^{---/}Data not available.

NOTE: Data include revisions and, therefore, may differ from data previously published in these reports and other publications.

^{.../}Category not applicable.

a/Baseline has been revised.

p/Preliminary data.

^{1/1989} data.

^{2/}Includes married men and women aged 15 and older. Data include deaths from legal intervention (E970-E978) in addition to E960-E969 and are not comparable to other data for this objective.

^{3/}Excludes data from States lacking Hispanic-origin item on their death certificates or for which Hispanic-origin data were not of sufficient quality. See appendix.

^{4/}Rates were computed using the Endangerment Standard.

^{5/}Rate includes both physically and emotionally neglected children.

^{6/}The victimization survey was redesigned in 1992. The revised questions elicit higher rates for rape, other sex offenses and crimes committed by relatives and acquaintances.

^{7/ 1998} data.

^{8/}In 1994, 37.4% reported having a firearm in or around the home; in 1998, this number decreased to 35%.

^{9/}Number includes State teams in 38 States and the District of Columbia, and 9 additional States where county/local teams serve the majority of the population at risk.
