 MISCARRIAGE/ABORTION

In a survey about childbearing and women's health, it is important to talk about each pregnancy a woman has had. It is especially important to talk about pregnancies which ended in miscarriage, stillbirth or abortion, and about babies that were placed for adoption. This information is needed to provide adequate family planning and health services for women. So we ask everyone to take the time needed to recall all the facts about each pregnancy she has ever had.
