

MINOR’S PERMISSION FOR INTERVIEW (AGE 15-17)

We are doing a research study called The National Survey of Family Growth. Your parent or guardian says that you may take part. This study is being done for the U.S. National Center for Health Statistics. The University of Michigan does the interviews. The survey has questions on family life, marriage, family planning, sexual experience, pregnancy, health and health care. We also ask your thoughts about these topics. The interviewer will only ask questions that apply to you. The information will be used to help improve health services and health education programs for teens and adults. The interview lasts about 60 minutes. Answers will be put into a laptop computer.

You will be part of a sample that represents the teenagers in the U.S. Your help is very important because you represent thousands of others. To thank you for your help in this study, we will give you \$40.

By Federal law, the answers you give are confidential and we will take all possible steps to protect your privacy. We will not share them with your parents or other family members. They will be used for statistical research only. To keep the answers private we will do the interview in private. This brochure answers questions people sometimes ask about the study.

It’s your choice to do the interview or not. Saying yes or no to being in the survey will not change any benefits you get now or ever. For most people, the survey is interesting and enjoyable. Some of the questions in the interview may be sensitive for some people. You do not have to answer any questions you do not want to answer. You can stop at any time.
