KA-0a.

For this last part of the interview, I'll turn the computer over to you so that you can enter your answers yourself. We have these headphones so that you can listen to the questions in privacy, and you can also read the questions on the computer screen. I will not be able to hear the questions or see the answers you type into the computer. After I explain a few of the keys that you'll be using, I'll help you with the first few practice questions, just to get you started. Then I'll leave you on your own to answer the rest of the questions in privacy.

When you are done with this section, a screen will come up that will tell you how to lock away your responses so that no one can see how you answered the questions. Then you can return the computer to me.

♦ ENTER [1] to continue.

**INTRO\_K1b**

**KA-0b.**  Interviewer Checkpoint

♦ Explain the following things to R:

Connect the headphones to the laptop.  
Give the computer to Respondent.  
Show Respondent where to find number keys, [Enter], [Backspace], [F11], [F12], and Hyphen keys.

Show Respondent the Aid Card.  
Explain how to adjust the volume.

Explain that you will be doing an unrelated task while Respondent completes Audio CASI, but Respondent should feel free to interrupt with questions.

The next screen is for the Respondent.
