

NHSN MDRO and CDI LabID Event

WB4583

PROGRAM DESCRIPTION: The training activity is designed to educate healthcare personnel on how to measure, validate, interpret, and respond to data relevant to healthcare-associated infections, specifically MDRO and CDI LabID Events. The participant will then be able to present data to the staff, initiate process improvements at the facility level, and positively impact healthcare practices. This learning opportunity will enhance the knowledge and skills of the users in order to decrease healthcare-associated infections, improve patient safety, and enhance patient outcomes.

OBJECTIVES:

At the conclusion of the session, the participant will be able to:

1. Describe the scope of the problem of Multidrug Resistant Organism (MDRO) and Clostridioides difficile (CDI) LabID events
2. Outline the structure and methodology of the MDRO and CDI Module of NHSN
3. Define key terms and definitions used in data collection and reporting MDRO and CDI LabID Events
4. Identify the protocol for collecting MDRO and CDI data under the LabID Event Reporting Option
5. Explain the correct method for entering denominator data for FacWideIN LabID Event Reporting
6. Describe how MDRO and CDI LabID Event data can be used for performance improvement and patient safety
7. Describe the importance of interprofessional collaboration in healthcare-associated infection surveillance and reporting

FACULTY/ CREDENTIALS:

Denise Leaptrot, MSA, SM/MT(ASCP), CIC, Epidemiologist/Infection Prevention Consultant, CACI, subcontractor to Leidos, Centers for Disease Control and Prevention OIG/NCEZID/DHQP/SB

Emily Witt, MPH, Public Health Analyst, CACI, subcontractor to Leidos, Centers for Disease Control and Prevention OIG/NCEZID/DHQP/SB

ORIGINATION DATE: May 26, 2022
EXPIRATION DATE: May 26, 2024
