease is reported due to the aortic disease which is, in turn, reported due to a nonrheumatic cause.

Ι	(a) Congestive heart failure	I500
	(b) Mitral stenosis	I342
	(c) Arteriosclerosis	I709

<u>Code</u> the mitral stenosis as nonrheumatic since the certifier indicated it was due to a nonrheumatic cause.

I (a) Aortic and mitral insufficiency I351 I340 (b) Subacute bacterial endocarditis I330

<u>Code</u> the valvular diseases as nonrheumatic since they are reported due to a nonrheumatic cause.

C. Pregnancy, childbirth, and the puerperium (000-099)

1. General information

Conditions classifiable to categories O00-O99 are limited to deaths of females of childbearing age. Some of the <u>maternal</u> <u>conditions are also the cause of death in newborn infants.</u> Always refer to the age and sex of the decedent before coding a condition to O00-O99.

Obstetric deaths are classified according to time elapsed between the obstetric event and the death of the woman:

O95 Obstetric death of unspecified cause

O960-O969 Death from any obstetric cause occurring more than 42 days but less than one year after delivery

O970-O979 Death from sequela of obstetric causes (death occurring one year or more after delivery)

The standard certificate of death contains a separate item regarding pregnancy. Any positive response to one of the following items should be taken into consideration when coding pregnancy related deaths:

Pregnant at time of death	

- Not pregnant, but pregnant within 42 days of death
- Not pregnant, but pregnant 43 days to 1 year before death

If the third option from the previous list is marked and the decedent is greater than 54 years old, code as pregnancy record only when there is a condition reported which indicates the person was pregnant either at the time of death or pregnant 43 days to 1 year before death.

The following are valid single character codes used in the separate checkbox item regarding pregnancy on some variations of the standard death certificate. These codes are to be taken into consideration when coding pregnancy related deaths.

- 1 Not pregnant within the past year
- 2 Pregnant at the time of death
- 3 Not pregnant, but pregnant within 42 days of death
- 4 Not pregnant, but pregnant 43 days to 1 year before death
- 7 Not on certificate
- 8 Not applicable
- 9 Unknown

Consider the pregnancy to have terminated 42 days or less prior to death unless a specific length of time is written in by the certifier. Take into consideration the length of time elapsed between pregnancy and death if reported as more than 42 days.

Maternal deaths are subdivided into two groups:

<u>Direct obstetric deaths (O00-O97)</u>: those resulting from obstetric complications of the pregnant state (pregnancy, labor and puerperium), from interventions, omissions, incorrect treatment, or from a chain of events resulting from any of the above.

<u>Indirect obstetric deaths (O98-O99)</u>: those resulting from previous existing disease or disease that developed during pregnancy and which was not due to direct obstetric causes, but which was aggravated by physiologic effects of pregnancy.

When coding pregnancies, code any direct obstetric cause to O00-O97 and any indirect obstetric cause to O98-O99.

2. Pregnancy or childbirth without mention of complication

a. Do not assign a separate code for "pregnancy" or "delivery" if any other condition is reported other than nature of injuries and external causes (S000-Y899).

Female, 39 years

Place I (a) Asphyxia by hanging T71 &X70
9 (b)

MOD II 1st trimester pregnancy O95
S

Suicide

<u>Code</u> I(a) to nature of injury and external cause. Code pregnancy in Part II to Pregnancy, death from (O95) since the only other reported condition is classified to a nature of injury and external cause.

- b. When pregnancy or delivery is the <u>only entry</u> on the certificate, apply the following instructions:
 - (1) Code to category O95 if death occurred 42 days or less after termination of pregnancy or when there is no indication of when the pregnancy terminated.

Female, 28 years
I (a) Pregnancy O95

<u>Code</u> "pregnancy" to Pregnancy, death from (O95) since it is the only entry on the certificate.

(2) Code to category O960-O969 if death resulted from direct or indirect obstetric causes that occurred more than 42 days but less than one year after termination of the pregnancy.

Female, 28 years

I (a) Childbirth 3 months O969

<u>Code</u> childbirth to death from any obstetric cause occurring more than 42 days but less than one year after delivery.

(3) Code to category O97 if death occurred 1 year or more after termination of pregnancy.

Female, 28 years

I (a) Pregnancy 1 year

0979

Code to death from sequela of a direct obstetric cause.

3. Pregnancy with abortive outcome (O000-O089)

a. Code all <u>complications</u> of conditions listed in categories O000-O029 to the appropriate subcategory of O08 and also code O000-O029 as indexed. To determine the appropriate subcategory for O08, refer to the Index under Abortion, complicated by and select appropriate fourth character from last column.

Female, 28 years

I (a) Septicemia

0080

(b) Tubal pregnancy

O001

Code I(a) Abortion, complicated by, septicemia (O080) and I(b) Pregnancy, tubal (O001).

Female, 20 years

I (a) Shock

O083

(b) Ectopic pregnancy

0009

Code I(a) Abortion, complicated by, shock (O083) and I(b) Ectopic, pregnancy (O009).

b. Code all <u>complications</u> of conditions listed in categories O03-O07 to the appropriate subcategory of O08 and also code O03-O07 with fourth character "9." To determine the appropriate subcategory for O08, refer to the Index under Abortion, complicated by and select appropriate fourth character from last column.

Female, 22 years

I (a) Pulmonary embolism

0082

(b) Spontaneous abortion

0039

<u>Code</u> I(a) Abortion, complicated by, pulmonary embolism (O082) and I(b) Abortion, spontaneous (O039).

- c. When conditions in categories O00-O07 are reported in Part I or Part II of the death certificate with:
 - (1) a direct obstetric complication classifiable to category O08, code the complication to category O08 with the appropriate fourth character. Also code O00-O02 as indexed or O03-O07 with fourth character "9."

Female, 31 years

I (a) Cardiac arrest O088 (b) Abortion O069

<u>Code</u> I(a) Abortion, complicated by, cardiac arrest, a direct obstetric complication and I(b) Abortion NOS.

(2) an indirect obstetric complication classifiable to categories O98-O99, code the O98-O99. Also code the O00-O02 as indexed or O03-O07 with fourth character "9."

Female, 25 years

I (a) Abortion O069
II Rheumatic heart disease O994

<u>Code</u> I(a) Abortion NOS (O069). Code Pregnancy, complicated by rheumatic heart disease (O994), an indirect obstetric cause.

(3) both a direct and an indirect obstetric complication, code the direct complications to O08 with the appropriate fourth character and the indirect complications to O98-O99. Also code the O00-O02 as indexed or O03-O07 with fourth character "9."

Female, 33 years

Ι	(a) Renal failure	O084
	(b) Abortion	O069
II	Anemia	O990

<u>Code</u> I(a) Abortion, complicated by, renal failure. Direct complications of abortions are classified to category O08 with the appropriate fourth character. Code I(b) Abortion NOS. Code Part II Pregnancy, complicated by, anemia, an indirect obstetric complication.

4. Other complications of pregnancy, childbirth and puerperium (O00-O99)

a. If death occurred more than 42 days but less than 1 year after termination of pregnancy, code all direct and indirect obstetric complications to O960-O969.

Female, 28 years

I (a) Cardiomyopathy

(b) Childbirth 3 months

<u>Code</u> cardiomyopathy as a direct obstetric cause occurring more than 42 days but less than 1 year after childbirth.

0960

Female, 28 years

I (a) Intracerebral hemorrhage O961

(b) Childbirth 3 months

<u>Code</u> intracerebral hemorrhage as an indirect obstetric cause occurring more than 42 days but less than 1 year after childbirth.

b. If death occurred 1 year or more after termination of pregnancy, code all direct and indirect obstetric complications to O970-O979.

Female, 28 years

I (a) Cardiomyopathy

0970

(b) Childbirth

1 year

<u>Code</u> to O970, Death from sequela of direct obstetric causes. Cardiomyopathy is a direct obstetric cause. **Do not** enter a code on I(b) for childbirth.

Female, 28 years

I (a) Intracerebral hemorrhage

0971

(b) Childbirth

1 year

<u>Code</u> to O971, Death from sequela of indirect obstetric cause. Intracerebral hemorrhage is an indirect obstetric cause. **Do not** enter a code on I(b) for childbirth.

- c. Code all complications of pregnancy, childbirth, and the puerperium to categories O00-O75, O85-O92, O96-O99. When delivery is mentioned on the certificate, consider complications to be of delivery unless otherwise specified.
 - (1) When both direct and indirect obstetric causes are reported on the same certificate code as indexed to appropriate code in Chapter XV.
 - (2) When a complication is reported and not indexed to a direct or indirect obstetric code, assign the complication to O98-O99 with the appropriate fourth character. Refer to Volume I for correct code assignment.

Female, 35 years

I (a) Thrombosis 1 hr O229

(b) Pregnancy 8 mos

II Obesity O992

<u>Code</u> I(a) to Pregnancy, complicated by, thrombosis. Do not enter a code on I(b) for pregnancy. Code Part II to Pregnancy, complicated by, endocrine diseases NEC as indexed. Obesity is an endocrine disorder.

Female, 29 years

I (a) Acute anemia O990 (b) Massive postpartum hemorrhage O721

(c) Delivered liveborn

<u>Code</u> I(a) to Anemia, complicating pregnancy, childbirth or the puerperium, an indirect

obstetric cause. Code I(b) to Hemorrhage, postpartum, a direct obstetric cause. **Do not** enter a code on I(c) for delivery NOS.

Female, 21 years

I (a) Gram negative sepsis

0988

(b) Congenital anomalies of ureters

0998

II 30 weeks pregnant

<u>Code</u> I(a) to Pregnancy, complicated by, septicemia, an indirect obstetric cause. Code I(b) to Pregnancy, complicated by, congenital malformation, an indirect obstetric cause. **Do not** enter a code in Part II for pregnancy.

Female, 28 years

I (a) Aspiration pneumonia

0995

(b) Delivery

II Rubella in first trimester

0985

<u>Code</u> the indirect causes, aspiration pneumonia and rubella to the appropriate code in Chapter XV. Do not enter a code for delivery on I(b).

5. Delivery reported with anesthetic death or anesthesia

a. When delivery (normal) NOS is reported with <u>anesthetic death, code O748 only.</u> When reported with <u>anesthesia</u>, code O749 only.

Female, 29 years

I (a) Anesthetic death

0748

(b) Delivery

<u>Code</u> I(a) to O748, other complications of anesthesia during labor and delivery. Do not enter code on I(b) for delivery.

b. When <u>anesthetic death</u> is reported with a complication(s) of delivery or puerperium, code O748 and the code(s) for complication(s) of pregnancy, delivery, or puerperium.

Female, 26 years

I (a) Anesthetic death

0748

(b) Obstructed labor

0669

Code Delivery, complicated by, anesthetic death on I(a). Code I(b) as indexed.

c. When <u>anesthesia</u> is reported with a complication(s) of delivery or puerperium, code O749 and the code(s) for complication(s) of pregnancy, delivery, or the puerperium.

Female, 28 years

Ι	(a) Prolonged labor	O639
	(b) Anesthesia - delivery	0749

<u>Code</u> prolonged labor as a complication of delivery. Code "anesthesia-delivery" to O749.

Female, 34 years

Ι	(a) Cardiac arrest	0742
	(b) Anesthesia	O749
	(c) Obstructive labor	O669

<u>Code</u> I(a) cardiac arrest as a complication of anesthesia. Code the anesthesia on I(b) to O749. Code I(c) as indexed.

6. Operative delivery

- a. Code an operative delivery such as cesarean section or hysterectomy to O759.
- b. Code <u>reported complications</u> of the operative delivery to complications of obstetric surgery (O754).
- c. Code conditions reported due to <u>complications</u> of operative delivery as indexed under complication of delivery and/or the puerperium.

Female, 18 years

	, ,	
Ι	(a) Cardiac arrest	0742
	(b) Anesthesia during C-section	0749
	(c) Premature separation of placenta	0759
	(d) O459	

<u>Code</u> I(a) cardiac arrest as a complication of anesthesia. Code O749 for the anesthesia. There is no complication of the C-section; therefore, code the C-section to O759. Code premature separation of placenta as indexed on line I(d).

Female, 27 years

Ι	(a) Pulmonary embolism	O882
	(b) Pelvic thrombosis	O754
	(c) C-section delivery	0759

<u>Code</u> I(a) Puerperal, embolism (pulmonary). Code I(b) as a complication of the operative delivery. Code I(c) Delivery, cesarean, as indexed.

Female, 39 years

Ι	(a) Pneumonia	O995
	(b) Peritoneal hemorrhage	0754
	(c) Cesarean section delivery	0759

<u>Code</u> I(a) O995, an indirect obstetric cause. Pneumonia is reported due to the complication and coded as complicating delivery. Code I(b) as a complication of the operative delivery. Code I(c) Delivery, cesarean, as indexed.

Female, 30 years

Ι	(a) Pneumonia	24 hr	O995
	(b) Pulmonary embolism	3 days	0754
ΙΙ			0759

Operation Block: C-section

<u>Code</u> I(a) an indirect obstetric cause. Code I(b) as a complication of the operative delivery reported in Part II. Code Part II cesarean section as indexed.

Female, 28 years

Ι	(a) Pneumonia	0754
	(b) C-section	O759
II		O759 O321

Operation Block: C-section for breech presentation

<u>Code</u> I(a) as a complication of the operative delivery. Code cesarean section on I (b) as indexed. Code cesarean section and breech presentation as indexed in Part II.

D. Congenital conditions

1. The Classification does not provide congenital and acquired codes for all conditions. When no provision is made for a distinction, disregard the statement of congenital or acquired and code the NOS code.

Female, 45 years

Ι	(a) Patent ductus arteriosus - acquired	Q250
	(b) Pneumonia	J189

Code I(a) to Q250 since patent ductus arteriosus does not have an acquired code.

Male, 33 years

Ι	(a) Gastric hemorrhage	K922
	(b) Gastric ulcer - congenital	K259

Code I(b) to K259 since gastric ulcer does not have a congenital code.

2. When a condition specified as "congenital" is reported "due to" another condition not specified as

congenital, code both conditions as congenital.

Male, 2 months

I (a) Peritonitis – birth P781 (b) Intestinal obstruction Q419

<u>Code</u> the condition on I(b) as congenital.

3. Code hydrocephalus (G91.0, 1, 2, 8, 9) (any age) to Q039 (congenital hydrocephalus) when it is reported with another cerebral or other central nervous system condition (Q00-Q07, Q280-Q283) which is classified as congenital.

Male, 3 months

I (a) Cerebral anoxia G931 (b) Hydrocephalus & hypoplasia Q039 Q061

(c) of spinal cord

<u>Code</u> hydrocephalus NOS to Q039 since the hypoplasia of spinal cord is classified as congenital.

Male, 3 months

Ι	(a) Cerebral anoxia	G931
	(b) Hydrocephalus	Q039
II	Meningomyelocele	Q059

<u>Code</u> the hydrocephalus NOS to Q039 since the meningomyelocele is classified as congenital.

E. Conditions of early infancy (P000-P969)

1. When reported on certificate of infant, code the following entries as indicated:

Birth weight of	2 pounds (999 gms) or under Over 2 pounds (1000 gms) but not more than	P070
	5 ½ pounds (2499 gms)	P071
	10 pounds (4500 gms) or more	P080
Gestation of	Less than 28 weeks	P072
	28 weeksbut less than 37 weeks	P073
	42 or more completed weeks	P082
Premature labor or delivery I	NOS	

Female, 3 hours

Ι	(a) Respiratory distress syndrome	P220
	(b) Prematurity	P073
II	26 weeks gestation	P072

Code Gestation, less than 28 weeks to P072.

Male, 8 hours

I (a) Respiratory failure

P285

(b) Prematurity, 23 weeks

P073 P072

<u>Code</u> I(b) as two separate conditions. Code prematurity as indexed P073 and code P072 for "23 weeks." The 23 weeks is an implied length of gestation.

2. When a multiple birth or low birth weight is reported on an infant's death certificate outside of Part I or Part II, code this entity as the last entry in Part II.

Male, 29 minutes - Twin A

I (a) Immature

P073

(b) Weight 1,500 grams - twin

P071 P015

II Atelectasis

P281 P015

Code "twin" as the last entry in Part II.

Male, 5 minutes

4 lbs.]

I (a) Immaturity of lung

P280

(b)

(c)

Π

P071

Code P071 for "4 lbs." as last entry in Part II.

3. When "termination of pregnancy" or "abortion" (legal) other than criminal is the only reported cause of an infant death, code P964. Do not code P964 if any other codable entry is reported.

Female, 3 minutes

I (a) Legal abortion

P964

Since "legal abortion" is the only entry on the certificate, code P964, as indexed.

4. When a condition classifiable to P703-P720, P722-P749 is the only cause(s) reported on a newborn's death, code P969. If reported with other perinatal conditions, code as indexed.

Male, 7 days

(a) Hypomagnesemia

P969

(b)

(c)

Code the hypomagnesemia to P969, even though it is indexed to P712 since it is the only

cause of death reported.

Seguela of tuberculosis

Female, 2 weeks

(a) Hypoglycemia P704
(b) Maternal diabetes P701

Code I(a) as indexed since reported with another perinatal condition.

F. Sequela

B900-B909

A sequela is a late effect, an after effect, or a residual of a disease, nature of injury or external cause. I

Sequela of acute poliomyelitis
Sequela of leprosy
Sequela of other and unspecified infectious and parasitic diseases
Sequela of malnutrition and other nutritional deficiencies
Sequela of hyperalimentation
Sequela of inflammatory diseases of central nervous system
Sequela of cerebrovascular disease
Death from sequela of obstetric causes
Sequela of injuries, of poisoning, and of other consequences of external causes
Sequela of transport accidents
Sequela of other accidents
Sequela of intentional self-harm, assault and events of undetermined
intent
Sequela with surgical and medical care as external cause
Sequela of other external causes

^{*} See **Section V, Part S** for instructions for coding sequela of injuries and external causes.

NOTE: When conditions in categories A000-A310, A318-A427, A429-A599, A601-A70, A748-B001, B003-B004, B007, B009-B069, B080, B082-B085, B09-B199, B25-B279, B330-B349, B370-B49, B58- B64, B99 are mentioned on the record with HIV (B20-B24, R75), do not consider the infectious or parasitic condition as a sequela.

When there is evidence death resulted from <u>residual effects</u> rather than the active phase of conditions for which the Classification provides a sequela code, code the appropriate sequela category. Code specified <u>residual effects</u> separately. Apply the following instructions to the sequela categories.

1. <u>B900-B909 Sequela of tuberculosis</u>

Use these subcategories for the classification of tuberculosis (conditions in A162-A199) if:

a. A statement of a late effect or sequela of the tuberculosis is reported.

Ι	(a) Pulmonary fibrosis	J841
	(b) Seguela of pulmonary tuberculosis	B909

Code sequela of pulmonary tuberculosis (B909) since "sequela of" is stated.

- b. The tuberculosis is stated to be ancient, arrested, cured, healed, history of, inactive, old, quiescent, or remote, whether or not the residual (late) effect is specified, unless there is evidence of active tuberculosis.
 - I (a) Arrested pulmonary tuberculosis

B909

<u>Code</u> arrested pulmonary tuberculosis, B909, since there is no evidence of active tuberculosis.

- c. When there is evidence of active tuberculosis of a site with inactive (ancient, arrested, cured, healed, history of, old, quiescent, remote) tuberculosis of a **different** site, code both.
- d. When there is evidence of active and inactive (ancient, arrested, cured, healed, history of, old, quiescent, remote) tuberculosis of the **same** site, code active tuberculosis of the site only.

NOTE: Do not use duration to code sequela of tuberculosis.

Ι	(a) Respiratory failure	J969
	(b) Pneumonia	J189
	(c) Pulmonary tuberculosis 2 years	A162

<u>Code</u> pulmonary tuberculosis as active. Do not use duration of the tuberculosis to indicate sequela.

2. B91 Sequela of acute poliomyelitis

Use this category for the classification of poliomyelitis (conditions in A800-A809) if:

- a. A statement of a late effect or sequela of acute poliomyelitis is reported.
 - I (a) Sequela of acute poliomyelitis

B91

Code sequela of acute poliomyelitis as indexed.

- b. A chronic condition or a condition with a duration of one year or more that was due to the acute poliomyelitis is reported.
 - I (a) Paralysis 1 year

G839

(b) Acute poliomyelitis

B91

Code sequela of acute poliomyelitis, since the paralysis has a duration of 1 year.

c. The poliomyelitis is stated to be history of, old, or the interval between onset of the poliomyelitis and death is indicated to be one year or more whether or not the residual (late) effect is

specified.

I (a) Old polio

Code old polio.

d. The poliomyelitis is not stated to be acute or active and the interval between the onset of the poliomyelitis and death is not reported.

I	(a) Poliomyelitis(b)(c)	B91
Ι	(a) ASHD (b) (c)	I251
II I	Poliomyelitis (a) Paralysis (b) Polio (c)	B91 G839 B91
Ι	(a) Poliomyelitis with(b) paralysis(c)	B91 G839

3. **B92 Sequela of leprosy**

Use this category for the classification of leprosy (conditions in A30) if:

- a. A statement of a late effect or sequela of the leprosy is reported.
- b. A chronic condition or a condition with a duration of one year or more that was due to leprosy is reported.

4. <u>B940 Sequela of trachoma</u>

Use this subcategory for the classification of trachoma (conditions in A710-A719) if:

- a. A statement of a late effect or sequela of the trachoma is reported.
 - I (a) Late effects of trachoma
- b. The trachoma is stated to be healed or inactive, whether or not the residual (late) effect is specified.

B940

I (a) Healed trachoma B940

c.	A chronic condition such as blindness, cicatricial entropion or conjunctival scar that was due to the
	trachoma is reported unless there is evidence of active infection.

I (a) Conjunctival scar H112 (b) Trachoma B940

5. **B941 Sequela of viral encephalitis**

Use this subcategory for the classification of viral encephalitis (conditions in A830-A839, A840-A849, A850-A858, A86) if:

a. A statement of a late effect or sequela of the viral encephalitis is reported.

I (a) Late effects of viral encephalitis

B941

Code sequela of viral encephalitis as indexed.

- b. A chronic condition or a condition with a duration of one year or more that was due to the viral encephalitis is reported.
 - I (a) Chronic brain syndrome

F069

(b) Viral encephalitis

B941

<u>Code</u> sequela of viral encephalitis, since a resultant chronic condition is reported.

- c. The viral encephalitis is stated to be ancient, history of, old, remote, or the interval between onset of the viral encephalitis and death is indicated to be one year or more whether or not the residual (late) effect is specified.
 - I (a) St. Louis encephalitis

1 yr

B941

<u>Code</u> sequela of viral encephalitis, since a duration of 1 year is reported.

I (a) Old viral encephalitis

B941

<u>Code</u> sequela of viral encephalitis, since it is stated "old."

- d. Brain damage, cerebral fungus, CNS damage, epilepsy, hydrocephalus, mental retardation, paralysis (G810-G839) is reported due to the viral encephalitis.
 - I (a) Paralysis

G839

(b) Viral encephalitis

B941

<u>Code</u> sequela of viral encephalitis since paralysis is reported due to the viral encephalitis.

6. B942 Sequela of viral hepatitis

Use this subcategory for the classification of viral hepatitis (conditions in B150-B199) if:

A statement of a late effect or sequela of the viral hepatitis is reported.

7. <u>B948 Sequela of other specified infectious and parasitic diseases</u> <u>B949 Sequela of unspecified infectious and parasitic diseases</u>

Use B948 for the classification of other specified infectious and parasitic diseases (conditions in A000-A099, A200-A289, A310-A70, A740-A799, A811-A829, A870-B09, B250-B89) and

Use B949 for the classification of only the terms "infectious disease NOS" and "parasitic disease NOS" if:

- a. A statement of a late effect or sequela of the infectious or parasitic disease is reported.
- b. The infectious or parasitic disease is stated to be ancient, arrested, cured, healed, history of, inactive, old, quiescent, or remote, whether or not the residual (late) effect is specified, unless there is evidence of activity of the disease.
- c. A chronic condition or a condition with a duration of one year or more that was due to the infectious or parasitic disease is reported.

Ι	(a) Reye's syndrome (b) Chickenpox	1 yr	G937 B948
Ι	(a) Chronic brain syndrome (b) Meningococcal encephalitis		F069 B948

d. There is indication the interval between onset of the infectious or parasitic disease and death was one year or more, whether or not the residual (late) effect is specified.

8. E640-E649 Sequela of malnutrition and other nutritional deficiencies

Use Sequela Code	For Categories
E640	E40-E46
E641	E500-E509
E642	E54
E643	E550-E559
E648	E51-E53 E610-E638 E56-E60
E649	E639

Use these subcategories for the classification of malnutrition and other nutritional deficiencies (conditions in E40-E639) if:

a. A statement of a late effect or sequela of malnutrition and other nutritional deficiencies (E40-E639) is reported.

I (a) Cardiac arrest I469 (b) Seguela of malnutrition E640

b. A condition with a duration of one year or more is qualified as rachitic or that was due to rickets (E55.-) is reported.

I (a) Scoliosis 3 years M419 (b) Rickets E643

9. E68 Sequela of hyperalimentation

Use this category for the classification of hyperalimentation (conditions in E67 and hyperalimentation NOS in R632) if:

- a. A statement of a late effect or sequela of the hyperalimentation is reported.
- b. A condition with a duration of one year or more that was due to hyperalimentation is reported.

10. G09 Sequela of inflammatory diseases of central nervous system

Use this category for the classification of intracranial abscess or pyogenic infection (conditions in G000-G009, G030-G049, G060-G069, G08) if:

- a. A statement of a late effect or sequela of the condition in G000-G009, G030-G049, G060-G069, G08 is reported.
- b. A condition with a duration of one year or more that was due to the condition in G000-G009, G030-G049, G060-G069, G08 is reported.
- c. The condition in G000-G009, G030-G049, G060-G069, G08 is stated to be ancient, history of, old, remote, or the interval between onset of this condition and death is indicated to be one year or more, whether or not the residual (late) effect is specified.
- d. Brain damage, cerebral fungus, CNS damage, epilepsy, hydrocephalus, mental retardation, paralysis (G810-G839) is reported due to a condition in G000-G009, G030-G049, G060-G069, G08.

I (a) Hydrocephalus G919 (b) Meningitis G09

11. I690-I698 Sequela of cerebrovascular disease

Use this category for the classification of cerebrovascular disease (conditions in I600-I64, I670-I671, I674-I679) in	Use this category	for the classification of	cerebrovascular disease	(conditions in I600-I64	, I670-I671	, 1674-1679)	if:
---	-------------------	---------------------------	-------------------------	-------------------------	-------------	--------------	-----

a. A statement of a late effect or sequela of a cerebrovascular disease is reported.

I (a) Sequela of cerebral infarction

I693

<u>Code</u> sequela of cerebral infarction as indexed.

b. A condition with a duration of one year or more that was due to one of these cerebrovascular diseases is reported.

I (a) Hemiplegia

1 year

G819

(b) Intracranial hemorrhage

I692

<u>Code</u> sequela of other nontraumatic intracranial hemorrhage since the residual effect (hemiplegia) has a duration of one year.

c. The condition in I600-I6400, I670-I671, I674-I679 is stated to be ancient, history of, old, remote, or the interval between onset of this condition and death is indicated to be one year or more, whether or not the residual (late) effect is specified.

I (a) Brain damage

G939

(b) Remote cerebral thrombosis

I693

<u>Code</u> sequela of cerebral thrombosis since the cerebral thrombosis is reported as remote.

I (a) Old intracerebral hemorrhage

I691

<u>Code</u> sequela of intracerebral hemorrhage since the intracerebral hemorrhage is stated as old.

I (a) Cerebrovascular occlusion

6 yrs

I693

Code sequela of cerebrovascular occlusion since the duration is one year or more.

I (a) History of CVA

9 mos

I694

<u>Code</u> sequela of CVA since "history of" CVA is reported.

d. The condition in I600-I6400, and I670-I671, I674-I679 is reported with paralysis (any) stated to be ancient, history of, old, remote, or the interval between onset of this condition and death is indicated to be one year or more whether or not the residual (late) effect is specified.

I (a) CVA with old hemiplegia

I694 G819

Code sequela of CVA since it is reported with hemiplegia stated as old.

12. <u>0970-0979 Sequela of obstetric cause</u>

Use this category for the classification of an obstetric cause (conditions in O00-O927) if:

- a. A statement of a late effect or sequela of the direct obstetric cause is reported.
- b. A chronic condition or a condition with a duration of one year or more that was due to the direct obstetric cause is reported.

G. Ill-defined and unknown causes

1. Sudden infant death syndrome (R95)

Includes:

Cot death
Crib death
SDII, SID, SIDS, SUD, SUDI, SUID
Sudden (unexpected) (unattended) (unexplained)

• death (cause unknown) (in infancy)

Causing death at ages under 1 year

- death (cause unknown) (in infancy) (syndrome)
- infant death (syndrome)

Excludes:

The listed conditions causing death at ages one year or over (R960)

Female, 6 months

I (a) Sudden death R95

Male, 3 weeks

I (a) Sudden death, cause unknown R95

(b) R97

Female, 3 months

I (a) SIDS, pneumonia R95 J189

2. Other sudden death and other unspecified cause (R960-R961, R98-R99)

Code R960-R961, R98-R99 only when:

a. A term(s) classifiable to one of these codes is the only entry	v (or entries	s) on the death	i ceruncate
---	---------------	-----------------	-------------

b. The only other entry on the death certificate is classifiable to R97 (cause unknown).

Female, 2 years

I (a) Sudden death (b) Crib death

R960

R960

c. When more than one term classifiable to two or more of these categories is reported, code only one in this priority: R960, R961, R98, R99.

(1) Instantaneous death (R960)

Includes:

Cot death Crib death

SDII, SID, SIDS, SUD, SUDI, SUID

Sudden (unexpected) (unattended) (unexplained)

- death (cause unknown) (in infancy) (syndrome)
- infant death (syndrome)

Causing death at age 1 year or over

Excludes:

The listed conditions causing death at ages under one year (R95).

Male, 3 years

I (a) Sudden death, cause unknown

R960

(b) R97

Female, 2 years

I (a) SIDS, pneumonia

J189

(2) Death occurring in less than 24 hours from onset of symptoms, not otherwise explained (R961)

I (a) Died—no sign of disease

R961

(3) Unattended death (R98)

I (a) Found dead

R98

(b) Investigation pending

I (a) Found dead at foot of steps

R98

(b) Natural causes

(4) <u>Ill-defined and unspecified cause of mortality (R99)</u>

Includes:

Bone(s) found

Dead on arrival (DOA)

Diagnosis deferred

Died without doctor in attendance

Inquest pending

Natural cause(s)

Natural causes, cause unknown

Natural causes uncertain

Natural causes undetermined

Natural causes unknown

Natural causes unspecified

Natural disease undetermined

No doctor

Pending examination (any type)

(pathological) (toxicological)

Pending investigation (police)

Skeleton

Uncertain natural causes

Undetermined natural causes

Undetermined natural disease

Undiagnosed disease

Unknown natural causes

Unspecified natural causes

Excludes:

Unknown cause (R97)

NOTE: When a term from the preceding list is reported immediately preceding or following a term from the Unknown Cause (R97) list, assign R99 only.

Ι	(a) DOA (b) Cause unknown	R99 R97
Ι	(a) No doctor (b) Pending investigation	R99 R99
Ι	(a) Cause unknown (b) Pending pathological examination	R97 R99
Ι	(a) Natural causes, cause unknown	R99

3. <u>Unknown cause (R97)</u>

Includes:

Cause not found Immediate cause unknown Cause unknown No specific etiology identified Cause undetermined No specific known causes Nonspecific causes Could not be determined Etiology never determined Not known Etiology not defined Obscure etiology Etiology uncertain Undetermined Etiology unexplained Uncertain Etiology unknown Unclear Etiology undetermined Unexplained cause Etiology unspecified Unknown Final event undetermined ? Cause Immediate cause not determined ? Etiology

- a. Use this category for the classification of the listed terms except when the term in R97 is reported
 - (1) On the same line with and preceding a condition qualified as "possible," "probable," etc.
 - (2) In "Describe How Injury Occurred" (Item 43) of the death certificate.

In such cases, **do not** enter a code for the term in R97.

	Ι	(a) G. I. hemorrhage (b) Cause unknown (c) Carcinomatosis	K922 R97 C80
	I	(a) Unknown cause	R97
	Ι	(a) Intestinal obstruction(b) Unknown, possibly cancer	K566 C80
	Ι	(a) Amyloidosis(b) Chronic ulcerative colitis(c)	E859 K519
	II	Cirrhosis of liver, cause unknown	K746 R97
Place 9 MOD A	I II	(a) Cardiac arrest (b) Hip fracture (c) Fall	I469 S720 &W19
А		ccident 43 Unknown	

b. If the term in R97 is reported in Part I on the same line with and following the condition to which it applies, enter the code for unknown cause on the next due to line whether or not "cause unknown" is in parentheses beside the condition in Volume 3. Code the conditions on each of the remaining lines

in Part I, if there are any, as though they had been reported on the succeeding line(s).

Fe	male, 3 months	
Ι	(a) SIDS, cause unknown	R95
	(b)	R97
Ι	(a) Unknown cause	R97
	(b) Found dead	R98
I	(a) Unknown	R97
	(b) Known to have had ASHD	I251 J42
	(c) and chronic bronchitis	
Ι	(a) Gastric ulcer, cause unknown	K259
	(b) Rheumatoid arthritis	R97
	(c)	M069

SECTION V - EFFECTS OF EXTERNAL CAUSE OF INJURY AND EXTERNAL CAUSES OF INJURY AND POISONING

In ICD-10, the Nature of Injury Chapter (XIX) is part of the main Classification but certain effects of external causes are classified in Chapters I-XVIII. The external cause codes (Chapter XX) are intended for use, where relevant, to identify the external cause of conditions classifiable to Chapters I-XVIII, as well as to Chapter XIX. While not all external causes will have a corresponding code in Chapter XIX, an external cause code is required when a code from Chapter XIX is applicable.

A. External cause code (E-Code) concept

An external cause of injury may be classified to Accidents (V01-X59), Intentional self harm (X60-X84, and Sequela of external causes (Y85-Y89). When unspecified, assume all external cause one-term entities to be accidental unless the External Causes of Injury Index provides otherwise.

The objective in assigning the external cause codes is to combine into the entity being coded any related entries on the record that will permit the assignment of the most specific external cause codes in accordance with the intent of the certifier. After the determination of the most specific external cause code is made, enter this code where it is first encountered on the record. Do not repeat the same external cause code when it is reported on other lines. When more than one external cause is reported, code each external cause code where it is first encountered on the certificate.

The death certificate provides a specific place for information concerning the external cause of injury that is usually entered on the lines below the line labeled "Part II." However, a description of the external cause is reported frequently in Part I and may be repeated in the space provided for this information.

When such statements as: "jumped or fell," "don't know," "accident or suicide," "accident or homicide," "undetermined," or "open verdict" are reported, code the external cause as "undetermined." The "undetermined" categories include self-inflicted injuries, except poisoning, when not specified whether accidental or with intent to harm.

1. Use of Index

ICD-10 provides separate indexing in Volume 3, Section II for the external causes of injury, with frequent references to Volume 1. The External Causes of Injury Index provides a double axis of indexing — descriptions of the circumstances under which the accident or violence occurred and the agent involved in the occurrence. Usually, the "lead terms" in the External Causes of Injury Index describe the circumstances of the injury with a secondary (indented) entry naming the agent involved.

Fall from building W13

Locate the E-code for "fall":

Fall, falling

- from, off
- - building W13.-

2. Use of Tabular List

After locating the external cause code in the Index, always refer to Volume 1 since certain external cause codes for transport accidents require a fourth character not provided for in the Index. When ICD-10 provides a fourth character subcategory for an external cause code, always code the fourth character.

Fell from boat V929

Locate the E-code for "fall":

Fall

- from
- - boat, ship, watercraft NEC (with drowning or submersion) V92.-

In Volume 1, the fourth character describes the type of boat. Code the fourth character "9," unspecified watercraft.

The Classification provides a fourth character for use with categories W00-Y34, except Y06.- and Y07.-, to identify the place of occurrence of the external cause. NCHS uses a separate field for this purpose. Only the three-character category codes are assigned in multiple cause coding.

House fire X00

Locate the E-code for "House fire": House Fire (uncontrolled) X00.-

In Volume 1, a fourth character identifying the place of occurrence is required. Assign code 0 (home) to the place of occurrence variable in the field provided for this variable.

3. Place of occurrence of external cause

Enter a one-character place of occurrence code (0-9), for external causes of injury classifiable to W00-Y34, except Y06.- and Y07.-, **if the effects of the external cause are classifiable to Chapter XIX**. Do not enter a place code for external causes classifiable to any other external cause code. Use only the information reported in the medical certification section of the death certificate or additional information (AI) to determine the place code. Refer to Appendix D for the list of place of occurrence codes.

4. Manner of death (Item 37) on death certificate

- a. Affecting multiple cause codes
 - (1) When separate check boxes for indicating whether an external cause was accidental, suicidal, homicidal, undetermined, or pending investigation appear on the medical certification form, treat the check box entry as a one-term entity.
 - (2) When "accident," "pending," "unknown," or "undetermined" is written in the "check box" or is one of the items checked **and no condition is coded to Chapter XIX**, disregard the check box entry for assignment of codes.
 - (3) When "suicide" or "homicide" is written in the "check box", or is one of the items checked **and no condition is coded to Chapter XIX**, assign the appropriate external cause code preceded by Injury NOS, T149.
 - (4) When "unknown" or "open verdict" is written in the check box and there is a condition(s) coded to Chapter XIX, code the external cause to the appropriate "event of undetermined intent" category.
 - (5) When "pending," "pending investigation," "deferred," or "unclassified" is reported in the check box

and there is a condition(s) coded to Chapter XIX, code the external cause as indexed.

- (6) Enter a code for an entry in a check box for "natural cause" only if this is the only codable entry on the certificate or the only other codable entry is "unknown cause" (R97).
- b. As a separate variable

Enter an alpha character manner of death code (N, A, S, H, P, or C) in the appropriate data position for any entry in the manner of death check box. **Use only the information reported in the manner of death box to assign the code.**

Code the manner of death as:

Natural	۱۱
Accident	<i>F</i>
Suicide	
Homicide	
Pending Investigation	E
Could not be determined	
Blank	

5. Nature of injury and external cause code lists

Since certain entities state or imply cause (E-code) and effect (N-code), ICD-10 provides both N-codes and E-codes for many terms. Determination must be made whether to code nature of injury code only, external cause code only, or both nature of injury and external cause codes for such terms. Use the following lists as **guides** in classifying these terms. When ICD-10 provides a nature of injury code for an entity that does **not** appear on either list, use the nature of injury code only.

The E-code is only coded the first time external information is mentioned. A term requiring a N-code is coded each time it is reported.

Nature of injury code only (N-Code)

Allergy Anaphylactic reaction Anaphylactic shock Anaphylaxic, anaphylaxis Anoxia

Bezoar Burns Cremation

Crushed
Decapitation
Deceleration injury
Drug NOS or named drug

(when it means drug poisoning)

Drug synergism Exhaustion Fracture

Inattention at birth Incineration

Injury NOS (any site)

Intoxication when due to a

drug Lacerations Lack of care Mucus plug Multiple injuries

Polypharmacy (when it means

drug poisoning)

Scald Severed Smoke Starvation

Trauma NOS (any site)

Traumatic
Traumatic death

Traumatic injury (any site)

Traumatism

Wound (penetrating)

External cause code only (E-code)

Abandonment Explosive blasts to site(s) Inhalation
Accident, accidental Fall Physical violence
Arson Fight Projectile

Assault Fire Reaction of drug with a Beaten Flood reported complication

Blow to any site Foreign body Striking any site
Blunt force NOS Heat Suicide, suicidal

Blunt impact NOS Hitting any site
Conflagration Homicide, homicidal
Desertion Hot environment
Excessive heat Hot weather
Explosion Impact

Entities Requiring nature of injury and external cause codes on the same line (N\E Codes)

Abuse (child) (elder) (spousal) Hypothermia
Airway obstruction by foreign Immersion

body Impact injury (any site)
Alcohol intoxication (any term Impact to a site (any)
meaning intoxication) Incised (wound)

Anastomotic leak

*Asphyxia

*Aspiration

*Aspiration

*Ingestion of foreign body

Inhalation injury (any)

*Inhalation of foreign body

Lightning (struck by)

Bite Mangled

Blunt blow to a site Mechanical trauma

Blunt force injury (any site) Overdose (of drug or alcohol)

Blunt force to a site (any)

Overheated
Blunt impact to a site (any)

Overexertion

Blunt injury (any site) Poisoning (by substance)

Blunt trauma (any site) Pulled trigger

Bullet (to site) Puncture, punctured (any site)

Bullet wound Puncture wound Child neglect Radiation burns

Choking on foreign body Rape
Crushed by specified object Razor cut

Cut Shooting, shot (to site)
Drowning Shotgun blast (to site)
Electrocution Slash, slashed (any site)

Electrical burns Smothered
Electrical shock Snake bite
Exposure (to element) (cold, heat) Stab
Firearm (any type) (discharge) Sting

Flame burn Strangulation
Foreign body in any site Submersion
Freezing, froze, frostbite Suffocation
Got too hot Sunstroke

Gun went off Suspension, suspended

Gunshot (to site)
Gunshot wound
Hanging (by neck)
Heat exhaustion
Heat stress
Heat stroke

Swallowed object Toxicity (of substance) Vehicular trauma Weapon wound .22, .32 or any caliber

(* This does not apply when certain localized effects result from asphyxia, aspiration, or inhalation. Refer to Section V, Part O.)

B. Placement of nature of injury and external cause codes

When a nature of injury code and an external cause code are required for an entity,.

Place I (a) Gunshot wound of chest
9 (b)
(c)
MOD II
A
Accident

S219 &W34

<u>Since</u> "gunshot wound" requires a nature of injury and an E-code, enter on I(a) the nature of injury code for wound of chest followed by the most specific E-code for gunshot, accidental. Code place of occurrence as 9 (unspecified). Code manner of death as A (accident).

When entries requiring nature of injury codes and external cause codes are reported on the same line in Part I, code **the first nature of injury code** followed by the **most specific external cause code**; then code any remaining conditions for the line in the order indicated by the certifier.

Place 9

- I (a) Laceration of throat
 - (b) Dog bite of shoulder,
 - (c) arm and neck

S118

S410 &W54 T111 S119

<u>Code</u> the nature of injury code only for I(a). On I(b), code the nature of injury code for "bite of shoulder" followed by the E-code for dog bite followed by the remaining nature of injury codes for "bite arm and neck." Code place of occurrence as 9 (unspecified).

<u>Place</u>

- I (a) Fracture skull
 - (b) Fell from window, crushed
 - (c) chest and abdomen

S029

S280 &W13 S381

<u>I(a)</u> requires a nature of injury code only. I(b) requires both nature of injury and E-code since the external cause and injuries are reported on this line. Code first nature of injury code followed by the external cause code, followed by the remaining nature of injury codes. Code place of occurrence as 9 (unspecified).

I (a) Renal failure N19 Place (b) Injury kidney, liver and 0 S370 &W11 S361 S360 (c) spleen. Fell from ladder at home Code I(b) injury kidney followed by external cause code for the fall, followed by the remaining injuries. Code place of occurrence as 0 (home). I (a) Cerebral laceration & contusion S062 Place (b) Blow to right temporal area 9 &X599 Code I(a) to the nature of injury code only, and I(b) to the external cause code only. Code place of occurrence as 9 (unspecified). In Part II, code each entry in the same order as entered on the certificate. For entities requiring both nature of injury and external cause codes, enter the nature of injury code followed by the external cause code. Enter the information recorded in the special spaces that have been provided on the medical certification form for recording information about external causes of injury following any codes that are applicable to Part II. I (a) Crushed chest S280 Place (b) Broken rib S223 9 (c) II Fracture hip and arm S720 T10 &W24 Run over by a forklift 43 In Part II, code each entry in the order entered on the certificate. Code place of occurrence as 9 (unspecified). I (a) Subdural hematoma S065 Place II Blunt impact injury to head S099 &Y00 **MOD** Η Homicide 43 Struck on head with a blunt object by another person Since the entry in Part II requires both nature of injury and external cause codes, enter the nature of injury code followed by the most specific external cause code. Code place of occurrence as 9 (unspecified). I (a) Head wound S019 Place II &W34 S062 S019 **MOD** Α

Accident

43 Cerebral laceration, GSW of head

<u>Code</u> external cause code first in Part II since manner of death box requires an external cause code. Code place of occurrence as 9 (unspecified).

C. Use of ampersand

- 1. Use an ampersand to identify the following
 - a. The most specific external cause code causing injuries or poisoning.
 - b. Certain localized effects of poisonous substances (X45-X49) or aspiration (W78,W79, W80) when classifiable to Chapters I-XVIII.
 - c. Ampersand the E-code for aspiration (W78-W80) anytime it is reported.

Place I (a) Aspiration T179 &W78

0 (b) Vomitus

II Fx Hip Fall at home S720 &W19

Ampersand both the E-code for aspiration and the E-code for fall at home.

Exceptions to c:

- 1. When reported due to:
 - nature of injury codes
 - medical and surgical care
 - other external causes
- 2. When a nature of injury code other than T179 is reported as the **first** condition on the lowest used line in Part I.

 Place
 I
 (a) Aspiration of vomitus
 T179 W78

 0
 (b) Fx hip
 S720

 II
 Fall at home
 &W19

<u>Do not</u> ampersand the E-code for aspiration since both Exception 1 and 2 apply.

- 2. More than one external cause reported
 - a. In determining the most specific external cause code, consider all of the information reported on the record. <u>If two or more</u> external causes are reported one of the external causes led to the condition that terminated in death, precede the code for this external cause by an ampersand. If

no determination can be made, precede the code for the first mentioned external cause with an ampersand.

<u>Place</u>	Ι	(a) Aspiration of vomitus	T179 W78
9		(b) Internal chest injury	S279
		(c) Fall down stairs	&W10

<u>The</u> order in which the conditions are reported indicates that the fall down stairs led to aspiration; therefore, the ampersand precedes the code for this external cause.

<u>Place</u>	Ι	(a) Gunshot wound of head	S019	&X95
9		(b) Stab wound of chest	S219	X99
<u>MOD</u>	II			
Н				
		Homicide		

<u>The</u> order in which the external causes are reported does not indicate which event occurred first; therefore, precede the code for the gunshot wound with an ampersand since it is the first external cause reported.

<u>Place</u>	I	(a) Head trauma	S099
9	TT	Alcohol intoxication, auto accident	T519 X45 &V499

<u>Precede</u> the code for the auto accident with an ampersand. Alcohol intoxication did not cause the head trauma.

b. When alcohol intoxication (or any term meaning intoxication) is reported with another external cause other than aspiration, precede the code for the first mentioned external cause with an ampersand.

When alcohol intoxication is reported with drugs, refer to Section V, Part Q, 4, <u>Poisoning by alcohol and drugs.</u>

When alcohol intoxication is reported with exposure or hypothermia, refer to Section V, Part L, 2, Exposure, cold exposure and hypothermia.

<u>Place</u>	Ι	(a) Head trauma	S099
9		(b) Auto Accident	&V499
		(c) Alcohol intoxication	T519 X45

<u>Precede</u> the code for the auto accident with an ampersand since it is the first external cause reported.

<u>Place</u>	Ι	(a) Drowning	T751	&W74
9		(b) Alcohol intoxication	T519	X45
	II	Drinking heavily	F101	

<u>Precede</u> the code for the drowning with an ampersand since it is the first external cause reported. Code Part II as indexed.

Place I (a) Alcohol intoxication and hip fx T519 &X45 S720 II Fall while intoxicated W19 T519

<u>Precede</u> the code for the alcohol intoxication with an ampersand since it is the first external cause reported.

D. Certifications with mention of nature of injury and without mention of external cause

All certifications that have an entry classifiable to Chapter XIX must have an external cause code. When only one type of injury is reported without indication of the external cause and the External Cause Index provides a code for this type of injury, code accordingly. If the External Cause Index does not provide a code for the type of injury, code to Accident, unspecified (X599). When no external cause is reported and the external cause code must be assumed, code the external cause code as the last entry in Part II.

Place I (a) Crushed chest S280 9 II 8X599

Code Crushed (accidentally), X599 as indexed.

<u>Place</u> I (a) Fracture of hip and arm S720 T10 8X590

Code Fracture (circumstances unknown or unspecified), X590 as indexed.

<u>Place</u> I (a) Penetrating wound of abdomen S318 S219

9 (b) and chest

II &X599

Code Wound (accidental) NEC, X599 as indexed.

If different types of injuries are reported without indication of the external cause, use the injury reported in the lowest due to position to assign the appropriate external cause code for this injury. If more than one injury is reported on the lowest line, assign the appropriate external cause code for the first mentioned injury.

PlaceI(a) Brain injuryS0699(b) Fracture of skullS029II&X590

Code Fracture (circumstances unknown or unspecified), X590.

Place I (a) Fracture of hip S720 9 (b) Crushing hip injury S770

II &X599

Code Crushed (accidentally), X599.

Place I (a) Cerebral concussion and

S060 S062

9

(b) laceration of brain

II &X599

<u>Concussion</u> is not indexed in External Cause Index. Code to Accident, unspecified, X599.

These generalizations do not apply if the place of occurrence of the injury was highway, street, road, or alley. Refer to instructions for transport accidents in Section V, Part J.

Implied site of injury

Relate most injuries of an unspecified site to a condition of a specified site, whether or not qualified as generalized, multiple, or stated plural, following general instructions for relating disease conditions.

Exceptions:

Do not relate

Injury(ies) (generalized) (internal) (multiple

Trauma(s) (generalized) (internal) (multiple)

Wound(s) (generalized) (internal) (multiple)

<u>Place</u> I (a) Crushed skull with multiple fractures

S071 S029

9 11

&X599

<u>Code</u> crushed skull followed by multiple skull fractures relating the injury of unspecified site to the site of the injury that is reported on the same line. Since there is no external cause reported, code Crushed (accidentally) as indexed in Part II.

<u>Place</u> I (a) Fractured neck and contusions

II &X590

S129 S109

<u>Code</u> fractured neck followed by neck contusion relating the injury of unspecified site to the site of the injury that is reported on the same line. Since there is no external cause reported, code Fracture (circumstances unknown or unspecified) as indexed in Part II.

Place I (a) Fracture of hip (b) Crushing injury

S720

т ` ′

S770

II

&X599

<u>Code</u> crushing injury hip since there is only one site reported either on the line above or below the fracture. Since there is no external cause reported, code Crushed (accidentally) as indexed in Part II.

Place I (a) Fracture of skull with generalized trauma

S029 T07

9 II &X590

<u>Code</u> the generalized trauma as indexed. Do not relate to the site of the injury reported on the same line with it. Since there is no external cause reported, code Fracture (circumstances unknown or unspecified) as indexed in Part II.

 Place
 I (a) Skull fracture
 S029

 9 (b) Wound
 T141

 II
 &X599

<u>Code</u> I(b) to Wound as indexed. Do not relate to the site of the fracture reported on the upper line. Since there is no external cause reported, code Wound (accidental) NEC, X599 as indexed in Part II.

E. Conditions qualified as traumatic

- 1. Some conditions are indexed directly to a nontraumatic category but the Classification also provides a traumatic code. Consider these conditions to be traumatic and code as traumatic:
 - a. When they are qualified as "traumatic"
 - b. Or they are reported on the certificate with:
 - Injury or trauma (any specified type or site)
 - An external cause
 - The Manner of Death is Accident, Homicide, Suicide, Pending Investigation or Undetermined

Exception:

Do not apply this instruction if:

- the condition is reported due to a nontraumatic condition
- W78–W80 is the only external cause reported
- poisoning is reported

<u>Place</u>	Ι	(a) Pneumothorax	S270
6		(b) Fracture rib	S223
	II		&X590
		Place of injury- Factory	

<u>Since</u> pneumothorax is reported on the certificate with an injury, code pneumothorax as traumatic.

Place I (a) Cerebral hemorrhage S062
9 (b)
(c)

MOD A	II	&X599
	Accident	
	<u>Consider</u> cerebral hemorrhage to be traumatic since Accident is Death box.	s reported in the Manner of
MOD	I (a) Cardiorespiratory failure (b) Intracerebral hemorrhage (c) Meningioma II	R092 I619 D329
Α	Since intracerebral hemorrhage is reported due to a disease connontraumatic. Do not enter an E-code for Accident reported in condition is coded to Chapter XIX.	
Place 9 MOD N	I (a) Subarachnoid hemorrhage (b) Fall II	S066 &W19

Exceptions:

a. Code emphysema, encephalitis, and meningitis to the nature of injury code or are reported **due to** or **on the same line with** an injury or external cause.

Code subarachnoid hemorrhage as traumatic since it is reported on the certificate with an

<u>Place</u>	I (a) Emphysema	T797
9	(b) Injury chest	S299
	(c) Fall	&W19
	Code I(a) emphysema, traumatic since the condition is reported	d due to an injury.
Place	I (a) Internal injury	T148
9	(b) Fall from ladder	&W11
	II Meningitis	G039

external cause, disregarding Natural in the Manner of Death box.

<u>Do not</u> code the meningitis as traumatic since it is not reported due to or on the same line

with an injury or external cause. Code place of occurrence as 9 (unspecified).

b. Code the following terms to the traumatic category **only** when stated "traumatic:"

blindness (H540-H549) epilepsy (G400-G409) gastrointestinal hemorrhage (any K922) pneumonia (classifiable to J120-J168

<u>Place</u>	Ι	(a) Pneumonia	J189
9		(b) Fracture hip	S720
	II	Fall	&W19

Code I(a) pneumonia as indexed since it is not reported as traumatic.

Ι	(a) Traumatic epilepsy	T905
	(b) Head injury	T909
	(c) Fall from ladder	&Y86

<u>Code</u> epilepsy to the nature of injury code since it is stated traumatic.

c. When the traumatic form of a condition is classified to Chapters I-XVIII, code as traumatic **only** when stated to be "traumatic"

<u>Place</u>	Ι	(a) Cardiac arrest	I469
9		(b) Organic brain syndrome	F069
		(c) Brain injury	S069
		(d) Fall	&W19

Code organic brain syndrome as indexed since it is not stated "traumatic."

2. When a condition of a specified site is stated to be traumatic but there is no provision in the Classification for coding the condition as traumatic, code to injury unqualified of the site.

<u>Place</u>	Ι	(a) Traumatic cerebral thrombosis	S069
9		(b) Fall	&W19

Code Injury, cerebral.

3. When a condition that does not indicate a specified site is stated to be traumatic, but there is no provision in the Classification for coding the condition as traumatic code trauma unspecified and the condition separately.

<u>Place</u>	Ι	(a) Traumatic coma	T149 R402
9		(b) Fall	&W19

<u>Code</u> trauma unspecified and coma separately.

4. Traumatic hemorrhage (T148, T149)

Internal hemorrhage NOS	1	Due to or on same line with injury (any site)	Code the hemorrhage to T148, internal injury NOS
Hemorrhage NOS	2	Due to injury of a specified site	Relate the hemorrhage to the site of the specified injury
	3	Due to injury NOS or multiple injuries NOS	Code the hemorrhage to T149, injury NOS
	4	Due to injury of multiple specified sites	Relate the hemorrhage to site of the first mentioned specified injury
	5	Due to internal injury NOS or internal injuries NOS	Code the hemorrhage to T148, internal injury NOS
	6	On same line with injury of site	Relate the hemorrhage to the site of the specified injury
	7	On same line with injury of multiple specified sites	Code the hemorrhage to T149, injury NOS
	8	On same line with internal injury NOS or internal injuries NOS	Code the hemorrhage to T148, internal injury NOS
	9	Due to and on same line with injuries of different specified sites	Relate the hemorrhage to the site of the injury that is entered on the same line with hemorrhage

				Instruction Number
<u>Place</u> 9	I (a) (b) (c)	Internal hemorrhage Crushed thorax	T148 S280	1
	II		&X599	
<u>Place</u> 9	I (a) (b) (c)	Hemorrhage Fracture of femur	S799 S729	2
	II		&X590	
<u>Place</u> 9	I (a) (b) (c)	Hemorrhage Laceration of chest	S299 S219	2
II	()		&X599	

<u>Place</u> 9	Ι	(a) (b) (c)	Hemorrhage Multiple injuries	T149 T07				3
II		()		&X599				
<u>Place</u> 9	Ι	(a) (b) (c)	Hemorrhage Injury of chest, lung and fractured rib	S299 S299	S273	S223		4
II		(=)	Tractared Tib	&X599				
<u>Place</u> 9	Ι	(a) (b) (c)	Contusion chest with hemorrhage	S202	S299			6
II		(0)		&X599				
<u>Place</u> 9	Ι	(a) (b) (c)	Laceration of liver, lung, & spleen with hemorrhage	S361	S273	S360	T149	7
	II		cure rt. femur	S729	&X599			
<u>Place</u> 9	I	(a) (b)	Cerebral contusion with hemorrhage	S062				9
II		(c)	Injury of chest, lung, back	S299 &X599	S273	S399		

F. Assumption of nature of injury code

When an external cause is reported on a certificate without a nature of injury code, assign both a nature of injury and an external cause code. Assume the nature of injury to be Injury NOS, T149 and place it preceding the external cause code.

<u>Place</u>	Ι	(a) Respiratory failure	J969	
9		(b) Fire	T149	&X09

I(b) is an external cause code only. Since there is not a nature of injury reported on the certificate, code nature of injury T149 preceding the external code for fire.

<u>Place</u>	Ι	(a) Subarachnoid hemorrhage	I609	
9		(b) Stroke	I64	
		(c) Fall	T149 &	W19

Do not code the hemorrhage on I(a) as traumatic since it is reported due to a nontraumatic condition. I(c) is an external cause code only and there is not a nature of injury reported on the certificate. Code nature of injury T149 preceding the external code for fall.

<u>Place</u>	Ι	(a) Struck by falling tree	&W20
9	II	Head wound	S019

I(a) is an external cause code only. Since there is a nature of injury on the certificate, do

not code T149 preceding the external code.

Place I (a) Struck by falling tree T149 &W20 II Respiratory failure J969

I(a) is an external cause code only. Since there is not a nature of injury on the certificate, code T149 preceding the external code.

Exceptions:

1. When conditions classified to categories A000-R99 are reported due to "second hand smoke

Ι	(a) Pulmonary emphysema(b) Second hand smoke	J439 X49
Ι	(a) Lung cancer (b) Second hand smoke	C349 X49
Ι	(a) Cardiac arrest (b) Second hand smoke	I469 X49

2. Anthrax is reported with accident, suicide, homicide or undetermined

When anthrax (A220-A229) is reported with accident, suicide or homicide anywhere on the record (including in the check box) or undetermined in the check box only, code the anthrax as indexed and code the external cause code as:

- Accident specified (X58)
- Suicide specified (X83)
- Homicide specified (Y08)
- Undetermined specified (Y33)

Anthrax designated as an act of terrorism is classified to U016.

<u>MOD</u>	I (a)	Inhalation	anthrax	A221
Н	II			Y08
		Homicide		

<u>Code</u> I(a) as indexed under Anthrax, inhalation. Code an E-code only in Part II for homicide based upon the check box entry. Also enter a H for Homicide in the Manner of Death item.

I (a) Anthrax A229 (b) Homicide Y08

Code I(a) as indexed. Code an E-code only on I(b); do not assume an injury code.

- 3. When conditions in J680-J709 are reported due to an external cause not considered to be medical or surgical care, refer to Section V, Part O, <u>Guides for differentiating between effects of external causes classifiable to Chapters I-XVIII and Chapter XIX.</u>
- 4. If a pathological fracture and an external event are reported, no assumption of a nature of injury code is required.

G. Multiple injuries (T00-T07)

When injury (of a site) or specified type of injury (of a site) is:

Stated as	Code as indexed under
Bilateral	Injury (or specified type of injury), site, bilateral
Both	Injury (or specified type of injury), site, both
Multiple	Injury (or specified type of injury), site, multiple

Do not consider the plural form of injury or the plural form of a site to indicate multiple. Do not consider "right and left" as bilateral or both.

Examples of injuries:

- - lower NEC

Examples of injuries:	
1. Fracture of both hips	T025
Fracture - hip both T025	
2. Fracture of hips	S720
Fracture - hip S720	
3. Multiple fractures of ribs	S224
Fracture - rib multiple S224	
4. Fractures of ribs	S223
Fracture - rib S223	
5. Multiple wounds of lower limb	T013
Wound - limb	

- - - multiple sites

T013

1. Multiple injuries	Followed by specified type(s) of injuries	Code T07 and the specified injuries
2. Multiple injuries	Followed by specified site(s)	Code multiple injuries by site(s) only
3. Single site	Reported on same line with multiple types of injuries	Code the specified types of injuries of the reported site
4. More than one site	Reported on same line with multiple types of injuries	Code the specified type of injury immediately preceding the reported sites to the sites code all other injuries to the NOS code

1. Place I 9	(a) Multiple injuries with(b) fracture skull and(c) laceration brain	T07 S029 S062
II	(e) laceración siam	&X599
2. Place I 9	(a) Multiple injuries - head, neck, chest	S097 S197 S297
II		&X599
3. Place I 9	(a) Fracture, laceration and contusion (b) of leg	T12 T131 T130
9	(c) Fall from roof	&W13
4. Place I 9	(a) Contusions, lacerations, fracture of trunk (b) and extremities	T140 T141 T021 T142
II	(b) and excernices	&X599

H. Burns: multiple degrees of burns/percentage of body surface burned

1. When multiple degrees of burns are reported, with or without mention of sites, code the most severe degree only.

Place 0	Ι	(b) of face, chest wall and abdomen				T203	T213	
MOD A	II	(c)					&X00	
		Accident	home		house fire			

Place I (a) 2nd and 3rd degree burns T303

9 (b) (c) II &X09

Code 3rd degree burns of unspecified body region.

Code 3rd degree burns of each site reported.

2. When a percentage of burns or a percentage of body (entire, total) burns is reported, code to the percentage.

Place I (a) Burns of 50% of T315
9 (b) body surface
(c)
MOD II &X06
A
Accident clothing caught on fire

Code burns involving 50-59% of body surface.

3. When specified degrees of burns are reported with the percentage of body surface involved, code only the percentage of body surface involved.

Place I (a) 30-40%, 2nd and 3rd degree burns of body T314
0 (b)
(c)
II House fire &X00

Code burns involving 40-49% of body surface.

4. When a percentage of burns of specified sites is reported, code to burn of site(s) involved.

Place I (a) Burns, 76% of face, anterior trunk, and T200 T210 T300 8 (b) extremities (c) MOD II &X00 T300

Accident burned in fire in abandoned shack

Code unspecified degree burns of each site reported. In Part II, code burned as burn of unspecified body region, unspecified degree.

I. Specified types and sites of injuries

1. When specified **types** of injuries of sites are reported, code to site only. Do not use Index entries of "specified type NEC" or "specified NEC" (usually .8).

S499 &X599 I (a) Impact injury, upper arm Place 9 Indexed as: Injury - arm NEC T119 - - upper \$499 - - - specified NEC S498 I (a) Blunt injury, trunk T099 &X599 Place 9 Indexed as: Injury

- trunk T099

- - specified type NEC T098
- 2. When specified **sites** of injuries are reported, do not use Index entries of "specified type NEC" or "specified NEC". Use only if indexed as "specified site NEC" or "specified part NEC."

I (a) Fracture third cervical vertebra S129 Place 9 (b) Fall &W19

Indexed as:

Fracture

- vertebra T08
- - cervical (teardrop) S129
- - specified NEC S122

I (a) GSW right side of neck S118 &W34 Place 9

Indexed as:

Wound

- neck S119
- - specified part NEC S118

J. Transportation accidents (V01-V99)

The main axis of classification for land transports (V01-V89) is the victim's mode of transportation. The vehicle of which the

injured person is an occupant is identified in the first two characters since it is seen as the most important for prevention purposes.

Definitions and examples relating to transport accidents are in Volume 1, pages XX-9 - XX-17. Refer to these definitions when any means of transportation (aircraft and spacecraft, watercraft, motor vehicle, railway, other road vehicle) is involved in causing death.

For classification purposes, a motor vehicle not otherwise specified is **NOT** equivalent to a car. Motor vehicle accidents where the type of vehicle is unspecified are classified to V87-V89.

A vehicle not otherwise specified is **NOT** equivalent to a motor vehicle **unless** the accident occurred on the street, highway, road(way), etc. Vehicle accidents where the type of vehicle is unspecified are classified to V87-V89.

Additional information about type of transports are given below

- (1) Car (automobile) includes blazer, jeep, minivan, sport utility vehicle
- (2) Pick-up truck or van includes ambulance, motor home, or truck (farm) (utility)
- (3) Heavy transport vehicle includes armored car, dump truck, fire truck, panel truck, semi, tow truck, tractor trailer, 18-wheeler
- (4) A special all-terrain vehicle (ATV) or motor vehicle designed primarily for off-road use includes dirt bike, dune buggy, four-wheeler, go cart, golf cart, race car, snowmobile, three-wheeler
- (5) Motor vehicle includes passenger vehicle (private), street sweeper

1. Use of the Index and Tabular List

The Classification provides a Table of land transport accidents in Volume 3,

Section II. This table is referenced with any land transport accident if the mode of transport is known. Since the Index does not always provide a complete code, reference to Volume 1, Chapter XX is required.

For V01-V09, the fourth character indicates whether a pedestrian was injured in a nontraffic accident, traffic accident, or unspecified whether traffic or nontraffic accident.

For V10-V79, the fourth character represents the status of the victim, i.e., whether the decedent was driver, passenger, etc. For each means of transportation, there is a different set of fourth characters. Each means of transportation is preceded by its set of fourth characters in Volume 1.

Car overturned, killing driver V485

In the Index refer to:

Overturning

- transport vehicle NEC (see also Accident, transport) V89.9

Accident

- transport (involving injury to) (see also Table of land transport accidents) V99

In the Table of land transport accidents, select the intersection of:

Under **Victim and mode of transport,** select Occupant of:

- car (automobile)

Under In collision with or involved in: select

Noncollision transport accident

The code is V48.-. From Volume 1 the fourth character is 5, driver injured in traffic accident.

Auto collision with animal V409

In the Index refer to:

Collision (accidental) NEC (see also Accident, transport) V89.9

Accident

- transport (involving injury to) (see also Table of land transport accidents) V99

In the Table of land transport accidents, select the intersection of:

Under Victim and mode of transport, select

Occupant of:

- car (automobile)

Under In collision with or involved in: select

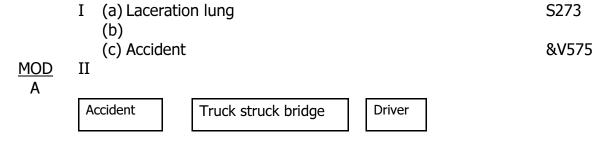

Pedestrian or animal

The code is V40.-. From Volume 1, determine the fourth character is 9, unspecified car occupant injured in traffic accident.

2. Classifying accidents as traffic or nontraffic.

If an event is unspecified as to whether it is a traffic or nontraffic accident, it is assumed to be:

- a. A traffic accident when the event is classifiable to categories V02-V04, V10-V82 and V87.
- b. A nontraffic accident when the event is classifiable to categories V83-V86. These vehicles are designed primarily for off-road use.
- c. Consider category V05 to be unspecified whether traffic or nontraffic if no place is indicated or if the place is railroad (tracks).
- d. Consider category V05 to be traffic if place is railway crossing.
- e. Consider accidents involving occupants of motor vehicles as traffic when the place is indicated or if the place is railroad (tracks).

<u>Code</u> to occupant of pick-up truck or van injured in collision with fixed or stationary object, driver. When a motor vehicle strikes another vehicle or object, assume the collision occurred on the highway unless otherwise indicated.

S029 I (a) Fractured skull (b) ΙΙ MOD &V866 Accident Farm Dune buggy overturned-passenger Code to passenger of all-terrain or other off-road motor vehicle injured in nontraffic accident. (a) Drowning T751 &V863 Π <u>MOD</u> Α Accident Snowmobile ran off road and went into pond

<u>Code</u> to unspecified occupant of all-terrain or other off road motor vehicle injured in traffic accident. Code as traffic accident since the accident originated on the road.

3. Status of victim

- a. General coding instructions relating to transport accidents are in Volume 1, Chapter XX. Refer to these instructions for clarification of the status of the victim when not clearly stated.
 - I (a) Multiple internal injuries

T065

(b) Crushed by car

T147 &V031

<u>Code</u> to pedestrian injured in collision with car, pick-up truck or van, traffic. Refer to Volume 1, Chapter XX, instruction 3, Crushed by car. The victim is classified as a pedestrian. Refer to Table of land transport accidents. Victim and mode of transport, pedestrian, in collision (with) car. Refer to Volume 1 for fourth character.

b. In classifying motor vehicle traffic accidents, a victim of less than 14 years of age is assumed to be a passenger provided there is evidence the decedent was an occupant of the motor vehicle. A statement such as "thrown from car," "fall from," "struck head on dashboard," "drowning," or "carbon monoxide poisoning" is sufficient.

Female, 4 years old

I (a) Fractured skull

S029

(b) Struck head on windshield when car

&V476

(c) struck tree that had fallen across road

<u>Code</u> to car occupant injured in collision with fixed or stationary object, passenger (V476).

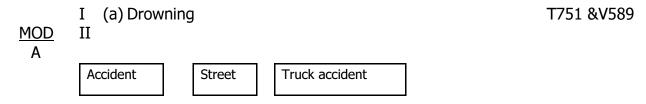

c. When transport accident descriptions do not specify the victim as being a vehicle occupant and the victim is described as:

pedestrian	versus (vs)	any vehicle (car, truck, etc.)	
any vehicle (car, truck, etc.)	versus (vs)	pedestrian	

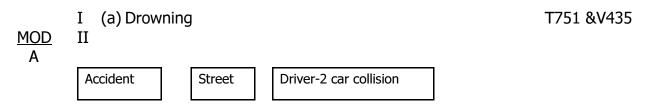

classify the victim as a pedestrian (V0I-V09).

4. Coding categories V01-V89

a. When drowning occurs as a result of a motor vehicle accident NOS, code as noncollision transport accident. The assumption is the motor vehicle ran off the highway into a body of water. If drowning results from a specified type of motor vehicle accident, code the appropriate E-code for the specified type of motor vehicle accident.

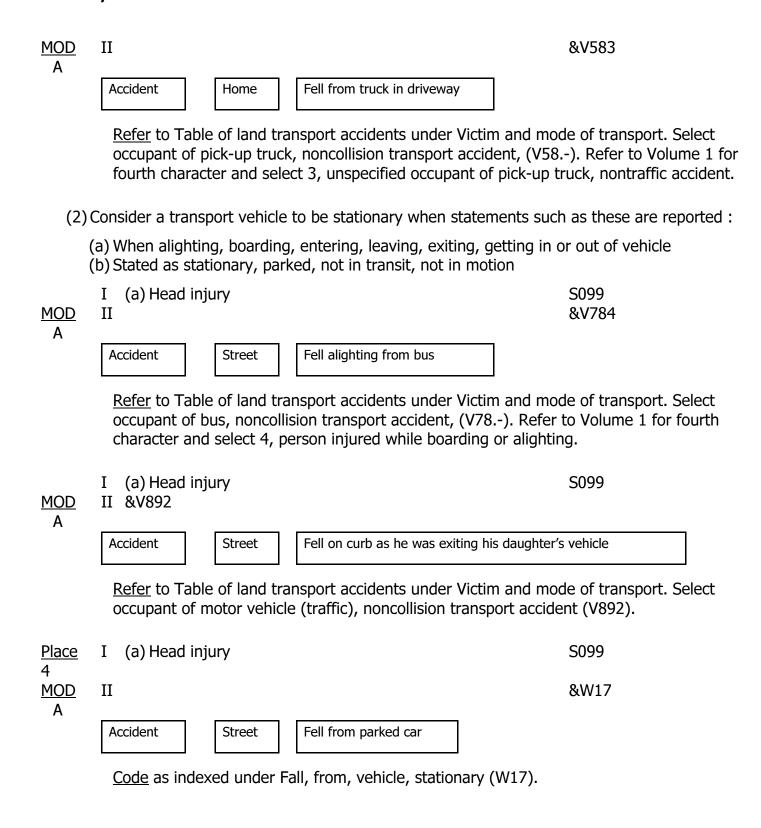

<u>Refer</u> to Table of land transport accidents. Code to occupant of truck injured in noncollision transport accident, unspecified.

<u>Refer</u> to Table of land transport accidents. Code to occupant of car injured in collision with car, driver.

- b. When falls from transport vehicles occur, apply the following instructions:
 - (1) Consider a transport vehicle to be in motion unless there is clear indication the vehicle was not in transit. Refer to Table of land transport accidents, specified type of vehicle reported, noncollision. Refer to Volume 1 for appropriate fourth character.
 - I (a) Multiple injuries

T07

5. Additional examples

I (a) Fractures of ribs

S223

	(b) (c)		
MOD A	II		&V234
	Accident Driver of	motorcycle that collided with taxicab	
	Code to motorcycle ride	er injured in collision with car, pick-up t	ruck or van, driver (V234).
	I (a) Third degree burns (b) Auto accident - cas (c)		T303 &V489
	Code to car occupant in	jured in noncollision transport accident	t, unspecified (V489).
MOD	I (a) Fracture of ribs (b) (c) II &V892		S223
Α	Accident Street	Vehicle Accident	

<u>Code</u> to person injured in unspecified motor vehicle accident, traffic (V892). Code as motor vehicle accident since the accident occurred on the street.

6. Occupant of special all-terrain or other motor vehicle designed primarily for off-road use, injured in transport accident (V86)

This category includes accidents involving an occupant of any off-road vehicle. The fourth character indicates whether the decedent was injured in a nontraffic or traffic accident. Unless stated to the contrary, these accidents are assumed to be nontraffic.

I (a) Multiple injuries T07 (b) Driver of snowmobile that collided with auto &V860

<u>Code</u> to driver of all-terrain or other off-road motor vehicle injured in traffic accident since the collision occurred with an automobile.

I (a) Injuries of head S099
(b) Fracture both legs T025
(c) Driver of ATV &V865

Code to driver of all-terrain or other off-road motor vehicle injured in nontraffic accident.

I (a) Head injuries S099

(b) Overturning snowmobile

&V869

<u>Code</u> to unspecified occupant of all-terrain or other off-road motor vehicle injured in nontraffic accident.

I (a) Fracture skull (b) ATV accident

S029

&V869

<u>Code</u> to unspecified occupant of all-terrain or other off-road motor vehicle injured in nontraffic accident (V869)

7. Traffic accident of specified type but victim's mode of transport unknown (V87) Nontraffic accident of specified type but victim's mode of transport unknown (V88)

- a. If more than one type of vehicle is mentioned, do not make any assumptions as to which vehicle was occupied by the victim unless the vehicles are the same. Instead, code to the appropriate categories V87-V88. Statements such as these do not indicate status of victim:
 - Auto (passenger) vs. truck
- Passenger car vs. truck
- Car vs. truck, driver
- Car vs. truck, driver
- Driver, car vs. truck
- Driver-car vs. truck
- I (a) Intrathoracic injury

S279

(b)

(c) Auto vs. motor bike accident

&V870

<u>Do</u> not make any assumption as to which vehicle the victim was occupying. Using the Index, code:

Accident

- transport (involving injury to) (see also Table of land transport accidents) V99
- - person NEC (unknown means of transportation) (in) V99
- - collision (between)
- - car (with)
- - - two- or three-wheeled motor vehicle (traffic) V87.0
- I (a) Multiple injuries

T07

(b) Driver - collision of car and bus

&V873

(c)

<u>Do</u> not make any assumption as to which vehicle the victim was driving. Using the Index, code:

Accident

- transport (involving injury to) (see also Table of land transport accidents) V99
- - person NEC (unknown means of transportation) (in) V99
- - collision (between)
- - car (with)
- - - bus (traffic) V87.3
- b. If reported types of vehicles are not indexed under Accident, transport, person, collision, code V877 for traffic and V887 for nontraffic.
 - I (a) Multiple injuries

T07

(b) Bus and pick-up truck collision, driver

&V877

(c)

<u>Do</u> not make any assumption as to which vehicle the victim was driving. Collision between bus and pick-up is not indexed under Accident, transport, person, collision. Code V877.

8. Water transport accidents (V90-V94)

The fourth character subdivision indicates the type of watercraft. Refer to Volume 1, Chapter XX, Water transport accidents for a list of the fourth character subdivisions.

I (a) Drowning (b) Fell over-board T751 &V929

MOD ^

II

Accident

Code drowning, due to fall overboard. Use fourth character "9," unspecified watercraft.

9. Air and space transport accidents (V95-V97)

For air and space transport accidents, the victim is only classified as an occupant.

Military aircraft is coded to V958, Other aircraft accidents injuring occupant, since a military aircraft is not considered to be either a private aircraft or a commercial aircraft. Where death of military personnel is reported with no specification as to whether the airplane was a commercial or private craft, code V958.

10. Miscellaneous coding instructions (V01-V99)

a. When multiple deaths occur from the same transportation accident, all the certifications should be examined, and when appropriate, the information obtained from one may be applied to all. There may be other information available such as newspaper articles. A query should be sent to the

certifier if necessary to obtain the information.

b. When classifying accidents which involve more than one kind of transport, use the following order of precedence:

aircraft and spacecraft (V95-V97) watercraft (V90-V94) other modes of transport (V01-V89, V98-V99)

I (a) Multiple fractures and internal injuries

T029 T148

(b) Driver of car killed when a private plane

&V973

(c) collided with car on highway after forced landing.

<u>Code</u> to person on ground injured in air transport accident following above order of precedence. Refer to Index under Accident, transport, aircraft, person, on ground.

c. When no external cause information is reported and the place of occurrence of the injury was highway, street, road(way), or alley, assign the external cause code to person injured in unspecified motor vehicle accident occurring on the highway.

I (a) Head injuries and fracture

S099 S029

MOD

II &V892

Accident

Highway

<u>Code</u> to person injured in unspecified motor vehicle accident, traffic since the accident occurred on the highway.

- d. Homicide, suicide or undetermined in manner of death
 - (1) When "undetermined" is reported in the manner of death box with transport accidents, code the external cause as accidental unless a statement on the certificate **clearly establishes** an investigation has not determined whether accidental, homicidal, or suicidal.

<u>Place</u> 9	I (a) Hypothermia (b) (c)	T68 X31
	II Alcohol intoxication	T519 &X45

M. Firearms and firearm injuries

1. Coding specific types of firearms

The type of firearm involved in a death is identified at the three character level. Use the following guide to identify the type of firearm:

Type Firearm	Accidental	Intentional Self-harm	Assault	Undetermined Intent
Handgun 25 Caliber 32 Caliber 38 Caliber 45 Caliber 357 Magnum 380 Caliber Pistol Revolver Saturday night special	W32	X72	X93	Y22
Rifle, shotgun, larger firearm 25.06 (25 ought 6) 30.6 (30 ought 6) 30/30 308 AK47 M1 (carbine) M14 M16 Machine gun Rifle (army) (hunting) (military) Shotgun (8, 10, 12, 16, 20, 410 gauge, buckshot)	W33	X73	X94	Y23
Other and unspecified firearms 9 mm 22 Caliber gun 30 Caliber gun Airgun BB gun Pellet gun Pellet pistol Very pistol (Flare)	W34	X74	X95	Y24

2. External cause code

a.

When reported as	<u>Code</u>
"playing with gun" NOS or "cleaning gun" NOS	external cause as accidental (W32-W34)
"playing Russian roulette" (whether or not stated	external cause as handgun accident (W32)

suicide)

Place 9	I (a) Gunshot wound of femur (b) Cleaning gun	S711 &W34 T141
	<u>Code</u> as accidental since reported due to cleaning gun.	
Place 9 MOD S	I (a) Gunshot wound chest (b)Self-inflicted while playing Russian roulette II	S219 &W32
	Suicide	

 $\underline{\text{Code}}$ as handgun accident since Russian roulette is reported.

3. Nature of injury code

a.

When	Is reported due to	<u>Code</u>
Injury NOS	any caliber bullet gun went off pulled trigger specified firearm	the nature of injury to wound

<u>Place</u>	Ι	(a) Injury	T141	
9		(b) Rifle	T141 8	ķW33

b.

When reported as	<u>Code</u>
Gunshot or bullet entering and/or exiting a site	the nature of injury to wound of site(s)

Place I (a) Bullet entering chest & (b) exiting back

S219 &W34 S212

c.

When reported as	<u>Code</u>
Bullet (to site)	the nature of injury to wound (of
Gunshot (to site)	site(s))
Shooting, shot (to site)	
Shotgun blast (to site)	

<u>Place</u> I (a) Shot in head

S019 &W34

4. Other firearm examples

Place I (a) Gunshot wound chest

S219 &Y24

9 (b) Self-inflicted

<u>Code</u> as undetermined gunshot since self-inflicted is reported and is unspecified as accidental or intentional.

<u>Place</u> I (a) Gunshot injury chest

S219 &W34 S273

9 (b) and lung

Code the nature of injury to wound of sites and external code to accidental gunshot wound

N. Child abuse, battering and other maltreatment (Y070-Y079)

Code to <u>Child battering and other maltreatment (Y070-Y079)</u> if the age of the decedent is under 18 years and the cause of death meets one of the following criteria:

1. The certifier specifies abuse, battering, beating, or other maltreatment, even if homicide is not specified.

Male, 3 years

I (a) Traumatic head injuries

S099

(b)

(c)

MOD II &Y079

Homicide Home Deceased had been beaten

2. The certifier specifies homicide and injury or injuries with indication of more than one episode of injury, i.e., current injury coupled with old or healed injury consistent with a history of child abuse.

	Male, 1-1/2 years	
	I (a) Anoxic encephalopathy	G931
	(b) Subdural hematoma	S065
	(c) Old and recent contusions of body	T910 T090
<u>MOD</u>	II &Y079	
Н		
	Homicide	

3. The certifier specifies homicide and multiple injuries consistent with an assumption of battering or beating, if assault by a peer, intruder, or by someone unknown to the child cannot be reasonably inferred from the reported information.

	Female, 1 year	
	I (a) Massive internal bleeding	T148
	(b) Multiple internal injuries (c)	T065
MOD H	II Injury occurred by child being struck	T149 &Y079
	Homicide	

Exception:

Deaths at ages under 18 years for which the cause of death certification specifies homicide and an injury occurring as an isolated episode, with no indication of previous mistreatment, should not be classified to Y070-Y079. This excludes from Y070-Y079 deaths due to injuries specified to be the result of events such as shooting, stabbing, hanging, fighting, or involvement in robbery or other crime, because it cannot be assumed such injuries were inflicted simply in the course of punishment or cruel treatment.

	Female, 1 year	
<u>Place</u>	I (a) Hypovolemic shock	T794
0	(b) Laceration of heart	S268
	(c) Multiple stab wounds thorax	S217 &X99
<u>MOD</u>	II Stabbed with kitchen knife by mother	T141
Н	·	
	Homicide Home	

O. Guides for differentiating between effects of external causes classifiable to Chapters I -

XVIII and Chapter XIX

Categories in Chapters I-XVIII and XIX are mutually exclusive. Where provision has been made for coding effects of an external cause to Chapters I-XVIII, do not use a nature of injury code.

The effects of external causes classifiable to Chapters I-XVIII are primarily those associated with drugs, medicaments and biological substances, surgical procedures, and other medical procedures. Refer to Section V, Part R, Complications of medical and surgical care (Y40-Y84).

A limited number of conditions that can result from other external causes, e.g., certain localized effects of fumes, vapors and nonmedicinal chemical substances and respiratory conditions from aspiration of foreign substances are also classified to Chapters I-XVIII. It is intended that Chapters I-XVIII be used to identify the localized effects and the substance be identified by the external cause code in Chapter XX.

To determine if the conditions reported due to external causes, other than drugs, medicaments, and biological substances, surgical procedures, and other medical procedures, are classified to localized effects in Chapters I-XVIII or to the nature of injury in Chapter XIX – look up the stated condition in the Index and scan the listing under this condition for qualifying terms that relate to the reported external cause. For example, to determine whether pneumonia due to aspiration of vomitus should be coded to Chapter X or to Chapter XIX, look up "Pneumonia, aspiration, due to, food (regurgitated), milk, vomit." This determination cannot be made by looking up "Aspiration." Where there is provision in the Index for coding a condition due to an external cause to Chapter I-XVIII, take the external cause into account if it modifies the coding.

I (a) Pneumonia &J690 (b) Aspiration of vomitus W78

<u>Code</u> Pneumonia, aspiration, due to vomit. Code "aspiration of vomitus" as an external cause code only.

I (a) Pneumonia &J690 (b) Aspiration W80 (c) Cancer of lung C349

<u>Code</u> Pneumonia, aspiration. Code I(b) "aspiration" as an external cause code only.

I (a) Pneumonia &J690 (b) Asphyxia W80

(c) Aspiration

<u>Code</u> Pneumonia, aspiration. Code I(b) external cause code only.

I (a) Pneumonia &J680 (b) Smoke inhalation X00

II House fire

<u>Code</u> Pneumonia, in (due to), fumes and vapors (J680). Code I(b) external cause code only.

I (a) Acute pulmonary edema &J681 (b) Inhaled gasoline fumes X46

<u>Code</u> Edema, pulmonary, acute, due to, chemicals fumes or vapors (J681). Code I(b) external cause code only.

PlaceI(a) PneumoniaJ1899(b) Cardiac arrestI469(c) Aspiration of vomitusT179 &W78

<u>Code</u> each entity as indexed. Do not code the pneumonia on I(a) due to aspiration of vomitus since it is reported due to another condition.

P. Threats to breathing

Certain effects of external causes can be classified to more than one nature of injury code depending on the type of external cause. Some of these effects are "anoxia," "asphyxia," "aspiration," "choking," "compression of neck," "obstruction of a site," "strangulation," "stricture of neck," and "suffocation."

The most frequently reported external causes which result in these effects are "aspiration, ingestion, and inhalation of objects and substances," "drowning," "fires," "fumes, gases and vapors," "hanging," "mechanical strangulation and suffocation," and "submersion."

The following pages contain tables that are used as guides in coding these types of external causes and effects.

In general, if the specific external cause is not in Tables 1-5, it will most likely be in Table 6, which contains the most frequently reported external causes which result in asphyxia, suffocation, etc. If not in any of the tables, code the effect as indexed.

Table	Title
Table 1	Drowning and submersion
Table 2	*Hanging and mechanical strangulation (by external means)
Table 3	Fires (includes burns, gases, fumes in association with burns and fires)
Table 4	Ingestion, inhalation of gases, fumes, vapors (without fires, burns)
Table 5	Compression chest, crushed chest by external means
Table 6	Aspiration NOS, ingestion NOS, inhalation NOS or aspiration, ingestion, inhalation of substances or objects (W78, W79, W80)

***NOTE:** Interpret mechanical strangulation as strangulation caused by external means to the exterior of the body.

Accident

Q. Poisoning

When poisoning (any) is reported for the substance.

When poisoning by fumes, gas, liquids, or solids is reported, refer to Index under "Poisoning (acute)" to determine the nature of injury code for the substance.

To determine the external cause code when a poisonous substance is ingested, inhaled, injected, or taken, refer to the description of such circumstances (acts) for example, Ingestion, Inhalation, or Took.

When a condition is reported due to poisoning and the Index provides a code for the condition qualified as "toxic," use this code. If the Index does not provide a code for the condition qualified as "toxic," code the condition as indexed.

1. Poisoning by substances other than drugs

Assume poisoning (self- inflicted) by a substance to be accidental unless otherwise indicated.

Place I (a) Aplastic anemia D612
9 (b) Benzene poisoning T521 &X46

<u>Code</u> I(a) Anemia, aplastic, toxic. Code I(b) to nature of injury and external cause code for benzene poisoning from Table of Drugs and Chemicals.

PlaceI(a) Toxic poisoningT659&X469(b) Drank turpentineT528

<u>Code</u> I(a), nature of injury code for poison NOS and the most specific external cause code (turpentine) taking into account the entire certificate. Code nature of injury for turpentine on I(b).

a. Carbon monoxide poisoning

Code carbon monoxide poisoning from motor vehicle exhaust gas to noncollision motor vehicle accident (traffic) according to type of motor vehicle involved unless there is indication the motor vehicle was not in transit. Consider statements of "sleeping in car," "sitting in parked car," "in parked car" or place stated as "garage" to indicate the motor vehicle was "not in transit." Assume "not in transit" in self-harm (intentional) and self-inflicted cases.

I (a) Carbon monoxide poisoning T58 &V892

(b)

(c)

II Motor vehicle exhaust gas

T58

<u>Code</u> I(a) nature of injury for carbon monoxide and most specific external cause. Code external cause to person injured in unspecified motor vehicle accident, traffic. Refer to Table of land transport accidents under Victim and mode of transport. Select occupant of motor vehicle (traffic), noncollision transport accident. Code nature of injury for exhaust gas in Part II.

<u>Place</u>

I (a) Poisoned by carbon monoxide

T58 &X47

9

II Sitting in parked car

<u>Code</u> I(a) nature of injury and external cause for carbon monoxide from Table of drugs and chemicals. The external cause includes poisoning by gas, motor exhaust, not in transit.

<u>Place</u>

I (a) Carbon monoxide inhalation

T58 &X67

5

II Found in garage. Suicide.

<u>Code</u> I(a) nature of injury and external cause for carbon monoxide from Table of drugs and chemicals. The external cause includes intentional self-harm poisoning by gas, motor exhaust, not in transit.

b. Inhalation and sniffing sprays and aerosol substances

When inhalation of sprays, aerosol substances, etc. is reported, code to the appropriate accidental poisoning category for the external cause.

Exceptions:

"Glue sniffing" and "cocaine sniffing" and "huffing" are indexed to mental and behavioral disorders due to psychoactive substance use (F181, F142, F181).

<u>Place</u>	Ι	(a) Toxicity	T659	&X46
0		(b) Inhalation of aerosol substance	T659	
		(c)		
<u>MOD</u>	II	Breathed "PAM" (freon) in plastic bag	T535	
Α				

Accident Home

<u>Code</u> I(a) nature of injury code for toxicity as indexed. Code external cause to accidental inhalation of freon gas or spray (X46), the specific substance indicated by the certifier. Code nature of injury for aerosol on I(b) and freon in Part II.

c. Intoxication by certain substances or toxic poisoning due to disease

When ammonia intoxication (NH), carbon dioxide intoxication (C0), or toxic poisoning is reported due to a disease, **do not** code to poisoning. When due to a disease, code ammonia intoxication to R798, carbon dioxide intoxication to R068, and toxic poisoning to R688.

I (a) Ammonia intoxication

R798

(b) Cirrhosis of liver

K746

Code I(a) as indexed, Intoxication, ammonia, due to disease (R798).

I (a) Carbon dioxide intoxication

R068

(b) Chronic pulmonary emphysema

J439

<u>Code</u> I(a) as indexed, Intoxication, carbon dioxide, due to disease (R068).

I (a) Toxic poisoning

R688

(b) Gastroenteritis

A099

<u>Code</u> I(a) as indexed, Poisoning, toxic, from a disease (R688).

d. Condition qualified as "toxic" with poisoning reported

(1) When a condition is qualified as "toxic" and there is indication of poisoning on the certificate, code the external cause code for the poisoning where the "toxic" is reported, followed by the condition code. If the Classification provides a code for the condition qualified as "toxic," use this code. If no provision is made for qualifying the condition as toxic, code to the unspecified code for the condition.

Place I (a) Toxic nephritis

&X48 N144

9 II (

II Organophosphate poisoning, accidental

T600

<u>Code</u> most specific external cause code on I(a) where toxic is reported followed by condition code for toxic nephritis as indexed. Code nature of injury for organophosphate in Part II.

<u>Place</u>

I (a) Toxic GI hemorrhage

&X49 K922

(b) Carbolic acid

T540

<u>Code</u> most specific external cause code on I(a) where toxic is reported followed by condition code for GI hemorrhage as indexed. The Classification does not provide a code for GI hemorrhage qualified as toxic. Code nature of injury for carbolic acid on I(b).

<u>Place</u>

I (a) Toxic diarrhea

&X48 K521

9 II Rat poison

T604

<u>Code</u> most specific external cause code on I(a) where toxic is reported followed by condition code for toxic diarrhea as indexed. Code nature of injury for rat poison in Part II.

(2) When a condition is qualified as "toxic" and there is no indication of poisoning on the certificate,

code the condition as indexed to the unspecified code.

I (a) Toxic anemia

D612

I469

Code toxic anemia as indexed since there is no indication of poisoning on the certificate.

2. Poisoning by drugs

a. When the following statements are reported, see Table of Drugs and Chemicals and code as accidental poisoning unless otherwise indicated.

Interpret all these statements to mean poisoning by drug and code as poisoning whether or not the drug was given in treatment:

Drug taken inadvertently Lethal (amount) (dose) (quantity) of a drug Overdose of drug Poisoning by a drug Toxic effects of a drug Toxic reaction to a drug Toxicity (of a site) by a drug Wrong dose taken accidentally Wrong drug given in error

I (a) Cardiac arrest Place 9

(b) Digitalis toxicity T460 &X44

(c) Congestive heart failure **I500**

Code digitalis toxicity to digitalis poisoning. Code nature of injury and external cause code for digitalis poisoning on I(b). Do not ampersand a disease condition when poisoning from a drug occurs while the drug is being administered for medical reasons.

Place I (a) Shock R578 (b) Insulin overdose T383 &X44

(c) Diabetes

Code I(a) shock, toxic since reported due to poisoning. Code insulin overdose to insulin poisoning. Code nature of injury and external cause code for insulin poisoning on I(b). Do not ampersand a disease condition when poisoning from a drug occurs while the drug is being administered for medical reasons.

b. Interpret the term "intoxication by drug" to mean poisoning by drug unless indicated or stated to be due to drug therapy or as a result of treatment for a condition (refer to Section V, Part R, 1, (6), "Intoxication by drug" due to drug therapy).

<u>Place</u>	I	(a) Respiratory failure	J969	
9		(b)Drug intoxication	T509	&X44
	II	Ingested undetermined	T509	
		amount of drugs		

<u>Code</u> "drug intoxication" to poisoning when there is no indication the drug was given for therapy. Code I(b) nature of injury and external cause code for drug poisoning. Code nature of injury code for drug NOS in Part II.

c. When poisoning by drug NOS is reported in Part I and a specified drug is reported in Part II, code the external cause code to the specified drug.

<u>Place</u>	I (a) Took overdose of drug	T509 &X41
9	II Overdose of barbiturates	T423

<u>Code</u> "took overdose of drug" as accidental unless otherwise specified. Code I(a) nature of injury for drug NOS and external cause code to the specified drug reported in Part II. Code nature of injury for barbiturates in Part II.

d. When a condition is qualified as "toxic" or "drug induced" and there is indication of drug poisoning on the certificate, code the external cause code for the drug poisoning where the "toxic" or "drug induced" is reported, followed by the condition code. If the Classification provides a code for the condition qualified as "toxic" or "drug induced," use this code. If no provision is made for qualifying the condition as "toxic" or "drug induced," whichever applies, code to the unspecified code for the condition. Code the nature of injury code for poisoning by the specified drug.

condition. Code the nature of injury code for poisoning by the specified drug.				
<u>Place</u>	Ι	(a) Toxic hemolytic anemia	&X41	D594
9		(b) Levodopa toxicity	T428	

<u>Code</u> most specific external cause on I(a) where toxic is reported followed by condition code for toxic hemolytic anemia as indexed. Code nature of injury for levodopa on I(b).

When a condition is qualified as "toxic" and there is no indication of drug poisoning on the certificate, code the condition as indexed.

When a condition is qualified as "drug induced" and there is no mention of drug poisoning on the certificate, code as a complication of drug therapy).

- e. Poisoning by combination of drugs (X40-X44)
 - (1) When poisoning by a combination of drugs is stated or indicated to be <u>accidental</u>, <u>intentional</u> <u>self-harm (suicide)</u>, or <u>undetermined</u> code as follows:
 - (a) When poisoning by a combination of drugs classified to the same external cause code is reported, use that external cause code.

<u>Place</u> I (a) Doxepin and barbiturate overdose T430 &X41 T423

<u>Code</u> external cause code to X41 since both doxepin and barbiturates are indexed to this code. Code nature of injury for each drug reported.

Place 9 MOD S

I (a) Doxepin and prozac overdose

T430 &X61 T432

Suicide

<u>Code external cause code to X6I since both doxepin and prozac are indexed to this code.</u>
<u>Code nature of injury for each drug reported.</u>

(b) When poisoning from a single drug is reported in Part I with a combination of drugs in Part II, code the external cause code for the drug reported in Part I. Code the nature of injury for each drug reported.

<u>Place</u>

9

I (a) Acute barbiturate intoxication

T423 &X41 T423 T390

II Took unknown amount of

barbiturates and aspirin

MOD A

Accident

<u>Code</u> external cause code to X41, accidental poisoning by barbiturates, the single drug reported in Part I. Code nature of injury for barbiturates on I(a) and for barbiturates and aspirin in Part II.

(c) When poisoning by a combination of drugs classified to different external cause codes is reported and (b) does not apply, use the following external cause codes when the manner of death is reported as:

Accident	Code X44, Accidental poisoning by and exposure to other and unspecified drugs, medicaments and biological substances.
Intentional self-harm (Suicide)	Code X64, Intentional self-poisoning by and exposure to other and unspecified drugs, medicaments and biological substances.
Undetermined	Code Y14, Poisoning by and exposure to other and unspecified drugs, medicaments and biological substances, undetermined intent.

<u>Place</u>

I (a) Drug intoxication

T509 &X44

(b) Digitalis, cocaine

T460 T405

<u>The</u> external cause code for accidental poisoning by digitalis is X44 and for cocaine is X42.

Since the drugs are assigned to different external cause codes, code X44, Accidental poisoning by and exposure to other and unspecified drugs, medicaments and biological substances. Code nature of injury for each drug reported.

<u>Place</u>	I (a) Drug	toxicity	T509 &X64
9	(b) Over	dose of salicylates	T390 T423
	(c) and s	econal	
<u>MOD</u>	II Overdos	e of drugs	T509
S			
	Suicide		

<u>The</u> external cause code for intentional self-harm (suicide) by salicylates is X60 and for seconal, X61. Since the drugs are assigned to different external cause codes, code X64, Intentional self poisoning by and exposure to other and unspecified drugs, medicaments and biological substances. Code nature of injury for each drug reported.

<u>Place</u>	I (a) Darvon and promazine	T404	&Y14	T433
9	(b) intoxication			
<u>MOD</u>	II Drug intoxication	T509		
С				
	Undetermined			

<u>The</u> external cause code for poisoning of undetermined intent by darvon is Y12 and for promazine, Y11. Since the drugs are assigned to different external cause codes, code Y14, Poisoning by and exposure to other and unspecified drugs, medicaments and biological substances, undetermined intent. Code nature of injury for each drug reported.

3. Percentage of drug(s) in blood

When a percentage (%) of any drug(s) in the blood, code the nature of injury code for the drug if there is mention of drug poisoning elsewhere on the record.

When a complication is reported due to a percentage (%) of any drug(s), code as a complication of drug therapy unless otherwise indicated.

When a percentage (%) of any drug(s) in the blood without mention of drug poisoning or a complication, do not enter a code for the drug.

Place I (a) Gunshot wound brain S069 &X74
9 II .05 mg. barbiturates in blood

MOD S

Suicide

<u>Since</u> there is no mention of poisoning or a complication of the barbiturates, **do not** enter a code for the percentage of drug in the blood.

4. Poisoning by alcohol and drugs

When alcoholism or alcohol poisoning (any F10-, R780, R826, R893, T510-T519) is reported in Part I with drug poisoning in Part I, code the alcohol to the appropriate code (F10-, R780, R826, R893, T510-T519), the nature of injury code for the drug and code the appropriate external cause code for the drug preceded by an ampersand. If alcohol poisoning is reported, code the external cause code for alcohol also, but do not precede this code with an ampersand. Interpret the following statements to mean poisoning by alcohol and drugs and code the appropriate E-code for alcohol poisoning:

Alcohol and drug interaction
Alcohol and drug synergism
Combination of alcohol and drugs
Combined action alcohol and drugs
Combined effects of alcohol and drugs
Mixed effects of alcohol and drugs
Synergistic effects of alcohol and drugs

Place I (a) Combined effects of alcohol 9 (b) and drugs MOD II Ingested alcohol and drugs T519 X45 T509 &X44

F109 T509

Accident

Α

Α

Interpret I(a) as alcohol poisoning and drug poisoning. Code the nature of injury and external cause for the alcohol and drugs. Precede the E-code for the drugs with an ampersand. In Part II, code the ingested alcohol as indexed. Code nature of injury for drugs as last entry.

PlaceI(a) Alcohol ingestionF1099(b) Barbiturate intoxicationT423 &X41

<u>Code</u> I(a) alcohol ingestion as indexed and code the nature of injury and external cause for barbiturate intoxication on I(b).

PlaceI(a) AlcoholismF1029II Alcohol and barbiturateT519 X45 T423 &X41MODintoxication

Accident

<u>Code</u> alcoholism as indexed in Part I. Code the nature of injury and external cause for the

alcohol and barbiturate intoxication in Part II. Precede the E-code for the drug with an ampersand.

I (a) Barbiturate toxicity Place 9 II Barbiturate and alcohol intoxication MOD S

T423 &X61 T423 T519 X65

Suicide

Code I(a) nature of injury for barbiturate T423 and external cause code X61 for suicidal barbiturate toxicity. Precede the E-code for barbiturate with an ampersand. Code the nature of injury and external cause for barbiturate and alcohol intoxication as indexed Part II.

I (a) Poisoning by alcohol Place II Toxic levels of heroin and flunitrazepam

T519 &X45 T401 X44 T424

<u>Code</u> I (a) nature of injury for alcohol, T519 and external cause X45. Precede the E-code for alcohol with an ampersand. Code the nature of injury and external cause for the heroin and flunitrazepam in Part II.

5. Intoxication (acute) NOS

When intoxication (acute) NOS is reported, code the nature of injury code for alcohol as indexed and the appropriate external cause for alcohol poisoning.

When intoxication (acute) NOS is reported "due to" drugs or poisonous substances, code the intoxication to the nature of injury code for the first substance reported in the "due to" position.

Exception:

Intoxication (acute) NOS "due to" drug(s) with indication the drug was being given for therapy.

<u>Place</u> I (a) Intoxication 9

T519 &X45

Code intoxication as indexed to T519 and code the external cause code for alcohol poisoning X45. Precede the external cause code with an ampersand.

Place 9

I (a) Acute intoxication

T404

(b) Darvon & alcohol poisoning

T404 &X62 T519 X65

MOD S

II

Suicide

Code I(a) T404, the nature of injury code for darvon since this is the first substance reported in the "due to" position. Code I(b) to the nature of injury and external cause code for darvon poisoning and alcohol poisoning. Precede the external cause code for darvon poisoning with an ampersand. Do not ampersand external cause code for alcohol poisoning.

<u>Place</u>	Ι	(a) Intoxication	T58	
9		(b) Carbon monoxide inhalation	T58	&X47
<u>MOD</u>	II			
Α				
	Ac	cident		

Code I(a) T58, the nature of injury for the substance (carbon monoxide) reported in "due to" position. Code I(b) to the nature of injury and external cause code for carbon monoxide inhalation. Precede the external cause code with an ampersand.

NOTE: See Appendix H for additional drug examples.

R. Complications of medical and surgical care (Y40-Y84)

Code any complication, abnormal reaction, misadventure to patient, or other adverse effect that occurred as a result of or during medical care except obstetrical procedures to the appropriate category in Chapters I-XIX, but take into account the medical care if it modifies the code assignment. Assign the appropriate external cause (E-code) pertaining to the medical care regardless of whether the complication is classified to Chapters I-XVIII or to Chapter XIX.

The E-code distinguishes between:

- 1. Drugs, medicaments and biological substances causing adverse effects in therapeutic.
- 2. Misadventures to patients during surgical and medical care (Y60-Y69).
- 3. Surgical and other medical procedures as the cause of abnormal reaction of the patient, or of later complication, without mention of misadventure at the time of the procedure (Y83-Y84).

Use of ampersand (More than one instruction may apply

 Always precede the condition that necessitated the medical or surgical care with an ampersand the first time it is reported. Generally, the first condition on the lowest used line will be the reason for medical care.

Ι	(a) Pneumonia	J958
	(b) Surgery	Y839
	(c) Pulmonary hemorrhage	R048
	(d) Lung cancer	&C349

2. Precede the external cause (Y40-Y84) with an ampersand if the complication is classified to

Chapter XIX (T80-T88).

I (a) Pulmonary embolism T817 (b) Surgery &Y839

3. Precede the first complication with an ampersand **if the complication** is classified to Chapter I-XVIII and the condition requiring medical or surgical care is **NOT** reported.

I (a) Renal failure &N19 (b) Drug therapy Y579

4. If the medical or surgical care was administered for an injury, precede the code for the external cause of the injury with an ampersand.

	I (a) Pneumonia	J958
<u>Place</u>	(b) Surgery	Y839
9	(c) Fracture of hip	S720
	(d) Fall	&W19

5. If two or more conditions for which the medical or surgical care could be administered are reported and the reason for treatment cannot be determined, precede the first condition with an ampersand.

I (a) Pneumonia J958 (b) Surgery Y839 II Lung cancer, gastric ulcer &C349 K259

6. If the medical care was administered for diagnostic purposes, precede the code for the condition that was found or confirmed by the diagnostic finding with an ampersand the first time it is reported.

I(a) Cerebral edemaG978(b) Cerebral arteriogramY848(c) Brain tumor&D432

1. <u>Drugs, medicaments and biological substances causing adverse effects in therapeutic use</u> (Y40-Y59)

a. Complications of drugs

Although almost any condition reported due to drug therapy is regarded as a complication, there are a few diseases that are not considered complications.

The drug therapy (Y40-Y59) is not coded when there is no evidence of a complication.

Interpret "due to drug therapy" as a condition(s) on an upper line with drug therapy as the first condition on the next lower line.

- (1) The following are not regarded as complications of drug therapy.
 - (a) These conditions due to drug therapy:

Infectious and parasitic diseases	A000-A309, A320-A329, A360-A399, A420-A449, A481-A488, A500-A690, A692-B199, B250-B349, B500-B942, B949 (EXCEPT: Antineoplastic drugs Y431-Y433; Immunosuppressive agents Y434)
	B200-B24
Neoplasms	C000-D45, D47-D489
Diabetes	E10-E14 (EXCEPT: Steroids Y425, Y427)
Hemophilia	D66-D682
Alcoholic disorders	E244, E52, F101-F109, G312, G405, G621, G721, I426, K292, K700-K709, K852, K860, L278, R780, R826, R893
Rheumatic fever or rheumatic heart disease	100-1099
Arteriosclerosis and arteriosclerotic conditions	
Influenza	J09-J118
Hernia	K400-K469
Congenital malformations	Q000-Q999

This is <u>not</u> an all inclusive list.

I (a) Lung cancer

C349

(b) Drug therapy

 $\underline{\text{Since}}$ lung cancer is not considered a complication of drug therapy, no code is assigned for I(b).

I (a) Pancytopenia

D619

(b) Lung cancer chemotherapy

C349

<u>Do</u> not code the chemotherapy since there is no reported complication. Lung cancer is the first condition on the next lower line.

- (b) Any condition stated as congenital, familial, hereditary, idiopathic or conditions with a duration that predates the drug therapy.
 - I (a) Congenital cardiomyopathy

I424

(b) Drug therapy

<u>Do</u> not code the drug therapy since conditions stated as congenital cannot be considered as complications.

I (a) Nephritis 6 months

N059

(b) Drug therapy 2 months

Reject 1

<u>Do</u> not code the drug therapy on I(b). The nephritis cannot be considered as a complication since it occurred prior to the drug therapy.

(2) Code any condition classifiable to Chapters I-XVIII that could result from a drug, medicament, or biological substance (including anesthesia) known or presumed to have been properly administered to the appropriate category in these chapters.

If the Classification provides a code for the condition reported as "due to drug" or "drug induced," use this code. If no provision is made for the condition reported as "due to drug" or "drug induced," code to the unspecified code for the condition.

When a condition classifiable to Chapters I-XVIII is reported due to a drug reaction (named drug) NOS, e.g., insulin reaction, code the condition as indexed and code the drug reaction to the external cause code.

Classify only those complications that cannot be assigned to Chapters I-XVIII to Chapter XIX (T80.-, T88.-).

I (a) Respiratory and cardiac arrest

&R092I469

(b) Local anesthesia reaction

Y483

<u>Code</u> the conditions reported on I(a) as complications of local anesthesia since the local anesthesia is presumed to have been properly administered. Precede the first complication with an ampersand. Since a complication is reported, assign only an external cause on I(b) indicating Adverse effect in therapeutic use.

I (a) Drug reaction

T887 &Y400

(b) Penicillin

<u>Code</u> the drug reaction on I(a) to nature of injury and external cause since no specified complication is reported. Precede the E-code with an ampersand. Do not enter a code for penicillin on I(b) since it was coded on I(a).

I (a) Encephalitis

&G040

(b) Measles vaccination

Y590

<u>Code</u> the encephalitis as a complication of the measles vaccine since the measles vaccine is presumed to have been properly administered. Encephalitis is indexed following vaccination or other immunization procedure. Precede the complication (G040) with an ampersand. Code the measles vaccination toY590, Adverse effect in therapeutic use.

I (a) Pulmonary embolism

I269

(b) Estrogen to control excessive

Y425 &N920

(c) menses

<u>Code</u> the pulmonary embolism as a complication of the estrogen since the estrogen is presumed to have been properly administered. Code the estrogen as Adverse effect in therapeutic use and excessive menses as indexed. Precede the code for excessive menses with an ampersand to indicate the condition requiring treatment.

- (3) Unless there are indications to the contrary, assume the drug, medicament, or biological substance was used for medical care purposes and was properly administered in correct dosage. <u>Do not</u> make this assumption if:
 - The drug was one which is not used for medical care purposes, e.g., LSD or heroin,

or

 It was an analgesic, sedative, narcotic or psychotropic drug (or combination thereof) or drug NOS <u>AND</u> the certifier indicated the death was due to an "accident" "suicide" or it occurred under "undetermined circumstances,"

or

• One or more of these drugs was taken in conjunction with alcohol

Code to poisoning (refer to Section V, Part Q, 2, Poisoning by drugs).

<u>Place</u>

9 MOD

Α

I (a) Respiratory failure

J969

(b) Ingestion of mixed sedatives

T426 &X41

Accident

Code I(a) as indexed. Code I(b) nature of injury and external cause code for accidental poisoning by mixed sedatives. Code as poisoning since the drug is a sedative and the certifier indicated the death was due to an accident. Precede the E-code with an ampersand.

<u>Place</u>

I (a) Cerebral anoxia

G931

(b) Ingestion of barbiturates

T423 &X41

II Had been drinking

F109

<u>Code</u> I(a) as indexed. Code I(b), accidental ingestion of barbiturates since the drug is a sedative <u>and</u> it was taken in conjunction with alcohol. Precede the E-code with an ampersand. Code Part II as indexed.

(4) When the condition for which the drug is usually administered is reported elsewhere on the certificate, code this condition as indexed, preceded by an ampersand to identify the condition

requiring treatment.

Ι	(a) Hemorrhage	K922
	(b) Ulcer of stomach	K259
	(c) Cortisone therapy	Y420
II	Scleroderma	&M349

<u>The</u> ulcer of the stomach is the complication of the cortisone therapy. Code the E-code for cortisone on I(c). Since cortisone is used in treatment of scleroderma, precede this condition with an ampersand.

When a complication occurs as the result of a drug being given in treatment and the condition requiring the drug is <u>not</u> reported elsewhere on the certificate, **do not** <u>assume</u> a disease condition.

When a complication classifiable to Chapters I-XVIII occurs as the result of a drug being administered in therapeutic use <u>and</u> the condition requiring the treatment is not reported, place an ampersand preceding the code for the complication.

Ι	(a) Renal failure	&N19
	(b) Ingested antidiabetic drug	Y423

<u>The</u> renal failure on I(a) is the complication of the antidiabetic drug. Code the E-code for antidiabetic drug on I(b). **Do not** assume a disease condition requiring therapy even though antidiabetic drug is one used in the treatment of diabetes. Precede the complication with an ampersand.

(5) "Drug induced" complications

When a condition is stated to be "drug induced," consider the condition to be a complication of drug therapy, unless otherwise indicated. Code as follows:

(a) If the complication is classified to Chapter I-XVIII, code the E-code for the drug, followed by the code for the complication.

I	(a) Drug induced aplastic anemia	Y579 D611
II	Carcinoma of lung	&C349

<u>Code</u> I(a) Y579, complication of an unspecified drug, and the "drug induced aplastic anemia" as indexed. Ampersand the carcinoma of lung as the condition requiring treatment.

I (a) Drug induced polyneuropathy Y579 &G620

<u>Code</u> I(a) Y579, complication of an unspecified drug, and the "drug induced polyneuropathy" as indexed. Place an ampersand preceding the code for the complication.

(b) If the complication is classified to Chapter XIX, code the nature of injury code for the complication followed by the E-code for the drug. Place an ampersand preceding the E-code.

I (a) Chloramphenicol induced reaction

T887 &Y402

(b) Septicemia

&A419

<u>Code</u> I(a) as a complication of the drug (named). Code the nature of injury for the complication followed by the E-code for the named drug. Place an ampersand preceding the E-code and the septicemia to indicate the condition requiring treatment.

(6) "Intoxication by drug" due to drug therapy

When "intoxication by drug" is reported or indicated to be treatment for a condition or due to drug therapy, consider these to be complications of drug therapy, not poisoning.

I (a) Cardiac arrest

T469

(b) Digitalis intoxication

T887 &Y520

(c) ASHD

&I251

<u>Code</u> the digitalis intoxication as drug therapy since it is indicated as treatment for a condition by its position on the record. Code the intoxication as indexed under Intoxication, drug, correct substance properly administered and the E-code for digitalis.

(7) Gastric Hemorrhage as a Complication of Steroids, NSAIDS, Aspirin.

When gastric hemorrhage is reported as the first condition on the lowest used line in Part I, and aspirin, steroids or NSAIDS are reported elsewhere on the certificate, consider the gastric hemorrhage as a complication of drug therapy and code as indexed. Code the appropriate e-code for the drug to the adverse effect in therapeutic use (Y40-Y59). If reported, ampersand the condition for which the drug was administered.

(8) Combined effects of two or more drugs

When a complication is reported due to the combined effects of two or more drugs, code the complication as indexed. On the next lower line, code the appropriate E-code (Y400-Y599). To determine the appropriate E-code, refer to the column for "Adverse effect in therapeutic use" in the Table of drugs and chemicals. (refer to Section V, Part R, 1 (3) when coded as poisoning)

(a) When the drugs are classified to different fourth characters of the same three-character category, code the appropriate E-code with the fourth character for "other."

I (a) Cardiac arrest I469

(b) Valium and sleeping pills Y478

(c) Anxiety &F419

<u>Code</u> I(b) to the appropriate E-code for the combined effects of two drugs in therapeutic use classified to the same three-character category.

(b) When the drugs are classified to different three-character categories, code the E-code to Y578, "Other drugs and medicaments."

I (a) Congestive heart failure I500 (b) Cor pulmonale &I279

II Hemorrhage from anticoagulant R5800 Y578 and aspirin

<u>Code</u> Y578, the appropriate E-code for combined effect of two drugs in therapeutic use classified to different three-character categories.

(9) Complications of chemotherapy

(a) When a complication of chemotherapy is reported, code the complication as indexed and Y579 <u>unless</u> a malignancy is reported on the certificate. When the complication is classified to Chapters I-XVIII and the reason for the chemotherapy is not reported, precede the complication with an ampersand.

I (a) Aplastic anemia &D611 (b) Chemotherapy Y579

<u>Code</u> I(a), aplastic anemia due to drugs (D611) and code I(b) Y579, adverse effect of unspecified drug in correct usage. Precede the complication with an ampersand.

(b) When a complication of chemotherapy is reported with mention of a <u>malignancy</u> on the certificate, consider the chemotherapy to be antineoplastic drugs and code E-code Y433.

I (a) Purpura D692 (b) Chemotherapy Y433 (c) Leukemia &C959

<u>Code</u> I(a) as indexed. Consider the chemotherapy on I(b) as antineoplastic drugs and code Y433. Ampersand the leukemia as the condition requiring treatment.

(10) Complications of immunosuppression

Immunosuppression can be drug therapy or a complication of drug therapy. Code immunosuppression as **drug therapy** unless reported **due to** a drug, then code as a complication of the drug (D849). If the drug is not reported elsewhere on the certificate, code Y434 for the immunosuppressive drug.

I (a) Pneumonia and sepsis J189 A419 (b) Immunosuppression D849

(c) Chemotherapy for carcinoma of brain

(d) &C719

<u>Since</u> the immunosuppression is due to chemotherapy, consider as a complication. Ampersand the carcinoma of brain as the condition requiring treatment.

Ι	(a) Immunosuppression	D849
	(b) Vancomycin	Y408
	(c) Acute bacterial endocarditis	&I330

<u>Since</u> the immunosuppression is due to a drug, consider as a complication. Ampersand the acute bacterial endocarditis as the condition requiring treatment.

Y433

Ι	(a) Infection	B99
	(b) Immunosuppression for	Y434
	(c) Carcinoma of prostate	&C61

<u>Consider</u> the infection as a complication of drug therapy (immunosuppression) on I(b). Ampersand the carcinoma of prostate as the condition requiring treatment.

Ι	(a) Cardiorespiratory arrest	I469
	(b) Sepsis	A419
	(c) Immunosuppression for	Y434
	(d) Rheumatoid vasculitis	&M052

<u>Consider</u> the sepsis as a complication of drug therapy (immunosuppression) on I(c). Ampersand the rheumatoid vasculitis as the condition requiring treatment.

Ι	(a) Sepsis	A419
	(b) Immunosuppression	Y427
	(c) Renal transplant	&N289

II Steroid therapy

<u>Consider</u> the sepsis as a complication of drug therapy (immunosuppression) on I(b). Code external cause code to steroids, the immunosuppressive drug reported elsewhere on the certificate. Code and ampersand Disease, kidney, as the condition for which the renal transplant was performed and the condition requiring the immunosuppressive drug.

Ι	(a) Respiratory arrest	R092
	(b) Septicemia	A419
	(c) Immunosuppression	Y434
II	Renal transplant	&N289

<u>Consider</u> the septicemia as a complication of drug therapy (immunosuppression) on I(c). In Part II, code and ampersand Disease, kidney, as the condition for which the renal

transplant was performed and the condition requiring the immunosuppressive drug.

I (a) Bacteremia A499 (b) Immunosuppression Y434

(c)

II Idiopathic thrombocytopenia purpura

&D693

<u>Consider</u> the bacteremia as a complication of drug therapy (immunosuppression) on I(b). Ampersand the idiopathic thrombocytopenia purpura as the condition requiring treatment.

I (a) Cardiac arrest I469 (b) ASHD I251

(c)

II D.M., AS, immunosuppression

E149 I709

<u>Do</u> not enter a code for the immunosuppression since there is not a reported complication.

(11) <u>Drugs administered for one year or more</u>

When a complication is reported due to a drug being administered for one year or more, consider the drug was given on a continuing basis. Code as a current complication; **do not** code as sequela.

I (a) Hypercorticosteronism E242 (b) Steroids - 6 years Y427 (c) Arthritis &M139

<u>Consider</u> the steroids as being administered on a continuing basis for six years. Code as a current complication of the drug. Code I(a) Hypercorticosteronism, correct substance properly administered (E242).

2. Surgical procedures as the cause of abnormal reaction of the patient or later complication (Y83)

a. Complications of surgical procedures

Although almost any condition reported <u>due to surgery</u> is regarded as a complication of surgery, there are few diseases that are not considered complications. The surgical procedure (Y83) is not coded when there is no evidence of a surgical complication.

Interpret "due to surgery" as a condition(s) on an upper line with a surgical procedure as the first condition on the next lower line.

(1) The following are not regarded as complications of surgical procedures:

(a) These conditions reported due to surgery:

Infectious and parasitic diseases	A000-A309, A320-A329, A360-A399, A420-A449, A481-A488, A500-A690, A692-B349, B500-B978
Neoplasms	C000-D489
Hemophilia	D66, D67, D680, D681, D682
Diabetes	E10-E14
Alcoholic disorders	E52, E244, F101-F109, G312, G405, G621, G721, K860, I426, K292, K700-K709, K852,L278, R780, R826, R893
Rheumatic fever or rheumatic heart disease	I00-I099
Hypertensive diseases	I11-I139, I150, I159
Coronary artery disease Coronary disease	I251
Ischemic cardiomyopathy	I255
Chronic or degenerative myocarditis	I514
Arteriosclerosis and arteriosclerotic conditions except those classified to I219	
Calculus or stones of any type or site	
Influenza	J09-J118
Hernia except ventral (incisional)	K400-K429 K440-K469
Diverticulitis	K570-K579
Rheumatoid arthritis	M050-M089
Collagen diseases	M300-M359
Congenital malformations	Q000-Q999

This is <u>not</u> an all inclusive list.

I (a) Myocardial infarction I219 (b) Arteriosclerosis I709 (c) Surgery

Since arteriosclerosis is not accepted as a complication of surgery, do not code the surgery.

I (a) Diabetic gangrene

E145

(b) Leg amputation

Do not code the leg amputation (surgery) since there is no indication of a surgical complication.

I (a) Pneumonia J189 (b) Brain tumor removal D432

Do not code the removal since there is no complication. Brain tumor is the first condition on the next lower line.

(b) Do not accept conditions with a duration which predates the surgery

I (a) MI 2 weeks I219

(b) Surgery 2 days

Reject 1

Do not code the surgery on I(b). Since the MI occurred before the surgery was performed it cannot be a complication.

(2) When a condition reported due to a **named** surgical (operative) procedure can be considered as a complication or abnormal reaction, code as follows:

STEP 1: Determine if the complication is in the Index qualified by the named surgery reported

Ι	(a) Lymphedema	I972
	(b) Postmastectomy	Y836
	(c) Breast cancer	&C509

Code I(a) using Step 1

Lymphedema

- postmastectomy I97.2

Ι	(a) Hemorrhage	T828
	(b) Coronary artery bypass graft	&Y832
	(c) Coronary heart disease	&I259

Code I(a) using Step 1

Hemorrhage

- due to or associated with
- - device, implant or graft
- - heart NEC T82.8

NOTE: Before continuing to **STEP 2** (below), it is important to determine the nature of the named surgery.

[&]quot;Coronary" is not indexed, but is located in the heart; therefore, heart can be used in place of coronary.

I (a) Hemorrhage T828 (b) Cardiac revascularization &Y832 (c) Cardiovascular disease &I516

Revascularization is defined as the re-establishment of adequate blood supply to a part, by means of a vascular graft. Code I(a) as indexed:

Hemorrhage

- due to or associated with
- - device, implant or graft
- - heart NEC T82.8
- **STEP 2:** If the Index does not qualify the complication with the named surgery, determine if the complication is indexed under Complications (from) (of), surgical procedure.

I (a) Hemorrhage T810 (b) Postlaminectomy &Y836 (c) Intervertebral disc degeneration &M513

The Index does not qualify hemorrhage as postlaminectomy. Code I(a) as indexed:

Complications (from) (of)

- surgical procedure
- - hemorrhage or hematoma (any site) T81.0

<u>Code</u> I(b), as indexed under Complication, laminectomy.

Ι	(a) Intestinal obstruction	K913
	(b) Colostomy	Y833
	(c) Ulcerative colitis	&K519

Code I(a) as indexed

Complications (from) (of)

- surgical procedure
- - intestinal obstruction K91.3

<u>Code</u> I(b), surgery, as indexed under Complications, colostomy. Code I(c), ulcerative colitis, as indexed and precede with an ampersand indicating the reason for the surgery.

STEP 3: If the Index does not qualify the complication with the named surgery nor is the complication indexed under Complications (from) (of), surgical procedures, determine if the named surgery is indexed under Complications (from) (of).

I (a) Stroke T828

(b) Coronary artery bypass &Y832 (c) Arteriosclerotic heart disease &I251

The Index does not qualify stroke with coronary artery bypass nor is stroke indexed under Complications, surgical procedures; therefore, <u>code</u> I(a) using **Step 3**:

Complications (from) (of)

- coronary artery (bypass) graft
- - specified NEC T82.8

Stroke is neither an infection nor an inflammation nor mechanical; therefore, select "specified NEC."

I (a) MI T828 (b) Postfemoral bypass graft &Y832 (c) Peripheral vascular disease &I739

Code I(a) as indexed

Complications (from) (of)

- graft
- - femoral artery (bypass) See Complications, graft, arterial

Complications (from) (of)

- graft
- - arterial
- - specified NEC T82.8

<u>Code</u> I(b), Y832, as indexed under Complication, graft. Precede the E-code (Y832) by an ampersand.

I (a) Cerebral embolism T858 (b) Bypass &Y832

Code I(a) as indexed

Complications (from) (of)

- bypass (see also Complications, graft)

Complications (from) (of)

- graft
- - specified NEC T85.8

 $\underline{\text{Code}}$ I(b), Y832, as indexed under Complications, bypass. Precede the E-code (Y832) by an ampersand.

I (a) Anemia T858 (b) Gastrointestinal bypass &Y832

(c) Diverticulitis

Code I(a) as indexed

Complications (from) (of)

- bypass (see also Complications, graft)

Complications (from) (of)

- graft
- - intestinal tract
- - specified NEC T85.8

<u>Code</u> I(b), Y832, as indexed under Complications, bypass. Precede the E-code (Y832) by an ampersand. Code I(c), Diverticulitis, K579, as indexed. Precede the code (K579) by an ampersand to indicate the reason for surgery.

&K579

(3) When a condition that is

- (a) reported due to a **named** surgery cannot be assigned a code using **STEP 1- STEP 3** or
- (b) reported due to a surgery (operation) (of a site) NOS, and can be considered as a complication or abnormal reaction, code as follows:

STEP 4: Determine if the complication is in the Index, qualified:

- (a) as reported
- (b) with any term meaning "due to" **surgery** (see Section II, Part C, 2, a, "<u>Due to"</u> written in or implied)
- (c) as surgical or as complicating surgery
- (d) as postoperative or postsurgical
- (e) as postprocedural
- (f) during or resulting from a procedure, **so stated**
- (g) resulting from a procedure, **so stated**

I (a) Pulmonary insufficiency following &J952 (b) Surgery Y839

Code I(a) as reported using **Step 4 (a)**

Insufficiency

- pulmonary
- - following
- - surgery J952

Precede the code J952 by an ampersand. <u>Code</u> I(b), surgery, Y839, as indexed under Complication, surgical operation NEC.

I (a) Hypothyroidism E890 (b) Thyroid surgery Y839 (c) Thyroid cancer &C73

<u>Code</u> I(a) using **Step 4 (b)**. Refer to "due to" list in Section II, Part C, 2, a, "<u>Due to"</u> written in or implied.

Hypothyroidism

- due to
- - surgery E890

Thyroid surgery is equivalent to surgery NOS.

I (a) Cardiac insufficiency T818 (b) Surgery &Y839

Code I(a) using Step 4 (c)

Insufficiency

- cardiac
- - complicating surgery T818

<u>Code</u> I(b), surgery, Y839, as indexed under Complication, surgical operation NEC. Precede the E-code (Y839) by an ampersand.

I (a) Pneumonia &J958 (b) Surgery Y839

<u>Code</u> I(a) using **Step 4 (d)**. Indexed as Pneumonia (see also Pneumonitis).

Pneumonitis

- postoperative J958

Precede the code J958 by an ampersand. <u>Code</u> I(b), surgery, Y839, as indexed under Complication, surgical operation NEC.

I (a) Renal failure &N990 (b) Surgery Y839

Code I(a) using Step 4 (e)

Failure

- renal
- - postprocedural N99.0

Precede the code N990 by an ampersand. <u>Code</u> I(b), surgery, Y839, as indexed under Complication, surgical operation NEC.

I (a) Cerebral anoxia

&G978

(b) Surgery

Y839

Code I(a) using Step 4 (f)

Anoxia

- cerebral
- - during or resulting from a procedure G97.8

Precede the code G978 by an ampersand. <u>Code</u> I(b), surgery, Y839, as indexed under Complication, surgical operation NEC.

I (a) Anoxic brain damage

&G978

(b) Surgery

Y839

Code I(a) using Step 4 (g)

Damage

- brain
- - anoxic
- - resulting from a procedure G97.8

Precede the code G978 by an ampersand. <u>Code</u> I(b), surgery, Y839, as indexed under Complication, surgical procedure NEC.

STEP 5: If the Index does not provide for the complication qualified with any of the terms defined in the previous steps, determine if the complication is indexed under Complications (from)(of), surgical procedure.

NOTE: If a "named" surgery is reported, this step has already been completed in **Step 2**.

I (a) Hyperglycemia

&E891

(b) Surgery

Y839

Code I(a) as indexed

Complications (from) (of)

- surgical procedure
- - hyperglycemia E89.1

Precede the code E891 by an ampersand. <u>Code</u> I(b), surgery, Y839, as indexed under Complication, surgical operation NEC.

NOTE: Do not apply Step 6 when assigning a complication code for conditions classified to R00-R99.

STEP 6: If the Index does not provide for the complication as above, determine if:

(a) the site of the complication is in the Index under Complications (from) (of), surgical procedure

or

(b) the system in which the complication occurred (based upon the code assigned in the Index) is in the Index under Complications (from)(of), surgical procedure.

I (a) MI T818 (b) Surgery &Y839

Code I(a) using Step 6 (a)

Complications (from)(of)

- surgical procedure
- - cardiac T81.8

The site of a myocardial infarction is the muscle tissue of the heart which is synonymous with cardiac. Code I(b), surgery, Y839, as indexed under Complication, surgical operation NEC. Precede the E-code with an ampersand.

I (a) Uremia &N998 (b) Surgery Y839

Code I(a) using Step 6 (b)

Complications (from) (of)

- surgical procedure
- - genitourinary
- - specified NEC N99.8

Uremia NOS is indexed to N19 which indicates this condition is a specified disease in the genitourinary system.

I (a) Mesenteric embolism K918 (b) Gallbladder surgery Y839 (c) Gallstones &K802

Code I(a) using Step 6 (b)

Complications (from)(of)

- surgical procedure
- - digestive system
- - specified NEC K91.8

Mesenteric embolism is indexed to K550 which indicates that this condition is a specified disease in the digestive system.

STEP 7: When a reported complication cannot be classified to a system which is indexed, code to T818, other complications of procedures, not elsewhere classified.

I (a) Anemia T818 (b) Surgery &Y839

Anemia is not indexed as due to surgery or as postoperative. Anemia is a disease of the blood-forming organs and neither the term nor the body system is indexed under Complication (from) (of), surgical procedure.

Code I(a) as indexed

Complications (from)(of)

- surgical procedure
- - specified NEC T81.8

<u>Code</u> I(b), surgery, Y839, as indexed under Complication, surgical operation NEC. Precede the E-code with an ampersand.

I (a) Cardiac arrest I469
(b) Brain death
(c) Surgery &Y839

Code line I(b) using Step 7. Brain death is not a codable condition but can be a

complication of surgery.

Complications (from) (of)

- surgical procedure
- - specified NEC T818

<u>Code</u> I(c) surgery, Y839, as indexed under Complication, surgical operation NEC. Precede the E-code with an ampersand.

b. Condition necessitating surgery

(1) When a complication of surgery is reported and the underlying condition which necessitated the surgery is <u>stated</u> or <u>implied</u>, place an ampersand (&) preceding this condition to indicate the reason for surgery.

I (a) Pulmonary embolism T817 (b) Surgery for &Y839 (c) Gangrene of foot &R02

<u>Code</u> the pulmonary embolism as the complication, Y839 for the surgery, and precede the code for gangrene with an ampersand to identify the reason for surgery. Precede the surgery code with an ampersand since the complication is coded to Chapter XIX.

(2) When the condition necessitating the surgery is <u>not stated</u> or <u>implied</u> and the complication is classifiable to Chapters I-XVIII, place an ampersand preceding the code for the complication.

I (a) Renal failure &N990 (b) Surgery Y839

<u>Code</u> I(a), renal failure, N990, as the complication of the surgery (Y839) on I(b). Precede the N990 with an ampersand since it is classified to Chapter I-XVIII and the reason for the surgery is not reported.

(3) **Do not** ampersand a condition necessitating surgery unless a complication of the surgical procedure is coded.

I (a) ASHD I251
II SP mastectomy, Cancer of breast C509

Do not precede the reason for surgery, C509 with an ampersand since no complication of the mastectomy is reported.

(4) When the condition that necessitated the surgery is not reported, but the organ or site is implied by the operative term, code disease of the organ or site.

Exception:

Appendectomy

Code appendicitis (K37) when appendectomy is the only operative procedure reported. If appendectomy is reported with other abdominal or pelvic surgery, assume the appendectomy to be incidental to the other surgery and **do not** code K37.

Use the following codes when these surgical procedures are reported <u>and</u> the condition necessitating the surgery is <u>not</u> reported:

Aorta (with any other vessel NEC) bypass or graft
Aorta coronary bypass or graftI251
Atrio-ventricular shunt
Bariatric surgeryE668
Billroth (I or II)K3190
Brock valvulotomyQ223
Cardiac revascularizationI251
Carotid endarterectomyI679
CholedochoduodenostomyK839
CholecystectomyK829
CholelithotomyK802
ColostomyK639
Coronary artery bypass graft (CABG)I251
Coronary endarterectomyI251
Coronary revascularizationI251
Endarterectomy (artery) (aorta)I779
Femoral bypassI779
Femoral-popliteal bypass
GastrectomyK3190
Gastric staplingE668
GastroenterostomyK929
Gastro-intestinal surgery NOSK929
GastrojejunostomyK929
GastrojejunectomyK929
Herniorrhaphycode hernia
Hip fixationS720
Hip pinningS720
Hip prosthesisM259
Hip replacementM259
Hip replacement
• •
Hysterectomy

When the condition that necessitated the surgery is not reported, do not assume a disease condition for surgical procedures such as:

pelvic exenteration amputation arteriovenous shunt portocaval shunt radical neck dissection chordotomy craniotomy rhizotomy sympathectomy cystostomy D & C tracheotomy gastrostomy tracheostomy laminectomy tubal ligation laparotomy vagotomy lobectomy NOS vasectomy vas ligation lobotomy

If one of these types of procedures is the only entry on the certificate, code R99.

When the following complications of surgery are reported <u>and</u> the reason for the surgery is not reported, use the following codes as the reason the surgery was performed:

	Reason for Surgery <u>Code</u>	
Postsurgical hypothyroidism Postsurgical hypoinsulinemia Postsurgical blind loop syndrome Other and unspecified	E079 K869 K639	
postsurgical malabsorption	K639	
I (a) Postsurgical blind loop syndrome	Y839 K912	&K639

When a complication is reported due to:

the complication to Chapters I-XIX, the surgery to the appropriate external cause code (Y83-) preceded by an ampersand, if required, and the underlying condition necessitating the surgery preceded by an ampersand.

Ι	(a) Hemorrhage	T810
	(b) Surgery	&Y839
	(c) Ca. of lung	&C349

<u>Code</u> I(a) as postoperative hemorrhage (T810). Code the external cause code for the surgical procedure and precede by an ampersand. Code C349, cancer of lung and precede by an ampersand to identify the stated underlying condition for which surgery was performed.

Ι	(a) Pulmonary hemorrhage	R048		
	(b) Lung cancer	&C349)	
II	Pneumonia due to surgery for	J958	Y839	R048

[&]quot;Surgery" with the underlying condition that necessitated the surgery stated, code:

pulmonary hemorrhage

<u>Code</u> line I(a) and (b) as indexed. Precede cancer of lung with an ampersand to indicate the underlying reason for which surgery was performed. Since the first entry in Part II, pneumonia, is reported due to surgery, code as a complication of surgery.

"Surgery" with the condition which necessitated the surgery not stated <u>and</u> only one condition for which surgery could have been performed is reported, code:

the complication to Chapters I-XIX, the surgery to the appropriate external cause code (Y83-) preceded by an ampersand, if required. Since only one condition for which the surgery could have been performed is reported, code the condition and precede with an ampersand to identify the reason for the surgery.

I(a) Mesenteric thrombosisK918(b) SurgeryY839IIASHD&I251

<u>Code</u> mesenteric thrombosis as the complication of the surgery and code Y839 for the surgery. Since ASHD is the only condition on the certificate for which surgery could have been performed, precede the code for this condition by an ampersand.

"Surgery" with the condition which necessitated the surgery not stated and two or more conditions for which surgery could have been performed are reported, code:

the complication to Chapters I-XIX and the surgery to appropriate external cause code (Y83-) preceded by an ampersand, if required. Ampersand the first mentioned condition for which the surgery could have been performed.

I (a) Wound dehiscence T813
(b) Surgery &Y839
II Cancer of lung, gastric ulcer &C349 K259

<u>Code</u> I(a), wound dehiscence, T813, as the complication of the surgery and code I(b), surgery, Y839. Code Part II as indexed and precede the code for cancer of lung by an ampersand since it is the first mentioned condition for which the surgery could have been performed.

"Surgery" without indication of the condition which necessitated the surgery, code:

the complication to Chapters I-XIX, and the surgery to appropriate external cause code (Y83-) only. If the complication is classifiable to Chapters I-XVIII, precede the code for the complication with an ampersand.

I (a) Shock & hemorrhage T811 T810 (b) Surgery &Y839

Code I(a), shock and hemorrhage, T811 T810, both as complications of the surgery. Code

I(b), surgery, Y839 and precede the code by an ampersand.

<u>Surgical procedure</u> such as **aneurysmectomy**, **cholelithotomy**, **hemorrhoidectomy** or **herniorrhaphy** which indicates the condition for which the surgery was performed, code:

the complication to Chapters I-XIX, the surgery to the appropriate external cause code (Y83-) preceded by an ampersand, if required, and code the condition implied by the surgery following the external cause code for the surgery. Place an ampersand preceding the code for the condition.

I (a) CHF I978

(b) Cholelithotomy Y838 &K802

<u>Code</u> I(a), CHF (congestive heart failure), as the complication of surgery. Code I(b), cholelithotomy, Y838 K802. Cholelithotomy indicates cholelithiasis (K802) was the condition for which surgery was performed. Precede K802 by an ampersand.

<u>Surgical procedure</u> that indicates an organ or site with <u>one</u> related condition for which the surgery could have been performed, code:

the complication to Chapters I-XIX, the surgery to the appropriate external cause code (Y83-) preceded by an ampersand, if required. Code the condition for which surgery could have been performed and precede with an ampersand.

> I (a) MI T818 (b) Gastrectomy &Y836 II Bleeding gastric ulcer &K254

<u>Code</u> I(a), MI, as the complication of the surgery. Code I(b), gastrectomy, Y836, as indexed and precede with an ampersand. Code Part II, bleeding gastric ulcer, as indexed and precede with an ampersand to indicate it was the condition for which surgery was performed.

I (a) Cardiac arrest T828 (b) CABG &Y832 II Heart disease &I519

<u>Code</u> I(a), cardiac arrest, as the complication of the surgery. Code I(b), CABG, Y832 as indexed and precede with an ampersand. Code Part II, heart disease, as indexed and precede with an ampersand to indicate it was the condition for which surgery was performed.

<u>Surgical procedure</u> that indicates an organ or site without a related condition for which the surgery could have been performed, code:

the complication to Chapters I-XIX, the surgery to the appropriate external cause code (Y83-) preceded by an ampersand, if required, and code disease of the organ or site following the external cause code for the surgery. Place an ampersand preceding the code for the condition.

I (a) Cardiac arrest I469 (b) Pneumonia J958

(c) Pancreatectomy Y836 &K869

<u>Code</u> I(a), cardiac arrest, as indexed. Code I(b), pneumonia, as the complication of the surgery. Code I(c), pancreatectomy, as indexed, and since the surgery indicates a disease of the pancreas, code this as the reason for surgery. Precede K869 by an ampersand.

Prophylactic or nontherapeutic surgery, code

the complication to Chapters I-XIX, and the surgery to the appropriate external cause code (Y83-) preceded by an ampersand, if required. Do not assume or ampersand a disease condition. When the complication is classifiable to Chapters I-XVIII, precede the code for the complication with an ampersand.

I (a) Sepsis A419 (b) Infection T814 (c) Liposuction &Y838

ΙΙ

<u>Code</u> I(a), sepsis, as indexed. Code I(b), infection, as the complication of the nontherapeutic surgery. Code I(c) as a specified type of surgical operation.

c. Conditions qualified as postoperative

(1) When the following postoperative terms or a synonymous term qualifies a <u>condition</u>, determination must be made as to whether the condition is a surgical complication or the condition for which the surgery was performed.

p.opostoperativestatus postoppost-named surgerystatus p.o.status postoperative(postgastrectomy)status post-named surgerystatus post surgerypostop(status post gastrectomy)

(2) The following conditions are common complications of surgery. Code these conditions as postoperative complications when <u>preceded by or followed by</u> one of the postoperative terms except when it is stated elsewhere on the certificate as the reason the surgery was performed.

abscess
adhesionshemorrhage, hematoma
infarctionsepsis
septicemiaaspirationinfectionseptic shockatelectasisocclusionshock

bowel obstruction
cardiac arrest
embolismperitonitis
phlebitis, phlebothrombosis
pneumoniathrombophlebitis
thrombosis
wound infection

<u>fistula</u> <u>pneumothorax</u> <u>gas gangrene</u> <u>renal failure (acute)</u>

hemolysis, hemolytic

infection

This list is not all inclusive.

- (3) When "postoperative," "postop," "status postoperative," etc., qualifies (preceding or following) a complication:
 - (a) If the complication is classified to Chapters I-XVIII, code the external cause code followed by the code for the complication.
 - I (a) Pneumonia postgastrectomy

Y836 J958 &K3190

Code pneumonia as the complication of surgery when reported as "postoperative" or a synonymous term. Since the reason for surgery is not stated, code disease stomach and precede by an ampersand to indicate the reason for surgery.

I (a) Postgastrectomy dumping syndrome

Y836 K911

(b)

(c) Carcinoma of stomach

&C169

Code I(a), Y836, as indexed under Complication, gastrectomy, and K911, as indexed under Syndrome, dumping. Code I(c) C169, as indexed under Neoplasm, stomach, malignant. Place an ampersand (&) preceding C169 to identify the underlying reason for surgery.

I (a) Pulmonary edema (b) P.O. bowel obstruction (c) Ca. of cecum

J958 Y839 K566

&C180

II Surgery for bowel obstruction

K566

Code I(a), pulmonary edema, as the complication of surgery. Code I(b) to surgery Y839 and code bowel obstruction as indexed K566 since it is stated as the reason for surgery. Code I(c), cancer of cecum, as indexed and precede the code by an ampersand to indicate the underlying reason for surgery. Part II, do not enter a code for surgery since P.O. was reported on line (b) and a surgery code was entered there. Code bowel obstruction as indexed.

(b) If the complication is classified to Chapter XIX, code the nature of injury code followed by the external cause code.

preceding the surgery code and the cancer of colon to identify the underlying reason for

I (a) Sepsis and anuria (b) P.O. peritonitis (c) P.O. ca. of colon c obstruction A419 R34

T814 &Y839 &C189K566

Code peritonitis as the complication as indexed under Peritonitis, postprocedural, T814. Code Y839 for the procedure. Peritonitis is considered to be a complication of surgery when reported as "postop" and not reported as the reason for surgery. Place an ampersand

surgery.

I (a) Cardiac arrest I469

(b) Peritonitis, postop T814 &Y839

(c) Cholelithiasis &K802

<u>Code</u> I(a) as indexed. Code I(b), peritonitis, as the complication, T814 and Y839 for the procedure. Peritonitis is considered a complication of surgery when reported as "staus postop" and not reported as the reason for surgery. Precede the E-code with an ampersand. Code I(c), cholelithiasis, as indexed and precede the code by an ampersand to indicate the condition necessitating surgery.

I (a) MI postgastrectomy

T818 &Y836

II Gastric ulcer surgery &K259

<u>Code</u> I(a), M.I. postgastrectomy, T818 Y836. M.I. is considered to be a complication of surgery when reported as "postoperative" and not reported as the reason for surgery. Precede the E-code with an ampersand. Code Part II, gastric ulcer, K259 as indexed and precede the code by an ampersand to indicate the condition necessitating surgery. Do not enter a code in Part II for surgery since gastrectomy was reported on I(a) and the code was entered there.

I (a) Postoperative embolism T817 &Y836

(b) Appendectomy

(c) Acute appendicitis &K358

<u>Code</u> I(a), postoperative embolism, as indexed to T817 and Y836 as indexed under Complication, appendectomy. Precede the E-code with an ampersand. Code I(c), acute appendicitis, as indexed and precede the code by an ampersand to identify the underlying condition that necessitated surgery.

I (a) Heart failure I509 (b) ASHD &I251

II Thrombophlebitis, postoperative T817 &Y839

<u>Code</u> I(a) and I(b) as indexed. Code Part II, thrombophlebitis, postoperative, T817 Y839. Precede the E-code (Y839) by an ampersand. Thrombophlebitis is considered to be a complication of surgery when reported as "postoperative" and not reported as the condition that necessitated surgery. Precede the code on I(b), I251 (ASHD), by an ampersand to indicate the underlying condition necessitating surgery.

I (a) Pneumonia J189

(b) P.O. infection (wound) T814 &Y839

(c) Intestinal obstruction &K566

<u>Code</u> I(a) as indexed. Code I(b), p.o. infection (wound), T814 Y839. Precede the E-code with an ampersand. Infection is considered to be a complication of surgery when reported as "postop" and not reported as the reason for surgery. Code I(c), intestinal obstruction, K566 and precede the code by an ampersand to indicate the condition necessitating surgery.

- (c) When "postoperative intestinal obstruction" (any K560-K567) is reported and <u>no condition</u> which could have necessitated the procedure is reported:
 - (i) Code the postoperative intestinal obstruction as the condition which necessitated the surgical procedure if another condition is reported due to the postoperative obstruction.

I (a) Peritonitis T814

(b) Postoperative bowel &Y839 &K566

(c) obstruction

<u>Code</u> I(a), peritonitis, as the complication of surgery. Code I(b), postoperative bowel obstruction Y839 K566. Precede the E-code with an ampersand. Precede the K566 with an ampersand to indicate the condition necessitating surgery.

(ii) Code the postoperative intestinal obstruction to K913 as the complication if no other condition is reported due to postoperative obstruction.

I (a) Postoperative ileus Y839 &K913

<u>Code</u> I(a) Y839 K913. Precede K913 by an ampersand. Consider the postoperative ileus to be the complication since no other condition is reported due to this condition.

NOTE:

(4) <u>Status post</u> - When status post (s/p) qualifies a condition, disregard the statement of status post and code the condition as indexed. This applies whether or not surgery is mentioned elsewhere on the certificate.

Ι	(a) Cardiogenic shock	R570	
	(b) Myocardial infarction	I219	
	(c) Ischemic heart disease; status post MI; CABG	I259	I219

<u>Code</u> each condition as indexed. No code is entered for the surgery since no complication is reported. Assume the ischemic heart disease was the reason the CABG was performed.

Ι	(a) S/P cardiac arrest	I469
	(b) Arteriosclerosis	I709
II	S/P gastrectomy, cancer stomach	C169

Code each condition as indexed. No code is entered for the surgery since no complication is

reported.

I (a) Status post MI

I219

(b) ASHD I251

Code the MI as indexed.

d. Complication as first entry on lowest used line in Part I

(1) When one of the conditions listed below is reported as the first entry on the lowest used line in Part I with surgery (any) reported on same line or in Part II, code this condition as a complication of surgery.

Do not apply this instruction:

- (a) When the surgery is stated to have been performed 28 days or more prior to death.
- (b) When the condition on the lowest used line predates the surgery.
- (c) When the surgery is stated to have been performed for the condition reported as the first entry on the lowest line.

Acute renal failure

Aspiration

Atelectasis

Bacteremia

Cardiac arrest (any I469)

Disseminated intravascular coagulopathy (DIC)

Embolism (any site)

Gas gangrene

Hemolysis, hemolytic infection

Hemorrhage NOS

Infarction (any site)

Infection NOS

Occlusion (any site)

Phlebitis (any site)

Phlebothrombosis (any site)

Pneumonia (J120-J168, J180-J189, J690, J698)

Pneumothorax

Pulmonary insufficiency

Renal failure (acute) NOS

Septicemia (any A400-A419)

Shock (R570-R579)

Thrombophlebitis (any site)

Thrombosis (any site)

I (a) Pneumonia

J958

(b)

(c)
II Diabetic gangrene, amputation

&E145 Y835

<u>Code</u> pneumonia as a complication of the amputation since it is the first entry on the lowest used line in Part I and surgery, <u>not</u> indicated to have been performed 28 days or more prior to death, is reported in Part II.

I (a) Pneumonia J189

(b) Pulmonary embolism, gastrectomy T817 &Y836

(c)

II Cancer of stomach &C169

<u>Code</u> pulmonary embolism as a complication of gastrectomy since it is the first entry on the lowest used line in Part I and gastrectomy, <u>not</u> stated to have been performed 28 days or more prior to death, is reported on the same line as the embolism.

Date of death 09/17/96

I (a) Pleural effusion J90

(b) Pulmonary embolism & pneumonia T817 J189

(c)

II &Y839

Operation block / 9/15/96 /

NOTE: When a date is entered in the operation block, code as if surgery was performed on that date.

<u>Code</u> I(a) as indexed. Code pulmonary embolism as the complication of surgery since this condition is the first condition on the lowest used line in Part I and surgery was performed less than 28 days prior to death.

I (a) Pulmonary infarction I269

(b)

(c)

II Cardiac catheterization

Cardiac catheterization is not classified as a surgical procedure; therefore, do not code the pulmonary infarction as a complication.

(2) When any of the conditions listed below are reported as the first entry on the lowest used line in Part I and **abdominal or pelvic surgery** is reported on the same line or in Part II, code complication as indexed and the surgery to appropriate external cause code (Y83-) where it is indicated on the record by the certifier.

Peritonitis
Intestinal obstruction (K560-K567)

Ι	(a) Pneumonia	J189	
	(b) Peritonitis	K659	
	(c) Intestinal obstruction	K913	
ΙΙ	Colostomy - ulcerative colitis	Y833	&K519

<u>Code</u> intestinal obstruction on I(c) as a complication of the surgery reported in Part II, since the surgery was <u>abdominal</u> and there is no indication that this procedure was performed 28 days or more prior to death.

9

(3) When any of the conditions listed below are reported as the first entry on the lowest used line in Part I and **surgery of the same site or region** is reported on the same line or in Part II, code complication as indexed and the surgery to appropriate external cause code (Y83-) where it is indicated on the record by the certifier.

Hemorrhage of a site Fistula of site(s)

Ι	(a) Pneumonia	J189
	(b) Gastrointestinal hemorrhage	T810
II	Gastrectomy for stomach cancer	&Y836 &C169

<u>Code</u> gastrointestinal hemorrhage as a complication of the surgery reported in Part II since the surgery was of the same region and there is no indication that surgery was performed 28 days or more prior to death.

(4) When conditions listed in paragraph d(1), (2), and (3) are reported as the first entry on the lowest used line in Part I and **surgery stated to have been performed 28 days or more prior to death** is reported on the same line or in Part II, code condition as indexed. Do not code as a complication of the surgery.

Ι	(a) Congestive heart failure	I500
	(b) Shock	R579
	(c) Acute renal failure	N179
II	Surgery performed 6 wks. ago for colon cancer	C189

<u>Code</u> all conditions on this record as indexed. Do not code acute renal failure as a complication of surgery since the surgery was performed 28 days or more prior to death.

(5) When adhesions are reported as the first entry on the lowest used line in Part I and **surgery stated to have been performed less than one year prior to death** is reported on same line or in Part II, code adhesions to K918 and code the surgery to appropriate E-code (Y83-).

I (a) Septic shock
(b) Peritonitis
(c) Adhesions

II Surgery - 6 mos. ago for ca. of colon

A419

K659

K918

Y839 &C189

<u>Code</u> adhesions on I(c) as a complication of surgery and code the external cause code for the surgery as the first entry in Part II. Code the condition for which surgery was performed and precede by an ampersand.

(6) When adhesions are reported as the first entry on the lowest used line in Part I and surgery stated to have been performed one year or more prior to death is reported on same line or in Part II, code adhesions to K918, Other postprocedural disorders of the digestive system and code the surgery to Y883, sequela of surgery.

I (a) Renal failure N19
(b) Intestinal obstruction K566
(c) Adhesions K918

II Surgery - 16 months ago for diverticulitis Y883 &K579

<u>Code</u> adhesions on I(c) as a complication of the surgery reported in Part II. Since this surgery was performed more than 1 year ago, code Y883 for the sequela of surgery. Code diverticulitis as the condition for which surgery was performed.

e. Ill-defined condition as first entry on lowest used line in Part I

When an ill-defined condition classifiable to the following codes:

I461 (Sudden cardiac death, so described)

I959 (Hypotension, unspecified)

I99 Except occlusion and infarction (Other and unspecified disorders of circulatory system)

J960 (Acute respiratory failure)

J969 (Respiratory failure, unspecified)

P285 (Respiratory failure of newborn)

R000-R568, R590-R948, R960-R99 (Symptoms, signs, and abnormal clinical and laboratory findings, not elsewhere classified) is reported as the first entry on the lowest used line in Part I with surgery reported on the same line or in Part II, proceed:

(1) Code the ill-defined condition, then code the remaining conditions as if the ill-defined condition had not been reported.

I (a) Senility and MI R54 T818
II Gastrectomy R54 T818

&\text{R436 &\text{R3190}}

<u>Code</u> senility on I(a) R54 as indexed. Then code MI as if senility had not been reported. MI is coded as the complication of the surgery reported in Part II. Gastrectomy indicates a disease of the stomach. Precede both the code for the surgery and the code for Disease,

stomach, with an ampersand.

I (a) Renal failure N990 (b) Cause unknown R97

II Mastectomy Y836 &N649

<u>Code</u> cause unknown on I(b) as indexed, then code renal failure as the complication of the surgery reported in Part II as if cause unknown had not been reported. Code Part II, mastectomy, Y836

N649. Code Disease, breast as the condition necessitating the mastectomy and precede it by an ampersand.

Exceptions:

Code each entry as indexed when:

The first entry on the lowest line in Part I is classifiable to	And a condition classifiable to one of the following codes is reported on the same line or in Part II

Ι	(a) Pneumonia	J189
	(b) Coma	R402
II	Surgery for diabetic gangrene	E145

<u>Code</u> I(a) and I(b) as indexed. Coma is reported as the first condition on the lowest used line, **but** diabetic gangrene is reported in Part II. Therefore, pneumonia cannot be coded as a complication of surgery. Do not enter a code for surgery since no complication is reported.

Ι	(a) Aspiration pneumonia	J	1690
	(b) Jaundice	F	R17
II	Cholecystectomy for gallstones	ŀ	<802

<u>Code</u> I(a) and I(b) as indexed. Jaundice is reported as the first condition on the lowest used line with gallstones reported in Part II. Therefore, aspiration pneumonia cannot be coded as a complication of surgery. Code Part II, K802 (gallstones). Do not enter a code for the cholecystectomy since no complication was reported.

I (a) Sepsis A419

(b) Gangrene, pneumonia, and R02 J189 I709

(c) arteriosclerosis

II Surgery

<u>Code</u> I(a) and I(b) as indexed. Gangrene is reported as the first condition on the lowest used line, but arteriosclerosis is reported on the same line; therefore, pneumonia cannot be a complication of surgery. Do not enter a code for surgery since no complication is

reported.

f. Relating condition for which surgery was performed to the site of the surgery

(1) When a condition of unspecified site is reported with surgery of a defined site, code the condition of unspecified site to the defined site.

I (a) Aneurysm I719
II Operation for aortic aneurysm I719

<u>Code</u> I(a), aneurysm of unspecified site to aortic aneurysm, I719, since the surgery is of a defined site. Code aortic aneurysm in Part II. Do not enter a code for the surgery since there is no reported complication.

- (2) When a condition of a site is reported with surgery of a more defined part of the site, code the condition to the more specified site.
 - I (a) Carcinoma colon

C186

II Left colectomy

<u>Code</u> I(a), carcinoma colon to carcinoma left colon, C186, since the surgery is of a more specified part of the colon. Do not enter a code for the surgery since there is no reported complication.

I (a) Valvular heart disease

I059 I069

II Status post mitral and aortic valve repair

 $\underline{\text{Code}}$ I(a) valvular heart disease of unspecified valve to disease, mitral and a ortic valves since the surgery is of specified valves. Do not enter a code for the surgery since there is no reported complication.

(3) When a condition of a site is reported with surgery for the same condition of unspecified or a less defined part of the site, code the condition to the most defined site.

I (a) Cancer of head of pancreas C250
II Pancreatectomy for cancer C250

<u>Code</u> I(a), cancer head of pancreas, C250. Code Part II as cancer of head of pancreas since elsewhere a more defined site was reported of the condition for which surgery was performed. Do not enter a code for the surgery since there is no reported complication.

(4) Do not apply these instructions when more than one condition or a condition of multiple specified sites which could have necessitated the surgery is reported.

I (a) Cardiac arrest I469 (b) Respiratory arrest R092

(c) Carcinoma of lung, liver, brain C349 C787 C793

II Findings of operation: Carcinoma

C80

<u>Code</u> I(a), I(b) and I(c) as indexed and according to neoplasm instructions. Code Part II, carcinoma, C80. Do not code the carcinoma to a more defined site since multiple specified sites are reported for which the surgery could have been performed. Do not enter a code for the surgery since there is no reported complication.

g. Complications of amputation and amputation stump

When a complication (stated or implied) occurs as a result of an <u>amputation</u>, code the complication to Chapters I-XIX. When the complication is classifiable to Chapters I-XVIII <u>and</u> the condition that necessitated the amputation is not reported, precede the code for the complication with an ampersand.

I (a) Renal failure

&N990

(b) Below knee amputation of leg

Y835

<u>Code</u> I(a), renal failure, N990 as the complication of surgery. Code I(b), below knee amputation of leg, Y835. Precede the N990 with an ampersand since it is classified to Chapter XIV and the condition that necessitated the amputation is not reported.

When there is a complication of an <u>amputation stump</u>, code the complication to T873-T876 or to the appropriate code in Chapters I-XVIII. (Do not use T873-T876 for "stump" of internal organs).

I (a) Infected amputation stump

T874 &Y835

(b) Osteosarcoma of leg

&C402

<u>Code</u> I(a), infected amputation stump T874 Y835. Precede the E-code, Y835, by an ampersand. Code I(b), osteosarcoma of leg, C402. Precede C402 by an ampersand to indicate the condition that necessitated the amputation.

3. Complications of medical procedures other than surgical (Y84)

Medical procedures are any type of nonsurgical procedures used in the treatment of diseases or injuries. Although almost any condition reported due to medical procedures is regarded as a complication, there are a few diseases that are not considered complications. Do not code the conditions listed under 2. a. (1) (a) and (b) in Section V, Part R as complications of medical procedures. The medical procedure (Y84) is not coded when there is no evidence of a complication. If the reason for the medical procedure is not reported, do not assume a disease condition.

Interpret "due to medical procedures" as a condition(s) on an upper line with a medical procedure as the first condition on the next lower line.

a. When a condition is reported due to a named medical procedure other than a surgical operation or is modified by a named procedure and can be considered as a complication(s) or adverse effect, code as follows:

STEP 1: Determine if the complication is in the Index qualified by the specific procedure reported.

I (a) Kidney blockage

&N990

(b) Postcystoscopic procedure

Y848

Code I(a) as indexed using Step 1

Block

- kidney
- - postcystoscopic or postprocedural N99.0.

<u>Code</u> I(b) Y848 as indexed under Complication, procedures other than surgical operation, specified NEC. Precede N990 with an ampersand.

STEP 2: If the Index does not qualify the complication with the specified procedure, determine if the procedure is indexed under Complications (from) (of).

I (a) Urinary tract infection

T835

(b) Post-indwelling urinary catheter

&Y846

Code I(a) using Step 2

Complications (from) (of)

- catheter (device)
- - urinary (indwelling)
- - infection or inflammation T83.5

Select infection or inflammation since urinary tract infection is an infectious condition.

<u>Code</u> I(b) Y846 as indexed under Complication, catheter, catheterization (urinary). Precede the E-code with an ampersand.

I (a) Pulmonary embolism

T838

(b) Catheter

&Y846

Code I(a) using Step 2

Complications (from) (of)

- catheter (device)
- - specified NEC T83.8

Select specified since pulmonary embolism is a specified complication.

<u>Code</u> I(b) Y846 as indexed under Complication, catheter, catheterization (urinary). Precede the E-code with an ampersand.

When the Index does not provide for the term as specified in **STEP 1** and **STEP 2**, code the complication as if procedure NOS was reported instead of the named medical procedure as defined in

the following instructions:

NOTE: Before continuing to **STEP 3**, it is important to determine the nature of the named procedure.

- b. When a condition that is
 - (1) reported due to a named procedure cannot be assigned a code using STEP 1 or STEP 2 or
 - (2) reported due to a procedure other than surgical operation NOS or therapy NOS, and can be considered as a complication(s) or adverse effect, code as follows:
 - **STEP 3:** Determine if the complication is in the Index, qualified:
 - (a) as reported
 - (b) with any term meaning "due to" procedure or medical care (see Section II, Part C, 2, a, "Due to" written in or implied)
 - (c) as postprocedural
 - I (a) Renal failure

&N990

(b) Paracentesis

Y844

Code I(a) as indexed using Step 3 (c)

Failure

- renal
- - postprocedural N99.0

<u>Code</u> I(b) Y844 as indexed under Complication, paracentesis. Precede N990 with an ampersand.

- **STEP 4:** If the Index does not provide a code for the complication in Steps 1-3, determine if:
 - (a) the site of the complication is in the Index under Complications (from) (of)
 - medical procedure
 - (h) the system in which the complication
 - (b) the <u>system</u> in which the complication occurred (based upon the code assigned in the Index) is in the Index under

Complications (from) (of)

- medical procedure
- (c) the system in which the complication occurred (based upon the code assigned in the Index) is in the Index under

Complications (from) (of)

- postprocedural

I (a) Cardiac arrest T818
(b) Therapy &Y849
(c) Arteriosclerotic heart disease &I251

Code I(a) using Step 4 (a)

Complications (from) (of)

- medical procedure
- - cardiac T81.8

Select cardiac since this is the site of the complication.

<u>Code</u> I(b) Y849 as indexed under Complication, procedures other than surgical operation. Precede the E-code and the condition requiring treatment with an ampersand.

I (a) Pulmonary edema &J958 (b) Endotracheal tube Y848

Code I(a) using Step 4 (b)

Complications (from) (of)

- medical procedure
- - respiratory
- - specified NEC J95.8

Select respiratory, specified since pulmonary edema is classified to J81, a specified disease in the respiratory system.

<u>Code</u> I(b) Y848 as indexed under Complication, procedures other than surgical operation, specified NEC. Precede J958 with an ampersand.

I (a) Stroke I64 (b) Cerebral embolism T817 (c) Renal angiogram &Y848

Code I(b) using Step 4 (b)

Complications (from) (of)

- medical procedure
- - circulatory T81.7

Select circulatory since cerebral embolism is classified to I634, a specified disease in the circulatory system.

<u>Code</u> I(c) Y848 as indexed under Complication, procedures other than surgical operation, specified NEC. Precede the E-code with an ampersand.

STEP 5: When a reported specified complication cannot be classified to a system that is indexed, code T818, Other complications of procedures, not elsewhere classified.

I (a) Shock R579 (b) Coagulation disorder T818 (c) Hyperthermia therapy &Y848

Coagulation disorder is not indexed as due to a procedure or as postprocedural. This condition is classified to D689, a disease of the blood-forming organs. Neither the term nor the body system is indexed under Complications (from) (of), medical procedure.

Code I(b) using **Step 5**

Complications (from) (of)

- procedure
- - specified T81.8

Select specified since coagulation disorder is a specified complication.

<u>Code</u> I(c) Y848 as indexed under Complication, procedures other than surgical operation, specified NEC. Precede the E-code with an ampersand.

4. Complications of procedures involving administration of drugs, radiation, and instruments

a. Many procedures (e.g., angiogram, barium enema, pyelogram) involve the administration of drugs and the use of x-ray or radioactive substances and various instruments. When complications of these procedures are reported, determine, if possible, which specific part of the procedure caused the complication. Assign the appropriate codes for the complication and the procedure. When the complication is classified to Chapters I-XVIII and the reason for the procedure is not reported, precede the code for the complication with an ampersand. If the reason for the medical care is not reported, do not assume a disease condition.

I (a) Pulmonary embolism T828
(b) Cardiac catheterization &Y840
(c) Ventricular septal defect &Q210

 $\underline{\text{Code}}$ I(a) as the complication of the catheterization. Code I(b) as indexed, Y840 and precede with an ampersand. Code I(c) as indexed and precede with an ampersand to indicate the reason for the procedure.

I (a) Barium impaction of intestine Y575 K564

(b) Barium enema

(c) Colon polyps &K635

<u>Code</u> the barium on I(a) to adverse effect in therapeutic use, Y575, since it was the drug that caused the impaction. Code the complication, <u>impaction</u>, as indexed, Impaction, intestine, K564. Do not enter a code on I(b) for barium since it was coded on I(a). Code I(c) as indexed and precede with an ampersand to indicate the reason for the procedure.

I(a) Anaphylactic shockT886(b) Contrast medium (aortogram)&Y575IIDissecting aortic arch aneurysm&I710

 $\underline{\text{Code}}$ I(a) as the complication of the contrast medium. Indexed as Shock, anaphylactic, correct substance properly administered. Code I(b) contrast medium as adverse effect in therapeutic use, since the drug caused the anaphylactic shock. Code Part II as indexed and precede with an ampersand to indicate the reason for the procedure.

Ι	(a) Peritonitis	K659
	(b) Hemorrhage of colon	K918
	(c) Barium enema	Y848
	(d) Diverticulitis	&K579

<u>Code</u> I(a) as indexed. Code I(b) as the complication of the administration of the enema. Code I(c) barium enema, Y848, since the hemorrhage most likely resulted from the administration of the enema rather than the barium. Code I(d) as indexed and precede with an ampersand to indicate the reason for the procedure.

I (a) Cerebral hemorrhage T817 (b) Cerebral arteriogram &Y848

<u>Code</u> I(a) as the complication of the arteriogram. Code I(b) cerebral arteriogram, Y848, since the hemorrhage resulted from the procedure and precede with an ampersand. Do not assume a disease condition for the cerebral arteriogram.

b. When a complication results from the administration of anesthesia use).

I (a) Cardiac failure I509 (b) Anesthesia for prostate surgery Y484

(b) Anesthesia for prostate surgery

(c) &N429

<u>Code</u> I(a) as indexed and as the complication of the anesthesia. Code I(b) anesthesia to adverse effect in therapeutic use, Y484, since it was the anesthesia that caused the heart failure. Code I(c) N429, disease prostate, as the reason for surgery and precede with an

ampersand.

I (a) Cardiac failure T818
(b) Prostate surgery under anesthesia &Y839
(c) Benign prostatic hypertrophy &N40

<u>Code</u> I(a) as indexed under Failure, heart, complicating surgery. Code I(b) prostate surgery as indexed. Code I(c) as indexed and precede with an ampersand to indicate the reason for surgery.

5. Complications of radiation during medical care (Y842)

When a complication results from exposure to radiation, except radio-frequency radiation, infrared heaters or lamps and visible or ultraviolet light sources, consider as exposure of patient to radiation during medical care unless there is information on the certificate that indicates otherwise. Code complications of radiation during medical care as follows:

- a. Complications qualified as "radiation," "radiation-induced," "due to radiation," or "following radiation"
 - (1) Coding the complication
 - (a) If the Index provides a code for the complication qualified by one of these terms, use that code.
 - (b) If the Index does not provide a code for the complication qualified by one of these terms, code the complication as indexed without the qualifier.
 - (2) Placement of codes
 - (a) If the complication is qualified as "radiation" or "radiation-induced" and classified to Chapters I-XVIII, code the external cause code followed by the code for the complication.
 - (b) If the complication is qualified as "radiation" or "radiation-induced" and classified to Chapter XIX, code the nature of injury code followed by the external cause code.
- b. Code the external cause code to Y842, (Radiological procedure and radiotherapy).
- c. Use of ampersand
 - (1) If the reason for the radiation therapy is reported, precede this condition with an ampersand.
 - (2) If the reason for the radiation therapy is not reported and a malignant neoplasm is reported, precede the neoplasm with an ampersand.
 - (3) If the reason for the radiation therapy is not reported and the complication is classified to Chapters I-XVIII, precede the complication with an ampersand.
 - I (a) Pulmonary edema
 - (b) Radiation pneumonitis
 - (c) Radiation therapy for cancer of breast
 - (d) &C509

J81

Y842 J700

<u>Code</u> I(b) to the external cause as indexed where the radiation is first reported followed by the code for the complication. Pneumonitis is the complication of the radiation and is indexed, Pneumonitis, radiation. Precede the code for cancer of breast with an ampersand to indicate the reason for the radiation.

I (a) Carcinomatosis C80 (b) Oat cell carcinoma &C349

(c)

II X-ray fibrosis - lung Y842 J701

<u>Code</u> Part II to the external cause as indexed followed by the code for the complication. Fibrosis of lung is the complication and is indexed, Fibrosis, lung, following radiation. Code I(b) as indexed and precede with an ampersand to indicate the reason for the radiation.

I (a) Pneumonia J700 (b) Radiation Y842 (c) Carcinoma of face &C760

<u>Pneumonia</u> is the complication of the radiation reported on I(b). Code I(a) as indexed, Pneumonia, radiation. Code the external cause as indexed on I(b). Code I(c) as indexed and precede with an ampersand to indicate the reason for the radiation.

I (a) Debility R53 (b) Radiation therapy Y842 (c) Hodgkin's disease &C819

<u>Debility</u> is the complication of the radiation reported on I(b). Code I(a) as indexed since the Classification does not provide a code for radiation debility. Code the external cause as indexed on I(b). Code I(c) as indexed and precede with an ampersand to indicate the reason for the radiation.

I (a) Radiation-induced acute Y842 J700

(b) bronchitis

II Carcinoma of trachea &C33

<u>Code</u> I(a) to the external cause as indexed, followed by the code for the complication. Acute bronchitis is the complication and is indexed Bronchitis, acute, due to radiation. Code Part II as indexed and precede with an ampersand to indicate the reason for the radiation.

I(a) AlopeciaL581(b) RadiationY842IIHodgkin's granuloma&C817

Alopecia is the complication of the radiation reported on I(b). Code I(a) as indexed under

Alopecia, X-ray. Code the external cause as indexed on I(b). Code Part II as indexed and precede with an ampersand to indicate the reason for the radiation.

I (a) Peritonitis K659 (b) Intestinal fistula &K632 (c) Radiation therapy Y842

<u>Intestinal</u> fistula is the complication of the radiation reported on I(c). Code I(b) as indexed since the Classification does not provide a code for radiation intestinal fistula. Code the external cause as indexed on I(c). Precede the complication (intestinal fistula) with an ampersand since it is classified to Chapters I-XVIII and the reason for the radiation was not reported.

d. When radiation fibrosis is reported code the fibrosis to T66, Complications, radiation.

I (a) Cerebral anoxia G931 (b) Carcinoma of tongue &C029

II Radiation fibrosis, upper airway obstruction T66 &Y842 J988

<u>Code</u> Part II Complications, radiation for the fibrosis and the external cause as indexed. Code the nature of injury followed by the external cause. Place an ampersand preceding the E-code and the condition on I(b) to indicate the reason for the radiation.

I (a) Radiation pelvic fibrosis T66 &Y842 (b) Carcinoma of uterus &C55

<u>Code</u> I(a) Complications, radiation for the pelvic fibrosis and the external cause as indexed. Code the nature of injury followed by the external cause. Place an ampersand preceding the E-code and the condition on I(b) to indicate the reason for the radiation.

6. <u>Misadventures to patients during surgical and medical care (Y60-Y69)</u>

Except for poisoning, overdose of drug and wrong drug given in error, code most misadventures (accidents or errors) to patients during surgical and medical care to <u>Complications of surgical and medical care</u> (T800-T889) in the nature of injury chapter and to Y600-Y69 in the external cause chapter. Code burns from local applications or irradiation to burns in the nature of injury chapter and to Y600-Y69 in the external cause chapter. Code trauma from instruments during delivery to Chapter XV and do not use an external cause. A limited number of conditions attributable to misadventure to patient (Y600-Y69) in the external cause code, e.g., serum hepatitis, are classified to Chapters I-XVIII.

Indications of Misadventures

Hemorrhage (of a site) Rupture (of a site)	Stated as intraoperative or during medical and surgical care
Cut or cutting (of a site) Perforation (of a site)	Reported as postoperative, intraoperative, during or due to

Puncture (of a site) Laceration (of a site)	medical and surgical care
Burns (of a site)	From local applications or irradiation
Serum hepatitis	From blood transfusions
Fracture (thoracic area)	From cardiopulmonary resuscitation
	From Heimlich maneuver

This list is not all inclusive.

When a misadventure to patient during surgical and medical care (classifiable to Y600-Y69) is reported and the condition which necessitated the surgical or medical care is stated or implied, precede the code for this condition with an ampersand. Apply the instructions for Condition necessitating Surgery in Section V, Part R, 2, b.

Ι	(a) Hemorrhage during	T810
	(b) craniotomy	&Y600
	(c) Brain tumor	&D432

<u>Code</u> I(a) Complication, surgical procedure, hemorrhage. Since "during" is stated, interpret I(b) as a misadventure and code Misadventure, hemorrhage, surgical operation. Code I(c) as indexed and precede with an ampersand to indicate the reason for surgery.

Ι	(a) Perforation of colon	T812
	(b) Colostomy	&Y600&K639

<u>Code</u> I(a) Perforation, surgical. Interpret I(b) as a misadventure and code Misadventure, perforation, surgical operation. Since the surgery indicates a disease of the colon, code this as the reason for surgery. Precede K639 with an ampersand

Ι	(a) Cardiac tamponade	I319
	(b) Perforation of auricle by cardiac catheter	T812 &Y605
II	Therapeutic misadventure	T889

<u>The</u> perforation occurred during a cardiac catheterization. Code I(b) as accidental perforation of organ during a procedure, and accidental perforation during a heart catheterization. Code Part II as indexed, Misadventure (prophylactic) (therapeutic).

Ι	(a) Peritonitis	K659	
	(b) Accidental perforation of	T812	&Y607
	(c) colon		

II Self-administered tap water enema

<u>I(b)</u> is a reported misadventure occurring during medical care. Code T812, accidental perforation during a procedure and Y607, accidental perforation during the administration

of an enema.

Ι	(a) Serum hepatitis	B169
	(b) Blood transfusion	Y640
	(c) Leukemia	&C959

<u>Serum</u> hepatitis is a misadventure occurring during a blood transfusion. Code I(a) B169, serum hepatitis, and I(b) Y640, Contaminated medical or biological substance transfused or infused. Code I(c) as indexed and precede with an ampersand to indicate the reason for the transfusion.

Ι	(a) Burns	T300
	(b) Radiation therapy	&Y632
	(c) Cancer of esophagus	&C159

<u>Code</u> I(a) T300, radiation burns. Code I(b) Y632, Overdose of radiation given during therapy. Code I(c) as indexed and precede with an ampersand to indicate the reason for the radiation.

Ι	(a) Rib fracture	T818
	(b) Cardiopulmonary resuscitation	&Y658
	(c) Pulmonary embolism	&I269

<u>Rib</u> fracture due to cardiopulmonary resuscitation is considered a misadventure. Code I(a) Complications, medical procedure, specified NEC T818. Code I(b) Misadventure, specified type Y658. Code I(c) as indexed and precede with an ampersand to indicate the reason for cardiopulmonary resuscitation.

Ι	(a) HIV	B24
	(b) Blood transfusion	

(c) Hemophilia D66

<u>Code</u> I(a) and I(c) as indexed. No code for I(b) since there are no complications reported. Do not consider HIV (any B20-B24) as a misadventure occurring during a blood transfusion.

S. Sequela of injuries, poisonings, and other consequences of external causes

A sequela is a late effect, an after effect, or a residual of a nature of injury or external cause. The Classification provides categories T900-T983 for sequela of nature of injury codes and Y850-Y899 for sequela of external causes. There are separate instructions for determining if the nature of injury or the external cause should be coded as sequela. **If either the nature of injury or the external cause requires a sequela code, both the nature of injury and the external cause must be coded to a sequela category.**

1. Sequela of injuries, poisoning, and other consequences of external causes (T900-T983)

Use these categories for the classification of injuries and poisonings (conditions in S00-T88) if:

a.	A statement of sequela of the condition in S00-T88 is reported unless the interval between date of
	injury and date of death is less than 1 year.

I (a) Sequela of hip fracture

T931

- (b)
- (c)
- II &Y86

<u>Code</u> I(a) to T931 since it is stated as a sequela of hip fracture. Code Part II as sequela of accident NEC.

b. The condition in S00-T88 is stated to be ancient, healed, history of, late effect of, old, remote, regardless of reported duration, or the interval between onset of this condition and death is indicated to be 1 year or more, whether or not the residual (sequela) effect is specified.

Date of death 12/1/98 I (a) Old head injury

T909

MOD A

II &Y86

Farm

Date of injury 9/3/98

Tractor overturned

<u>Code</u> I(a) old head injury to Sequela, injury, head since it is stated as old. Interpret "tractor overturning on farm" as contact with agricultural machinery. Code Part II accident - tractor overturned to sequela of other accidents since it resulted in an injury stated as old.

c. A condition with a duration of 1 year or more that was due to the condition in S00-T88 is reported.

I (a) Paralysis

16 mos.

T941

(b) Spinal cord injury

T913 &Y850

(c) Auto accident

Q1030

<u>Code</u> I(a) paralysis to sequela of traumatic paralysis since it is reported due to trauma and has a duration of 1 year or more. Code I(b) spinal cord injury to Sequela, injury, spinal, cord since it caused a condition of 1 year or more. Code I(c) auto accident, to Sequela, motor vehicle accident.

d. More than one nature of injury or a nature of injury and an external cause are reported on the same line with a duration of 1 year or more, apply the duration to each condition.

I (a) Head injury and skull fracture

Years

T909 T902

(b)

II Fall &Y86

<u>Code</u> both conditions on I(a) as sequela. Do not disregard the duration since there is more than one injury on same line.

I (a) Gunshot wound head

Years

T901 &Y86

<u>Code</u> both head wound and gunshot as sequela. Apply duration to nature of injury and external cause.

2. <u>Sequela of external causes (Y850-Y899)</u>

Y850 Sequela of mot	or vehicle accident	(includes	V01-V89)
---------------------	---------------------	-----------	----------

- Y859 Sequela of other and unspecified transport accidents (includes V90-V99)
- Y86 Sequela of other accidents (excludes W78-W80)
- Y870 Sequela of intentional self-harm
- Y871 Sequela of assault
- Y872 Seguela of events of undetermined intent
- Y880 Sequela of adverse effects caused by drugs, medicaments, and biological substances in therapeutic use
- Y881 Sequela of misadventures to patients during surgical and medical procedures
- Y882 Sequela of adverse incidents associated with medical devices in diagnostic and therapeutic use
- Y883 Sequela of surgical and medical procedures as the cause of abnormal reaction of the patient, or of later complication,

without mention of misadventure at the time of the procedure

- Y890 Sequela of legal intervention
- Y891 Sequela of war operations
- Y899 Seguela of unspecified external cause

Use the preceding categories with the appropriate fourth characters for the classification of external causes of injury (V010-Y849) if:

- a. A statement of sequela of the external cause is reported unless the interval between date of external cause and date of death is less than 1 year.
 - I (a) Paralysis, sequela of

T941 &Y86

(b) fall down steps

Code I(a) to sequela of traumatic paralysis and sequela of fall down the steps.

b. An injury that is stated to be ancient, healed, history of, late effect of, old, remote, or a delayed union that was due to the external cause is reported.

I (a) Pneumonia J189

MOD (b) Debility R53

A(c) Nonunion of hip fracture M841

II Inanition R64 Y86

Accident

Fell at home

 $\underline{\text{Code}}$ I(c) as indexed. Code sequela of fall last in Part II since the fall resulted in nonunion of the fracture.

I (a) ASHD I251

II Old fractured hip T931 &Y86

<u>Code</u> I(a) ASHD as indexed. Code Part II old fractured hip, T931 Y86, since the injury was specified as old.

c. If the external cause is stated to be ancient, history of, old, remote, regardless of reported duration, or the interval between onset of the external cause and death is indicated to be 1 year or more.

I (a) Old fall, fractured hip

6 months

T931 &Y86

(b) (c)

MOD A II T931

Accident

Fell and fractured hip 6 months ago

Code as sequela since the external cause is stated as "old."

d. A condition with a duration of 1 year or more that was due to the external cause is reported.

I (a) Subdural hematoma

1 year

T905

(b) Fall

&Y86

<u>Code</u> I(a) subdural hematoma, T905, since it is reported to be of 1 year or more duration. Code I(b) fall, Y86, since it resulted in a condition of 1 year or more duration.

I (a) Esophageal stricture years

K222

(b) Ingestion of lye

T97 &Y870

II Suicide attempt

<u>Code</u> I(a) esophageal stricture as indexed. Code I(b) ingestion of lye, T97 Y870, since it resulted in a condition of 1 year or more duration.

e. The interval between the time of occurrence of the external cause and death is indicated to be 1 year or more, whether or not the residual (sequela) effect is specified.

Date of death 11/1/96

I (a) Bronchopneumonia

J180

MOD A II Contusion brain

T905 &Y850

A

Accident Street

Date of injury 5/20/95

Bicycle (operator) vs. truck

<u>Code</u> I(a) bronchopneumonia as indexed. Code sequela of nature of injury and external cause since the date of injury is 1 year or more prior to death.

I (a) Cardiac arrest

I469

(b) Pacemaker failure weeks

T983 &Y883 &I519

(c) Had pacemaker implanted 3 years ago

<u>Code</u> I(a) cardiac arrest as indexed. Code I(b) pacemaker failure to sequula T983 and Y883 since duration of implanted pacemaker is 3 years. Code I519, Disease, heart since pacemaker indicates a heart disease. Precede I519 with an ampersand as reason for the surgery. Do not enter a code on I(c).

f. The complication of the external cause classified to Chapters I-XVIII and the external cause is reported on the same line and the duration is 1 year or more.

I (a) Radiation enteritis

3 years

Y883 K520

(b) Lung cancer

&C349

<u>Code</u> I(a) as a sequela of radiation therapy. Do not disregard the duration. Precede the code for the lung cancer with an ampersand to indicate the reason for medical care.

APPENDIX A - STANDARD ABBREVIATIONS AND SYMBOLS

When an abbreviation is reported on the certificate, refer to this list to determine what the abbreviation represents. **If an abbreviation represents more than one term, determine the correct abbreviation by using other information on the certificate.** If no determination can be made, use abbreviation for first term listed.

A2GDM class A2 gestational diabetes mellitus

AAA abdominal aortic aneurysm
AAS aortic arch syndrome
AAT alpha-antitrypsin
AAV AIDS-associated virus

AB abdomen; abortion; asthmatic bronchitis

ABD abdomer

ABE acute bacterial endocarditis
ABS acute brain syndrome

ACA adenocarcinoma

ACD arteriosclerotic coronary disease

ACH adrenal cortical hormone

ACT acute coronary thrombosis

ACTH adrenocorticotrophic hormone

ACVD arteriosclerotic cardiovascular disease
ADEM acute disseminated encephalomyelitis

ADH antidiuretic hormone

ADS antibody deficiency syndrome

AEG air encephalogram

AF auricular or atrial fibrillation; acid fast

AFB acid-fast bacillus
AGG agammaglobulinemia

AGL acute granulocytic leukemia
AGN acute glomerulonephritis
AGS adrenogenital syndrome

AHA acquired hemolytic anemia; autoimmune hemolytic anemia

AHD arteriosclerotic heart disease

AHHD arteriosclerotic hypertensive heart disease

AHG anti-hemophilic globulin deficiency
AHLE acute hemorrhagic leukoencephalitis
AI aortic insufficiency; additional information
AIDS acquired immunodeficiency syndrome

AKA above knee amputation AKI acute kidney injury

ALC alcoholism

ALL acute lymphocytic leukemia
ALS amyotrophic lateral sclerosis

AMA advanced maternal age; against medical advice; antimitochondrial antibody(ies)

AMI acute myocardial infarction

AML acute myelocytic leukemia

ANS arteriolonephrosclerosis

AOD arterial occlusive disease

AODM adult onset diabetes mellitus

AOM acute otitis media

AP angina pectoris; anterior and posterior repair; artificial pneumothorax; anterior pituitary

A&P anterior and posterior repair

APC auricular premature contraction; acetylsalicylic acid, acetophenetidin, and caffeine

APE acute pulmonary edema; anterior pituitary extract

APH antepartum hemorrhage
AR aortic regurgitation
ARC AIDS-related complex

ARDS adult respiratory distress syndrome

ARF acute respiratory failure; acute renal failure

ARM artificial rupture of membranes

ARV AIDS-related virus

ARVD arrhythmogenic right ventricular dysplasia
AS arteriosclerotic; arteriosclerosis; aortic stenosis

ASA acetylsalicylic acid (aspirin)
ASAD arteriosclerotic artery disease

ASCAD arteriosclerotic coronary artery disease

ASCD arteriosclerotic coronary disease

ASCHD arteriosclerotic coronary heart disease

ASCRD arteriosclerotic cardiorenal disease

ASCVA arteriosclerotic cerebrovascular accident

ASCVD arteriosclerotic cardiovascular disease

ASCVR arteriosclerotic cardiovascular renal disease

ASCVRD arteriosclerotic cardiovascular renal disease

ASD atrial septal defect

ASDHD arteriosclerotic decompensated heart disease

ASHCVD arteriosclerotic hypertensive cardiovascular disease

ASHD arteriosclerotic heart disease; atrioseptal heart defect

ASHHD arteriosclerotic hypertensive heart disease
ASHVD arteriosclerotic hypertensive vascular disease

ASO arteriosclerosis obliterans

ASPVD arteriosclerotic peripheral vascular disease

ASVD arteriosclerotic vascular disease

ASVH(D) arteriosclerotic vascular heart disease

AT atherosclerosis; atherosclerotic; atrial tachycardia; antithrombin

ATC all-terrain cycle

ATN acute tubular necrosis

ATS arteriosclerosis

ATSHD arteriosclerotic heart disease

ATV all-terrain vehicle

AUL acute undifferentiated leukemia

AV arteriovenous; atrioventricular; aortic valve

AVF arterio-ventricular fibrillation; arteriovenous fistula

AVH acute viral hepatitis

AVNRT atrioventricular nodal re-entrant tachycardia

AVP aortic valve prosthesis
AVR aortic valve replacement

AVRT atrioventricular nodal re-entrant tachycardia

AWMI anterior wall myocardial infarction

AZT azidothymidine

BA basilar artery; basilar arteriogram; bronchial asthma

B&B bronchoscopy and biopsy
 BBB bundle branch block
 B&C biopsy and cauterization
 BCE basal cell epithelioma

BE barium enema

BEH benign essential hypertension

BGL Bartholin's gland

BKA below knee amputation

BL bladder; bucolingual; blood loss; Burkitt's lymphoma

BMR basal metabolism rate
BNA bladder neck adhesions
BNO bladder neck obstruction

BOMSA bilateral otitis media serous acute
BOMSC bilateral otitis media serous chronic

BOW 'bag of water' (membrane)

B/P, BP blood pressure

BPH benign prostate hypertrophy

BSA body surface area

BSO bilateral salpingo-oophorectomy
BSP Bromosulfaphthalein (test)
BTL bilateral tubal ligation

BUN blood, urea, and nitrogen test

BVL bilateral vas ligation

B&W Baldy-Webster suspension (uterine)

BX biopsy

BX CX biopsy cervix

Ca cancer

CA cancer; cardiac arrest; carotid arteriogram

CABG coronary artery bypass graft
CABS coronary artery bypass surgery

CAD coronary artery disease CAG chronic atrophic gastritis

CAO coronary artery occlusion; chronic airway obstruction

CAS cerebral arteriosclerosis

CASCVD chronic arteriosclerotic cardiovascular disease

CASHD chronic arteriosclerotic heart disease CAT computerized axial tomography

CB chronic bronchitis
CBC complete blood count

CBD common bile duct; chronic brain disease

CBS chronic brain syndrome
CCF chronic congestive failure

CCI chronic cardiac or coronary insufficiency

CF congestive failure; cystic fibrosis; Christmas factor (PTC)

CFT chronic follicular tonsillitis
CGL chronic granulocytic leukemia
CGN chronic glomerulonephritis
CHA congenital hypoplastic anemia

CHB complete heart block

CHD congestive heart disease; coronary heart disease; congenital heart disease; Chediak-Higaski

Disease

CHF congestive heart failure

C2H5OH ethyl alcohol

CI cardiac insufficiency; cerebral infarction

CID cytomegalic inclusiondisease

CIS carcinoma in situ

CJD Creutzfeldt-Jakob Disease

CLD chronic lung disease; chronic liver disease

CLL chronic lymphatic leukemia; chronic lymphocytic leukemia

CMID cytomegalic inclusion disease
CML chronic myelocytic leukemia
CMM cutaneous malignant melanoma

CMV cytomegalic virus

CNHD congenital nonspherocytic hemolytic disease

CNS central nervous system

CO carbon monoxide

COAD chronic obstructive airway disease

CO2 carbon dioxide

COBE chronic obstructive bullous emphysema

COBS chronic organic brain syndrome
COFS cerebro-oculo-facio-skeletal

COOMBS test for Rh sensitivity

COLD chronic obstructive lung disease

COPD chronic obstructive pulmonary disease
COPE chronic obstructive pulmonary emphysema

CP cerebral palsy; cor pulmonale
C&P cystoscopy and pyelography
CPB cardiopulmonary bypass
CPC chronic passive congestion

CPD cephalopelvic disproportion; contagious pustular dermatitis

CPE chronic pulmonary emphysema

CRD chronic renal disease

CREST calcinosis cutis, Raynaud's phenomenon, sclerodactyly, and telangiectasis

CRF cardiorespiratory failure; chronic renal failure

CRST calcinosis cutis, Raynaud's phenomenon, sclerodactyly, and telangiectasis

CS coronary sclerosis; cesarean section; cerebro-spinal

CSF cerebral spinal fluid

CSH chronic subdural hematoma
CSM cerebrospinal meningitis

CT computer tomography; cerebral thrombosis; coronary thrombosis

CTD congenital thymic dysplasia

CU cause unknown

CUC chronic ulcerative colitis

CUP cystoscopy, urogram, pyelogram (retro)

CUR cystocele, urethrocele, rectocele
CV cardiovascular; cerebrovascular

CVA cerebrovascular accident
CV accident cerebral vascular accident
CVD cardiovascular disease
CVHD cardiovascular heart disease

CVI cardiovascular insufficiency; cerebrovascular insufficiency

CVRD cardiovascular renal disease
CWP coal worker's pneumoconiosis

CX cervix

DA degenerative arthritis

DBI phenformin hydrochloride
D&C dilation and curettage
DCR dacrocystorhinostomy

D&D drilling and drainage; debridement and dressing

D&E dilation and evacuation
DFU dead fetus in utero

DIC disseminated intravascular coagulation

DILD diffuse infiltrative lung disease

DIP distal interphalangeal joint; desquamative interstitial pneumonia

DJD degenerative joint disease

DM diabetes mellitus
DMT dimethyltriptamine
DOA dead on arrival

DOPS diffuse obstructive pulmonary syndrome
DPT diphtheria, pertussis, tetanus vaccine

DR diabetic retinopathy
DS Down's syndrome
DT due to; delirium tremens

D/T due to; delirium tremens

DU diagnosis unknown; duodenal ulcer DUB dysfunctional uterine bleeding

DUI driving under influence
DVT deep vein thrombosis
DWI driving while intoxicated

DX dislocation; diagnosis; disease

EBV Epstein-Barr virus

ECCE extracapsular cataract extraction

ECG electrocardiogram
E coli Escherichia coli

ECT electric convulsive therapy
EDC expected date of confinement
EEE Eastern equine encephalitis
EEG electroencephalogram

EFE endocardial fibroelastosis
EGL eosinophilic granuloma of lung

EH enlarged heart; essential hypertension

EIOA excessive intake of alcohol
EKC epidemic keratoconjunctivitis

EKG electrocardiogram
EKP epikeratoprosthesis
ELF elective low forceps

EMC encephalomyocarditis

EMD electromechanical dissociation

EMF endomyocardial fibrosis

EMG electromyogram

EN erythema nodosum

ENT ear, nose, and throat

EP ectopic pregnancy

ER emergency room

ERS evacuation of retained secundines

ESRD end-stage renal disease
EST electric shock therapy

ETOH ethyl alcohol

EUA exam under anesthesia

EWB estrogen withdrawal bleeding

FB foreign body

FBS fasting blood sugar Fe symbol for iron

FGD fatal granulomatous disease

FHS fetal heart sounds FHT fetal heart tone

FLSA follicular lymphosarcoma FME full-mouth extraction

FS frozen section; fracture site

FT full term

FTA fluorescent treponemal antibody test

FTD fronto-temporal dementia

5FU fluorouracil

FUB functional uterine bleeding

FULG fulguration

FUO fever unknown origin

FX fracture

FYI for your information

GAS generalized arteriosclerosis

OBS organic brain syndrome
OBST obstructive; obstetrical

OD overdose; oculus dexter (right eye); occupational disease

OHD organic heart disease
OLT orthotopic liver transplant

OM otitis media

OMI old myocardial infarction
OMS organic mental syndrome

ORIF open reduction, internal fixation

OS oculus sinister (left eye); occipitosacral (fetal position)

OT occupational therapy; old TB

OU oculus uterque (each eye); both eyes

PA pernicious anemia; paralysis agitans; pulmonary artery; peripheral arteriosclerosis

PAC premature auricular contraction; phenacetin, aspirin, caffeine

PAF paroxysmal auricular fibrillation

PAOD peripheral arterial occlusive disease; peripheral arteriosclerosis occlusive disease

PAP primary atypical pneumonia PAS pulmonary artery stenosis

PAT pregnancy at term; paroxysmal auricular tachycardia

Pb chemical symbol for lead

PCD polycystic disease

PCF passive congestive failure

PCP pentachlorophenol; pneumocystis carinii pneumonia

PCT porphyria cutanea tarda

PCV polycythemia vera

PDA patent ductus arteriosus

PE pulmonary embolism; pleural effusion; pulmonary edema

PEG percutaneous endoscopic gastrostomy; pneumoencephalography

PEGT percutaneous endoscopic gastrostomy tube

PET pre-eclamptic toxemia
PG pregnant; prostaglandin
PGH pituitary growth hormone

PH past history; prostatic hypertrophy; pulmonary hypertension

PI pulmonary infarction

PID pelvic inflammatory disease; prolapsed intervertebral disc

PIE pulmonary interstitial emphysema PIP proximal interphalangeal joint

PKU phenylketonuria

PMD progressive muscular dystrophy

PMI posterior myocardial infarction; point of maximum impulse

PML progressive multifocal leukoencephalopathy
PN pneumonia; periarteritis nodosa; pyelonephritis

PO postoperative; by mouth POC product of conception POE point (or portal) of entry

POSS possible; possibly postpartum

PPD purified protein derivative test for tuberculosis

PPH postpartum hemorrhage

PPLO pleuropneumonia-like organism

PPS postpump syndrome

PPT precipitated; prolonged prothrombin time

PREM prematurity
PROB probably

PPROM preterm premature rupture of membranes

PROM premature rupture of membranes

PSVT paroxysmal supraventricular tachycardia

PT paroxysmal tachycardia; pneumothorax; prothrombin time

PTA persistent truncus arteriosus

PTC plasma thromboplastin component

PTCA percutaneous transluminal coronary angioplasty
PTLA percutaneous transluminal laser angioplasty

PU peptic ulcer

PUD peptic ulcer disease; pulmonary disease

PUO pyrexia of unknown origin P&V pyloroplasty and vagotomy

PVC premature ventricular contraction

PVD peripheral vascular disease; pulmonary vascular disease

PVI peripheral vascular insufficiency PVL periventricular leukomalacia

PVT paroxysmal ventricular tachycardia

PVS premature ventricular systole (contraction)

PWI posterior wall infarction

PWMI posterior wall myocardial infarction

PX pneumothorax

R right

RA rheumatoid arthritis; right atrium; right auricle

RAAA ruptured abdominal aortic aneurysm

RAD rheumatoid arthritis disease; radiation absorbed dose

RAI radioactive iodine

RBBB right bundle branch block

RBC red blood cells

RCA right coronary artery
RCS reticulum cell sarcoma

RD Raynaud's disease; respiratory disease

RDS respiratory distress syndrome

RE regional enteritis
REG radioencephalogram

RESP respiratory

RHD rheumatic heart disease

APPENDIX B - SYNONYMOUS SITES/TERMS

When a condition of a stated anatomical site is indexed in Volume 3, code condition of stated site as indexed. If stated site is not indexed, code condition of synonymous site.

Alimentary canal	Gastrointestinal tract		
Body	Torso, trunk		
Brain	Anterior fossa, basal ganglion, central nervous system, cerebral, cerebrum, frontal, occipital, parietal, pons, posterior fossa, prefrontal, temporal, III and IV ventricle		
	NOTE: Do not use brain when ICD provides for CNS under the reported condition.		
Cardiac	Heart		
Chest	Thorax		
Geriatric	Senile		
Greater sac	Peritoneum		
Hepatic	Liver		
Hepatocellular	Liver		
Intestine	Bowel, colon		
Kidney	Renal		
Larynx	Epiglottis, subglottis, supraglottis, vocal cords		
Lesser sac	Peritoneum		
Nasopharynx, pharynx	Throat		
Pulmonary	Lung		
Right\left hemispheric	Code brain		
Hemispheric NOS	Do not assume brain		
Right\left ventricle	Heart		
Third\fourth ventricle	Brain		
LLL, LUL, RLL, RML, RUL	Lobes of the lungs when reported with lobectomy, pneumonia, etc.

APPENDIX D - CODE FOR PLACE OF OCCURRENCE

0. Home

Excludes: Abandoned or derelict house (8)

Home under construction, but not yet occupied (6)

Institutional place of residence (1)

Office in home (5)

About home Apartment

Bed and breakfast Boarding house Cabin (any type)

Caravan (trailer) park - residential

Condominium Farm house Dwelling Hogan

Home premises Home sidewalk

Home swimming pool

House (residential) (trailer)

Noninstitutional place of residence

Penthouse

Private driveway to home

Private garage

Private garden to home

Private walk to home

Private wall to home

Residence

Rooming house

Storage building at apartment

Swimming pool in private home, private garden, apartment or residence

Townhome

Trailer camp or court

Yard (any part) (area) (front) (residential)

Yard to home

1. Residential institution

Almshouse

Army camp

Assisted Living

Board and care facility

Children's home

Convalescent home

Correctional center

Detox center

Dormitory

Fraternity house Geriatric center Halfway house Home for the sick

Hospice

Institution (any type)

Jail

Mental Hospital

Military (camp) (reservation)

Nurse's home Nursing home Old people's home

Orphanage Penitentiary

Pensioner's home

Prison
Prison camp
Reform school
Retirement home
Sorority house

State hospital

2. <u>School, other institution and public administrative area</u>

Excludes: Building under construction (6)

Residential institution (1) Sports and athletic areas (3)

Armory Police station or cell

Assembly hall Post office
Campus Private club
Child center Public building
Church Public hall
Cinema Salvation army

Clubhouse School (grounds) (yard)

College School (private) (public) (state)

Country club (grounds)

Court house

Dance hall

Day nursery (day care)

Drive in theater

Fire house

Theatre

Turkish bath

University

YMCA

Youth center

YWCA

Day nursery (da Drive in theater Fire house Gallery Health club Health resort Health spa

Hospital (parking lot)
Institute of higher learning

Kindergarten Library Mission Movie house Museum

Music hall Night club Opera house Playground, school Police precinct

3. Sports and athletics area

Excludes: Swimming pool or tennis court in private home or garden (0)

Baseball field

Basketball court

Cricket ground

Dude ranch

Fives court

Football field

Golf course

Gymnasium

Hockey field

Ice palace

Racecourse

Riding school

Rifle range - NOS

Skating rink

Sports ground

Sports palace

Squash court

Stadium

Swimming pool (private) (public)

Tennis court

4. Street and highway

Alley

Border crossing

Bridge NOS

Freeway

Interstate

Motorway

Named street/highway/interstate

Pavement

Road (public)

Roadside

Sidewalk NOS

Walkway

5. Trade and service area

Excludes: Garage in private home (0)

Airport

Animal hospital

Bank

Bar

Body shop

Cafe

Car dealership

Casino

Electric company

Filling station

Funeral home

Garage - place of work

Garage away from highway except home

Garage building (for car storage)

Garage NOS

Gas station

Hotel (pool)

Laundry Mat

Loading platform - store

Mall

Market (grocery or other commodity)

Motel

Office (building) (in home)

Parking garage

Radio/television broadcasting station

Restaurant

Salvage lot, named

Service station

Shop, commercial

Shopping center (shopping mall)

Spa

Station (bus) (railway)

Store

Subway (stairs)

Tourist court

Tourist home

Warehouse

6. <u>Industrial and construction areas</u>

Building under construction

Coal pit

Coal yard

Construction (area, job or site)

Dairy processing plant

Dockyard

Dry dock

Electric tower

Factory (building) (premises)

Foundry

Gas works

Grain elevator

Gravel pit

Highway under construction

Industrial yard

Loading platform - factory

Logging operation area

Lumber yard

Mill pond

Oil field

Oil rig and other offshore installations

Oil well

Plant, industrial

Power-station (coal) (nuclear) (oil)

Produce building

Railroad track or trestle

Railway yard Sand pit

Sand pit Sawmill

Sewage disposal plant

Shipyard

Seashore NOS Seashore resort

Sewer

Specified address

Stream Swamp Trail (bike) Vacation resort

Woods Zoo

APPENDIX E - ACTIVITY CODES

The ICD-10 provides a subclassification for use with external causes and injuries to indicate the activity of the injured person at the time the event occurred. This appendix is designed to document the ICD-10 activity code information but it is not entered in manual coding.

Information may be scattered over different parts of the medical certification, Part I, Part II, 41, 43, etc. However, do not use the information in "Injury at work?" block to code this variable.

If no information concerning the activity of the injured person is reported on the certificate, the item is left blank. "While drinking alcohol" or "while driving" is not considered as a codable activity. When two or more codes appear to be appropriate for the information reported, activity code 8 is assigned.

0 While engaged in sports activity

Physical exercise with a described functional element such as:

- . golf
- . jogging
- . riding
- . school athletics
- . skiina
- . swimming
- . trekking
- . waterskiing

1 While engaged in leisure activity

Hobby activities

Leisure time activities with an entertainment element such as going to the cinema, to a dance or to a party

Participation in sessions and activities of voluntary organizations

Excludes: sport activities (0)

2 While working for income

Paid work (manual) (professional)
Transportation (time) to and from such activities
Work for salary, bonus and other types of income

3 While engaged in other types of work

Domestic duties such as:

- . caring for children and relatives
- . cleaning
- . cooking
- . gardening
- . household maintenance

Duties for which one would not normally gain an income

Learning activities, e.g. attending school session or lesson Undergoing education

4 While resting, sleeping, eating and other vital activities

Personal hygiene

8 While engaged in other specified activities

APPENDIX F - INVALID AND SUBSTITUTE CODES

The following categories are invalid for underlying cause coding in the United States registration areas. Substitute code(s) for use in underlying cause coding appears to the right.

Use the substitute codes when conditions classifiable to the following codes are reported:

ICD-10-Mortality Manual 2b - 2014

Invalid Codes	Substitute Codes		
A150-A153	A162		
A154	A163		
A155	A164		
A156	A165		
A157	A167		
A158	A168		
A159	A169		
A160-A161	A162		
B95-B97 Code the disease(s) classified to other chapters modified by the organism. Do not enter a code for the organism.			
F70	F70 (3-characters only)		
F71	F71 (3-characters only)		
F72	F72 (3-characters only)

F79	F79 (3-characters only)		
I151-I158 -	R99		
I23	I21 or I22		
I240	I21 or I22		
I252	1258		
I65-I66	I63		
O08	O00 - O07		
O80	O95		

081-084	O759
P95	P969
R69	R95-R99

APPENDIX G - CODES FOR SPECIAL PURPOSES (U00-U99)

Provisional assignment of new codes (U00-U99)

1. Terrorism Classification (*U01-*U03)

NCHS has developed a set of new codes within the framework of the ICD that will allow the identification of deaths from terrorism reported on death certificates through the National Vital Statistics System. Terrorism-related ICD-10 codes for mortality have been assigned to the "U" category which has been designated by WHO for use by individual countries. The asterisk preceding the alphanumeric code indicates the code was introduced by the United States and is not officially part of the ICD.

To classify a death as terrorist-related, it is necessary for the incident to be designated as such by the Federal Bureau of Investigation (FBI). Neither a medical examiner nor a coroner who would be completing/certifying the death certificate, nor the nosologist coding the death certificate would determine that an incident is an act of terrorism. If an incident or event is confirmed by the FBI as terrorism, it may be so described on the certificate. If the incident is confirmed as terrorism after the death certificate is completed, the certificate can be recoded at a later date.

Not to be used unless notified by NCHS

Tabular List

Assault (homicide)

*U01-*U02

***U01** Terrorism

Includes: assault-related injuries resulting from the unlawful use of force or violence against persons or property to intimidate or coerce a Government, the civilian population, or any segment thereof, in furtherance of political or social objectives

*U01.0 Terrorism involving explosion of marine weapons

Depth-charge
Marine mine
Mine NOS, at sea or in harbor
Sea-based artillery shell
Torpedo
Underwater blast

***U01.1** Terrorism involving destruction of aircraft

Includes: aircraft used as a weapon

Aircraft:

- burned
- exploded
- shot down

Crushed by falling aircraft

***U01.2** Terrorism involving other explosives and fragments

Antipersonnel bomb (fragments)

Blast NOS

Explosion (of):

- NOS
- artillery shell
- breech-block
- cannon block
- mortar bomb
- munitions being used in terrorism
- own weapons

Fragments from:

- artillery shell
- bomb
- grenade
- guided missile
- land-mine
- rocket
- shell
- shrapnel

Mine NOS

***U01.3** Terrorism involving fires, conflagration and hot substances

Asphyxia originating from fire caused directly by
Burns fire-producing device or indirectly by any
Other injury conventional weapon

Petrol bomb

Collapse of
Fall from
Falling from
Hit by object
Jump from
burning building or structure

Conflagration

Fire
Melting of fittings or furniture
Smoldering

*U01.4 Terrorism involving firearms

Bullet

- carbine
- machine gun
- pistol
- rifle
- rubber (rifle)

Pellets (shotgun)

***U01.5** Terrorism involving nuclear weapons

Blast effects

Exposure to ionizing radiation from nuclear weapon

Fireball effects

Heat

Other direct and secondary effects of nuclear weapons

*U01.6 Terrorism involving biological weapons

Anthrax Cholera Smallpox

***U01.7** Terrorism involving chemical weapons

Gases, fumes and chemicals:

- Hydrogen cyanide
- Phosgene
- Sarin

***U01.8** Terrorism, other specified

Lasers

Battle wounds

Drowned in terrorist operations NOS Piercing or stabbing object injuries

***U01.9** Terrorism, unspecified

***U02** Sequelae of terrorism

Intentional self-harm (suicide)

*U03

*U03 Terrorism

***U03.0** Terrorism involving explosions and fragments

Includes: destruction of aircraft used as a weapon

Aircraft:

- burned
- exploded
- shot down

Antipersonnel bomb (fragments)

Blast NOS

Explosion (of):

- NOS
- artillery shell
- breech-block
- cannon block
- mortar bomb
- munitions being used in terrorism
- own weapons

Fragments from:

- artillery shell
- bomb
- grenade
- guided missile
- land-mine
- rocket
- shell
- shrapnel

Mine NOS

***U03.9** Terrorism by other and unspecified means

The FBI declared the Pentagon incident an act of terrorism. Date of death 9/11/2001 PLACE I (a) Chest trauma S299

<u>Code</u> as terrorism involving destruction of aircraft. The FBI declared the World Trade Center incident an act of terrorism.

2. Severe Acute Respiratory Syndrome [SARS] (U04)

Tabular List

U04 Severe acute respiratory syndrome [SARS]

U04.9 Severe acute respiratory syndrome [SARS], unspecified

SECTION I – Alphabetical index to diseases and nature of injury

Syndrome

- respiratory
- - severe acute U04.9
- severe acute respiratory syndrome (SARS) U04

APPENDIX H - ADDITIONAL DRUG EXAMPLES

- 1. Place I (a) Ingested overdose of opiates and ingested alcohol T406 &X42 F109
 - <u>Code</u> I(a) nature of injury and external cause code for opiate overdose. Code ingested alcohol as indexed. No evidence of alcohol and drug synergism is reported.
- 2. <u>Place</u> I (a) Ingested overdose of (opiates) and ingested alcohol T406 &X42 F109

<u>Code</u> I(a) nature of injury and external cause code for opiate overdose. Code ingested alcohol as indexed. No evidence of alcohol and drug synergism is reported.

3. <u>Place</u> I (a) Intoxication by the use of cocaine and opiates T405 &X42 T406

<u>Code</u> I(a) nature of injury and external cause code for cocaine and opiate intoxication. Since the drugs are assigned to the same external cause code, code X42. Do not enter a Chapter V code (F codes).

4. Place I (a) Intoxication by the use of (cocaine and opiates) T405 &X42 T406

<u>Code</u> I(a) nature of injury and external cause code for cocaine and opiates intoxication. Since the drugs are assigned to the same external cause code, code X42. Do not enter a Chapter V code (F codes).

5. <u>Place</u> I (a) Toxic effects of cocaine abuse T405 &X42 F141

<u>Interpret</u> I(a) as cocaine poisoning and cocaine abuse. Code nature of injury and external cause code for cocaine poisoning and cocaine abuse as indexed.

6. <u>Place</u> I (a) Toxic effects of illicit drug abuse T509 &X44 F191

<u>Interpret</u> I(a) as drug poisoning and drug abuse. Code nature of injury and external cause code for drug poisoning and drug abuse as indexed.

7. <u>Place</u> I (a) Mixed drug intoxication alcohol and cocaine T519 X45 T405 &X42

9

<u>Interpret</u> I(a) as poisoning and code nature of injury and external cause code for alcohol and cocaine. Precede the external cause code for the cocaine poisoning with an ampersand.

8. Place

9

I (a) Mixed drug intoxication (alcohol and cocaine)

T519 X45 T405 &X42

(l

II Used combination cocaine and alcohol

F149 F109

<u>Interpret</u> I(a) as poisoning and code nature of injury and external cause code for alcohol and cocaine. Precede the external cause code for cocaine poisoning with an ampersand. In Part II, code cocaine use as indexed under Dependence, due to, cocaine, and alcohol as indexed under Use, alcohol.

9. <u>Place</u>

I (a) Multiple drug intoxication including

T509 &X44 T402 T424

T430 9

(b) oxycodone, diazepam, and doxepin

<u>Code</u> the nature of injury code for drug NOS as first entry on I(a). Since the drugs are assigned to different external cause codes, code X44 followed by the nature of injury code for each drug reported.

10. Place

9

I (a) Acute multiple drug intoxication (oxycodone

T402 &X44 T424

(b) and alprazolam)

II Took overdose

T509

<u>Code</u> I(a) nature of injury and external cause code for oxycodone and alprazolam intoxication. Since the drugs are assigned to different external cause codes, code X44. Code the nature of injury code for drug NOS in Part II.

11. <u>Place</u> T424

I (a) Acute multiple drug intoxication (ethanol,

T510 X45 T402 &X44

9

(b) oxycodone and alprazolam)

<u>Interpret</u> I(a) as alcohol poisoning and drug poisoning. Code the nature of injury and external cause for the alcohol and drugs. Since the drugs are assigned to different external cause codes, code X44 and precede with an ampersand.

12. Place

I (a) Acute combined drug intoxication

T509 &X44

C

(b) (oxycodone, with diazepam and ethyl

T402 X45 T424 T510

14. <u>Place</u> 9	I (a) Intoxication (b) Morphine, Cocaine poisoning	T402 T402	&X42	T405
	<u>Code</u> I(a) to the nature of injury code for morphine since this is reported in the "due to" position. Code the nature of injury and morphine and cocaine on I(b).			
15. <u>Place</u> 9	I (a) Acute intoxication due to the (b) combined effects of fentanyl (c) and opiates	T404 T404	&X42	T406
	<u>Code</u> I(a) to the nature of injury code for fentanyl since this is to in the due to position. Code the nature of injury and external capitates on I (b).			•
16. <u>Place</u> 9 <u>MOD</u>	I (a) Cardiac arrhythmia associated with hydroxyzine(b) injection(c)	I499	T435	&X41

Α II Hydroxyzine injection T435 Accident Code first condition on I(a) as indexed. Code hydroxyzine injection as poisoning since it is a psychotropic drug and the certifier reported the death was due to an accident. Code nature of injury for hydroxyzine Part II. 17. I (a) Cardiac arrhythmia associated with hydroxyzine I499 (b) injection (c) II Hydroxyzine injection <u>Code</u> first condition on I(a) as indexed. No code required for the hydroxyzine injection since no complication is reported. It is considered drug therapy since the certifier did not report accident or undetermined in the manner of death block. 18. Place I (a) Acute cardiac arrhythmia precipitated by I499 T405 &X42 T406 (b) cocaine and opiates 9 MOD (c) Α II Drug abuse, cocaine and opiates F141 F111 Accident Code first condition on I(a) as indexed. Code cocaine and opiates as poisoning since the drugs are narcotics and the certifier reported the death was due to an accident. Code the nature of injury and external cause code for cocaine and opiate poisoning. Since the drugs are assigned to the same external cause code, code X42. Code cocaine abuse and opiates abuse as indexed in Part II. 19. Place I (a) Acute intravenous narcotism (heroin) F112 9 (b) II Methadone overdose, heroin injection T403 &X42 T401 <u>Code</u> I(a) F112, acute intravenous heroin narcotism. Consider the methadone overdose and heroin injection as poisoning. Heroin is not used for medical care purposes. 20. Place I (a) Acute intravenous narcotism heroin overdose F192 T401 &X42 9 II MOD

Accident

Α

<u>Intrepret</u> I(a) as two separate entities. Code acute intravenous narcotism as first entity and code a nature of injury and an external cause code for heroin overdose as second entity.

21. <u>Place</u>

I (a) Acute intravenous narcotism

F112

9

(b) Morphine

II Intravenous use of drugs

F199

<u>Consider</u> I(b) as continuation of I(a). Code I(a) acute intravenous morphine narcotism and Part II as indexed.

22.

I (a) Drug dependence (heroin, cocaine)

F112 F142

Code I(a) heroin and cocaine dependence as indexed.

23. Place

I (a) Renal failure

N19

9 (b)

(b) Drug induced hepatotoxicity

T509 &X44

<u>Code</u> I(a) as indexed. Code I(b) as poisoning since toxicity (of a site) by a drug is one of the terms that is interpreted as poisoning.

24. <u>Place</u>

I (a) Effects of cocaine and methamphetamine use

F149 F159

9 100

MOD A II Drug intake

T509 &X44

Accident

(b)

<u>Code</u> I(a) as indexed applying intent of certifier instructions for coding use of drugs. Code drug intake as poisoning since drug NOS is reported and the certifier reported the death was due to an accident.

25. <u>Place</u>

II

I (a) Adverse effects of drugs

T509 &X44

T509

MOD A

9

Accident

Subject took drugs

<u>Code</u> I(a) to drug poisoning since drug NOS is reported and the certifier stated the death was due to an accident. Code the nature of injury for drug in Part II.

30. Place

I (a) Subdural hematoma

26. I (a) Gastric ulcer K259 (b) Drug intake Y579 (c) Arthritis &M139 Code the gastric ulcer as a complication of the drug reported on I(b). Code the E-code for drug therapy on I(b). It is considered drug therapy since the certifier did not indicate the death was due to an accident or it occurred under undetermined circumstances or the drug was taken in conjunction with alcohol. Code I(c) as indexed and precede with an ampersand. 27. Place I (a) Combined toxicity T659 &X44 (b) Heroin and amphetamine 9 T401 T436 MOD II Α Accident <u>Code</u> I(a) to nature of injury for Toxicity NOS, T659 as indexed. Code external cause to X44 since the drugs are classified to different external cause codes. 28. Place I (a) Poisoning T659 &X44 9 (b) Heroin and amphetamine T401 T436 Π MOD Α Accident Code I(a) to nature of injury for Poisoning NOS, T659 as indexed. Code external cause to X44 since the drugs are classified to different external cause codes. 29. Place T405 &Y12 T406 T510 I (a) Mixed drug poisoning (cocaine, Y15 (b) opiate, ethanol) 9 MOD (c) C II Consumed ethanol with illicit drugs F109 T509 Undetermined Interpret I(a) as poisoning and code nature of injury and external cause for cocaine, opiate and ethanol. Precede the external cause for the drugs with an ampersand. In Part II, code consumed ethanol as indexed under Consumption, ethanol and code the nature of injury for drug.

I620

Α

II

Accident

9 (b) Anticoagulation Y442 (c) Arrhythmia &I499 II Amiodarone lung toxicity T462 &X44 Code I(a) as nontraumatic. Code the E-code for drug therapy on I(b). Code I(c) as indexed and precede with an ampersand to identify the reason for treatment. Code Part II as poisoning since toxicity (of a site) by a drug is one of the terms that is interpreted as poisoning. 31. I (a) Cardiac Arrest I469 (b) Bleeding &R5800 (c) Over coumadinization Y442 MOD Ν Natural Code I(a) as indexed. Code the bleeding as a complication of the drug reported on I(c). Drug, medicament or biological substance is assumed to be used for medical care unless there are indications to the contrary. 32. Place I (a) Combined opiate and stimulant poisoning T406 &X44 T509 9 (b) Usage of hydrocodone and cocaine F119 F149 Π MOD T406 T509 Α Used lethal combination of opiates and stimulant Accident drugs Code I(a) nature of injury and external cause for opiate and stimulant poisoning. Since the drugs are assigned to different external cause codes, code X44. Code I(b) as indexed applying intent of certifier instructions for use of drugs. Refer to Table of drugs and chemicals to find hydrocodone, T402. In Volume 1, the title of category T402 is "Other opioids". Code hydrocodone use to Addiction, opioids, with fourth character .9, F119. In Part II, code the nature of injury for opiates and stimulant drugs, since "Lethal (amount) (dose) (quantity) of a drug" is interpreted to mean poisoning. 33. Place I (a) Combined analgesic and antihistaminic T398 &X44 T450 T432 9 antidepressant poisoning (b) Usage of fentanyl promethazine doxylamine MOD F199

Code I(a) nature of injury and external cause for analgesic, antihistaminic and

Used combination of prescription drugs

F199

antidepressant poisoning. Since the drugs are assigned to different external cause codes, code X44. Code I(b) and Part II as indexed applying intent of certifier instructions for use of drugs.

34. Place

9

(a) Combined ethanol and methadone intoxication

T510 X45 T403 &X42

II Toxic use of drug and ethanol

T509 T510

<u>Interpret</u> I(a) as poisoning and code nature of injury and external cause code for ethanol and methadone. Precede the external cause code for the methadone poisoning with an ampersand. Interpret Part II as poisoning and code nature of injury for drug and ethanol.
