

## ADVISORY BOARD ON RADIATION AND WORKER HEALTH

1150 Tusculum Ave  
Cincinnati, Ohio 45226  
(513) 533-6825

May 2, 2016

### CHAIRMAN

James M. Melius, M.D., Dr. PH.  
Albany, New York

### MEMBERS

Henry Anderson, M.D.  
Madison, Wisconsin

Josie Beach  
Kennewick, Washington

Bradley P. Clawson  
Rexburg, Idaho

R. William Field, Ph.D.  
Iowa City, Iowa

David Kotelchuck, Ph.D.  
New York, New York

Richard Lemen, Ph.D.  
Canton, Georgia

James E. Lockey, M.D.  
Cincinnati, Ohio

Wanda I. Munn  
Richland, Washington

John W. Poston, Sr., Ph.D.  
College Station, Texas

David B. Richardson, Ph.D.  
Chapel Hill, North Carolina

Genevieve S. Roessler, Ph.D.  
Elysian, Minnesota

Phillip Schofield  
Bosque Farm, New Mexico

Loretta R. Valerio  
Santa Fe, New Mexico

Paul L. Ziemer, Ph.D.  
Lafayette, Indiana

### STAFF

### EXECUTIVE SECRETARY

Theodore M. Katz, MPA  
Atlanta, Georgia

### COMMITTEE MANAGEMENT

Zaida Burgos  
Atlanta, Georgia

The Honorable Sylvia M. Burwell  
Secretary  
Department of Health and Human Services  
200 Independence Avenue, S.W.  
Washington, D.C. 20201

Dear Madam Secretary:

The Advisory Board on Radiation and Worker Health (The Board) has evaluated Special Exposure Cohort (SEC) Petition 00224 concerning workers at the Argonne National Laboratory-West in Scoville, Idaho, under the statutory requirements established by the Energy Employees Occupational Illness Compensation Program Act of 2000 and incorporated into 42 CFR Sec. 83.13.

The Board respectfully recommends that SEC status be accorded to:

“All employees of the Department of Energy, its predecessor agencies, and their contractors and subcontractors who worked at the Argonne National Laboratory-West during the time period from April 10, 1951, through December 31, 1957, for a number of work days aggregating at least 250 work days, occurring either solely under this employment, or in combination with work days within the parameters established for one or more other classes of employees in the Special Exposure Cohort.”

This recommendation is based on the following factors:

- Workers at this facility during the time period in question were involved in operations related to the development of nuclear power technology.
- NIOSH's review of available monitoring data, as well as available process and source term information for this facility, found that NIOSH lacked the sufficient information to allow it to estimate with sufficient accuracy the potential internal and external doses, which employees working at this facility may have been subjected. The Board concurs with this determination.
- NIOSH also determined that health may have been endangered for these Argonne National Laboratory-West employees during the time period in question. The Board also concurs with this determination.

Based on these considerations and the discussion at the March 23 and 24, 2016, Board meeting in Tampa, Florida, the Board recommends that this class be added to the SEC.

Enclosed is the documentation from the Board meeting(s) where this SEC class was discussed. The documentation includes copies of the petition, the NIOSH review thereof, and related materials. If any of these items are unavailable at this time, they will follow shortly.

Sincerely,

[Signature on File]

James M. Melius, M.D., Dr. PH.  
Chairman, ABRWH
