July 5, 2016

SEC Tracking Number: SEC00219

Ms. Rachel Leiton, Director  
Division of Energy Employees Occupational  
Illness Compensation  
U.S. Department of Labor  
200 Constitution Avenue, N.W., Room C-3321  
Washington, District of Columbia 20210

Dear Ms. Leiton:

On behalf of the Secretary of the Department of Health and Human Services (HHS), and as required by 42 C.F.R. § 83.17(d), I am notifying you of the final effect of the HHS decision to designate a class of employees from the Idaho National Laboratory site in Scoville, Idaho, as an addition to the Special Exposure Cohort (SEC) under the Energy Employees Occupational Illness Compensation Program Act of 2000. On June 3, 2016, as provided for under 42 U.S.C. §7384q(b), the Secretary of HHS designated the following class of employees as an addition to the SEC:

All employees of the Department of Energy, its predecessor agencies, and their contractors and subcontractors who worked at the Idaho National Laboratory (INL) in Scoville, Idaho, and were monitored for external radiation at INL (e.g., having at least one film badge or TLD dosimeter) during the period from March 1, 1970, through December 31, 1974, and were employed for a number of work days aggregating at least 250 work days, occurring either solely under employment during the period from March 1, 1970, through December 31, 1974, or in combination with work days within the parameters established for one or more other classes of employees in the Special Exposure Cohort.

This designation became effective on July 3, 2016, as provided for under 42 U.S.C. §7384(14)(C). Therefore, beginning on July 3, 2016, members of this class of employees, defined as reported in this notice, became members of the SEC.

Sincerely,

[Signature on File]

Stuart L. Hinnefeld, Director  
Division of Compensation Analysis and Support  
National Institute for Occupational Safety and Health
