

Advisory Board on Radiation and Worker Health
KCP Work Group
June 10, 2014
9:00 a.m. Eastern Time

Cincinnati Airport Marriott, 2395 Progress Dr. Hebron, KY 41048
Hotel Phone: 859-586-0166

Conference Phone: 1-866-659-0537; Participant Code: 9933701#

AGENDA

Welcome and roll call

Discussion:

Review of SEC Issues Under Consideration (SEC Issues Matrix)

1. Data Completeness
2. Coworker internal dose modelling issues
3. Exposure patterns (chronic vs. acute)
4. Super S Uranium exposure potential
5. Recycled Uranium exposure potential
6. Depleted Uranium exposure potential at select periods
7. Radioactive waste handling/storage/transportation
8. Metal Tritides exposure potential
9. Coworker external dose modeling issues
10. Application of non-penetrating (Beta) dose records
11. Neutron-photon ratio basis
12. Accounting for fading NTA film
13. Magnesium-Thorium alloy operations/exposure potential
14. Adequacy of post-1993 monitoring under 10 CFR § 835
15. Thorium Oxide exposure potential
16. Use of TBD 6000 for Natural Uranium, Thorium, and Thoron
17. D&D (decontamination & decommissioning) period issues
18. Use/adequacy of workplace incidents records
19. Petitioner concerns about unmonitored exposures
20. Tritium exposure potential

Petitioner Comments

Review of Action Items/Scheduling Next WG Meeting
