

Rx Awareness Radio Transcript

Candidate: Britton

Length: 30 seconds

Britton: One day you're serving in the military. And then, the next day, you come home, and you're dealing with an injury.

Narrator: Britton is in recovery from an addiction to prescription opioids.

Britton: My opioid misuse and need got so strong. Addiction is hard. You're not gonna fix it on your own, you have to reach out for help. The recovery side of it is amazing. You get to a place where you're proud of yourself again.

Narrator: If you or someone you know is struggling, there is hope. Recovery is possible. Visit [cdc.gov/RxAwareness](https://www.cdc.gov/RxAwareness).
