DISCUSSION

1. Update on current DCAS SEC work and schedule for completion.
2. DCAS explanation of how safe work permits data will be analyzed, statistical metrics for the “success” of this test, and the strengths and limitations of this validation approach (i.e., full discussion of the purpose and the methodology).
3. Does proposed safe work permit analysis satisfy need to validate adequacy and completeness of subcontractor dose data? Are the CTW subcontractors reliably represented in the data to be analyzed?
4. Follow-up questions with respect to data adequacy of CTW primary contractors, CTW subcontractors, and operations workers.
5. Follow-up questions re: Neptunium, Thorium, and Metal Hydrides co-worker models.
6. Follow-up discussion of DCAS/SC&A work priorities.
7. Petitioner comments (optional).
