

Instructions for Completion of the Person-Level COVID-19 Vaccination Form for the Healthcare Personnel Safety (HPS) Component

The optional Person-Level Vaccination Form for Healthcare Personnel (HCP) was developed to assist facilities with managing and tracking person-level vaccination data directly in NHSN. This allows the application to automatically calculate and submit the weekly summary totals to the main NHSN Weekly HCP COVID-19 Vaccination Module. Users update the person-level data with any changes to an individual's vaccination status over time, click 'View Reporting Summary and Submit' to review the totals and submit their weekly data to the Weekly HCP COVID-19 Vaccination Module. We recommend that all facilities that report COVID-19 Vaccination data in the HPS component use the Person-Level COVID-19 Vaccination Form to ensure accurate reporting of summary data. Learn more here: Healthcare Personnel Safety Component (HPS) Person-Level COVID-19 Vaccination Form How-To Guide June 2024 508 (cdc.gov)

Please note if you plan to submit person-level data via .CSV file upload, you can refer to the latest variable description and file layout documents. You can find these at the following webpage: HPS | Weekly HCP COVID-19 Vaccination | NHSN | CDC

Instructions for Completion
Required.
Enter a unique identifier for the healthcare worker, assigned by your facility. This can be any combination of letters and numbers. This identifier is designated by your facility, not NHSN. You can directly enter the identifier, or you can click the Find button and select a healthcare worker from the list of healthcare workers who have previously had data submitted in NHSN via other Person-Level Forms (e.g., Point of Care Testing (POC) Tool). Ensure that you are using the same identifier used for entering the healthcare worker into other Person-level modules or pathways within the HPS Component, as applicable.
Avoid:
Using Date of Birth or room number as an identifier, as these can
be shared by more than one individual and may result in duplicate IDs.

Data Fields	Instructions for Completion
	Starting the identifier with a 0 (zero). If you import data from a
	CSV file, the CSV drops the leading 0, and this changes the ID.
HCP First Name	Required.
	Enter the healthcare worker's first name.
HCP Last Name	Required.
	Enter the healthcare worker's last name.
Sex	Required.
	Select the sex from the drop-down box:
	- F (Female)
	- M (Male)
Date of Birth	Required.
	Enter the healthcare worker's date of birth in the MM/DD/YYYY
	format.
Ethnicity	Required.
	Select the healthcare worker's ethnicity from the drop-down box:
	- Hispanic or Latino
	- Not Hispanic or Not Latino
	- Declined to respond
	- Unknown
Race	Required.
	Select the healthcare worker's racial group(s) from the drop-down box:
	- American Indian/Alaska Native
	- Asian
	- Black or African American
	- Native Hawaiian/Other Pacific Islander
	- White
	- Middle Eastern or North African
	- Declined to respond
	- Unknown
	Note: Multiple races can be selected from the drop-down box except when selecting 'Declined to Respond' or 'Unknown.'
HCP Start of Employment Date	Required. Enter the date the healthcare worker began working at the
	facility.

Data Fields	Instructions for Completion
HCP End of Employment Date	Conditionally required.
	Enter the date the healthcare worker last worked at the facility.
	Note: If a healthcare worker leaves the facility for any reason for longer than 2 weeks (14 days) and then returns after more than 2 weeks, enter an end of employment date on the day they last worked at the facility. When they return to work in the facility, duplicate their row (using the + button next to their row) and enter a new start of employment date on their new row. This new start of employment date must be at least 2 weeks after the original row's end of the employment date.
Vaccination location type	Required.
	Select the location(s) within a facility where the healthcare worker regularly works in at least weekly from the drop-down box: - Hospital - IPF Unit(s) - IRF Unit(s)
	Note: Multiple vaccination location types can be selected for a healthcare worker. The IPF Unit and IRF Unit options can only be selected and saved if there is an IPF or IRF unit with a unique CCN that is mapped as a location within the facility.
HCP Category	Required.
	Select the appropriate HCP category for the healthcare worker from the drop-down box: - Employees (staff on facility payroll) - Licensed independent practitioners: (contracted physicians, advanced practice nurses, & physician assistants) - Adult students/trainees & volunteers - Other Contract Personnel
	Please refer to the COVID-19 Vaccination Staff TOI Dec 2023 (cdc.gov)

Data Fields	Instructions for Completion
Medical contraindication date	Conditionally required.
	A row must contain AT LEAST ONE status, as an individual can have
	more than one status entered since their vaccination status can change
	over time. At a minimum, a row must have data entered for at least one
	of the main categories:
	- Dose 1
	- Contraindication
	- Declination
	- Unknown/other vaccination status
	Enter the date the medical contraindication was noted for the
	healthcare worker.
	Medical contraindications include history of a severe allergic reaction
	(e.g., anaphylaxis) after a previous dose or to a component of the
	COVID-19 vaccine, and history of a known diagnosed allergy to a
	component of the COVID-19 vaccine. Please see the most up-to-date
	list of contraindications here: https://www.cdc.gov/vaccines/covid-10/
	19/clinical-considerations/interim-considerations-
	us.html#contraindications
	For the purpose of NHSN COVID-19 vaccination surveillance,
	philosophical, religious, or other reasons for declining COVID-19
	vaccine not listed in the Interim Clinical Considerations for Use of
	COVID-19 Vaccines Currently Approved or Authorized in the United
	States as a contraindication are not considered medical
	contraindications for COVID-19 vaccination and should be reported in
	the 'Declination reason' column instead.
	Note: In the Person-Level Vaccination Forms, if a healthcare worker
	received a monovalent dose of COVID-19 vaccine and had a severe
	allergic reaction to this dose, and as a result cannot receive another
	COVID-19 vaccine dose, the individual will be classified in the weekly
	summary counts as a medical contraindication. If a healthcare worker
	had a medical contraindication after receiving an 2023-2024 Updated
	COVID-19 Vaccine, they will be counted in the up to date category (i.e.,
	not in the medical contraindication category). Users should enter both the dose 1 date and the medical contraindication date.
