

Hemovigilance Module: Linking incident records to adverse reactions

Incidents associated with a reported adverse reaction must be entered into the Hemovigilance Module. Use the 'Link/Unlink to Incidents' button on the adverse reaction form to complete this required step.

1

On the **Add Incident** screen, enter the Patient ID of the patient who experienced an adverse reaction.

Add Incident

* Incident result: 1 - Product transfused; reaction

* Product action: (check all that apply):

- Not applicable
- Product retrieved and returned to inventory
- Product retrieved and destroyed
- Product issued but not transfused
- Product transfused

* Was a patient reaction associated with this incident? Y - Yes

Patients

* Patient ID

A1234

2

On the **Add Adverse Reaction** screen, enter the Patient ID.

Add Adverse Reaction

Patient Information

Facility ID *: Koo's Test Hospital (ID 24976)

Patient ID *: A1234 Find Find Reactions for Patient

Secondary ID:

Reaction Details

* Date reaction occurred: 01/06/2016

* Time reaction occurred: 08:00 (HH:MM) Time unknown

* Facility location where patient was transfused: ER - EMERGENCY DEPARTMENT

Link/Unlink To Incidents Reaction is not Linked

3

Click the Link/Unlink to Incidents button to link the adverse reaction to the incident.

Hemovigilance Module: Linking incident records to adverse reactions

4

On the **Incident Link List** screen, check all the Incident records that are associated with the adverse reaction and click the **Link/Unlink** button.

Check all that apply	Incident #	Patient ID	Date incident occurred	Where in the process the incident first occurred	Incident code
<input checked="" type="checkbox"/>	12715	A1234	08/01/2014	UT	UT 02

OK Link/Unlink

5

On the **Add Adverse Reaction** screen, 'Reaction is Linked' will appear next to the **Link/Unlink To Incidents** button.

Reaction Details

* Date reaction occurred: 01/06/2016

* Time reaction occurred: 08 : 00 (HH:MM) Time unknown

* Facility location where patient was transfused: ER - EMERGENCY DEPARTMENT

Link/Unlink To Incidents **Reaction is Linked**

Important Tips

- The Incident record must be entered before it can be linked to the Adverse Reaction Form.
- The Patient ID must be the same on both the Incident and Adverse Reaction form.
