

## Average Age and Number 65 and older of Current Nursing Home Residents with Length of Stay over 100 days, 2020.

This table shows the average age and number 65 and older of current nursing home residents with a length of stay over 100 days in 2020. The data are derived from Centers for Medicare and Medicaid Services, Minimum Data Set (MDS) Active Resident Table, and estimates represent all current residents in the MDS file as of the end of the fourth quarter of 2020. Length of stay in days is based on the date of admission or reentry to nursing home and the date of MDS assessment.

Table. Average Age and Number 65 and older of Current Nursing Home Residents with Length of Stay over 100 days, 2020.

	Length of stay over 100 days
