

Long-Term Care Providers and Services Users in the United States, Adult Day Services Center Component: National Study of Long-Term Care Providers, 2013–2014

Weighted National Estimates and Standard Errors

The enclosed document provides the weighted estimates and associated standard errors for selected variables from the adult day services center (ADSC) component of the 2013-2014 National Study of Long-Term care Providers (NSLTCP). Data from NSLTCP are restricted in order to maintain confidentiality of respondents, and can only be accessed through NCHS's Research Data Center.

Weighted estimates are provided for original variables based directly on the survey response categories as well as derived or new variables that are adaptations of the survey responses. While most of the estimates are at the adult day services center level, in order to make the data more useful, we have converted adult day services center-level variables to participant-level measures wherever applicable. For instance, the MEDPAID variable on page 2 is used to provide the following set of measures:

1. Percent of adult day services centers, by percent of participants who had some or all of their long-term care services paid by Medicaid in the last 30 days. This adult day services center-level measure was obtained directly from question...
“During the last 30 days, for how many of the participants currently enrolled at this adult day services center, did Medicaid pay for some or all of their services received at this center?”
2. Total number of participants who had some or all of their long-term care services paid by Medicaid in the last 30 days. This participant-level measure was derived by adding the total number of participants who had some or all of their long-term care services paid by Medicaid in the last 30 days.
3. Percent of current participants across all adult day services centers who had some or all of their long-term care services paid by Medicaid in the last 30 days. This participant-level measure is derived as a ratio of the total number

of participants using Medicaid to pay for services to the total number of participants across all adult day services centers.

All measures are coded as “-1” if they follow a skip pattern in the questionnaire and are therefore legitimately skipped. The 2014 ADSC questionnaire can be accessed at: https://www.cdc.gov/nchs/data/nsltcp/2014_nsltcp_adult_day_services_center_questionnaire.pdf

For the majority of measures, a separate category coded as “-9” indicates data not ascertained or missing data; the only exception being ratios, where the missing cases are not included in the calculations.

Information about the design and methodology of the 2014 NSLTCP in general, and the ADSC component in particular, can be accessed at: https://www.cdc.gov/nchs/data/nsltcp/nsltcp_2014_survey_methodology_and_documentation.pdf

2014 NSLTCP Weighted Survey Estimates: Adult Day Services Centers

QUESTION NUMBER	VARIABLE NAME	SURVEY QUESTION TEXT	DATA MEASURE	CODE CATEGORIES	WEIGHTED PERCENTAGES**	STANDARD ERRORS	CENTERS ASKED/ RECODED	ADDITIONAL NOTES
1a	LICENSED	Is this adult day services center licensed or certified by the state specifically to provide adult day services? ___ Yes ___ No	Percent of adult day services centers, by whether or not the center is licensed or certified by the state specifically to provide adult day services	-9 = Not ascertained	0.0	0.00	All	
				1 = YES	94.9	0.23		
				2 = NO	5.1	0.23		
1b	MEDICAID	Is this adult day services center authorized or otherwise set up to participate in Medicaid? ___ Yes ___ No	Percent of adult day services centers, by Medicaid participation status	-9 = Not ascertained	0.1	0.04	All	
				1 = YES	73.4	0.49		
				2 = NO	26.6	0.49		
2	AVGPART	Based on a typical week, what is the approximate average daily attendance at this adult day services center at this location? If none, enter "0." ___ Average daily attendance of participants	Percent of adult day services centers, by participant-size categories (average number of participants at the center)	1 = 1-25 participants	46.6	0.56	All	Missing values were imputed. Collected as a continuous variable; recoded the variable to provide estimates in categories.
				2 = 26 - 100 participants	47.4	0.59		
				3 = >100 participants	6.0	0.30		
				Total average number of participants in adult day services centers	187226	2076		
3	TOTPART	What is the total number of participants currently enrolled at this adult day services center at this location? If none, enter "0." ___ Number of participants	Percent of adult day services centers, by participant-size categories (total number of participants currently enrolled at the center)	1 = 1-25 participants	29.4	0.53	All	Missing values were imputed. Collected as a continuous variable; recoded the variable to provide estimates in categories.
				2 = 26 - 100 participants	54.8	0.62		
				3 = >100 participants	15.8	0.45		
				Total number of currently enrolled participants in adult day services centers	282168	3325		

** Because of rounding, weighted percentages may not add to 100%.

<p>Employee is defined as anyone for whom the adult day services center is required to issue a Form W-2. Contract staff are defined as other individuals or organization staff under contract with and working at this adult day services center. Please see questionnaire for staffing table and what questions were asked about staffing. Data collected on full-time and part-time employees and contract staff were converted to full-time equivalents (FTEs), where 1 part-time person equals 0.5 FTE.</p>								
14a-a (DERIVED)	ANYRN_EMP	For each category of staff listed below, please indicate the number of staff that currently work at this adult day services center full-time and part-time. Please include: • both full-time and part-time adult day services center employees, and • other individuals or organization staff under contract with and working at this adult day services center full-time and part-time Adult day services center employees: Registered nurses (RNs)	Percent of adult day services centers, by whether or not they have one or more RN employee FTEs	-9 = Not ascertained	3.1	0.23	All	Recoded missing as "0" unless responses to all four response boxes for a given staff type were blank or missing (e.g., the number of full-time RN employees, the number of part-time RN employees, the number of full-time RN contract staff, the number of part-time RN contract staff). Otherwise, kept as missing (-9). Collected as continuous variable; recoded the variable to provide estimates in categories.
