How to Deactivate NHSN Users	3

Recommendations and Requirements to Manage NHSN Users

1. **Get access to NHSN!**

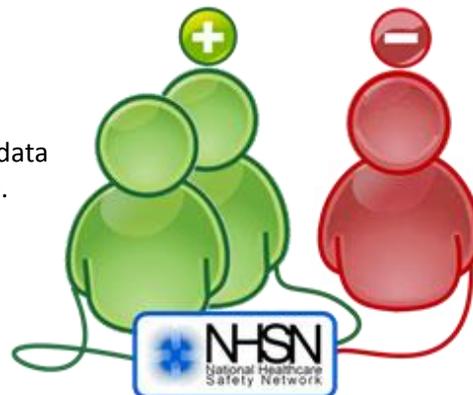

At least one staff member at the facility is required to be trained in and knowledgeable of how to report dialysis event data to NHSN. This is required regardless of whether electronic (clinical document architecture [CDA]) or manual methods are used to submit data. If your corporate organization reports on your facility's behalf, someone at the facility is still expected to review and verify what has been reported is complete and correct. Get access so you can easily review your data, run reports, and make corrections.

2. **Have a backup user!**

We recommend every facility have at least two users with administrative rights in NHSN. Not only does this simplify issues related to staff turnover, it helps to ensure someone can report data to meet reporting deadlines if the primary NHSN user is on leave.

3. **Control who has access to your confidential data!**

Once a user no longer requires NHSN access (e.g., he or she no longer works for the facility), deactivate his or her user profile immediately.

How to Add a New User in NHSN

To add an NHSN user, you must have administrator rights.

1. Log in to your NHSN facility.
2. On the navigation menu to the left of the screen, click "**Users,**" and then click "**Add.**"
3. On the **Add User** screen, complete the required fields marked by an asterisk (*):
 - Create a unique User ID with any combination of 32 letters and/or numbers. This User ID is not used to access NHSN.
 - Enter her work email address. *Important: the user must use the same email address for SAMS registration.*
4. When all required fields are complete, click the "**Save**" button.
 - An invitation to CDC's Secure Access Management Services [SAMS] is automatically sent to the email address provided when the new user profile is saved.

Troubleshooting:

If the new user does not receive an email with further instructions, please check the following:

- The user's email address submitted to NHSN is correct.
- The message is not in his or her "junk" folder.
- Emails from NHSN and CDC are permitted by the organization's spam filters.

How to Deactivate an Existing NHSN User

To deactivate an NHSN user, you must have administrator rights.

1. Log in to your NHSN facility.
2. On the navigation menu to the left of the screen, click "Users," and then click "Find."
3. On the **Find User** screen, click the "Find" button. (Search criteria are not required).

How to Deactivate an Existing NHSN User (continued)

5. Once deactivated, a confirmation message will display in the upper left corner of the screen:

The screenshot shows the NHSN interface. At the top, the CDC logo and "Department of Health and Human Services, Centers for Disease Control and Prevention" are visible. Below that, the NHSN logo and "National Healthcare Safety Network" are displayed. A navigation bar includes "NHSN Home", "My Info", "Contact us", "Help", and "Log Out". On the left, a sidebar menu lists various options like "Alerts", "Reporting Plan", "Patient", "Event", "Summary Data", "Import/Export", "Analysis", "Surveys", "Users", "Facility", "Group", and "Log Out". A confirmation message "User (ID 2059) deactivated successfully." is displayed in the upper left corner, circled in red. The main content area is titled "Users List" and features a table with columns for "Deactivate", "Name", "User ID", "User Type", and "Active". The table lists four users: Baker, Bob; Lee, Yong; Queue, Suzie; and Smith, Jane. The "Active" status for "Queue, Suzie" is "N", which is circled in red. Below the table are "Add" and "Back" buttons.

Deactivate	Name	User ID	User Type	Active
<input type="checkbox"/>	Baker, Bob	BBAKER	DIAL - Dialysis Nurse/Professional	Y
<input type="checkbox"/>	Lee, Yong	YLEE	DIAL - Dialysis Nurse/Professional	Y
<input checked="" type="checkbox"/>	Queue, Suzie	SQUEUE	DIAL - Dialysis Nurse/Professional	N
<input type="checkbox"/>	Smith, Jane	JSMITH	DIAL - Dialysis Nurse/Professional	Y

NOTE: After deactivating the user, their name and information will remain on the user list; however, their "Active" status (far right column) will change from 'Y' (Yes) to 'N' (No).

Questions about NHSN? Contact us at nhsn@cdc.gov with "Dialysis" in the subject line and we will respond to your inquiry within 5 business days.
