COVID-19 Vaccine Task Force

September 2021

cdc.gov/coronavirus

Objectives

- Introduce the value of reporting weekly COVID-19 vaccination data for long-term care (LTC) facilities.
- Describe how the National Healthcare Safety Network (NHSN) module can be used to report COVID-19 vaccination.
- Highlight changes to weekly COVID-19 vaccination reporting as of September 2021.
- Review data reporting in detail.

How can COVID-19 vaccination coverage data be used?

Usefulness of Reporting Cumulative Vaccination Coverage in NHSN

- Provide consistent and comparable data for facilities
 - Vaccination coverage may change as new residents arrive and new staff are hired
 - Help focus facility-level tracking and improvement efforts
- Deliver data to health authorities
 - Help identify vaccination coverage gaps and vaccine supply issues
 - Improve infection control policies and recommendations

Which data can be reported each week?

Question #2: Example

* Cumulative number of individuals in Question #1 who have received a COVID-19 vaccine since December 2020

- Vaccination data collected:
 - Last month, 20 individuals received dose 1 of the Pfizer-BioNTech vaccine
 - This week, 2 of these 20 individuals receive dose 2 of the Pfizer-BioNTech vaccine
- NHSN reporting for this week:
 - **18** individuals would still be reported as receiving only dose 1 of Pfizer-BioNTech vaccine
 - **2** individuals who have now received dose 2 of Pfizer-BioNTech vaccine would be reported as receiving dose 1 and dose 2 of a vaccine series

PFIZBION - Pfizer-BioNTech COVID-19 vaccine ▼	
2.1 * Only dose 1 of Pfizer-BioNTech COVID-19 vaccine	18
2.2 * Dose 1 and dose 2 of Pfizer-BioNTech COVID-19 vaccine	2

- Include individuals who have not received **any** COVID-19 vaccine due to one of the following medical contraindications:
 - Severe allergic reaction (e.g., anaphylaxis) after a previous dose or to a component of the COVID-19 vaccine
 - Immediate allergic reaction of any severity to a previous dose or known (diagnosed) allergy to a component of the vaccine

Question #3.2 & 3.3: Same Questions for Residents and HCP

*Cumulative number of individuals in Question #1 who declined vaccine (3.2) & have unknown vaccine status (3.3)

- Philosophical, religious, or other reasons for declining COVID-19 vaccine not listed in the [Interim Clinical Considerations for Use of COVID-19 Vaccines Currently Approved or Authorized in the United States](#) are **not** considered medical contraindications for COVID-19 vaccination.
- Use “Unknown COVID-19 vaccination status” for reporting individuals without documentation of vaccination
- Questions 3.1 – 3.3 are required ☆

Question #2 & Question #3: Same Questions for Residents and HCP

- All individuals included  in question 1 **must** be accounted for in question 2 or question 3
- This means, the sum of  values entered for question 2 (2.1 – 2.99) and question 3 (3.1 – 3.3) **must equal** the total number of individuals entered in question 1

Question #4: Same Question for Residents and HCP

*Cumulative number of individuals in question #2 eligible to receive an additional dose or booster of a COVID-19 vaccine

- Fully vaccinated: having completed an initial vaccine series
- Additional dose or booster: COVID-19 vaccine received ≥ 2 weeks *after* completion of an initial vaccine series
 - **Additional dose** refers to an additional dose of vaccine administered when the immune response following a primary vaccine series is likely to be insufficient
 - **Booster dose** refers to an additional dose of vaccine administered when the initial sufficient immune response to a primary vaccine series is likely to have waned over time
- Please refer to the [Interim Clinical Considerations for Use of COVID-19 Vaccines | CDC](#) to determine individuals who are eligible to receive an additional dose or booster after receiving a complete vaccine series

Question #4: Same Question for Residents and HCP (cont.)

*Cumulative number of individuals in question #2 eligible to receive an additional dose or booster of a COVID-19 vaccine

- Include the following individuals as eligible to receive an **additional dose**:
 - Received an initial complete 2-dose mRNA COVID-19 vaccine series at this facility or elsewhere since December 2020 (question 2); **AND**
 - Eligible to receive an additional or booster dose of the COVID-19 vaccine, per CDC guidance noted above
- Facilities are encouraged to do their best when determining individuals who are eligible for an additional dose
 - For HCP, facilities may not have access to the medical information necessary to determine eligibility for additional doses. In this scenario facilities should report any HCP who received an additional dose (question 5) as eligible to receive an additional dose in question 4.

Question #5: Same Questions for Resident and HCP

*Cumulative number of individuals in question #4 who have received an additional dose or booster of a COVID-19 vaccine at this facility or elsewhere since August 2021

- Each week, report all individuals in question 4 (who are eligible to have received an additional dose or booster) who have ever received an additional dose or booster since August 2021
- Include receipt of additional dose or booster at the facility or elsewhere
- *Example:*
 - *Week 1: 5 individuals received an additional dose or booster of a COVID-19 vaccine*
 - *Week 2: 3 more individuals received an additional or booster of a COVID-19 vaccine*
 - *For Week 1: Report 5 individuals received an additional dose or booster*
 - *For Week 2: Report 8 individuals received an additional dose or booster*

■ **Step 1:** Select a COVID-19 vaccine from the drop-down box

- *Pfizer-BioNTech*
- *Moderna*
- *Janssen*
- *Unspecified manufacturer*

A screenshot of a dropdown menu with a downward arrow in the top right corner. The menu is open, showing four options:

- PFIZBION3 - Additional dose or booster of Pfizer-BioNTech COVID-19 vaccine

Question #5: Same Questions for Resident and HCP (cont.)

* Cumulative number of individuals in question #4 who have received an additional dose or booster of a COVID-19 vaccine at this facility or elsewhere since August 2021

- **Step 3:** If residents or HCP received an additional dose or booster of another type of vaccine, repeat steps 1-2

NHSN automatically calculates total number of individuals who received an additional dose or booster.

5. * <u>Cumulative</u> number of residents in Question #4 who have received an additional dose or booster of COVID-19 vaccine at this facility or elsewhere since 07/19/2021:	
<input type="text" value=""/>

Questions #4 & #5: Same Questions for Residents and HCP

- If no individuals are eligible to receive an additional dose or booster of COVID-19 vaccine, report zero individuals for question 4 and question 5
 - Questions 4 and 5 are required fields
 - Enter zero (“0”) question #4
 - Enter zero (“0”) for question #5 (select any manufacturer from the dropdown)
- If a facility does not have any individuals who received an additional dose or booster of COVID-19 vaccine
 - Select any manufacturer from the dropdown
 - Enter zero (“0”) for question #5
- Only individuals who have received an additional dose or booster should be reported in question 5

Questions #4 & #5: Examples

- **Example 1:** Facility A cannot determine if an individual is eligible for an additional dose at this time because they do not know the individual's health status to determine if they are moderately to severely immunocompromised.
 - The individual should not be reported in question 4 or question 5.
- **Example 2:** Facility B has a staff member who only received dose 1 of the Moderna COVID-19 vaccine. However, this staff member expressed an interest in receiving an additional dose of the vaccine.
 - The staff member should not be included in questions 4 and 5 since he/she did not complete an initial COVID-19 vaccination series.

Questions #4 & #5: Examples (cont.)

- **Example 3:** Facility C is not aware or unable to determine whether any staff members currently meet the eligibility criteria for receiving an additional dose or booster. However, two staff members have documentation of receiving an additional dose.
 - For reporting through the NHSN COVID-19 vaccination modules, assume these two staff members were eligible to have received an additional dose of COVID-19 vaccine and include these two staff members in question 4 and question 5 of the data collection form.

Question #6: Same Question for Residents and HCP

* Describe the availability of COVID-19 vaccine(s)

- Question 6.1: Is your facility a vaccine provider? [Yes/No]
 - Only facilities enrolled as vaccine providers can legally store, handle, and administer COVID-19 vaccine in the United States.

- Question 6.2: If a vaccine provider, is vaccine supply sufficient this week?
- Question 6.3: If not a vaccine provider, are other arrangements sufficient?
- Question 6.4: Free text description of vaccine supply issues (optional)

Reminder: Vaccine Adverse Event Reporting System (VAERS)

- Adverse events should be reported to VAERS:
vaers.hhs.gov/reportevent.html
- To help identify reports from NHSN sites, please enter your NHSN orgID in Box 26 of the VAERS form
- Report clinically significant COVID-19 vaccine adverse events
 - Serious adverse events (such as death, life-threatening conditions, or inpatient hospitalization) that occur after vaccination, even if it is not certain that vaccination caused the event
 - Vaccine administration errors
 - Other clinically significant adverse events may be described in fact sheets for provider emergency use authorization or prescribing information

Resource: The NHSN Website

The screenshot displays the NHSN website interface. On the left is a navigation menu with items like 'NHSN Login', 'About NHSN', 'Enroll Here', and 'Materials for Enrolled Facilities'. The main content area is titled 'Long-term Care Facilities (LTCF)'. It contains three paragraphs of text: the first describes the system's purpose for tracking infections and prevention; the second explains how tracking data is used to identify problems and improve care; the third lists eligible facility types (nursing homes, skilled nursing, etc.) and notes that LTACHs are not eligible. To the right of the text is a photograph of three healthcare professionals (two women and one man) smiling in a clinical setting.

Long-term Care Facilities (LTCF)

The NHSN, Long-term Care Facility (LTCF) Component provides long-term care facilities with a customized system to track infections and prevention process measures in a systematic way.

Tracking this information allows facilities to identify problems, improve care, and determine progress toward national healthcare-associated infection goals.

Facilities eligible to report into all modules of this component include nursing homes, skilled nursing, chronic care, and developmental disability facilities. Assisted living facilities can only report into the prevention process measures module.

Long-term acute care hospitals (LTACHs) are not eligible to report into this component.
