Mr. Larry Elliott  
Office of Compensation Analysis and Support  
National Institute for Occupational Safety and Health  
4676 Columbia Parkway  
Mail Stop C-46  
Cincinnati, OH 45226

Dear Larry:

Libby White asked me to send you the following documents to you.

I am enclosing one copy of the classified portions of the contract that the Atomic Energy Commission (AEC) signed with the Dow Chemical Company for the operation of the Rocky Flats Plant. These portions have now been declassified. These portions consist of copies of modifications 20 through 53 and copies of modifications 87 through 92.

Earlier, [redacted] had asked the Department of Energy's History Office for a copy of a contract that "must exist" between the Rocky Flats Plant and the Dow Madison Plant. The enclosures are part of our response to [redacted] request. We are sending the enclosures because they are a part of what the History Division retrieved in response to his request.

If you have any questions about this, please call either myself (on 301-903-0127) or Libby White (on 202-586-3632).

Sincerely,

A handwritten signature in cursive script that reads "Roger".

Roger M. Anders
