Greetings Long-term Care Facility Users,

The NHSN has been made aware of an issue affecting data entry for Urinary Tract Infection (UTI) event reporting. Specifically, the event page will NOT save when “YES” is selected for the question “*Has resident been transferred from an acute care facility to your facility in the past 4 weeks?*”. Until the issue is resolved, LTCF users are encouraged to refrain from submitting UTI event data into the NHSN. Please refer to the paper version of the LTCF **UTI event form** to capture the data for later submission into the NHSN. We are currently working on this matter and anticipate a resolution in mid-June. Users will be notified when it’s resolved.

We appreciate your patience regarding this issue. If you have questions, please contact us at nhsn@cdc.gov and include “LTCF” in the subject line.

Sincerely,

The NHSN LTCF Team
