

Worktable Orig250R: Deaths rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population and sex: United States, 2002

[Rates per 100,000 in specified group. Rates based on populations estimated as of July 1, 2002. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1997 Office of Management and Budget guidelines. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2002"]

Worktable Orig250R. Deaths rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population and sex: United States, 2002

[Rates per 100,000 in specified group. Rates based on populations estimated as of July 1, 2002. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1997 Office of Management and Budget guidelines. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2002".]

Worktable Orig250R: Deaths rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population and sex: United States, 2002

[Rates per 100,000 in specified group. Rates based on populations estimated as of July 1, 2002. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1997 Office of Management and Budget guidelines. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2002"]

Worktable Orig250R. Deaths rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population and sex: United States, 2002

[Rates per 100,000 in specified group. Rates based on populations estimated as of July 1, 2002. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1997 Office of Management and Budget guidelines. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2002"]

Worktable Orig250R. Deaths rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population and sex: United States, 2002

[Rates per 100,000 in specified group. Rates based on populations estimated as of July 1, 2002. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1997 Office of Management and Budget guidelines. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2002".]

Worktable Orig250R. Deaths rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population and sex: United States, 2002

[Rates per 100,000 in specified group. Rates based on populations estimated as of July 1, 2002. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1997 Office of Management and Budget guidelines. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2002".]

Worktable Orig250R. Deaths rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population and sex: United States, 2002

[Rates per 100,000 in specified group. Rates based on populations estimated as of July 1, 2002. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1997 Office of Management and Budget guidelines. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2002".]

Worktable Orig250R. Deaths rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population and sex: United States, 2002

[Rates per 100,000 in specified group. Rates based on populations estimated as of July 1, 2002. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1997 Office of Management and Budget guidelines. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2002"]

Worktable Orig250R: Deaths rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population and sex: United States, 2002

[Rates per 100,000 in specified group. Rates based on populations estimated as of July 1, 2002. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1997 Office of Management and Budget guidelines. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2002"]

Worktable Orig250R. Deaths rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population and sex: United States, 2002

[Rates per 100,000 in specified group. Rates based on populations estimated as of July 1, 2002. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1997 Office of Management and Budget guidelines. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2002"]

Worktable Orig250R. Deaths rates for 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population and sex: United States, 2002

[Rates per 100,000 in specified group. Rates based on populations estimated as of July 1, 2002. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1997 Office of Management and Budget guidelines. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2002".]
